IV.—Read again—

Notifications in the Department of Revenue, Agriculture, and Commerce, Nos. 59 and 60, dated 13th March 1879.

RESOLUTION.—By the instructions cited in the Preamble, the Hon'ble T. C. Hope, C.S.I., a Member of the Legislative Council of the Governor General, and Mr. J. D. Maclean, Collector of Customs at Calcutta, were appointed to report upon the following questions:—

(*a*) Whether without too great a loss of revenue, the Notification No. 43, of the 18th March 1878, could be amended so as more completely to exempt from duty all grey cotton piece-goods, and goods of the class produced or capable of being produced in Indian Mills:

(*b*) Whether the existing Tarif Valuations require revision:

(*c*) Whether it is desirable to revise the Tarif Valuations once a year; and, if so, how such yearly revision should be made:

(*d*) Whether the terms of the Notification of the 18th March 1878, exempting certain articles from the import duties to which they are liable under the numbers in which they are entered in Schedule A of the Tarif Act of 1875 should not be re-considered, much doubt having been felt whether articles thus exempted are dutiable under other numbers of the Schedule:

(*e*) Whether it is expedient to frame the Tarif so as to levy duty, as far as possible, at a fixed rate on quantity, instead of at a percentage on value:

(*f*) Whether the Tarif could be re-constructed so as, by a more particular detail of articles and greater precision of definition, to avoid doubts as to the classification of articles for duty: and

(*g*) Whether some articles still subject to Import Duty do not on their own merits, as well as with reference to the small revenue derived from them, deserve exemption as much as, if not more than, some of the articles exempted by the Notification of the 18th March 1878.

2. The conclusions of the Tarif Commission upon questions (*a*) and (*b*) have been accepted by the Government of India, and embodied in Notifications Nos. 59 and 60 of the 13th March 1879, the first exempting from customs-duties all grey cotton piece-goods however designated, which are shown to the satisfaction of the Collector of Customs to contain no yarn of a higher number than 30s, and the second revising the Tarif Valuations.

3 On the subject of a yearly revision of Tarif Valuations (*Question c*), the Commission make the following recommendations:—

"(*a.*) The basis of the whole should be a monthly statement of average prices of all 'valuation' articles during the month, prepared by the Custom House appraisers, checked by their superiors, and published under the authority of the Customs-Collector. It must be distinctly understood that this is not to be a document compiled perfunctorily from some local trade circular, but a real record, based on admitted values of goods and on original enquiries in various quarters. As such, its preparation ought incidentally to be a material help to the appraisers in their daily duties. Such a statement should be kept at Calcutta, Bombay, Madras, Rangoon and Karachi, and possibly two or three other local ports.

"(*b.*) At the five places above named the statement should be published by the Customs-Collector: at Calcutta it will appear in his 'Monthly Commercial Guide:' elsewhere, it should be published as a sheet, like trade circulars, and not in the Government Gazette, which few look at.

"(*c.*) The formal scrutiny of the statement by the mercantile community should be secured. In Calcutta, the Chamber of Commerce, in a letter to us dated the 25th ultimo, express their readiness to undertake that their Secretary shall, within ten days after each monthly issue of the 'Commercial Guide,' either point out to the Customs-Collector, for prompt investigation and mutual settlement, any errors which may appear to exist, or intimate that the Chamber accept the prices as a fair statement of the rates prevailing in the market. In Bombay, where the Chamber do not, as in Calcutta, publish a fortnightly price circular of their own and keep an establishment for the purpose, and where much of the foreign Indian trade is in the hands of persons not members of the Chamber, we understand that the plan hitherto adopted is preferred, of the Chamber nominating annually a Special Committee representing all classes, and considering their recommendations at a general meeting. At Madras we cannot doubt that the Chamber will co-operate in some form which they find most suitable. At other places, where no Chamber exists, probably two or more leading merchants would agree to form annually, with the Customs-Collector, a Committee to make recommendations.

"(*d.*) As soon as the January statement is ready, the Customs-Collectors at the five ports named should send statements for the year from the 1st February preceding and their own recommendations, as also whatever suggestions were

made by the local Chamber of Commerce or community, up to the Customs-Collector at Calcutta. All such documents should reach Calcutta by the end of February.

"(*e.*) The Customs-Collector at Calcutta (*ex officio*), and two other persons, official or non-official, to be appointed annually by the Government of India in February, should, not later than March 1st, consider all the recommendations received, and submit a Revised Schedule of Valuations to the Government of India in the Department of Revenue, Agriculture, and Commerce. This Schedule (as approved or revised by the Governor General in Council) should be published under section 22 of the Customs Act, in time to come into force from April 1st. We consider it essential that an Appraiser should be sent from Bombay annually, with the statements, &c, to explain to the Calcutta Committee the peculiarities of the important trade of the place, but we see no necessity for the delay and expense involved in assembling a Committee annually from all parts of India.

"It will, of course, be understood that this annual revision will not prevent the raising or lowering of individual values at any time of the year, as the law provides, when special cases arise in which this is necessary."

4. These recommendations are adopted by the Governor General in Council, and should be carried out with the following modifications:—

(*a.*) The returns of prices should be prepared only at Calcutta, Bombay, Madras, Rangoon and Karachi, 95 per cent. of the whole foreign trade of India being concentrated at these five ports. It is not necessary, at any rate at present, to have returns kept up at other ports, as a Collector at a principal port, Rangoon for instance, can always keep himself informed of any abnormal fluctuations of prices at minor ports within the same Province.

(*b.*) The returns should not be confined to articles subject to duty on a fixed Tarif Valuation, but should include articles dutiable *ad valorem*; for some of these may be found to be so uniform in quality and regular in price, as to be properly subject to duty on a fixed valuation—a system which always saves trouble and dispute. The return, in short, should include all principal articles of merchandise, whether free or dutiable, so as to form a record, which will be more and more valuable as time goes on, of the fluctuations of prices of imports and exports, free and dutiable, at the chief ports of India. The returns of imports and exports should be separate, and should combine the details given in the Tarif Schedules A and B with those entered in the Alphabetical List of Articles A prescribed for statistical purposes.

(*c.*) The statements for the year to the end of December should be sent to the Collector of Customs at Calcutta, so as to reach him, at latest, by the end of January. This officer, with the assistance of two other gentlemen, official or non-official, to be appointed by the Government of India by the 1st of February, will prepare an amalgamated Statement of Prices for all India, which, with the statements for each port, and the connected documents should be sent to the Government of India for consideration and approval by the 25th of February at the latest. The first Monthly Statement of Prices for the current year should be prepared for August 1879.

5. With reference to the doubts and discussions occasioned by the provision of the Notification of the 18th March 1878, that the articles named should be exempted from all import duties to which they are liable under the numbers in which they are entered in Schedule A of the Tarif Act of 1875 (Question *d*), the Commission observe that the action of the Government of India has not been consistent.

In letter No. 69 of 17th July 1878, to the Chief Commissioner of British Burma, it was stated that—

"the Notification was carefully worded with the object of not exempting from duty articles which, although dutiable under those numbers of Schedule A of the Indian Tarif Act, 1875, which it was determined to remove from the Schedule, might also be dutiable under other numbers, still retained in the Schedule.

On the other hand, it was ruled in letter No. 123, dated the 18th September 1878, that as the headings for flax and hemp and articles made from them are among those exempted, flax and hemp piece-goods could not now be taxed under the heading "No. 44, Piece-goods not otherwise described." It was observed in this letter that—

"the Tarif of 1875 specified certain kinds of piece-goods, viz. those made from cotton, flax, hemp, silk and wool, each under a separate number, and in a separate heading provided for the taxation of all kinds of piece-goods other than those specifically described. It seems clear that the exempting notification of the 18th March must, in this case, be read with the Tarif Schedule of 1875, and that it would not be reasonable to group under the general head No. 44 two descriptions of piece-goods which were always separately taxed, and which were never meant to be included in that number."

6. The Commission remark that two opposite principles have thus been recognised, upon either of which the question might be decided. They consider that the choice between them should depend upon the object with which the Notification was issued. If that object was chiefly, even though not entirely, that of re-classification, then the earlier ruling should

be followed, and everything, which can be brought in under some retained head, though hitherto classed under a head now removed, subjected to duty. But if, as they believe, the object was to relieve from customs duties many articles producing amounts so small as to be hardly worth collecting, then the principle of the letter No. 123, of the 18th September 1878, is to be preferred.

7. Accordingly, the Commission make the following recommendations: Duty should in no case be levied on articles—

(1) named as sub-heads under the exempted heads, or
(2) hitherto treated as dutiable under the sub-head "Other Sorts" of such heads.

In cases where there may be no established standard of classification for guidance, the custom and designation prevailing in the trade should be followed, rather than less obvious considerations. In the case of articles which reasonably fall under more heads of the tarif than one, according to the uses to which they are put, and which have hitherto been classed accordingly, regard should be had principally to the circumstances of importation indicating intended use, as well as to mere bulk or other standards. For example, salad oil, in a consignment from a provisioner, should be taxed as oilman's stores, though "oils" are free; and quince or coriander seed included in an invoice of medicines should be classified accordingly, though seeds are no longer in the tarif.

8. The Governor General in Council having considered these remarks, desires that the following Rules may be observed in all Custom Houses:—

I.—Articles clearly intended by the Legislature to be classed under numbers exempted by the Notification No. 43, dated the 18th March 1878, shall not be liable to duty under any other number, with the exception of turpentine which, though exempted under No. 38, is again specifically mentioned under No. 41. This rule does not apply to Nos. 16 and 44, which were only partially exempted by the notification. For example, all specified sub-heads of exempted numbers shall be free of duty. Piece-goods made of flax or hemp, Nos. 21 and 26, shall be free, and shall not be held liable to duty under No. 44. Railway materials, No. 48, shall be free, and not liable to duty under any other number.

II.—Whenever a reasonable doubt arises as to the number under which the Legislature intended any article to be subject to duty, a reference shall be made to the Government of India, stating (1) the practice before the notification of the 18th March 1878, and (2) under what number the article would come according to the custom of the trade.

9. As to question (*e*), the Commission are not in favor of a revision of the tarif in view to the levy of the duty on quantity rather than on value; and as yearly revisions of valuations will remove all serious objections to the levy of a percentage on value, the expediency of the indicated change of system need not be further discussed at present.

10. On the subject (*f*) of revising and extending the classification of the Tarif Schedule, the Commission have made several suggestions which will be considered whenever the Tarif Act is revised.

11. With reference to question (*g*), the Commission record their opinions in detail in regard to various articles suggested as deserving of exemption, and conclude by saying that, on the whole, they do not consider the case of any of them to be so urgent as to necessitate present action. This question may accordingly stand over until some future time.

12. In paragraph 12 of their letter No. 6, of the 11th March 1879, the Commission state that the recommendation in paragraph 22 of the Report of the Tarif Committee of 1875 has never been fully carried out. They think that each "local volume" of the Statistics of Trade and Navigation should contain a statement of the quantities, values, and duties under each sub-head, and that the volume for all India should show, in a statement analogous to that already specially prepared for cotton goods, those particulars for each province, with totals.

13. The suggestions of the Committee of 1875 were communicated to the local Governments, to whom instructions were issued on the 15th December 1876, Nos. 621-624, that the local annual volumes of the sea-borne trade with foreign countries should exhibit, in addition to the heads and sub-heads prescribed in the Statistical List A, the sub-heads of the tarif schedule in Table No. 22 of general imports of articles subject to duty; and that in table 23-1 (exports to foreign ports of principal articles of Indian produce and manufacture) cotton manufactures should be sub-divided in accordance with the divisions adopted in the tarif for imported cottons. These orders were not issued soon enough to be carried out earlier than in the volumes for the year 1877-78.

14 The Governor General in Council now directs that, in the annual volume for 1878-79, and thereafter, Table No. 22 (Quantities of certain Principal Articles passed for home consumption), and Table No. 15 (Gross Amount of Customs Duty received on imported merchandise subject to duty) shall show all the sub-heads of the Import Tarif Schedule besides the details of the List A prescribed for statistical purposes. In Table No. 15 the detailed information should be given, as far as practicable, for the four years previous to 1878-79

15. In conclusion His Excellency the Governor General in Council desires to express his appreciation of the excellent services of Messrs. Hope and Maclean, in their conduct

of the enquiries entrusted to them, and his satisfaction with their able and complete report.

ORDERED that this Resolution be published in the *Gazette of India*, and communicated to the Governments of Madras, Bombay, and Bengal, and British Burma for information and guidance, and to the Hon'ble T. C. Hope, C.S.I, and Mr. J. D. Maclean for information.

The following order, issued by the Government of India in the Military Department, is republished for general information :—

PART III.

Acts of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[Third Publication.]

THE following Act, passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honor on the 15th April 1879, and having received the assent of His Excellency the Governor-General on the 6th June 1879, is hereby promulgated for general information :—

ACT No. IX OF 1879.

An Act to amend the law relating to the Court of Wards.

Preamble.

WHEREAS it is expedient to amend the law relating to the Court of Wards within the territories under the administration of the Lieutenant-Governor of Bengal; It is enacted as follows :—

PART I.

PRELIMINARY.

Short title.

1. This Act may be called the Court of Wards Act, 1879.

Extent.

It extends to all the territories under the administration of the Lieutenant-Governor of Bengal, including the scheduled districts of Bengal as defined in the Scheduled Districts Act, 1874.

Commencement

It shall come into force from the date on which it may be published in the *Calcutta Gazette* with the assent of the Governor-General.

Repeal of Acts.

2. Bengal Act IV of 1870 (the Court of Wards Act), section 11 of Act XXXV of 1858, sections 12, 14, and 15 of Act XL of 1858, and so much of section 21 of Act XL of 1858 as provides that the Civil Court may direct the Collector to take charge of an estate, are hereby repealed.

All persons and properties which at the commencement of this Act are under the charge of the Court of Wards as constituted by Bengal Act IV of 1870 shall be deemed to be under the charge of the Court of Wards as constituted by this Act.

And all persons and properties which at the commencement of this Act are under the charge of the Collector by virtue of an order of the Civil Court under section 11 of Act XXXV of 1858, or under section 12, section 14, or section 21 of Act XL of 1858, shall from such commencement be deemed to be under the charge of the Court of Wards.

And all rules prescribed, orders or appointments made, and agreements executed under the Court of Wards Act, 1870, and now in force, shall (so far as they are consistent with this Act) be deemed to be respectively prescribed, made, and executed under this Act.

And all orders and appointments made by Collectors under Act XXXV of 1858 or Act XL of 1858, and now in force, shall (so far as they are consistent with this Act) be deemed to be made under this Act.

And all suits and proceedings now pending, which may have been commenced under the Court of Wards Act, 1870, or by Collectors under Act XXXV of 1858 or Act XL of 1858, shall be deemed to be commenced under this Act.

Interpretation.

3. In this Act, unless there be something repugnant in the subject or context—

"Collector."

"Collector" includes any officer in charge of the revenue jurisdiction of a district :

"Court."

"The Court" means the Court of Wards ;

or, when the Court of Wards has delegated any of its powers to a Commissioner or Collector or

any other person, it means, in respect of such powers, the Commissioner or Collector or person to whom they are delegated:

"Estate." "Estate" means all lands which are borne on the revenue-roll of a Collector as liable for the payment of one and the same demand of land revenue:

"Minor." "Minor" means a person who has not completed his age of twenty-one years:

"Section." "Section" means a section of this Act:

"Ward." "Ward" means any person who is under the charge of the Court of Wards, or whose property is under such charge.

Saving of Act XXXIV of 1858 and of jurisdiction of High Courts. 4. Nothing contained in this Act shall affect any of the provisions of Act XXXIV of 1858, or the jurisdiction, as respects infants, of any High Court of Judicature.

PART II.

CONSTITUTION, JURISDICTION, AND POWERS OF THE COURT OF WARDS.

Board of Revenue to be Court of Wards. 5. The Board of Revenue shall be the Court of Wards for the territories to which this Act extends.

It shall deal with every person and every property of which it may take or retain charge under this Act, or which may be placed under its charge by order of a competent Court, in accordance with the provisions of this Act.

Disqualified proprietors. 6. Proprietors of estates shall be held disqualified to manage their own property when they are—

(*a*) females declared by the Court incompetent to manage their own property;

(*b*) persons declared by the Court to be minors;

(*c*) persons adjudged by a competent Civil Court to be of unsound mind, and incapable of managing their affairs;

(*d*) persons adjudged by a competent Civil Court to be otherwise rendered incapable by physical defects or infirmities of managing their own property.

Jurisdiction of Court over disqualified proprietors. 7. Whenever the sole proprietor of an estate, or all the joint proprietors of an estate are disqualified as provided in the last preceding section, the Court shall have power to take charge of all the property of every such proprietor or joint proprietor within its jurisdiction, and of the person of any such proprietor or joint proprietor who is resident within its jurisdiction; and also of the person and property of any minor member of the family of any such proprietor or joint proprietor who has an immediate or reversionary interest in the property of such proprietor or joint proprietor.

Court when bound to give up charge. 8 Whenever the circumstances of any ward become such that the Court could not take charge of him or of his property if he were not under its charge already, the Court shall be bound to release from its charge such person and his property.

Discretion of Court as to taking charge. 9. The Court may in its discretion, in any case in which it is empowered by this Act to take charge of the person and property of any disqualified proprietor,—

(*a*) take charge of such property without taking charge of such person;

(*b*) refrain from taking charge of any such person or property;

(*c*) at any time withdraw from such charge if taken;

(*d*) at any time resume such charge, after having withdrawn from it.

Procedure under Act XL of 1858, and Act XXXV of 1858. 10. Whenever a Civil Court thinks it necessary, under section 9 of Act XL of 1858, to make provision for the charge of the person and property of a minor,

whenever a Civil Court recalls any certificate under section 21 of the said Act,

or whenever a person has been adjudged, under Act XXXV of 1858, to be of unsound mind and incapable of managing his affairs,

if the property of such minor or disqualified proprietor consists, in whole or in part, of land or any interest in land, the Civil Court may apply to the Court of Wards to take charge of the person and property of such minor or disqualified proprietor; and it shall be at the discretion of the Court of Wards to take charge of such person or property, or to refuse to do so.

Nothing contained in sections 12 to 19 (both inclusive) of Act XXXV of 1858 shall be held to apply to persons or properties under the charge of the Court of Wards.

Procedure when estate is no longer under Court because some proprietors have ceased to be disqualified. 11. Whenever one or more of the joint proprietors of whose properties the Court of Wards has taken charge ceases to be subject to the jurisdiction of the Court of Wards, and the persons and properties of the remaining joint proprietors thereby cease to be subject to the jurisdiction of the Court of Wards, notwithstanding the otherwise continued disqualification of such remaining joint proprietors, the Civil Court which would have jurisdiction under Act XL of 1858 may, on the application of the Court of Wards, direct the Court of Wards to retain or resume charge of the persons and properties of the still disqualified proprietors during the continuance of their disqualification, or, subject to the provisions of section 12, for so long as such Civil Court may order.

And in case any of the proprietors who have ceased to be subject to the jurisdiction of the Court of Wards so consent, the Court of Wards may retain or resume the charge of the properties of such proprietors, or any part thereof, so long as the property of any of the disqualified proprietors remains in charge of the Court of Wards.

Withdrawal from charge by Court. 12. The Court of Wards may at any time withdraw from the charge of any person and property taken under section 10 or under section 11, and from the charge of any person or property which before the commencement of this Act was placed under the charge of the Collector by a Civil Court under section 12,

section 14, or section 21 of Act XL of 1858, or under section 11 of Act XXXV of 1858:

Provided that it shall give notice of its intention to withdraw to the Civil Court concerned, and that such notice shall be given not less than two months before the Court of Wards shall so withdraw.

Procedure when succession to property disputed

13. Whenever, on the death of any ward, the succession to his property or any part thereof is in dispute, the Court may either direct that such property or part thereof be made over to any person claiming such property, or may retain charge of the same until the right to possession of the claimant has been determined under Bengal Act VII of 1876, or until the dispute has been determined by a competent Civil Court.

General power of Court.

14. Subject to the provisions of this Act the Court—

(*a*) may, through its manager, do all such things requisite for the proper care and management of any property of which it may take or retain charge under this Act, or which may be placed under its charge by order of a competent Civil Court, as the proprietor of any such property, if not disqualified, might do for its care and management; and

(*b*) may, in respect of the person of any ward, do all such things as might be lawfully done by the legal guardian of such ward.

Exercise of powers conferred on Court through others.

15. The Court may exercise all or any powers conferred on it by this Act through the Commissioners of the Divisions and the Collectors of the Districts in which any part of the property of the disqualified proprietor may be situated, or through any other person whom it may appoint for such purpose.

Delegation of powers.

The Court may, with the sanction of the Lieutenant-Governor, from time to time delegate any of its powers to such Commissioners or Collectors or other person as aforesaid, and may at any time with the like sanction revoke such delegation.

Establishments and expenses.

16. The Court may from time to time order such establishments to be entertained and expenses to be incurred as it shall consider requisite for the care and management of the persons and properties under its charge, for superintendence, for the audit of accounts, and generally for all purposes of this Act;

and may order that the cost of any such establishment and any such expenses be charged against any one or more properties for the purposes of which they are entertained or incurred.

General contribution for general purposes.

17. The Court may, in respect of such of the establishments and expenses referred to in the last preceding section as are of a general nature, direct that they shall be met by a general contribution from the properties benefitted thereby, to be levied in such manner and in such proportion as the Court may from time to time direct.

Power to manage property.

18. The Court may sanction the giving of leases or farms of the whole or part of any property under its charge, and may direct the mortgage or sale of any part of such property, and may direct the doing of all such other acts as it may judge to be most for the benefit of the property and the advantage of the ward.

When Court may order property to be formed into a separate estate.

19. If the Court thinks it expedient to direct the sale or mortgage of any part of an estate of which the ward is the sole proprietor, it may order the Collector to partition off such part into a separate estate, and the demand of land revenue and of the cesses for which the original estate was liable shall be assessed upon and divided between the two separate estates so formed, respectively, in such manner as the Court, with the sanction of the Lieutenant-Governor, may direct.

Appointment of managers and guardians.

20. The Court may appoint one or more managers for the property of any ward, and one or more guardians for the care of the person of any ward under the charge of the Court, and may control and remove any manager or guardian so appointed.

On any disqualified proprietor becoming a ward, the Court may, at its discretion, confirm or refuse to recognize any appointment of a person to be guardian of such disqualified proprietor, which may have been made by a will.

Custody, education, and residence of wards.

21. The Court may make such orders as to it may seem fit in respect of the custody, education, and residence of a minor ward, and such minor members of the ward's family as are under its charge, and in respect of the custody and residence of any ward, not being a minor, whose person is under the charge of the Court.

Allowance for ward and his family.

22. The Court shall allow, for the support of each ward and of his family, such monthly sum as it thinks fit (if any) with regard to the rank and circumstances of the parties.

PART III.

PROTECTION FROM SALE OF CERTAIN ESTATES.

Estate under charge of Court exempt from sale

23. Every estate, and, subject to the provisions of section 14 of Act XI of 1859, every part or share of an estate for which a separate account has been opened under section 10 or section 11 of the said Act, or under section 70 of Bengal Act VII of 1876, shall, whilst it is under the charge of the Court, be exempt from sale for arrears of revenue:

Provided that all arrears of revenue shall be the first charge upon the proceeds of any such estate, part, or share, sold for any other cause than for arrears of revenue while under such charge.

Estate belonging to minor not to be sold for arrears of revenue.

24. No estate, the sole property of a minor or of two or more minors, and descended to him or them by the regular course of inheritance, or by virtue of the will of, or some settlement made by, some deceased owner thereof, shall be sold for arrears of revenue accruing subsequently to his or their succession to the same, until such minor or one of such minors has completed his age of twenty-one years; but all arrears of revenue shall be the first charge upon the proceeds of such estate if the estate is sold for any other cause during such minority.

The Collector may, on an arrear so accruing on any such estate, attach the estate and collect the rents and all arrears of rent due, managing the estate either directly or through a manager, or by farming it, as he may think fit, for a period not exceeding ten years, nor extending beyond the time when such minor or one of such minors completes his age of twenty-one years.

Unt Collector may attach estate.

25. The exemption from sale for arrears of revenue given by section 24 shall only apply to cases in which a written notice of the fact that the estate is the sole property of one or more minors, and entitled to such exemption, has been served on the Collector before the sale.

When exemption from sale for arrears of revenue applies.

26. When an estate has been farmed under the provisions of section 24, the proceeds of such farm shall be paid to the Collector, and the Collector, after deducting the amount of the claims of the Government for revenue and other public demands and the charges of management, shall either pay the proceeds to the person authorized to receive them for the proprietor, or shall dispose of them in any of the modes mentioned in section 49 or in section 50.

Application of proceeds of farmed estate.

PART IV.

ASCERTAINMENT OF DISQUALIFICATION.

27. Whenever any Collector has reason to believe that any person residing in his district, or being the proprietor of an estate borne on the revenue roll of his district, should be declared or adjudged to be a disqualified proprietor under section 6, he shall make such enquiry as he may deem necessary, and if satisfied that such person should be so declared or adjudged, shall make a report of the same to the Court;

Collector to make enquiry and report as to disqualified proprietors

and the Court shall, on receipt of such report, make such order consistent with this Act as may seem to it expedient.

28. Nothing in section 27 shall prevent the Court or the Local Government from putting the provisions of this Act in force without any report from the Collector.

Power to enforce provisions of Act without report.

29. Whenever any Collector receives information that the sole proprietor of an estate which is borne on the revenue roll of his district has died,

Proceedings on death of a proprietor whose heirs are disqualified.

or that the sole proprietor of any estate has died within his district,

and such Collector has reason to believe that the heirs of such proprietor should be declared or adjudged to be disqualified under section 6, he may take such steps and make such orders for the safety and preservation of the movable property of such heirs, and of all deeds, documents, or papers relating to the property of such heirs, as to him may seem fit.

Such Collector may call upon any other Collector in whose jurisdiction any such movable property, or any such deeds, documents, or papers may be, to take charge of the same, and thereupon such other Collector shall have the same powers with respect to such property, deeds, documents, and papers within his district as are conferred by this section on the first-mentioned Collector.

If the property is not afterwards taken under the charge of the Court, all expenses incurred by a Collector acting under this section shall be recoverable as arrears of revenue from the owner of such property or the person or persons whom the Collector shall find to be in possession of such property, and shall constitute a demand under Bengal Act VII of 1868, or any similar law for the time being in force.

Recovery of expenses.

30. A Collector acting under the last preceding section may direct that any person who has the custody of a minor heir of any such deceased proprietor shall produce such minor before such Collector or before any other Collector on a day fixed, and the Collector before whom the minor is so produced may make such order for the temporary custody and protection of such minor as to him may seem fit.

Production of minor proprietor and order for his temporary custody.

If the minor is a female, she shall not be brought into the presence of the Collector, but the Collector may take such steps for her identification as he may think fit.

31. If a sole proprietor of an estate who does not reside within the local limits of the Ordinary Original Civil Jurisdiction of the High Court is reported by a Collector to be of unsound mind and incapable of managing his affairs, the Court may order the Collector making such report, or such other Collector as the Court may appoint, to apply, in pursuance of the provisions of Act XXXV of 1858, to the Civil Court of the district within the jurisdiction of which such proprietor may reside.

Enquiry in case of lunatics.

32. If a sole proprietor of an estate who does not reside within the local limits of the Ordinary Original Civil Jurisdiction of the High Court is reported by a Collector to be incapable of managing his property on the ground of some physical defect or infirmity other than unsoundness of mind, the Court may order the Collector making such report, or such other Collector as the Court may appoint, to apply to the principal Civil Court of the district within which such person may be residing; and upon such Collector so applying, such Civil Court shall enquire into and determine the question as to the alleged incapacity.

Civil Court to make enquiry regarding disqualification on ground of physical defect or infirmity

33. If a sole proprietor of an estate who is resident within the local limits of the Ordinary Original Civil Jurisdiction of the High Court of Judicature at Fort William in Bengal, or resident beyond the territories administered by the Lieutenant-Governor of Bengal, shall be reported by a Collector to be incapable of managing his property by reason of some physical defect or infirmity other than unsoundness of mind, the Court may order the Collector making such report, or such other

Proceedings in case of physical defect or infirmity when proprietor in jurisdiction of High Court

Collector as the Court may appoint, to apply to the principal Civil Court of the 24-Pergunnahs, or to such other Civil Court as the Lieutenant-Governor, on application made to him by the Collector in that behalf, may determine.

Such Civil Court shall thereupon enquire into and determine the question as to the alleged incapacity.

Powers of Civil Court when enquiry is instituted under section 32 or 33.

34. When any enquiry is instituted by a Civil Court under section 32 or section 33, such Court shall, for the purposes of making such enquiry, have the powers conferred, and proceed in the manner prescribed, by Act XXXV of 1858 with respect to the enquiries directed to be made by the said Act.

The Civil Court shall transmit to the Court of Wards a copy of the order made on each such enquiry, and the Court of Wards shall thereupon, in case the proprietor has been found by the Civil Court to be incapable as aforesaid, make such order, consistent with this Act, as it shall think fit.

The Civil Court shall have, with reference to proprietors who have been adjudged to be incapable as aforesaid, the same powers as are conferred on a Civil Court by section 21 of Act XXXV of 1858, with reference to persons adjudged to be of unsound mind and incapable of managing their affairs.

PART V.

PROCEDURE AFTER ASCERTAINMENT OF DISQUALIFICATION.

Order declaring estate under charge of Court.

35. Whenever the Court has determined to take the person or property of a disqualified proprietor under its charge, whether in accordance with an order of the Civil Court or otherwise, the Court shall make an order declaring the fact and directing that possession be taken of such person and property or of such property on behalf of the Court, and the Court shall be held to be in charge of such property from the time when possession shall have been so taken.

Collector to take possession of movable property.

36. As soon as conveniently may be after an order is made under the provisions of section 35, the Collector of every district within which any part of the ward's property may be situated, or some person authorized in writing by him in that behalf, shall take possession of all accounts, papers, and movable property of the ward, and place under proper custody such portion thereof as he may think necessary.

Any such Collector, or some person authorized as aforesaid, may, in case he has reason to believe that any such account, paper, or property is in any room, box, or receptacle within any house in the actual possession of the ward, break open the same for the purpose of searching for such account, paper, or property.

Additional powers of Collector.

37. Any such Collector may also order all persons in the employ of the ward, or all persons who were in the employ of the deceased proprietor from whom the ward has derived his property, to attend before him, and may order any person to deliver up any accounts, papers, or movable property belonging to the ward, or any accounts or papers relating to the ward's property, which the Collector has reason to believe are in such person's possession,

and may order all holders of tenures and under-tenures on such property to produce their titles to such tenures and under-tenures.

PART VI.

MANAGEMENT AND GUARDIANSHIP.

Collector when to be deemed manager.

38. If no manager of the property of a ward is appointed by the Court, the Collector of the district in which the greater part of such property is situated, or any other Collector whom the Court may appoint in that behalf, shall be competent to do, under the orders of the Court, anything that might be lawfully done by the manager of such property.

Powers of manager.

39. Every manager appointed by the Court shall have power to manage all property which may be committed to his charge, to collect the rents of the land entrusted to him, as well as all other money due to the ward, and to grant receipts therefor;

and may, under the orders of the Court, grant or renew such leases and farms as may be necessary for the good management of the property.

General duty of manager.

40. Every manager shall manage the property committed to him diligently and faithfully for the benefit of the proprietor, and shall in every respect act to the best of his judgment for the ward's interest as if the property were his own.

Specific duties of manager.

41. Every manager appointed by the Court shall—

(*a*) have the care of so much of the property of the ward as the Court may direct;

(*b*) give such security (if any) as the Court thinks fit to the Collector duly to account for all such property and for what he shall receive in respect of such property;

(*c*) continue liable to account to the Court, after he has ceased to be manager, for his receipts and disbursements during the period of his management;

(*d*) pass his accounts at such periods and in such form as the Court may direct;

(*e*) pay the balance due from him thereon;

(*f*) apply for the sanction of the Court to any act which may involve the property in expense not previously sanctioned by such Court;

(*g*) sign all papers, deeds, documents, and writings which may be executed by him by virtue of his office;

(*h*) be entitled to such allowance, to be paid out of the property as the Court may think fit, for his care and pains in the execution of his duties;

(*i*) be responsible for any loss occasioned to the property by his wilful default or gross negligence.

General duty of guardian.

42. A guardian appointed to the care of a ward shall be charged with the custody of the ward, and must look to his maintenance, health, and, if he be a minor, to his education.

Specific duties of guardian.

43. Every guardian appointed by the Court shall—

(*a*) give such security (if any) as the Court thinks fit to the Collector for the due performance of his duty;

(*b*) pass his accounts at such periods and in such form as the Court may direct;

(*c*) pay the balance due from him thereon;

(*d*) continue liable to account to the Court, after he has ceased to be guardian, for his receipts and disbursements during the period of his guardianship;

(*e*) apply for the sanction of the Court to any act which may involve expense not previously sanctioned by the Court;

(*f*) be entitled to such allowance to be paid out of the property of the ward as the Court may think fit for his care and pains in the execution of his duties.

No person who can succeed to ward.

44. No person who would be the next legal heir of a ward, or would otherwise be immediately interested in outliving a ward, shall be appointed to be his guardian;

but nothing in this section shall apply to the mother of a ward, or to a testamentary guardian.

Guardian of female ward.

45. If the ward is a female, a female of the same religion shall, except in the case of a testamentary guardian, be appointed guardian, preference being given to female relatives, if any such be eligible.

But no guardian shall ordinarily be appointed or continued for a female ward if she has an adult husband.

Sums due recoverable as demands.

46. Every sum due to the Court from a manager or guardian, or from the sureties of a manager or guardian, or from any officer or servant employed under the Court, or from the sureties of any such officer or servant, shall be recoverable as a demand under Bengal Act VII of 1868, or any similar law for the time being in force.

Court may order guardian or manager to make over property.

47. The Court may order any past or present manager or guardian, or past or present officer subordinate to a manager or guardian, to deliver up his accounts or any property which may be in his possession within such time as may be fixed by the Court.

Application of moneys received by manager.

48. All moneys received by the manager shall, in the first instance, be applied as the Court may direct according to circumstances,

in payment of the allowance fixed for the support and education of the ward and his family, and of all charges of management and supervision;

in or towards the discharge of the instalments of Government revenue, and of all cesses and other public demands from time to time due in respect of such property.

Application of surplus.

49. Whenever upon the accounts a *bonâ fide* surplus is shewn after making the payments mentioned in section 48, such surplus shall be applied as the Court may direct according to the circumstances of the property concerned—

in liquidation of debts payable by the ward;

in payment of such religious, charitable, and other allowances as were paid out of the proceeds of the property before it came under the charge of the Court, and such allowances and donations befitting the position of the ward's family as the Court may authorize to be paid;

in the improvement of the lands or otherwise for the benefit of the ward or his property:

Amount expended on improvement not to exceed ten per cent. of surplus.

Provided that the amount expended on such improvement and for such benefit shall not exceed ten per centum of the said surplus, unless, in the opinion of the Court and the Lieutenant-Governor, it is desirable, for the protection of the lands, or in the interest of the ward or his property, to expend an amount exceeding such percentage:

Surplus to be made over to female and major whose property remains under the charge of the Court.

Provided also that if the ward is a female of sound mind, who has completed her age of twenty-one years, or a person who has completed his age of twenty-one years, and whose property remains under the charge of the Court with his consent, no part of the surplus shall be expended by the Court otherwise than in the liquidation of debts or in the improvement of the lands or property as aforesaid, and the remainder of the surplus shall be paid to such female or person.

Power to invest surplus.

50. If the ward is not a female or person as aforesaid, and if any surplus remains after providing so far as the Court may think fit for the objects mentioned in section 49, the same shall be applied in the purchase of other landed property, or invested at interest on the security of—

promissory notes, debentures, stock, and other securities of the Government of India, or of the United Kingdom of Great Britain and Ireland;

bonds, debentures, and annuities charged by the Imperial Parliament on the revenues of India;

stock or debentures of or shares in railway or other companies, the interest whereon has been guaranteed by the Secretary of State for India in Council;

debentures or other securities for money paid by or on behalf of any municipal body under the authority of any Act of a legislature established in British India;

or such other securities, stocks, or shares, guaranteed by the Government of India or the Government of Bengal as to the Court shall seem fit.

PART VII.

SUITS.

Manager or Collector to be next friend or guardian in suits by or against ward.

51. In every suit brought by or against any ward, he shall be therein described as a Ward of Court; and the manager of such ward's property, or if there is no manager, the Collector of the district in which the greater part of such property is situated, or any other Collector whom the Court of Wards may appoint in that behalf, shall be named as next friend or

guardian for the suit, and shall in such suit represent such ward, and no other person shall be ordered to sue or be sued as next friend or be named as guardian for the suit by any Civil Court in which such suit may be pending.

Court may substitute another person to be next friend or guardian for the suit.

52. The Court of Wards may by an order nominate or substitute any other person to be next friend or guardian for any such suit; and upon receiving a copy of any such order of substitution, the Civil Court in which such suit is pending shall substitute the name of the next friend or guardian for the suit so appointed for the name of the manager or Collector.

Payment of costs.

53. If in any such suit any Civil Court shall decree any costs against the next friend or guardian for the suit of the ward, the Court of Wards shall cause such costs to be paid out of any property of the ward which for the time being may be in its hands.

Process against wards to be served through Court.

54. Every process which may be issued out of any Civil Court against any ward shall be served, through the Collector, upon the next friend or guardian for the suit as aforesaid of such ward.

Suits not to be brought on behalf of wards unless authorized by the Court.

55. No suit shall be brought on behalf of any ward, unless the same be authorized by some order of the Court:

Provided that a manager may authorize a plaint to be filed in order to prevent a suit from being barred by the Law of Limitation, but such suit shall not be afterwards proceeded with except under the sanction of the Court:

Provided also that suits for arrears of rent may be brought on behalf of any ward if authorized by an order of the manager of the landed property on which such rents are due.

Saving of suits in the High Court, and of persons who consent to remain wards.

56. Nothing contained in this Part shall apply to any suit instituted or pending in the High Court, or to a proprietor who has consented to leave his property under the charge of the Court of Wards, as provided in the second clause of section 11.

PART VIII.

PENALTIES.

For disobeying certain orders of the Collector.

57. Any person who refuses to comply with an order of a Collector under section 29, 30, 36 or 37, shall be liable, by order of the Collector, to a fine not exceeding five hundred rupees.

For disobeying orders under section 47.

58. Any person who refuses to comply with an order made under section 47 may be punished, by order of the Court, with simple imprisonment and attachment of his property until the order is complied with.

For disobeying order of Court.

59. Any person who disobeys any lawful order of the Court shall be liable, on conviction before a Magistrate, to a fine not exceeding five hundred rupees, and if he is a manager or guardian appointed by the Court, to a fine not exceeding one thousand rupees.

PART IX.

MISCELLANEOUS.

Disabilities of wards.

60. No ward shall be competent to create, without the sanction of the Court, any charge upon, or interest in, his property or any part thereof.

Adoption by ward invalid without consent of Lieutenant-Governor.

61. No adoption by any ward, and no written or verbal permission to adopt given by any ward, shall be valid without the consent of the Lieutenant-Governor, obtained either previously or subsequently to such adoption, or to the giving of such permission, on application made to him through the Court.

Exception as to persons who consent to remain wards.

62. Nothing contained in section 60 or in section 61 shall apply to a proprietor who has consented to leave his property under the charge of the Court, as provided in the second clause of section 11.

Arrears of rent how recoverable.

63. All arrears of rent due by farmers, undertenants and ryots, in respect of property under the charge of the Court (whether such rents have become due before or after the Court has taken charge) shall be recoverable as arrears of revenue, and shall constitute a demand under Bengal Act VII of 1868, or any similar Act for the time being in force.

The last preceding clause shall not apply to arrears of rent enhanced after issue of notice under section 13 of Act X of 1859, or under section 14 of Bengal Act VIII of 1869, but of which the enhancement has not been agreed to by the person who is liable to pay the same, or has not been confirmed by a competent Court.

Collector or Court to record reasons of penalties.

64. When any penalty is imposed by any order under section 57 or section 58, the Collector or Court passing such order shall make a formal record of the same with the reasons or grounds thereof.

Procedure when Court's jurisdiction ceases.

65. Whenever the Court has determined to release the property of a ward from its charge, it shall make an order that the jurisdiction of the Court over such property shall cease on a date not more than sixty and not less than fifteen days from the date of such order; and copies of such order shall be published as the Court may direct.

Powers of Collector in making enquiries.

66. A Collector making any enquiry under this Act may exercise any power conferred by the Code of Civil Procedure on a Civil Court for the trial of suits.

Appeals.

67. An appeal shall lie from every order of a Collector under this Act to the Commissioner of the Division, and from every order of a Commissioner under this Act to the Court.

Control of Court.

68. All orders or proceedings of the Commissioner and of the Collector under this Act shall be subject to the supervision and control of the Court, and the Court may, if it thinks fit, revise, modify, or reverse any such order or proceeding whether an appeal is presented against such order or proceeding, or otherwise.

Control of Lieutenant-Governor.

69. In the exercise of the powers and in the discharge of the duties conferred and imposed respectively on the Court by this Act, the Court shall be guided by such orders and instructions as it may from time to time receive from the Lieutenant-Governor.

Power to Court to make rules.

70. The Court may make rules consistent with this Act—

(*a*) defining the powers of Commissioners and Collectors respectively when the property of a ward is situated in two or more districts or in two or more divisions;

(*b*) prescribing what reports shall be made from time to time by Collectors and Commissioners on the condition of the ward and his property;

(*c*) prescribing the periods at which and the mode in which accounts shall be submitted by managers and guardians respectively, and the mode in which such accounts shall be audited;

(*d*) regulating the custody of securities and title deeds belonging to the estate or property of a ward;

(*e*) regulating the procedure in appeals from orders of Collectors and Commissioners respectively under this Act;

(*f*) prescribing the procedure to be observed when a property ceases to be under the charge of the Court;

(*g*) and generally for the better fulfilment of the purposes of this Act.

The Court may from time to time alter, add to, or repeal, such rules.

RESOLUTION ON THE ANNUAL GENERAL REPORT OF THE PRESIDENCY DIVISION FOR 1878-79.

GENERAL DEPARTMENT.—MISCELLANEOUS.

Darjeeling, the 5th August 1879.

RESOLUTION.

READ—

The General Administration Report of the Presidency Division for 1878-79.

The report is submitted by Mr. F. B. Peacock, now officiating as Commissioner in the room of Mr. R. L. Mangles, v.c., who was in charge for the greater part of the year.

2. *Tours.*—The Lieutenant-Governor is disposed to think that the Presidency Commissioner might visit the interior of his division more extensively than has been the practice in recent years. Not merely the sudder stations, but all sub-divisional head-quarters should annually be inspected by the Commissioner.

3. None of the District Officers in this division have spent in the interior of their jurisdictions even the minimum time prescribed by Government orders last year, though the tours of the Collectors of the 24-Pergunnahs and Nuddea fell but little short of that standard. No sufficient reason is shown for the neglect of this important duty by the Collectors of Jessore and Moorshedabad. The majority of the Sub-Divisional Officers have also failed to attend sufficiently to the wishes of Government in this matter, and the Commissioner has done well to insist upon an improvement during the current year. The Lieutenant-Governor directs that any explanations of their neglect which Baboos Ram Churn Bose and Kedar Nath Ghose (of Bagirhat sub-division), and Mr. E. M.

Reily (of Rampore Hât), may have to offer be forwarded for the consideration of Government.

4. The Commissioner comments upon the difficulties thrown in the way of successful district administration by frequent changes in the official staff. The Government is fully alive to these inconveniences, and desires to avoid them as far as possible; but the districts near the Presidency are naturally more liable to such changes than others, and, as regards the 24-Pergunnahs, the Commissioner overlooks the fact that, though the number of changes is greater there than elsewhere, this is accounted for by the practice of attaching officers temporarily to that district pending their appointment elsewhere. There is a larger permanent staff at Alipore than in any other district of Bengal.

5. *Weather and Crops*—The year seems, from an agricultural point of view, to have been an average one in the 24-Pergunnahs and Nuddea, below the average in Jessore, and decidedly favourable in Moorshedabad. The Magistrate of Nuddea thinks that the productive qualities of the soil in that district are deteriorating, partly owing to the silting up of river channels and the decrease of inundation, and partly owing to the abandonment of the traditional system of fallows caused by the increasing pressure of population on the land. This is a subject deserving of detailed and systematic investigation, and the Board of Revenue will be requested to take the matter up in communication with the local authorities and the Irrigation Department of this Government. The rice crops in Jessore were generally poor, owing to irregular and insufficient rainful, and the cultivators in two sub-divisions suffered great losses from an epidemic of cattle disease. Throughout the division the cold-weather crops suffered somewhat from want of rain.

6. *Public health.*—The public health of the division was on the whole better than in 1877-78, except in Nuddea, where there was more fever and more small-pox. There were no severe epidemics in any district. In the 24-Pergunnahs a new form of epidemic disease, resembling dropsy, was reported, attributed by the civil surgeon to the effects of damp and cold upon debilitated individuals during a feverish attack. As the Commissioner remarks, a fuller account of this epidemic should have been given. Various extensive schemes for improving the drainage of this district are under consideration. The chief difficulty in the way is want of funds. The outbreak of small-pox in Kishnagurh and the neighbourhood was severe while it lasted, Mahomedans showing the highest mortality. A feeling that vaccination should be made compulsory is rapidly growing up in the neighbourhood of the Presidency, where the benefits of systematic vaccination have for years past been fully recognised by the majority of the people. Both Jessore and Moorshedabad enjoyed a comparatively favourable year, though neither of them can be classed among healthy districts.

7. *Condition of the people.*—The Commissioner repeats under this head what has been often said in former reports. There is, he remarks, a general consensus of opinion that the condition of the agricultural classes, who form the majority of the population, has much improved within the present generation; that the trading classes have shared in this progress; and that the labouring classes also are better off than their ancestors. People of the middle class, commonly called *bhodrolok*, have, however, suffered from rising prices and the difficulty of finding suitable employment. The zemindars are also, Mr. Peacock thinks, not so well off as is supposed. Extravagance and sub-division of property have led them into difficulties which are now aggravated by the growing independence of the ryot class.

8. *Prices of food and labour.*—The prices of food have everywhere risen owing to the depletion of stocks from continued exportation, but the wages of labour have, throughout this division, advanced *pari passu* with the rise of prices. In the 24-Pergunnahs the amount of common rice purchaseable for a rupee was as low at one time as $8\frac{1}{2}$ seers, and the average of the district for the year was only $10\frac{1}{4}$ seers. In Nuddea the range was from 9 seers to $13\frac{1}{3}$ seers. In Jessore the average was about $11\frac{2}{16}$ seers. In Moorshedabad it was $12\frac{7}{8}$ seers.

9. *Manufactures and Trade.*—The manufactures of the Presidency Division have been frequently described in detail. The mills and factories about

Calcutta continue to afford employment to large numbers of hands. The indigo industry shows no symptoms of revival, and is indeed gradually declining. It is apparently only on *chur* lands that it is now found profitable to raise this crop. The silk manufacture of Moorshedabad is also in a languishing state. On the other hand, the sugar manufacture of Jessore is rapidly growing in value and importance. Trade was everywhere active, though the gross amount passing down the Nuddea rivers and coming into the great river marts of Moorshedabad was not so large as in former years, owing to the undoubted reduction in the stocks of grain available for sale.

10. *Public feeling and Public Press.*—The License Tax, the Arms Act, and the Vernacular Press Act, were the subjects that excited most attention during the year, and the feelings of, at any rate, the writing classes in regard to them were freely ventilated in the newspapers. The Press Act is said to have had the useful effect of checking "a good deal of reckless, libellous, and unfair writing in the native papers." If it does this, it achieves its principal object, and it is satisfactory to know that the mere fact of its existence on the Statute Book is generally sufficient to repress license. That it does not discourage legitimate criticism is clear to any reader of the vernacular papers during the past year.

11. *Measures of internal administration.*—The Chowkidary Act, which has worked very satisfactorily in many districts of Bengal, is now being gradually extended throughout the 24-Pergunnahs. Its introduction has been attended with improved watch and ward and greater punctuality in the payment of the chowkidars. The question of extending the Mahomedan Marriage Act to this district is under consideration. A large number of offences against marriage are annually brought before the courts, and it is thought that the introduction of even a system of voluntary registration of marriages and divorces would simplify the task of dealing with them. The advantages of the Land Registration Act in securing a complete record of the actual owners of estates are already practically felt, and a suggestion is put forward that a similar registration of tenures would be very beneficial. As the Commissioner remarks, this would be a serious task for Government to undertake, though some sort of registry in the zemindar's sherishta may have to be instituted in connection with the revised Rent Code. On the question mooted in last report of allowing Honorary Magistrates to sit singly or in benches for the trial of cases, opinions are conflicting and a separate report is promised.

12. *Police and Crime.*—The following table shows the number of offences under the principal classes of crime in each district of the division for the last two years, the number of persons arrested, and the number convicted:—

Class of crime.	24-Pergunnahs.		Nuddea.		Jessore.		Moorshedabad.	
	1877.	1878.	1877.	1878.	1877.	1878.	1877.	1878.

V.— Ditto ditto property	595	713	764	845	955	900	684	737

The proportion of true cognizable crime to population is 1 to 543 in the 24-Pergunnahs, 1 to 572 in Nuddea, 1 to 650 in Jessore, and 1 to 446 in Moorshedabad. There has been a steady diminution in false cases during the last four years.

13. *Civil justice.*—The information given under this head is, as usual, extremely meagre. The Lieutenant-Governor must again point out that a bare

statement of the number of civil suits filed and disposed of is not what is required, but an intelligent examination of the character and variations of the civil litigation of the district, based upon knowledge obtained by free communication with the civil court authorities and with all classes of the people, especially in the District Officer's annual tour. The Collector of Nuddea argues, from the increasing number of Small Cause Court cases and of bonds presented for registration, that the ryots, in spite of their enhanced gains which have enabled them to pay off their rents, are getting more and more deeply involved in debt. The Commissioner disputes the correctness of the Collector's conclusions, and considers that, though the ryots here are not so well off as those of the eastern districts, they are certainly better off than they were. He thinks it more likely that the bonds are given by persons of the better class with small fixed incomes, who certainly find it year by year more difficult to live. Obviously abstract speculation of this kind is of very little value. The District Officer should have positive knowledge of the facts involved. He should know whether the majority of the bonds are presented by ryots or by some other class of the community, and there should have been some positive explanation why an increase in Small Cause Court cases has taken place in Nuddea, while there has been a decrease in Jessore, and as to the classes chiefly concerned in this litigation. That no intelligent consideration is at present given to the subject is manifest from the remarks of the Magistrate of Moorshedabad, who finds, in a casual decrease of 68 rent-suits, "indications of a better state of feeling between landlord and tenant," and, in an increase of 124 "other suits," evidence that "the people no longer submit readily to the infraction of their just rights by their more powerful neighbours."

14. *Land revenue.*—The Commissioner thus sums up the principal facts in the land revenue administration of the year:—"There has been an addition to the number of revenue-paying estates; an improvement in the collection of Government revenue; a reduction in the outstanding balances of Government estates; a realization of a comparatively large amount owing to the redemption of estates; a net, though inconsiderable, increase in the revenue derived from settlements and re-settlements of Government estates; an absence of any agrarian disturbance, and of any complaint on the part of the tenants regarding the levy of unauthorized or illegal cesses by their landlords; a judicious and lenient administration of the sale laws; and generally an absence of anything which may be likely to cause trouble in the future." The percentage of Government revenue collected was 94·6 of the demand. In Government estates the current and arrear collections aggregated 101·5 per cent. on the current demand, but the arrears outstanding are still heavier than they ought to be. Considerable progress was made in the disposal of land registration cases. In the 24-Pergunnahs and Calcutta a good deal of work has still to be done.

15. *Excise.*—The following table shows the excise revenue of the last four years:—

Districts.	Collections in 1875-76.	Collections in 1876-77.	Collections in 1877-78.	Average of the three years.	Collections in 1878-79.
	Rs.	Rs.	Rs.	Rs.	Rs.
Calcutta, inclusive of Suburbs and Howrah town ...	13,83,843	13,47,407	14,59,012	13,96,754	14,22,313
24-Pergunnahs, exclusive of Suburbs	2,12,337	2,41,250	2,76,417	2,43,334	2,89,366
Nuddea	89,610	95,650	1,12,685	99,315	1,45,815
Jessore	72,257	75,879	86,110	78,082	83,669
Moorshedabad...	1,28,161	1,37,196	1,53,705	1,39,020	1,66,281
Total ...	18,84,208	18,97,382	20,87,929	19,56,506	20,77,444

Of the total revenue, 46·1 per cent. comes from country spirits, 11·3 per cent. from ganja, and 22·04 per cent. from opium. The high prices of food caused a decrease in the consumption of spirits, and it is satisfactory to find that the consumption of ganja, which had yearly been growing (from 1,063 maunds in 1875-76 to 1,224 maunds in 1877-78) has at last been checked by the rise of duty, and fell during the year to 786 maunds.

16. *Salt.*—The manufacture of salt under license is still occasionally attempted on Saugor Island, but the results do not appear to have been encouraging. There were a considerable number of cases of illicit manufacture in

the 24-Pergunnahs, 527 persons being brought to trial and 523 convicted. The police were less successful in their proceedings in connection with seizures of salt, a much larger quantity having to be released than in 1877-78. Confiscation seems to have been secured only in very petty cases.

17. *Stamps.*—The stamp revenue was Rs. 53,90,547 against Rs. 53,93,897 in the previous year. In court-fee stamps there was an increase of Rs. 1,32,949, or 6·4 per cent. The principal falling off was in the sale of telegraph stamps, due to the cessation of famine messages.

18. *Monetary arrangements*—Increased attention is said to have been paid to the working of the sub-divisional treasuries. The use of money orders remains very limited, and has on the whole fallen off, the high rates of premium being felt to be prohibitory. Currency notes supply their place, and are indeed universally used for purposes of remittance, and, it is believed, also for hoarding. The transactions of the Savings Banks are quite insignificant.

19. *Railways and public works.*—The surveys in connection with the projected State lines in Moorshedabad, Nuddea, and Jessore have been going on. It is to be feared that financial difficulties will come in the way of the early commencement of the actual works. In the 24-Pergunnahs various sluices have been made in the public enbankments both for drainage and irrigation purposes, which have conferred much local benefit.

20. *Communications.*—The state of the Road Fund in each district is given below:—

Districts.	1876-77.			1877-78.			1878-79.

21. *Committees.*—It is satisfactory to find that all the District Officers testify this year to the usefulness and intelligence of their different District and Municipal Committees. The Lieutenant-Governor entirely agrees with Mr. Peacock that local committees generally do work well if properly handled, that is to say, if they find that their suggestions are listened to, and that they are really allowed to do good and useful work. When a Magistrate declares that his committees are merely hindrances in the way of the disposal of work, it is tolerably certain that the fault lies mainly with himself.

22. *Cattle-pounds.*—Attempts have been made, chiefly in the 24-Pergunnahs and Nuddea, to improve the working of cattle-pounds, and to check by better supervision the wholesale malversation which goes on in connection with them. In the past year every district save Jessore showed a slight increase of receipts, but the results are nowhere very satisfactory, and the Lieutenant-Governor will await the suggestions promised by the Commissioner in a separate report. The gross receipts of the division from this source were Rs. 84,065, and the expenditure Rs. 28,871.

23. *Education.*—The Commissioner complains of the inaccuracy and careless compilation of the returns furnished to him by the Inspector of Schools. The attention of the Director of Public Instruction will be drawn to the matter. Meantime the following table is given as showing approximately the number of schools and pupils in each district for the last three years:—

Districts.	1876-77.		1877-78.		1878-79.	
	Schools.	Pupils.	Schools.	Pupils.	Schools.	Pupils.
24-Pergunnahs	1,506	51,656	1,280	46,041	1,426	50,865
Nuddea	827	30,119	809	27,950	758	27,301
Jessore	772	26,766	706	26,138	660	25,641
Moorshedabad	500	14,384	508	14,443	481	13,963
Total	3,605	122,925	3,305	114,572	3,325	118,770

The number of Mahomedan pupils fell sligtly from 28,528 to 28,511. The number of girls at school was 5,380 against 4,610 in 1877-78. The

increase in the number of girls attending boys' schools was considerable—from 1,912 to 2,459.

24. *Wards' Estates.*—The chief event of the year was the surrender of the greater part of the Paikpara property to the major proprietors. The financial result of the Court's management had been an accumulation of Rs. 29,96,765 in cash, and Rs. 27,67,100 in Government securities. The Satkhira estate is still slowly paying off its heavy burden of debt. The Goberdunga estate is now clear and has begun to put by funds. It will now be made over to the eldest proprietor, who has just attained his majority. The Narail estate in Jessore is a constant source of trouble, owing to the involved arrangements necessitated by its being held in joint tenancy with hostile or obstructive co-parceners. A specially selected Deputy Collector has lately been placed in charge. Under improved management the Wards' estates in Moorshedabad are yearly presenting more satisfactory balance-sheets.

25. The Commissioner's remarks on his subordinate officers will be forwarded to the Appointment Department for consideration.

By order of the Lieutenant-Governor of Bengal,

A. MACKENZIE,

Secretary to the Government of Bengal.

RESOLUTION ON THE ANNUAL GENERAL REPORT OF THE PATNA DIVISION FOR 1878-79.

GENERAL DEPARTMENT.—MISCELLANEOUS.

Calcutta, the 7th August 1879.

RESOLUTION.

READ—

The General Administration Report of the Patna Division for 1878-79.

The report is written by Mr. F. M. Halliday, who was Commissioner of the Division throughout the year. The Lieutenant-Governor is glad to observe that, with only one exception, the district reports were on this occasion submitted to the Commissioner with commendable punctuality. The Government Resolution is thus issued two and a half months earlier than last year.

Commissioner's tour.

2. Mr. Halliday spent the greater portion of the cold weather on tour, visiting and inspecting the head-quarters of six out of the seven districts of his division, and eight out of fourteen sub-divisions. The Commissioner should arrange to visit the head-quarters of *all* his districts and all his sub-divisions at least once annually. In Behar there is no reason why inspection work should not be done in the hot weather and rains, if it is found difficult to overtake the whole during the cold season.

Tour of Collectors and Sub-Divisional Officers.

3. The Collectors of Shahabad, Gya, and Patna (Messrs. Edgar, Barton, and Toynbee), spent each of them much time in the interior of their districts and got through much useful work. In the other districts the tours of the Collectors were less extensive than is usual in Behar; but in Chumparun only was the Collector's tour markedly insufficient. In Sarun and Durbhunga this was due to changes among the Collectors themselves, and in Mozufferpore and Chumparun to temporary reductions in the district staff, which made it necessary for the Collectors to remain at head-quarters. The Sub-Divisional Officers generally appear to have done a fair amount of travelling about their jurisdictions; and both they and the district officers are said, while in camp, to have taken much personal trouble in enquiring into and testing the License Tax assessments, a matter to which Government had specially directed attention.

Weather and crops.

4. The year was on the whole, from an agricultural point of view, a favourable one. In Patna the *bhadoi* crop was sown over an unusually large area, and gave an excellent outturn; the rice crop was far above the average; and the *rubbee* crops, especially cereals, were also good. All miscellaneous crops, such as oilseeds,

were above the average, though pulses suffered in February from rain and east wind. In Shahabad the *kharif* suffered from want of rain in October, but the *bhadoi* had been unusually good, and the *rubbee* yielded fair results, owing to frequent showers which fell during the cold weather and up to the end of May. In Gya also the *bhadoi* was a bumper crop, and the *kharif* was above the average, while the *rubbee* was fair, being particularly good in the irrigated lands on the west of the district. Sarun had a rich *bhadoi* harvest in spite of scanty rains at the beginning of the season, and the low rice lands gave a fair yield. But it is said that the frequent failure of rice on the uplands is causing the ryots to abandon this cultivation in favor of cereals which do with less moisture. Nothing is more marked in connection with husbandry in Bengal than the certainty and rapidity with which the ryots adapt their cultivation to meet changes either in the market demand or in the circumstances of the seasons. The *rubbee* in Sarun was not so good as in other districts; and the mango crop, an important article of food in this district, did not come up to its early promise. Mozufferpore, Mr. Worsley writes, stands much in need of one season of heavy rainfall to restore the water-level of the district which has fallen considerably, and to revive the fertility of the *chours* or hollows where the best rice grows. The crops were, however, last year very fair on the whole, and the *bhadoi* was, as in other places, much above average. Durbhunga presented similar results; but owing to its receiving a heavier fall of rain, the rice country about Alapore and the north-east of the district had an unusually good season, and developed an exceptionally brisk export trade as soon as the crops were cut. In Chumparun, the south-east of the district was badly off, owing to the failure of the autumn rain; but in the other parts the results were generally quite as favorable as in the neighbouring districts.

Public health

5. There were no serious epidemics of any kind in the division during the year, and this is perhaps the reason that the mortality caused by the ordinary fevers of the country attracted more than usual attention. From several districts, however, it is reported that fever was particularly prevalent, though there was apparently nothing special in the season to account for this. It is unsatisfactory to note that in Gya small-pox is gaining ground, and it is to be hoped that the special measures adopted to check it will have the desired effect. Cholera showed itself from time to time in every district, but nowhere became seriously epidemic.

Material condition of the people; emigration; and prices.

6. The depressed condition of the lower classes of cultivators and laborers in Behar is annually recognised and discussed in the Divisional Administration Report. It cannot at present be expected to vary much from year to year, except so far as it may be affected for the better or worse, by good or bad harvests, and by a fall or rise in the prices of food. As has been before pointed out, it is quite possible to push conclusions based upon even these simple premises too far, in estimating the condition of a province where wages are paid in grain, and where rents frequently consist of a certain proportion of the crop. Still, after making all allowances, there can be no doubt that the sustained rise in prices, common to nearly every district in Behar, must press seriously upon all who are not themselves sellers of surplus produce. The fact appears to be that excessive exportation, stimulated by high prices outside the province, has thoroughly depleted the local stocks, and even the favourable harvests of the past year had no appreciable, or at any rate no lasting, effect on the local markets, much of the crop being drained away for sale in other parts of the country, where the people, though now themselves suffering from short stocks, are still better able than the Beharis to pay for the grain which they require. Behar, as a whole, is too poor to buy up its own good harvests. Mr. Toynbee, the Collector of Patna, who has devoted much time to investigating the condition of the laboring classes and small traders of his district, writes thus of them: "The expression 'living from hand to mouth' has assumed for me a more definite and tangible, if less satisfactory, meaning than it ever had before. I have been into and over the houses of hundreds of *Telis*, *Buniyas*, *Gowallas*, *Halwais*, and other similar castes, and have seen how they live and what they eat. I could not have believed, had I not seen it for myself, how abject is their poverty. Hunger satisfied, and decency propitiated, they seem to have no further ambition. Many of them do not know what it is to have two meals a day; and most of them do not know, when they rise in the morning, whether they will get one full meal or not. Wages have remained as before, while the prices of all kinds

of food have increased. Over-population seems to be an effectual bar to any further material improvement that might otherwise be brought about by increased means of communication, by education, and other similar means." Of the poorer classes in Sarun, the Sub-Divisional Officer of Sewan writes—

It is, however, a fact that the average size of the farms of the poorer classes does not exceed five beeghas, and that seven persons according to the census constitute a household. The average value of the crops produced in one year, taking good land with bad, on a single beegha is Rs. 25, of which Rs. 3 is payable in rent. Therefore, amongst the poorer classes, that is some 600,000 persons, seven persons have to subsist on Rs. 102 a year, or only a rupee and four annas each a month. Yet even this condition represents a state of things much more favourable than half of the poorer classes, or 300,000 persons, can obtain. Tens of thousands of them have not more than two beeghas of land, and the number of those who have only two to three is equally great. There are, besides, the landless day-laborers, who number from ten to fifteen per cent. of the inhabitants of every village. How they contrive to subsist in years of scarcity, and particularly during such lengthened periods of dearth as the first five months of the official year under report, is a more difficult question than most people are prepared to answer. The fact is that the possessors of a larger kind of farms, with areas from fifteen to thirty beeghas, and even less, know the importance of preserving this class alive, and also of preventing them from emigrating through distress, and give them just enough food to keep body and soul together. Emigration is constantly proposed as the panacea for the domestic difficulties of Sarun; but so long as there is a large class of middle-class farmers, whose caste or pride restrains them from working, and who are prepared to devote all their influence and much of their substance to keep the really poor in the district, even when they have no work for them to do, so long will all schemes for diminishing the population by emigration infallibly fail.

7. Gloomy as these pictures are, there is no reason to believe that matters were worse last year than usual. On the contrary, it is reported that all those laborers who are paid in kind derived the full benefit of the abundant harvests; and at one time in Durbhunga the demand for labor in the fields was so great, and the remuneration so good, that it was almost impossible to get men to work on the district roads even at considerably enhanced wages. In Gya, again, the great public works now being carried on there did much to help the laborers to meet the high prices of the bazaars. That there was no special pressure in the division is indeed manifest from the fact that the number of emigrants to the colonies and tea districts fell from 11,300 in 1877-78 to 5,039 during the year of report, the largely over-populated district of Sarun contributing only 84 of these. There was of course the usual exodus by road from Sarun and Tirhoot of gangs seeking work in the eastern districts of Bengal; but no inducements suffice to take the Behari coolie away from home for more than a few weeks at a time, or to places of which he has no personal knowledge. Thus, attempts to get doolie bearers for the North-West Frontier and for Burmah entirely failed, though the wages offered were liberal in the extreme.

8. It is evidently futile to hope that emigration will relieve Behar of any appreciable portion of its people until some change takes place within the province itself, which will have the effect of extruding the superfluous population by making it practically impossible for them to continue there. Such a change can probably only be effected by a reform of the land law. If the present dead level of pauperised cultivators were once broken up, and if due protection were given to the ryots, and their tenures made secure and valuable; the standard of comfort among the landholding peasantry would probably rise; the desire to increase the area of their holdings would become effective, as the means to attain this accumulated; and eventually it might be hoped that the soil would be divided among just such a number of cultivators, with their dependent laborers, as it could maintain in the higher style of living that would necessarily follow upon growing wealth. Thus gradually an effective stimulus to emigration might be applied, serving to rid the country of its surplus population. All this, however, if it ever comes, must be the work of time. The whole subject of the Rent Law is now under the consideration of a Government Commission, and is beset with many difficulties. Meanwhile, perhaps, the most marked improvement in the lot of the cultivating population of North Behar arises out of the altered conditions under which indigo manufacture is now being carried out, as will be noticed below in a later part of this resolution.

Manufactures and Mines.

9. There is nothing to add to the general information under this head given in former reports; but it is noticeable that the saltpetre trade of North Behar is found to have increased considerably during the last few years. The question of placing the Salt Preventive Establishments in these districts upon a more

efficient footing, and of bringing the makers of crude saltpetre under stricter surveillance, is now under consideration. It is satisfactory to find that so far the preventive system has not interfered with the development of the trade; but in fact only the refineries have hitherto been brought under regular inspection. The crude workers have been practically uncontrolled, and it is only from systematic supervision of these *nunyas* that any material check to the consumption of untaxed salt can be expected on the one hand, or that, on the other hand, any practical check to the saltpetre trade need be feared.

Trade and Commerce.

10. The trade of the year presented few special features calling for comment. The exportation of grain was brisk, though many of the Patna merchants had lost heavily in speculations during the Madras famine. The canal and railway are expected to develope largely the trade of Gya, in which district cross-country communication is at present very backward and difficult. In Durbhunga the bulk of the traffic in grain still follows the roads and rivers and avoids the rail. Through Chumparun large supplies of timber were passing during the year, owing to the recent sale of the heavy stocks held by the Nepal Durbar.

Public feeling.

11. In South Behar the opening of the Sone Canals and the construction of the Gya Railway are said to have given general satisfaction; but the chief general topic of the year throughout the division has been the License Tax. This, though naturally unpopular, is after all said to be less disliked among the lower classes than the Chowkidari Tax, the assessment of which is conducted by the village punchayets, and has always been a sore subject with the Behar villagers.

Police and Crime.

12.—The report for 1877 showed a steady decrease in crime since 1874. During 1878 the pressure of high prices brought the figures up again to those of 1875, the increase being chiefly in offences against property, of which there were 2,720 cases more than in 1877. The following table gives the details:—

	1874.	1875.	1876.	1877.	1878.
Offences against property	23,628	17,015	15,443	15,058	17,778

Total ...	29,024	22,700	21,744	20,856	22,806

The following statement exhibits, district by district, the number of cases reported, those accepted as true, and the percentage of cases declared to be false during the last three years:—

Districts.	True cases.			Total number of cases reported.			Number declared false.			Percentage of cases declared false.		
	1876.	1877.	1878.	1876.	1877.	1878.	1876.	1877.	1878.	1876.	1877.	1878.

The subjoined statement shows the proportion of true crime to area and population of each district—

	To area	To population.
Patna	2·0 per square mile	1 in 369·7
Gya	·8 „	1 in 468·5
Shahabad	·7 „	1 in 529·4
Mozufferpore	·6 „	1 in 1075·9
Durbhunga	·6 „	1 in 1097·7
Sarun	·9 „	1 in 809·3
Chumparun	·6 „	1 in 660·9

The result for the whole division is, with reference to—

Area	·87 per square mile.
Population	1 in 634.

The percentage of convictions to arrests under cognizable crime in true cases was 61·3 against 60·1 in the preceding year—a satisfactory result.

Civil justice.

13. Notwithstanding the orders of Government upon last year's report, little or no attention has been given to this subject by the district officers What is required is not a meagre summary of incomplete statistics supplied by the civil courts, but an intelligent discussion of the general character of the civil litigation for the year, the causes of its increase or decrease, or of any abnormal features disclosed in it, and the feelings of the people in regard to it, as ascertained by conversation with all classes during the district and sub-divisional officers' tours. Every district officer should be in a position to give information on a matter so intimately connected with the internal administration of his district, and, as before pointed out, he should by free unofficial communications with the District Judge keep himself acquainted with the opinions of the Civil Court authorities on this important subject.

Revenue administration.

14. The percentages of collections on the current demand of land revenue in each class of estates compared thus with the results of 1877-78—

	1877-78.	1878-79.
Permanently settled estates	98 9	99 1
Temporarily ditto	98 2	95·2
Government estates	83·	82·1
Ryotwari tracts	77·5	75 4

The total outstanding balance at the close of the year was Rs. 1,18,151 against Rs. 1,20,628 at the close of 1877-78.

The following table shows the state of the Land Registration file :—

Districts	Pending at close of 1877-78.	Instituted during 1878 79.	Total for disposal.	Disposed of	Pending	Percentage of cases disposed of to those for disposal.
Patna	16,764	5,104	21,868	15,646	6,222	71 5

Total ...	1,04,945	41,184	1,46,129	1,09,478	37,051	

No fewer than 201,714 cases under the Act have been disposed of in this division in the last three years.

As might be expected, the land registration operations have brought out very clearly the minute sub-division of landed property. In Shahabad, where the operations have been almost completed, only 1,000 out of 5,620 estates are the property of single proprietors. In by far the majority of estates the number of interests or shares varies from 30 to 40. In a few estates the lowest share varies from 8 to 10 massas (a massa is equal to $\frac{1}{400}$th of a pie). In one revenue-free property the number of interests registered is 296, of which the highest is represented by 2 annas and the lowest by 5 krant; but in Tirhoot, where the machinery of the butwarah law is everlastingly at work, the sub-division of estates is still more minute.

The number of partition cases instituted was 233 against 89 in the previous year. The file of pending cases is very heavy—680 cases—but two Special Deputy Collectors have been appointed lately to attend solely to this work in Patna and Tirhoot.

In the other districts of the division the closest attention of the Collectors is required to reduce the files. The outturn of work is specially bad in Gya.

The Lieutenant-Governor would have been glad to receive a fuller statement of the progress made in the organization of the putwari system. The work is one of the utmost importance, but its success or failure depends entirely on the interest and intelligence with which it is carried out by the Collectors: and it certainly deserves more notice at the hands of the Commissioner than a mere enumeration of the putwaris appointed.

Relations of landlord and tenant, and conduct of zemindars.

15. The general opinion of the Collectors seems to be that there has been a slight improvement in the relations between landlord and tenant during the year. There has certainly been no open conflict; and probably the efforts of the local officers to check illegalities have been productive of some positive good. None of the

zemindars distinguished themselves by any acts of liberality or public spirit calling for special notice.

Excise

16. The excise revenue showed a slight falling off as compared with the figures of 1877-78, being Rs. 14,22,487 against Rs. 14,33,753. The revenue from country spirits rose indeed by Rs. 57,707, but this was more than counterbalanced by a decrease of Rs. 68,732 in the revenue from ganja. It is matter of entire satisfaction that the high duty on ganja is now apparently driving the consumers of that noxious drug to the use of the comparatively wholesome and harmless country spirit. The extension of the outstill system would perhaps in any case have led to an increase of revenue from country liquor, but so far as this is the case, it represents in most districts merely the substitution of a licit for an illicit beverage.

License Tax

17. The following table shows the number of assessees to License Tax under each class in each district of the division.

Districts.	Class I.	Class II	Class III.	Class IV.	Class V.	Class VI.	Total.
Patna	17	34	84	290	1,568	5,979	7 972
Gya	20	28	106	361	1,945	10,623	13,085
Shahabad	31	52	124	511	2,660	7,811	11,189
Mozufferpore	66	105	230	870	3,172	21,959	26,402
Durbhunga	34	67	240	828	4,043	14,689	19,901
Sarun	54	48	104	473	2,542	7,529	10,750
Chumparun	19	26	83	327	1,682	8,582	10,719
Total ...	241	360	973	3,660	17,612	77,172	100,018

Thus only one person in every 130 of the population comes under the tax. The demand from each district is as follows:—

	Rs.		Rs.
Mozufferpore	1,09,225	Chumparun	40,062
Durbhunga	92,259	Patna	35,378
Sarun	60,748		
Shahabad	56,458	Total ...	4,39,828
Gya	45,698		

The Commissioner endeavours to account for the extraordinarily small demand in Patna, which, though much smaller in area and population than most of the Behar districts, is foremost in commercial importance, by the theory that most of the traders have places of business in Calcutta and elsewhere, where they must have been separately assessed. That is a question of fact as to which positive evidence should have been forthcoming. As it is, allowing for this consideration, there seems strong ground for believing that Patna has, as compared with the other districts, been under-assessed. The Commissioner reproduces extracts from his annual report upon the License Tax submitted to the Board of Revenue, in which he institutes a comparison between the results under the present Act and those under the License Tax Act of 1867 and the Income Tax of 1872. It is difficult to make such a comparison with any degree of precision owing to the differences in the gradation of the schedules and in the incidence of the several taxes, and the Lieutenant-Governor will defer comment until he has before him the Board's report, in which doubtless this matter will receive such analysis as is possible under the circumstances. Of the aggregate demand of Rs. 4,39,828 on account of License Tax in 1878-79, Rs. 3,76,377 or 85·5 per cent. were collected, the most successful district being Chumparun, which realized 99 per cent. of the demand, and the worst being Sarun, where only 67·6 per cent. was recovered. The outstanding balances were mostly being realized after the close of the year.

Stamps

18. The stamp revenue of the division fell from Rs. 16,53,234 to Rs. 15,44,537, chiefly owing to the cessation of applications under the Land Registration Act. The sales of non-judicial stamps increased from Rs. 3,34,720 to Rs. 3,62,798, which the Commissioner considers an indication of growing indebtedness among the higher and agricultural classes. It might perhaps with equal probability be set down to the briskness of trade.

Monetary arrangements.

19. The paper currency maintains its popularity in this division, being largely used for purposes of trade remittance. It was necessary at times, in both Patna and Durbhunga, to refuse encashment of notes, as the stock of silver had fallen too low. It is said, on the other hand, that the demand for notes at Gya is more than that treasury can meet—a curious fact, seeing that Gya is an exporting district. The

transactions both of the Savings Banks and the Money Order Offices were insignificant.

Public works.

20. The Gya Railway was opened for traffic up to Jehanabad by the end of the year, and has since been opened throughout, though hardly as yet in a fit state for regular working. Such crowds of people flocked to the line that it was found impossible even to keep them off the trucks of the material trains, and the engineers have done what they could under great difficulties to meet the requirements of the local public. The Tirhoot State Railway showed a satisfactory increase of traffic, which would have been greater but for the large exportation of grain westward by road and river.

Canals and Embankments.

21. The Commissioner remarks that the Sone Canals have increased in popularity both for irrigation and navigation. It is gratifying to know also that, even at this early stage of their existence, the revenue derived from them has in the last year exceeded the working expenses. The following statement gives the particulars for the canals east and west of the Sone:—

	Revenue receipts.	Working expenditure.
	Rs.	Rs.
Canals east of the Sone in Gya and Patna—		
Water rates	9,200	
Navigation tolls	18,570	1,10,460
Miscellaneous	8,746	
Total ...	36,516	
Canals west of Sone in Shahabad—		
Water rates	3,64,112	
Navigation tolls	10,762	2,60,045
Miscellaneous	26,236	
Total ...	4,01,110	
Total other canals ...	4,37,626	3,70,505

From the above figures, it will be seen that there was a surplus of receipts over expenditure of Rs. 67,121; but this does not represent the whole of the profits, as the arrears of uncollected revenue at the end of the year amounted to Rs. 3,04,411. It must also be remembered that the year 1878-79 was the first in which any revenue was derived from the canals east of the Sone. In 1877-78 water was given from the Patna Canal free of charge. The people in the last year held back, hoping that the same boon would be again granted.

22. The Patna Canal was opened for traffic in October 1877; its length is 83 miles, of which 47 are in Gya and 36 in Patna. As a navigable line it is likely to be useful, passing as it does the large towns of Urwal and Daudnuggur, which have considerable trade with Patna. A steamer has been placed on this canal which makes one trip each way weekly, and has now begun to pay her expenses in the carriage of passengers. It is proposed to run her more frequently, and in connection with another steamer on the Shahabad Canals. About 130 miles of distributary channels have been completed from the Patna Canal, which can irrigate at present 128,000 acres of land.

23. In Shahabad the principal canals are the Arrah, Main Western, and Buxar. The first was completed two years ago; the second is only a short length extending from the head works at Dehree on the Sone to Sasseram, a distance of 22 miles. The Buxar Canal, to connect the town of Buxar on the Ganges with Sasseram and Dehree, is in course of construction, and the work on it has made good progress during the year, 10 miles at the upper end having been opened, but not yet used for traffic. The total length of the three navigable canals is 128 miles. Irrigation in the Shahabad district has taken a firm hold of the people. During the past year 146,755 acres were irrigated:—

	Acres.
Kharif	72,723
Rubbee	48,265
Perennial	25,767
Total ...	146,755

Of the perennial crops the greater portion was sugarcane, for which Rs. 5 per acre is paid. The area of land planted with this crop is annually on the increase, and it is likely to be limited only by the supply of water in the Sone, which unfortunately runs very low in the months of May and June, just when it is most wanted for the irrigation of the sugarcane crop: it is certain that a much higher water-rate may be eventually charged for sugarcane and the revenue may be thus considerably enhanced.

24. The Commissioner, quoting from the note on the Sone Canals by the Committee appointed under the Famine Commission to report on the irrigation works in Bengal, states that the present system of tollage is answerable for the small traffic on the canals. This is not quite a correct view of the case. The canals have been quite lately established, and some time must elapse before the people in an inland district take to a totally new system of carriage. It is sufficient to say that the tolls on the Sone Canals are even lower than in Orissa and Midnapore, where, *at first*, traffic was but small, and has since immensely developed, and that the whole cost of carriage by boat is only a quarter of the average cost of carting in the district.

25. On the whole, the prospects of the Sone Canals are encouraging. The works are now drawing towards completion, and as the system becomes understood by the people, and they see that a good crop can with certainty be secured in any year, irrespective of the rainfall, by the use of canal water, the area of irrigated lands will certainly increase year by year. Negotiations have been concluded, and a contract entered into for a term of years with a French firm for the erection of mills at Nasrigunge on the Arrah Canal, the machinery of which is to be driven by the water-power of the fall at that place. Thus another source of revenue has been opened. The total expenditure during the past year on the canals for works, establishment, tools and plant, &c., has been Rs. 16,69,629, of which Rs. 11,80,129 was for works.

26. An irrigation project has been commenced in the district of Sarun during the year. The cost will be about 4½ lakhs of rupees, the interest on which has been guaranteed by the planters, who will benefit by the scheme. The works consist of a main head cut from the river Gunduck in the north of the district, with a supply sluice, by which the water will be led into several natural channels, whence it will be distributed. There are also some minor connecting cuts and sluices which are finished. In fact, with the exception of the head sluices and head cut above mentioned, both of which are in a forward state, the works may be said to be complete. A small irrigation scheme in the Chumparun district, known as the Teur project, has been of great benefit, and must, during the last dry season, have proved very remunerative to the owner of the lands, by whom the cost of the works was paid.

27. The Gunduck embankments in Sarun, Mozufferpore, and Chumparun are in good order, but the Sub-Divisional Officer of Betteah in Chumparun is of opinion that the embankment in that sub-division is on the whole injurious. This latter portion of the embankment has only been in existence for four years, which have been exceptionally dry ones, so that sufficient opportunity has hardly been afforded on which to form a confident opinion.

District roads.

28. The district roads are reported to be generally in good order. The chief exception is in the district of Gya, where the state of the communications is very backward. In Sarun also and Shahabad a good deal remains to be done in the way of metalling to meet the requirements of the local traffic. It is satisfactory to find that attention is being given to the planting of trees along the public roads. In Mozufferpore 111 miles of road have been planted with 17,391 trees at a cost of Rs. 5,484. The Lieutenant-Governor hopes that most of these are fruit-trees, as suggested in the Government circular on the subject.

Education.

29. The progress of education during the year has been highly gratifying, there being an increase in the number of schools from 3,376 to 5,952, and in pupils from 70,780 to 95,553. The increase is seen under nearly every class of school, but is particularly marked under primary schools. The improvement is attributed to the introduction of Baboo Bhudeb Mookerjee's scheme in most of the districts of the division. The principle of this system is to utilize the chief gurus of each district in the work of inspection, instruction, and examination, and to make payments to patshalas depend upon results. The Lieutenant-

Governor is glad to notice also an increase in Mahomedan pupils from 10,196 to 13,297.

Wards' Estates.

30. There were 27 Wards' estates and two attached properties under the management of the Revenue authorities during the year. Many of them, especially in Sarun, are deeply involved, and gave an amount of trouble to the district officers quite disproportionate to their value. The great Durbhunga estate will shortly pass out of the hands of the Court of Wards, as the Maharaja comes of age on the 25th September next. It is satisfactory therefore to learn that the system of direct management introduced in 1876-77 has now been extended to nearly the whole of the property and has proved a great success, the collections last year being 125·4 per cent. of the current demand. The survey of the Tirhoot and Bhagulpore properties had nearly been completed at a cost of only seven annas per acre. The Maharaja will receive Rs. 38,02,200 in Government securities when he comes of age. Fortunately he has shown himself well qualified to undertake the great responsibilities which will then devolve upon him, and he may rely upon the advice and assistance of Government and its officers in any matters of difficulty.

Tea.

31. The prospects of the experimental tea cultivation in the north of Chumparun, referred to in the last report, are said not to be promising. The difficulty from want of water has not been got over, and the climate is unfavorable for Europeans.

Indigo.

32. The Lieutenant-Governor has read with much satisfaction the account given of the improved relations between the indigo planters and ryots, mainly owing to the exertions of the Behar Indigo Association and its managing Committees. The Collector of Chumparun writes that the ryots appear "satisfied with the concessions made." The Collector of Mozufferpore testifies that the working of the Association has proved a 'great success,' the Committees taking up all matters in a just and impartial spirit, and bringing all their influence to bear in promoting peace and harmony. Mr. Worsley did not in his cold weather tour receive a single complaint against any indigo factory—an extraordinary improvement upon his experience of former years. The Collector of Sarun is new to the district and cannot speak from personal knowledge; but here, too, the operations of the Association have resulted in good. In Durbhunga, where there seems to have been a strong local opposition to the principles of the Association, the history of the year has not been so uniformly satisfactory; but even here the Collector, Mr. Quinn, reports a general improvement in the relations between planters and ryots, and bears witness to the willingness of the Association to do all it can to reform abuses. The points to which the Association chiefly directed its attention were the payment of labour at current rates, discountenancing the illegal seizure of lands as zerat, and the stoppage of petty and harassing litigation. The Lieutenant-Governor has no doubt that if district officers will only give the Association their cordial support in its endeavours to secure these objects, and if they will communicate freely and frankly with its Committees when abuses come to their knowledge, a great and lasting improvement in the indigo system of Behar will very speedily be effected. It would be a heavy misfortune for the province were this industry to come to ruin. Conducted upon fair principles, it can only be a blessing to the people, and there is no reason why it should not still prove profitable to the planter.

Tobacco.

33. The tobacco manufacture at Poosah has not yet passed beyond the stage of experiment; but Messrs. Begg, Dunlop and Company are persevering with the enterprise, and the results so far are sufficiently encouraging. From 200 acres 150,000lb. of tobacco-leaf were realized, samples of which were shipped to England and realized fair prices.

34. The Commissioner's remarks on his subordinate officers will be forwarded to the Appointment Department of this office.

By order of the Lieutenant-Governor of Bengal,

A. MACKENZIE,
Secretary to the Government of Bengal.

REPORT ON THE WORKING OF THE JUTE WAREHOUSE AND FIRE-BRIGADE ACT IN HOWRAH DURING THE YEAR 1878-79.

No. 397, dated Howrah, the 11th July 1879.

From—A. A. WACE, Esq., C. S., Chairman of the Municipal Commissioners of Howrah,

To—The Commissioner of the Burdwan Division.

Jute Warehouses.

IN accordance with section 31 of Act II of 1872, "the Jute Warehouse and Fire-Brigade Act," I have the honor to submit the following report, showing how its provisions have been carried out in this Municipality during the year ending 31st March 1879.

2. There were 32 warehouses licensed during the year for the storage of loose jute and cotton as per classified list given in statement attached to this report.

3. There was one new warehouse constructed during the year within the premises of the Ramkistopore Press Company. This was inspected by a Special Sub-Committee appointed, who approved of the building, and their report was passed at a general meeting. Statement II shows the prosecutions that were instituted under the Act during the year.

4. The income of the year amounted to Rs. 4,993-0-1, of which the following are the details:—

	Rs.	A.	P.
Balance on the 1st April 1878	2	0	9
License fees	4,750	15	4
Fines	240	0	0
Total ...	4,993	0	1

It will be seen that there has been an income of Rs. 546-13-3 over last year's income, which is attributable to some owners of petty warehouses having taken out licenses for short periods.

5. The falling off in business done in jute and cotton in this town, noted last year, appears thus to have received a slight check, but the only considerable business done in these fibres is at the mills: the hand-presses have almost entirely fallen into disuse, and the majority of the old jute and cotton warehouses belonging to native proprietors were either lying empty, or were used for storing grain, kerosine oil, &c., and screwed jute and cotton.

6. The expenditure on the inspection of jute warehouses amounted to Rs. 604, comprising—

	Rs.	A.	P.
Salary of Inspector	600	0	0
Contingencies	4	0	0
Total ...	604	0	0

Fire-Brigade.

7. Statement III shows that during the year nineteen fires occurred within the jurisdiction of the Municipality, chiefly in "bustees." They were confined to private dwellings, chiefly tiled and straw houses, and originated in the majority of instances from negligence. On each of these occasions the brigade was in ready attendance. There were no fires among the jute and cotton warehouses.

8. The usual watch was kept, both night and day, on the top of the cutcherry building, the firemen drilled, and the stations regularly visited by the Superintendent. The services of the firemen when off duty were utilized in the cleaning of office furniture, pulling punkahs, and acting as office peons.

9. The following is an abstract statement of the expenditure in this department during the year:—

		Rs.	A.	P.	Rs.	A.	P.
I.—Establishment—							
1	Superintendent at Rs. 100 per mensem ...	1,200	0	0			
1	Tindal „ 10 „	120	0	0			
1	Do. „ 9 „	108	0	0			
2	Tindals „ 8 „	192	0	0			
21	Khalassees „ 6 „	*1,523	7	6			
8	Extra firemen „ 1 „	96	0	0			
2	Syces „ 6 „	144	0	0			
					3,383	7	6
II.—Purchase of Stock—							
	Repairs to engine and purchase of hose	429	10	3			
	Feed, keep, &c., of horses	463	8	0			
	Rewards	13	8	0			
					905	10	3
III.—Contingencies		351	3	4			
	Total ...	4,640	5	1			

* Less fines.

10. The extension of the Act to other inflammable fibres, and to commodities such as mineral oils, which, to judge from the revelations made since the introduction of Act III of 1865 (B.C.), are a constant source of danger, is much to be desired, and now that the new Act has come into force, the matter will, the Commissioners hope, receive the early attention of Government.

Of Rs. 22,007, contributed for roads, Rs. 17,616 were for roads in the Julpigoree district, the funds for which were provided by the Court of Wards on behalf of the Rajah of Cooch Behar. Two bridges in the same district were constructed at a cost of Rs. 828, the funds for which were given from the same source. A bridge was built on the Ninepore Road in Cuttack by Golam Rasool at a cost of Rs. 1,356.

Two drainage channels were made in the Mozufferpore district at a cost of Rs. 700; and three canals in the Chumparun district at an outlay of Rs. 2,100.

Of the large amount, Rs. 1,39,520, expended on tanks, Rs. 14,000 were given by Baboo Joykissen Mookerjee for redigging a tank at Megsur in the Hooghly district; Rs. 12,000 by Baboo Ramphal Sahoo for a pucka tank at Raghoonathpore, in Shahabad; Rs. 3,475 by Baboo Purno Chunder Roy for a tank at Syedpore, in the Furreedpore distict; Rs. 3,000 by Baboo Hurish Chunder Saha for a tank at Ragail, in Bogra, and a like amount by Goburdhun Dass for a tank at Roringa, in Sarun.

A masonry ghat was built by Rao Jogendro Narain Roy, on the Bagirathee River, at Jungypore, at a cost of Rs. 12,000. Baboo Omesh Chunder Pal also spent Rs. 8,000 on a masonry ghat on the Hooghly river, at Kurdah, near Barrackpore.

One staging bungalow, or *serai*, was built at Chutra, in the Hazareebagh district, at a cost of Rs. 4,500, by Mohunt Sen Prokash Das.

A dispensary and hospital were built at Jungypore, in Moorshedabad, by Baboos Brodhoo Sing and Bishun Chund Sing, at a cost of Rs. 12,000. The Maharanee Surnomoye, of Cossim Bazar, also contributed Rs. 300 for the repair of the charitable dispensary at Julpigoree.

At Shewhur, in Mozufferpore, Baboo Deo Nunda Singh gave Rs. 1,585 for the construction of a school-house; and at Radoa, in Bogra, an Urdu school was built by Ahamuddeen Khalifa, at a cost of Rs. 240.

In the Mozufferpore district Rs. 1,910 were expended by six persons in planting trees by the road side.

RESOLUTION.—The works of public utility constructed during the past year by private munificence will compare favourably with those that have been carried out in any previous year, and the Lieutenant-Governor has great pleasure in acknowledging the liberality and public spirit displayed by so many native gentlemen.

2. Government will forward letters of acknowledgment to those who constructed important works. Those who have contributed towards works costing Rs. 200 and under will receive the usual acknowledgment from the Commissioner or Magistrate.

ORDER.—Ordered that a copy of this Resolution and of the statement be forwarded to the Board of Revenue, Lower Provinces, and to all Commissioners of Divisions, to the Commissioner of Chota Nagpore, and to all Superintending Engineers of Public Works Circles in Bengal, for information.

Ordered also that a copy of this Resolution and of the statement be forwarded to the Revenue and Judicial Departments of this Government, and to the Irrigation and Railway Branches of the Public Works Department of Bengal, for information.

Ordered also that this Resolution and the statement be published in the Supplement to the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

T. H. WICKES,

Offg. Asst. Secretary to the Govt. of Bengal,
P. W. Dept.

2	Bankoora, „ 9 „	2·41	Weather—showery and cloudy, except in Gangajalghati. Slight rain on three to five days. In Gangajalghati no complaint, except at Barjora outpost where transplantation not progressing, whilst at Saltora and Majia crops favourable. In Bankoora prospects fair, although more rain needed. In Onda prospects not bad yet. In Bishenpore and its outpost Joypore not only transplantation stopped, but *dhan* injured at the thana, nearly one-half, for want of rain.
3	Beerbhoom, „ 9 „	2·57	Heavier rain of this week done much good, but transplantation on high lands still delayed in places. Prospects on the whole favourable.
4	Midnapore, „ 9 „	1·58	Weather—hot and cloudy. Rain very scanty. Much more wanted all over district. Transplantation stopped, except in places irrigated by canal-water. Cholera decreasing except at Ghatal.
5	Hooghly, „ 9 „	5·15	Weather—seasonable. *Aus* crop benefited much from general rainfall this week, but transplantation still very backward all over district Sugarcane and other crops doing well.
	Howrah. „ 11 „	4·09	Weather—seasonable. More rain wanted. Prospects continue good.

	Meherpore ...	6·85	
	Chooadanga ...	6·60	
	Ranaghat ...	4·53	
	Bongong ...	3·32	
8	Jessore, „ 9 „	4·00	Good rain throughout district during week. Prospects of crops favorable except in Magoorah and part of Narail, where rising of rivers has caused damage and more is feared. Health good.
	Jhenida ..	8·29	
	Magoorah ...	3·99	
	Narail ...	1·29	
	Khoolna ...	3·30	
	Bagirhat ...	2·61	
9	Moorshedabad, „ 11 „	4·71	Weather—cloudy and rainy. Prospects of *aman* and *aus* paddy good, except in low lands in north and east of district where *aus* paddy has suffered much from floods. Prices of food-grains high. General health good.
	RAJSHAHYE AND COOCH BEHAR DIVS.		
10	Dinagepore, Aug. 8 '79	3·33	Slight rain daily. Weather somewhat close. Rice crop generally progressing favorably. Jute nearly all cut; an average yield.
11	Rajshahye, „ 9 „	4·27	Rain nearly every day of week, and done much good after break of fine weather in previous week. Prospects of all crops good excepting those damaged by early floods.
12	Rungpore. „ 8 „	1·73	Weather—warm and sultry. Showers in evenings and nights. State and prospects of crops all over district good, except in Gaibanda sub-division where some injury caused to *aus* in low lands by inundation, which has, however, now much subsided. Public health good.
	Gaibanda ...	0·62	
	Bagdogra ...	0·88	
	Kurigram ...	2·00	
13	Bogra, „ 9 „	3·76	Weather—hot and close, with occasional showers in beginning of week. Transplantation of winter rice nearly finished. Prospects favorable.
14	Pubna, „ 9 „	4·42	Weather—showery. Part of *aus* crop reaped. Prospects of *aman* crop good. Other crops also doing well. Public health good.
15	Darjeeling, „ 8 „	13·58	Weather—rainy. Heavy rain almost every night. In Terai heavy rain done some damage to *bhadoi* rice; transplantation still going on and promises well. In Hills maize being reaped; prospects of other minor crops good.
16	Julpigoree, „ 9 „	1·49	Fine days and wet nights Jute backward on account of rain. Reaping and transplantation going on steadily.
	Cooch Behar, „ 8 „	2·27	Occasional heavy showers. Weather somewhat cooler. Weather very favorable for transplantation which still continues. Yield of early rice will probably be good, while that of jute is likely to be deficient Public health generally good; cases of small-pox still reported in Dinhatta sub-division.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 1° or 1½° lower; and finally, the thermometer, which has furnished the record of temperature at the Surveyor-General's Office during the last 20 years and upwards, is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

JOHN ELIOT,

Meteorological Reporter to the Govt. of India.

METEOROLOGICAL OFFICE, INDIA, the 8th August 1879.

Calcutta and South-Eastern State Railway.

Statement showing Increases and Decreases in maundage of Staples carried over the line during the month of July 1879, *as compared with the corresponding period of July* 1878.

The increase in firewood is due to larger import owing to wood-cutters caring to cut wood for want of sufficient rains for cultivation.

The decrease in hay is merely apparent, for the weight per wagon of this commodity were taken in 1878 as 140 maunds, it being the carrying capacity of the wagons; whereas in 1879 it is taken as 60 maunds, which is the actual weight of the hay that a wagon contains.

The decrease in wooloo is due to above cause to some extent, but chiefly to increased rate of railway freight and less demand in selling market.

The increase in straw is due to some straw having taken rail at Sonapore station instead of cart.

The increase in paddy is due to favourable market at selling stations and less purchase for rice mills.

The increase in rice is due to the working of rice mills on an extensive scale.

The increase in machinery and sundries is insignificant.

The decrease in building materials is insignificant.

The increase in brass-ware is due to greater import to favourable market.

The increase in edible grain is due to greater import to favourable market in the neighbourhood of Azimgunge owing to failure of early crops on account of the early floods of the Padma river.

The increase in cotton is due to greater import.

The decrease in gunny is trifling.

The increase in silk is due to greater export to favourable market.

The increase in sundries is due to greater import.

The decrease in seeds is trifling.

The decrease in wine and beer is trifling.

The decrease in coal is due to larger import in March 1879.

NOTIFICATION.

The 7th August 1879.—The following rules regarding the examinations of forest officers in the provinces under the Lieutenant-Governor of Bengal are, with the sanction of the Government of India, published for general information.

The officers of the Forest Department in Bengal will be required to pass by the same standards of examination (Higher and Lower) in Bengali and Hindustani as are prescribed for police officers. The examinations will be conducted under the orders of the Central Examination Committee, Calcutta, at the several local centres, as provided for in the examination rules of the 21st November 1874. Special papers will, however, be prepared for forest officers in which technical judicial terms will be avoided and such terms substituted as bear directly on forest work.

A forest officer passing the above examinations will be considered to have fulfilled the conditions as regards examination in languages laid down in rules 17 and 18 of the Forest Department Code for the purpose of promotion to higher grades. The examinations passed by forest officers in Hindustani by the military standard in the other provinces or in Bengal previous to the issue of these orders will, however, hold good for purposes of promotion.

Submitting memorials of certain Branch and Master Pilots on the subject of revising the tonnage allotted to the several grades of the pilot service.

Read again the resolution of this Government of the 8th of May 1879, regarding the system under which Commanders or agents of ships had the privilege of applying for particular pilots to pilot their vessels to sea, and the employment of special pilots on board of mail steamers.

1. By the resolution of the 8th May 1879, the agent's right of application is restricted to a request for the services of the pilot who brings a vessel into port, and the employment of "special" pilots is strictly confined to mail lines of steamers. At the time of issuing that resolution it was anticipated that a demand for a revision of the tonnage allotted to the various grades of the pilot service would thereby be created. Owing to the yearly increase in the size of ships coming to Calcutta, the number of ships falling within the tonnage of the Branch Pilots' grade is at present out of all proportion to the small numbers of pilots in that grade, and, as at the Sandheads, pilots get vessels by turn in accord-

ance with their grade, the practical effect of the present arrangement is that the Branch Pilots are now in constant employment. They meet with little or no detention at the Sandheads; and as they are always bringing vessels up, they alone can be applied for to take these vessels down again. Formerly many Masters had regular connections with merchants and commanders, and were applied for to take down vessels of the Branch Pilots' grade; and although, under the orders referred to above, Masters can still be applied for to take down any vessel which they bring up, it is found that they lose a large number even of applications which they might still receive, whilst waiting their turn for ships at the Sandheads.

2. It appears also from the papers submitted that the dullness of trade has been such as to press severely on the Pilots' earnings, especially of the Masters' grade, and an urgent demand is now made on the Masters' behalf for a readjustment of the tonnage, so as to throw at least a fair share of the work of the port into their hands. The present distribution of the tonnage is this:—

Mate Pilots	...	...	Up to 800 tons.
Junior Masters	...	...	801 to 1,175 ,,
Senior Masters	...	...	801 to 1,300 ,,
Branch Pilots	...	...	Above 1,300 ,,

The Port Officers propose, and the Masters ask for, the following scale:—

Mate Pilots	...	...	Up to 800 tons.
Junior Masters	...	...	801 to 1,300 ,,
Senior Masters	...	...	801 to 1,600 ,,
Branch Pilots	...	...	Over 1,600 ,,

3. The Branch Pilots admit that a case for readjustment has been made out, though they dispute the equity of the precise proposal made by the Port Officers, urging that the Masters allowed to run as special pilots take ships of the Branch Pilots' grade all the year round. Allowing, however, for this, and after full and careful consideration of all the circumstances of the case put forward by the Branch and Master Pilots, the Lieutenant-Governor agrees with the Port Officers that some immediate relief for the Masters' grade is required; and His Honor accepts the Port Officers' proposals tentatively, pending the accumulation of information on which finally to settle the question of allotting the tonnage. The Port Officer is meantime requested to submit monthly statements similar to that at the bottom of page 2 of the annual report of the Marine Department for 1874-75. These statements should commence from the 1st of April 1879.

[First Publication.]

Rules made by the Lieutenant-Governor of Bengal under Section 2, Act VII (B. C.) of 1879, for the examination of, and the granting of certificates to, Commanders of Inland Steam Vessels.

N B.—The provisions of Rule 1 will not be applied in the case of candidates who are at the date of the publication of these rules actually in command of a river steamer.

1. Candidates for certificates as commanders of inland steam vessels must be not less than 21 years of age, and have served at least 3 years at sea, and 3 years as mate of a river steamer, or master of a river flat.

2. Every such candidate shall apply for permission to appear for examination in a printed form,* to be filled up by him, and forwarded to the Port Officer, Calcutta, together with such documentary evidence as shall satisfy the Port Officer that the candidate has complied with the conditions of Rule 1 above, and that he is of sober habits and of good character. Each candidate shall forward with his application a fee of Rs. 16.

* Copies will be supplied to intending candidates by the Port Officer, Calcutta, on application.

3. The Port Officer shall notify to accepted candidates the date and hour of examination in fixing which he shall have due regard to the convenience of their employers. The fees of any candidate who is not accepted shall be returned to him.

4. The examination of candidates shall ordinarily be conducted by the Committee which sits quarterly for the examination of pilots, but the Port Officer may at any time convene a special committee for the examination of candidates under these rules.

5. Before proceeding to examine any candidate in the manner provided in the rule next following, the Committee shall carefully test his ability to distinguish the following colours which enter largely into the combinations of signals by day and night, viz. black, white, red, green, yellow, and blue. In the event of any candidate failing to satisfy completely the usual tests for colour blindness in respect of all of these colours, the Committee will decline to proceed with his examination, and will report the case through the Port Officer for the information of the local Government.

6. The Committee will examine each candidate apart, and *viva voce*, in each and all of the following subjects:—

(1).—The names and courses of the river reaches from Calcutta to Mud Point and the extent of the sands in such reaches.

(2).—The sets of the tides within the said limits.

(3).—The names of all Points in the river within the said limits.

(4).—The candidate's general knowledge of soundings in the channels and over the sands within the said limits.

(5) —The tracks over the Moyapore and Royapore flats, the Fultah tracks, and the Eastern and Western Guts.

(6.)—The marks for fair channels or hauling into reaches where such exist.

(7).—The marks for the limits of sands where such exist.

(8).—The rules of the road.

(9).—The management of river steamers under all contingencies of meeting, overtaking, and passing vessels in all possible positions within the limits described in No. 1.

(10).—The anchorages to select in view of the requirements of sea-going vessels.

(11).—The Tide Table.

(12.)—The rules of the Port of Calcutta including the prescribed Storm Signals.

(13).—The provisions of Act VII of 1879.

7. If the candidate satisfy the Committee as to his knowledge of the subjects set forth in the foregoing rule, and generally as to his competency to command an inland river steamer, they shall certify the same to the Port Officer, who will then grant a certificate of such competency in the form appended to these rules.

8. No candidate who fails to satisfy the Committee shall be at liberty to submit a fresh application for examination until six months have passed from the date of such failure.

NOTIFICATION.

The 18th August 1879.—It is hereby notified for general information that the limits of the Port of Calcutta, and of the navigable river and channels leading thereto, as fixed with the sanction of the Governor-General in Council, are severally as described below.

The limits of the Port are—

On the north, a line drawn from the boundary pillar at the Cossipore Gun Foundry Ghât to a point on the opposite side at Ghoosery.

On the south, a line drawn from a point called Paikpara on the north to a creek called Nardukhal on the south.

So much of Tolly's Nullah as lies to the west of a line drawn across the Nullah, 25 feet to the west of Hasting's Bridge.

The limits of the Port include to the east and west so much of the river Hooghly and the shores thereof, as are within 50 yards of high-water mark, spring tides.

N.B.—Within the above limits, the Port is subject to the jurisdiction of the Commissioners for making Improvements in the Port of Calcutta, under the powers conferred upon them by the Lieutenant-Governor of Bengal, by an order published in the *Calcutta Gazette* of the 5th April 1875, which vested them with the powers of Conservator of the Port.

The limits of the navigable river and channels leading to the Port are—

On the north, the Port of Calcutta as above defined.

On the south, a line drawn east and west from the Eastern Channel Floating Light-vessel.

All parts of the navigable channels, called the Eastern and the Western Channels, and of the river Hooghly between the said limits and below high-water line at spring-tides.

N.B.—The Port Officer, Calcutta, is the Conservator of the navigable river and channels thus defined, and they are under his jurisdiction.

REVISED RULES

for the Port of Calcutta within the jurisdiction of the Port Commissioners.

UNDER the provisions of Act XII of 1875, the Lieutenant-Governor is pleased to sanction the following revised rules to be observed within the Port of Calcutta:—

1. No vessel of the burthen of 200 tons or upwards shall enter the Port, or move from one place to another within the Port, between sunset and day-break, without the special permission of the Commissioners: provided that a vessel which has entered the Port before sunset may at once proceed to a safe anchorage at any part of the Port not higher than Prinsep's Ghât. No vessel shall be moored or anchored abreast of the Peninsular and Oriental Company's premises without the permission of the Commissioners.

Vessels not to move at night.

2. Steam tugs having no vessel in tow shall be permitted to enter the Port after sunset at their own risk, but they shall not proceed above Chandpaul Ghât. Steam tugs shall be held liable for any damage which they may cause by moving at night.

Exception in favour of steam tugs.

3. No vessel of the burthen of 200 tons or upwards shall steam, sail, or be towed up on the flood or down on the ebb within the Port above the house of the Superintendent, Government Botanical Gardens, without the special permission of the Commissioners; and in cases where such permission is granted, the officers in charge shall be held strictly responsible for accidents which may occur in consequence of their taking the vessels up or down at a greater speed than is absolutely necessary in order to keep them under command; and in every case where such permission is granted, the speed of the vessel shall not exceed four miles an hour through the water.

Vessels not to move up on the flood or down on the ebb.

4. No vessel shall steam, sail, or be towed up on the ebb or down on the flood within the Port at a speed greater than four miles an hour over the ground.

Speed of vessels restricted.

5. Vessels may at all times drop up or down the Port with their anchors on the ground Steamers of the Peninsular and Oriental Company, or of the Messageries Maritimes, and any other vessels specially permitted to start with the ebb, are prohibited from turning out from their moorings while vessels are dropping down the Reach, but the Deputy Conservator and Harbour Master shall, as far as possible, prevent vessels from dropping down at the time the Peninsular and Oriental Company's steamers and Messageries Maritimes' steamers are about to turn and proceed down the Reach. Pilots and Assistant Harbour Masters having charge of outward-bound vessels are forbidden to pass below the India General Steam Navigation Company's jetty on an ebb-tide whilst the Assistant Harbour Master's flag is flying on board any of the outward steamers belonging either to the Peninsular and Oriental Steam Navigation Company or Messageries Maritimes, and they are not to commence dropping their vessels again until the steamer has turned and proceeded fairly down the Reach.

Vessels dropping up or down

---

*With reference to Port Rule No. 3, the following instruction for the guidance of Assistant Harbour Masters is published for general information —

"Assistant Harbour Masters are forbidden, without a special order from the Harbour Master's Office, to turn outward-bound vessels until they are below the lower College Sand buoy.

6. Vessels entering the Port at neap-tides during the freshets are permitted to come up at slack water at a speed not exceeding four miles an hour over the ground.

Vessels entering the Port on neap-tides.

7. River steamers and tug steamers having no vessels in tow are permitted to move up on the flood or down on the ebb at their own risk, and at a speed sufficient to keep the vessels under command; but in no case shall the speed exceed four miles an hour through the water.

River and tug steamers exempted.

8. All steam launches, steam cargo-boats, steam ferry-boats, and all other small vessels propelled by steam, plying within the limits of the Port, shall have their steering gear so placed that the men steering can have a clear look-out ahead.

9. No steam vessel shall proceed at a greater rate of speed than four miles an hour when inside the moorings, and no steam vessel shall proceed at a greater rate of speed than four miles an hour anywhere within the Port after dark.

10. Special permission may be given by the Commissioners to ferry steamers to move in the Port otherwise than is prescribed in these rules, due limitation being laid down as to place and hours of plying and speed in each case.

Ferry steamers may be exempted.

11. No vessel shall have on board, within the limits of the Port, more than 15lb of gunpowder as defined in the Act, so as not to exceed 5lb of common gunpowder and 10lb of rockets and combustible ammunition.

Vessels having powder in excess of the authorised quantity to be kept outside the Port.

12. When a vessel has on board more than 40 gallons of any inflammable oil, the Master shall inform the Pilot and Harbour Master on board, and the vessel shall not be moved above Mutteabrooj Ghât without the permission of the Commissioners. If the Master delivers to the Pilot or Harbour Master, or the Agent delivers to the Commissioners, a certificate duly attested at the port of shipment, stating that the oil is not inflammable, the vessel shall not be detained at the entrance of the Port. No vessel lying above Mutteabrooj Ghât shall take or keep on board more than 40 gallons of any inflammable oil without the permission of the Commissioners.

Regulations for vessels carrying inflammable oils.

Explanation.—"Inflammable oil" includes petroleum, benzole, kerosine, and any oil, or product of oil, that gives off an inflammable vapour at a temperature of less than one hundred degrees of Fahrenheit's thermometer.

13. Inflammable oil shall only be landed between sunrise and sunset in a covered cargo-boat, and at such places only as may be appointed for the purpose under the sanction of the Government of Bengal, due notice of which shall have been given to the public. No smoking, fire, or light of any description shall be allowed in any such boat during the time that such oil is on board.

Landing of oil in covered boats.

14. The place appointed for landing inflammable oil shall be Neemuck Mehal Ghât, and such oil shall not be landed at any other ghât, except with the special permission of the Commissioners.

Place for landing inflammable oil.

15. The Harbour Master and his Assistants shall not be interfered with in the execution of their duty. After a vessel is moored she shall not be moved without permission of the Harbour Master.

Harbour Master's Assistants not to be interfered with.

16. All vessels within the Port shall take up such berths as may be appointed for them by the Commissioners or the Deputy Conservator, and shall move from one berth to another when ordered to do so.

Vessels to be berthed and moved at the discretion of the Commissioners.

17. All vessels moored in the stream shall keep a clear hawse.

Vessels in the stream to keep a clear hawse

18. No vessel shall use any of the moorings, whether fixed or swinging, without permission of the Commissioners.

Moorings not to be occupied without Commissioners' permission.

19. All applications to be hauled into or cast off from the moorings, or for any other assistance, shall be made either personally or by letter to the Deputy Conservator. Applications will, as far as possible, be complied with in order according to date of receipt.

Application for Assistant Harbour Masters to be made to the Deputy Conservator.

20. All vessels on arrival in the Port shall rig in their jib and driver booms, and shall keep them so rigged in until the Pilot takes charge of the vessel at Garden Reach for the purpose of taking her to sea. They shall also strike their yards and masts when ordered by the Commissioners. Vessels proceeding to the jetties shall remove all boats and other projections likely to damage the jetties and cranes.

Vessels arriving in the Port to rig in the jib and driver booms.

21. From the 1st day of May until the 30th day of June, and from the 1st day of October to the 15th day of November, all vessels in the Port shall have their royal and top-gallant yards on deck, and mast-ropes rove in readiness to send the top-gallant masts down at short notice when required, that is, when the storm warning signal (*double cone*) is displayed; and shall send down their top-sail yards, and house top-masts, when the storm signal (*drum*) is hoisted, or when ordered to do so by the Commissioners. Vessels about to leave the Port may send their top-gallant yards aloft 24 hours before leaving the moorings. Vessels entering the Port between the above dates, having top-gallant masts and yards aloft, may be placed in moorings, and the top-gallant yards of such vessels shall be sent down within 24 hours after they are moored.

Rules for regulating striking of yards and masts.

Additional precautions to be taken on approach of bad weather.

* 22. On the occurrence of signs of an approaching cyclone, a black drum will be hoisted during daylight from the flagstaff on the roof of the Sailors' Home, Bankshall Ghât, and another from the flagstaff at the Government Dockyard, Kidderpore. During the night, under similar circumstances, four bright lights in a square will be exhibited from the same flagstaffs, one at each yard-arm. When these signals are displayed, Masters of vessels shall immediately take every additional precaution in their power to make the vessels snug and secure; they shall stow their top-gallant masts on deck below the rails, and shall have awnings furled, and the lower and top-sail yards counterbraced or pointed to the wind, if not struck. The cables shall be bent to both bower anchors when possible.

STORM SIGNALS.

	Day.	Night.
This signal means, cyclone probable, look out, send down royal and top-gallant yards, reeve mast ropes, furl awnings ...	A black double cone ...	... Three lights in a triangle.
This signal means, cyclone approaching, carry out the intructions laid down in Port Rule No. 19	A black drum ...	... Four lights in a square.

Free channel of 200 yards to be kept.

23. A free channel of not less than 200 yards width shall be kept for ships moving up or down the river in the Port, and also free passages to piers, jetties, landing-places, wharves, quays, docks, and moorings; and all vessels shall move when ordered to clear such channels or passages.

Vessels to have an anchor at the bow.

24. Vessels lying in the stream, or at the moorings shall at all times have at least one anchor at the bow, with a cable bent and ranged ready to let go.

Stern moorings in time of bores

25. All vessels placed in the moorings on the ebb-tide shall during spring-tides, when bores are expected, have their best hawsers passed from each quarter pipe abaft the mainmast, and made fast to the stern moorings if possible, otherwise to their own chains close to the moorings, and hove taut with sufficient strain to relieve the jerk on the chains and bitts when the bore comes up.

Vessels to remove projections from sides.

* 26. Every ship or vessel within the Port shall remove any anchor or spar, or other substance projecting from her side, when ordered to do so.

Vessels anchored or under weigh in the Port to show lights between sunset and sunrise.

27. All vessels anchored in the stream within the Port shall exhibit between sunset and sunrise, where it can best be seen, but at a height not exceeding twenty feet above the hull of the vessel, a white light in a globular lantern of eight inches in diameter, and so constructed as to show a clear, uniform, and unbroken light visible all round the horizon, and at a distance of at least one mile. Vessels under weigh at night shall show the lights prescribed by the Admiralty Regulations.

Cargo and other boats to carry a light.

28. All coasting vessels, cargo-boats, bhurs, budgerows, up-country boats, and passenger-boats, when under weigh on the river after dark within the limits of the Port, shall carry a white light in a lantern in the forepart of the vessel, where it can be distinctly seen; and all steam vessels shall show when under weigh the lights prescribed by the Admiralty Regulations.

Steamers occupying moorings not to move screws or paddles, except under limitation

29. Steam vessels occupying moorings shall not turn their screws or paddles without giving sufficient warning of the intention to boats in the vicinity; they shall not put full power on when trying their engines in the moorings, nor shall any trial under steam be permitted so long as a vessel is lying at the jetties.

Smoking and use of lights prohibited below the upper deck.

30. No person shall smoke or use naked lights of any description in the hold or between-decks of any vessel lying in the Port. Closed lantern secured by lock and key, and in charge of an officer of the vessel, shall alone be taken between-decks or into the hold.

Application of foregoing rule to ships in dock.

31. The foregoing rule shall also apply to vessels in dock.

Fires permitted only in galleys within stated hours

32. Fires shall be permitted only in galleys or fire-places regularly constructed for the purpose, such fires to be kept alight only between day-break and 9 P.M. Cooking fires shall not be allowed on board of vessels in dock.

Gunpowder and combustible matter not to be taken into dock.

33. All gunpowder shall be landed before a vessel is put into dock.

Proprietors of docks to take precautions against fire.

34. The proprietor of every dock shall keep on the premises a good fire-engine, with serviceable hose and fire-buckets ready for immediate use, with a supply of water at hand.

Obligation of vessels to be provided with fire-buckets.

35. With a view to the extinction of fires, all vessels in Port shall be provided with three buckets for every hundred tons of registered measurement up to 600 tons, and two additional buckets for every 100 tons above 600: provided that the total number of buckets shall not be required to exceed 50 in any vessel. One-half of such buckets shall be left constantly hung up on the quarter deck or other convenient place.

* See also notification of Government, dated 20th November 1874, appended to these rules regulating the storm signals for use in the Port and the Port approaches.

Measures to be taken by vessels on the occurrence of a fire.

* 36. When fire has broken out in any vessel, the officers in charge of all vessels in neighbouring moorings or anchorage shall furl their awnings, get their force-pumps ready for use, and prepare for slipping their cables and chains, seeing specially that the pins of the shackles can be immediately knocked out.

Precautions against indecent exposure.

37. The river bank being a place of public resort, Masters of vessels in moorings shall have the forecastles and heads of their vessels screened in, so as to avoid indecent exposure.

Lying at single anchor prohibited.

38. No vessel shall lie at single anchor in the Port unless a Pilot or Assistant Harbour Master is on board.

Signal of departure to be hoisted.

39. All vessels about to leave the Port shall hoist the Blue-Peter at the fore at least twenty-four hours before leaving the moorings, and shall keep it hoisted until the Pilot takes charge of the vessel to take her to sea.

40. With the exceptions hereinafter noted, no vessels of or exceeding 200 tons burthen shall, without the special sanction of the Commissioners, move up or down the Port through the ship opening of the Howrah Bridge, except such vessel is propelled or towed by steam against the tide, and then only at such a rate of speed not exceeding four miles an hour over the ground, as is absolutely necessary to keep good steerage way.

Exceptions.—Tug and river steamers when not towing or propelling other vessels, may drop through the bridge opening, under steam, head to tide.

River flats may be dropped or warped at slack water through the ship opening or through the 60 feet openings.

41. No steam vessel shall attempt to pass any other vessel proceeding in the same direction whilst between the pontoons of the Hooghly Bridge.

42. No steam vessel shall have in tow more than two cargo-boats when proceeding through the bridge opening with the tide.

43. All steam vessels when passing through the bridge opening shall sound their whistles as a warning to other vessels.

Penalties.

44. Any person committing an infringement of any of the foregoing Port Rules is liable to the penalties prescribed by the Act.

Special Rules for regulating the Discharge and Loading of Gunpowder on shipboard.

45. All inward-bound vessels carrying gunpowder, the total quantity of which is in excess of 15lb, are prohibited from proceeding above Budge-Budge, and the Master of any vessel lying within the Port, or in the river above Budge-Budge, which shall have on board any gunpowder in excess of 15lb, shall be liable to the penalty provided in section 34 of the said Act XII of 1875; provided that boats will be permitted to bring as far as Neemuck Mehal Ghât, under cover of a pass to be granted by the Commissioners, 50lb of gunpowder, the property of dealers and consignees.

46. All such gunpowder, in excess of the prescribed quantity, 15lb, must be landed and deposited in the magazine at Moyapore.

47. The Magazine-keeper will take charge of the gunpowder immediately on its being conveyed to the shore at Moyapore, and will deposit it in the magazine.

48. For the convenience of vessels having gunpowder on board, a properly-constructed powder-boat will be always in attendance off the magazine for landing and shipping powder. No charge will be made for the use of the boat for landing ship's powder, but the responsibility of the keeper in respect of the powder will not commence until it is landed on the bank, and will cease as soon as it is shipped on board the boat. Every precaution will be taken to ensure the safety of the powder while in the boat, but the landing and shipping is at the risk of the vessel.

49. Vessels bringing consignments of trade or Government powder will be liable to pay landing charges for the use of the boat if the magazine boat is used, and should passing vessels require the use of the boat to put out or receive ship's powder, such vessels must be accommodated before the boat can be used to discharge powder or ammunition brought as cargo.

50. In order to avoid unnecessary detention, Masters of vessels requiring the use of the powder-boat are required to hoist a flag at the foretopmast head on coming in sight of the magazine, as a signal to the keeper to have boat and coolies in attendance.

51. Masters of vessels are required to mark the names of their respective vessels on the barrels and packages of gunpowder previously to their being landed, and, if not marked, they will not be received by the magazine boat.

52. Gunpowder shall not be landed or received into the magazine when artificial lights are required to be used.

53 The Magazine-keeper shall give to the Master or other person making the deposit a receipt for the number of packages, and he shall be accountable to such Master or other person for the re-delivery of such packages.

---

* For the better security of vessels against damage or loss by fire a steam floating fire-engine has been provided, and is always kept under steam, ready to proceed at once to any place where her services may be required. The fire-engine station is at Fort Point, where the vessel is moored, and where a look-out is kept day and night. In case a fire breaks out on board a vessel, notice should at once be sent to the fire-engine station.

54. A native clerk will be always in attendance in the powder-boat, and will receive from the Master the declaration required by section 30 of the Act, and grant the receipt specified in the foregoing rule.

55. If any vessel shall be prevented by stress of weather, or by being in distress from landing or depositing such gunpowdor in excess of the quantity allowed as aforesaid, such vessel may be permitted to come up to the lower limits of the Port, but shall not proceed above Mutteabrooj Ghât, and the Master of such vessel shall forthwith give notice to the Conservator of his having such gunpowder on board, and shall obey his directions relating to the same.

56. Masters of vessels outward bound, who may require gunpowder for their outward voyage, shall not take gunpowder on board in any part of the river above Budge-Budge, with the exception of a quantity not exceeding 15lb.

57. Masters of vessels who have deposited ship's powder at the magazine should inform the Deputy Conservator of the date on which the vessel will pass the magazine outward bound, and on receipt of this information, orders will be forwarded to the keeper to place the powder in the boat, and send it off in such time as to avoid any detention of the outward-bound vessel. Before delivering the powder, the receipt granted by the Magazine-keeper must be given up.

58. Delivery of powder into boats at the magazine for conveyance to Calcutta will only be granted upon orders issued from the office of the Commissioners.

59. No boat containing powder shall be allowed to proceed above Neemuck Mehal Ghât. All powder shall be landed at Neemuck Mehal Ghât, and no powder shall be landed at any other ghât, except with the special permission of the Commissioners.

60. The two foregoing rules shall not apply to Government powder-boats, which will be allowed to enter the Port and discharge their powder under the rules laid down by the Inspector-General of Ordnance.

61. No smoking and no fire or light of any description shall be permitted on board of any boat having gunpowder or combustible ammunition on board.

62. No powder shall be landed within the Port at any time when artificial light is required to be used.

Special Rule.

63. The provisions of sections 38, 39, 40, 41 of the Act have been specially extended to the Port of Calcutta under the operation of the provisions of section 3 of the Act.

Rules for the navigable River and Channels within the jurisdiction of the Port Officer.

THE Lieutenant-Governor also directs that the following rules shall be observed in the navigable river and channels leading to the Port of Calcutta :—

1. All vessels anchored in the stream in the channels of the river Hooghly leading to the Port of Calcutta shall exhibit between sunset and sunrise, where it can best be seen, but at a height not exceeding 20 feet above the hull of the vessel, a white light in a globular lantern of eight inches in diameter, and so constructed as to show a clear, uniform, and unbroken light visible all round the horizon, and at a distance of at least one mile. Vessels under weigh at night shall show the lights prescribed by the Admiralty Regulations.

2. All coasting vessels, cargo-boats, bhurs, budgerows, up-country boats, and passenger boats, when under weigh on the river after dark within the navigable river and channels, shall carry a white light in a lantern in the forepart of the vessel where it can be distinctly seen ; and all steam vessels shall show when under weigh the lights prescribed by the Admiralty Regulations.

3. Vessels meeting with any accident, or causing damage to others, while in charge of an officer under the authority of the Port Officer, or of any Pilot, have no claim on Government for such damage ; but the parties concerned are to represent the case to the Port Officer, who will take such cognizance of the same as the merits of the case may seem to require.

4. Vessels are prohibited from throwing overboard ballast or rubbish of any kind detrimental to the bed of the river. All Pilots are strictly enjoined to see that this rule is observed, and to report any infraction of it. As in other cases of breaches of the Port Regulations to which any penalty attaches, whenever and as often as the penalty is incurred, a bill will be made out against the Commander for the amount, and no Pilot will be granted to the vessel on board of which the offence has been committed until such fine be paid.

5. The Conservator of the navigable river and the channels leading to the Port of Calcutta, or any person subordinate to him, may, at any time, board any vessel in order to ascertain that the rules are carried out.

6. Any infringement of the above rules will subject the offender or offenders to the penalties laid down in the Act.

GENERAL DEPARTMENT.

MARINE.

NOTIFICATION.

Calcutta, the 20th November 1874.

THE following arrangements of storm-signals for the approaches to the Port of Calcutta, as well as within the Port, are published for general information, in supersession of this Government Marine Resolution dated 12th April 1873, which was published in the *Calcutta Gazette* of the 23rd idem:—

I.—Signals for the approaches to the Port of Calcutta.

When there is bad weather in the Bay of Bengal, the following signals will be hoisted at the Flagstaff near the Light-house on Saugor Island, at Mud Point, and at the Flagstaff, Diamond Harbour, near the Telegraph Station, on receipt of instructions telegraphed from the Meteorological Office, Calcutta:—

During Day.

Name.	Shape.	Signification.
Bad weather signal.		A single cone indicates that bad weather (such as usually precedes, but is not always followed by, a cyclone) is probably prevalent in the Bay.
Warning signal.		A black double cone indicates that the passage of a cyclone is probable, as a cyclonic vortex is believed to have been formed in the Bay. When this signal is up, Pilots will not put to sea unless in their judgment the local weather symptoms are such that this course is not imprudent; and unless the Master, concurring in this opinion, distinctly takes upon himself the responsibility of going to sea, and gives the Pilot a writing to that effect.
Danger signal.		A black drum indicates that a cyclone is probably approaching. When this signal is hoisted, Masters or Pilots in charge of vessels are forbidden to put to sea from Saugor, or proceed down from Diamond Harbour, and should make their vessels as snug and secure as possible.

At Night.

Bad weather signal.		Two lights in a vertical line. Cyclonic disturbance in the Bay.
Warning signal.		Three lights in a triangle. Cyclone probable.
Danger signal.		Four lights in a square. Cyclone approaching.

The following rules for the guidance of Running Pilots are also published for general information:—

Rules 28A and 28B of the Rules for the Guidance of Running Pilots.

Rule 28A.—When the warning signal, as described in the notification of the 20th November 1874, is hoisted on the Flagstaff at Saugor Island near the Light-house, or at Mud Point, officers in pilotage charge of vessels will not put to sea, unless in their judgment the local weather symptoms are such that this course is not imprudent; and unless the Master, concurring in this opinion, distinctly takes upon himself the responsibility of going to sea, and gives the Pilot a writing to that effect.

Rule 28B.—When the danger signal, as described in the notification of the 20th November 1874, is hoisted on the Flagstaff at Saugor Island near the Light-house, or at Mud Point, officers in pilotage charge of vessels shall not put to sea, but should make the vessels under their charge as snug and secure as possible; nor should they proceed below Diamond Harbour when a black drum is hoisted at the Flagstaff at that station.

II.—Signals for the Port of Calcutta.

The following storm-signals only are to be used within the limits of the Port of Calcutta, and are to be hoisted on the yard-arm of the Flagstaff near the Government Dockyard, Kidderpore, and on the yard-arm of the Flagstaff on the roof of the Sailors' Home, on the receipt of instructions from the Meteorological Office :—

During day.

Name.	Shape.	Signification.
Warning signal.	*Double cone.*	Cyclone probable.
Danger signal.	*Drum.*	Cyclone approaching.
	At Night.	
Warning signal.	*Three lights in a triangle.*	Cyclone probable.
Danger signal.	*Four lights in a square.*	Cyclone approaching.

NOTIFICATION—POLITICAL.

Simla, the 8th August 1879.

No. 2084*E.*-*P.*—The following extract from the *London Gazette*, dated 1st July 1879, is published for general information :—

At the Court at *Windsor*, the 26th day of *June* 1879.

PRESENT :

The QUEEN'S Most Excellent Majesty.
His Royal Highness Prince Leopold.
Lord President.
Lord Privy Seal.
Sir Michael E. Hicks-Beach, Bart.

Whereas by section 18 of "The Extradition Act, 1870," it is among other things enacted that if by any Law made after the passing of the said Act by the Legislature of any British Possession, provision is made for carrying into effect within such possession the surrender of fugitive criminals who are in, or suspected of being in, such British Possession, Her Majesty may, by the Order in Council applying the said Act in the case of any Foreign State, or by any subsequent Order, either—

Suspend the operation within any such British Possession of the said Act, or of any part thereof, so far as it relates to such Foreign State, and so long as such law continues in force there and no longer;

Or direct that such Law or Ordinance or any part thereof shall have effect in such British Possession, with or without modifications and alterations as if it were part of the Act:

And whereas by an Ordinance enacted by the Legislative of Griqualand West, the short title of which is "The Extradition Ordinance, Griqualand West, 1879," it is provided

that "all powers vested in and acts authorized or required to be done by a Police Magistrate or any Justice of the Peace in relation to the surrender of fugitive criminals in the United Kingdom under 'The Extradition Acts, 1870 and 1873,' are thereby vested in and may in the Province be exercised and done by any Resident Magistrate in relation to the surrender of fugitive criminals under the said Acts:"

And whereas it is further provided by the said Ordinance that the said Ordinance shall not come into operation until Her Majesty shall, by Order in Council, direct that the said Ordinance shall have effect within the Province as if it were part of "The Extradition Act, 1870," but that the said Ordinance shall thereafter come into operation as soon as such Order in Council shall have been publicly made known in the Province:

Now, therefore Her Majesty, in pursuance of "The Extradition Act, 1870," and in exercise of the power in that behalf in the said Act contained, doth by this present Order, by and with the advice of Her Majesty's Privy Council, direct that the said Ordinance shall have effect in the Province of Griqualand West without modification or alteration, as if it were part of "The Extradition Act, 1870."

And the Right Honorable Sir Michael Edward Hicks-Beach, Bart., one of Her Majesty's Principal Secretaries of State, is to give the necessary directions herein accordingly.

R. A. STERNDALE,
Assistant Commissioner of Paper Currency.
PAPER CURRENCY DEPARTMENT, the 12th August 1879.

Notice.

PUBLIC WORKS DEPARTMENT, IRRIGATION BRANCH.

ARRAH DIVISION.

NOTICE is hereby given that the right to collect tolls from the 1st of September 1879 to the 31st August 1880 at the Sone ferry and causeway, Dehree, on the Grand Trunk Road, will be sold by public auction at the office of the Executive Engineer, Arrah division, at Arrah, on Tuesday, the 26th August, at 2 P.M.

(2.) The sale will be subject to conditions which will then and there be produced, a draft copy of which (subject to modification) may be seen at the office of the Executive Engineer after the 13th instant.

(3.) The tolls will be put up at an upset price of Rs. 6,000 (six thousand) per annum, and the highest bidder above that price will, subject to paragraph 6, be accepted. Bids must advance by Rs. 50 (fifty) at least at a time, and no bid will be entertained from a person who has not previously deposited Rs. 100 (one hundred), to be forfeited unless the earnest-money is paid up.

(4.) The right will be let at a yearly rate, and the person whose bid is accepted will be required to deposit, immediately after his bid is accepted, the sum of Rs. 200 (two hundred) as earnest-money. He will be required to, within forty-eight hours of the sale, sign a bond embodying the conditions produced, and deposit such further sum as will make up one month's rent, together with Rs. 50 (fifty), the cost of the stamps on which the bond is written, and which must be borne by the lessee.

(5.) If within forty-eight hours from the time of sale the person whose bid is accepted does not sign the bond and deposit a full month's (one-twelfth of a year's) rent, plus fifty rupees, the sale will be liable to be declared by the Executive Engineer null and void, and the rupees two hundred deposited as earnest-money will be forfeited to Government.

(6.) The sale will be subject to confirmation by the Superintending Engineer, Sone Circle.

C. W. ODLING, C.E., Executive Engineer.
DEHREE, the 7th August 1879.

Lime Supply for Bengal.

NOTICE is hereby given that the leases of the undermentioned lime quarries situate in the Khási and Jaintiá Hills, Assam, will be put up to auction sale at the office of the Deputy Commissioner of Sylhet at noon on the 17th of October 1879.

The leases will be for three years, commencing from 1st November 1879 and ending 31st October 1882.

Not more than three leases will be permitted to be purchased in one interest.

Any quarry not worked, *i.e.*, not worked to turn out more than 40,000 maunds per annum, will be liable to resumption, and the Government will be at liberty to work such resumed quarry by direct agency.

The rent will be payable half-yearly in advance.

Further conditions will be duly notified at the time of sale.

The Indian Law Reports.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

SUGGESTIONS FOR IMPROVING THE SANITARY CONDITION OF TOWNS AND VILLAGES IN INDIA.

No. $\frac{9}{254\text{-}70}$.

Extract from the Proceedings of the Government of India in the Home, Revenue, and Agricultural Department (Sanitary),—under date Simla, the 7th July 1879.

READ—

Despatch from Her Majesty's Secretary of State for India, No. 58 (Statistics and Commerce), dated the 24th April 1879, forwarding a memorandum by the Army Sanitary Commission on the practical application of sanitary principles to towns and villages in India.

RESOLUTION.

THIS memorandum by the Army Sanitary Commission puts into a succinct and convincing shape much that has been said from time to time by Sanitary Commissioners in India; and it embodies a great deal that is contained in the village and town conservancy rules, which have been circulated in the different provinces of India. The characteristics, physical and social, of the several provinces of India differ widely; and it would not be possible to lay down broadly that the zemindar or village proprietor is bound to provide and maintain sufficient tanks or wells for the villagers, to keep the village site in a sanitary condition, and to improve the ventilation of the village. In some large provinces of India there is no such person as the village zemindar or proprietor; while in other provinces it would be impossible for the personage, who in some degree corresponds to the squire of an English village, to undertake these duties.

2. The memorandum suggests that the local authorities in India must decide as to the legislative and administrative measures which should be taken to enforce the principles now laid down. So far, however, as municipal towns are concerned, the existing laws on the subject, if properly enforced, would appear to suffice; and for most towns sufficient rules have been framed under those laws. In towns, action is being taken, with varying success, in the directions indicated in paragraph 10 of the Army Sanitary Commission's memorandum; but funds do not permit of all that is needed being done at once, or in a short time. The memorandum, however, contains many practical suggestions of great value, and copies should be furnished to all municipal towns in order to assist the municipal bodies in initiating and directing measures of conservancy.

3. As to village conservancy, it will be necessary to trust to the gradual improvement of village arrangements by the people themselves as they make progress in education, in the appreciation of sanitary measures, and in wealth. It is questionable whether active police interference in such matters in rural tracts would be productive of much good, while such interference would certainly involve risk of oppression. The vaccination establishments, which are now being distributed throughout the country, can gradually, and in the course of years, help the people to accomplish much sanitary improvement. When simple sanitary principles and rules are universally taught, as, it is hoped, will soon be the case in schools, a generation may grow up who, at any rate, will know the village improvements which are desirable, and the reasons why they are desirable. For the present, the Government of India would not advocate stringent legislative or administrative measures for enforcing village sanitary reforms, which would not be understood by the people. When, however, the sanitary condition and healthfulness of towns have been generally brought up to a fair standard, and when the objects of sanitary reform are more generally understood, it may be time to initiate stringent legislative or other measures for enforcing sanitary principles in the interior. Until that time, precepts and advice from Government officials of all departments and ranks, with occasional help from such local funds as may be available, should be directed to—

(*a*) improving and keeping clean the sources of water-supply in villages;

(*b*) systematizing and rendering, as far as possible, innocuous the national habit whereby villagers of all ages and ranks resort to the fields to obey the call of nature;

(*c*) gradually improving the surface drainage of village sites.

ORDER.—Ordered, that copy of this Resolution, with copy of the despatch from the Secretary of State, dated 24th April 1879, and its enclosure, be forwarded to the several Local Governments and Administrations for information and guidance.

Also to the Public Works Department for information.

C. BERNARD,

Offg. Secretary to the Govt. of India.

Statistics and Commerce, No. 58, dated India Office; London, the 24th April 1879.

To His Excellency the Right Honorable the Governor-General of India in Council.

My Lord,—I forward herewith a copy of remarks by the Army Sanitary Commission* on the practical application of sanitary principles to towns and villages in India. The former Minute on this subject, referred to by the Commission, was printed at page 279 of the "Report on Measures adopted for Sanitary Improvements in India," of which 200 copies were furnished to your Government in 1870.

* Dated 19th March 1879.

2. Of the present paper a similar number of copies will be forwarded through the Store Department, with a view to their being generally distributed throughout your Presidency.

I have the honour to be,

My Lord,

Your Lorship's most obedient, humble servant,

CRANBROOK.

Memorandum of the Army Sanitary Commission on the practical application of Sanitary Principles to the smaller class of Towns and Villages in India.

1. On August 5th, 1870, the Commission sent to the Secretary of State for India in Council a printed Minute,* showing the results of enquiries called for by the India Office into the sanitary condition of groups of population in Bengal Presidency. But there have been no facts since that date, at least in regard to villages, to show whether any decided practical steps have been taken to remedy the evils then brought to light.

2. By a Resolution of the Government of India of November 1st, 1877, the great principle was enunciated that "the improvement in the sanitary condition of towns and "villages is the best safeguard against cholera, especially improvement of the water-supply, "the drainage, the conservancy, and the habitations. It should be impressed upon the "people that these matters require constant and careful attention, and that such attention "should be redoubled if cholera threatens; and just as all such improvements are to be "encouraged and aided as far as possible, so, on the other hand, all insanitary conditions are "to be avoided."

3. The following are the passages in the Minute referred to bearing on the present subject in Bengal. (Here follows an extract from bottom of page 283 to bottom of page 286 of the Appendix of India Office Report,—"Considering . . . . school work.")

4. Since the date of these statements, the Commission has obtained much information from other parts of India, and as it has been found that the funds at the disposal of local municipalities are too limited to admit of the execution of what are properly sanitary works, all that can be done at present, either with the municipalities or with the villages, is to take the local agencies as they are, and try to make the best of them.

Under these circumstances, the Commission has considered that it might be useful to revert to the subject, and they have attempted in the following pages to deal with the causes of disease in both sets of cases with the smallest outlay, and to point out the local authorities which may possibly be employed in the work, leaving, of course, the whole administrative arrangements in the different Governments to be decided in India.

I.

Practical Hints for the Sanitary Improvement of the smaller Municipal Towns in India.

1. In the larger cities and towns in India, employing their own Engineers and Officers of Health, the foundation of sanitary improvement must be laid in works of domestic sewerage and drainage, in water-supply brought from a distance, in surface levelling, paving, and cleansing, and in surface drainage. These, together with opening up new thoroughfares, tree planting, and improved house construction, where sufficient funds are available, will improve the general health, and mitigate or prevent outbreaks of epidemic disease in all the larger groups of population. They are not only the most effectual measures which can be adopted for these objects, but for large, dense populations they are in the end the cheapest.

In the smaller municipalities the chief difficulty that lies in the way of adopting them is that where there are a few thousand people, most of whom are of the poorer classes, funds are limited, and there is no local source from which the capital sums required for the execution of permanent works can be drawn, at least at present. Although public health measures to be executed mainly by hand labour may be more costly than the current outlay for permanent works, still much may be done among small populations by the proper application of limited income; and the object of the present paper is to point out, as far as it may be practicable to do so, the chief directions in which limited local expenditure may be applied to

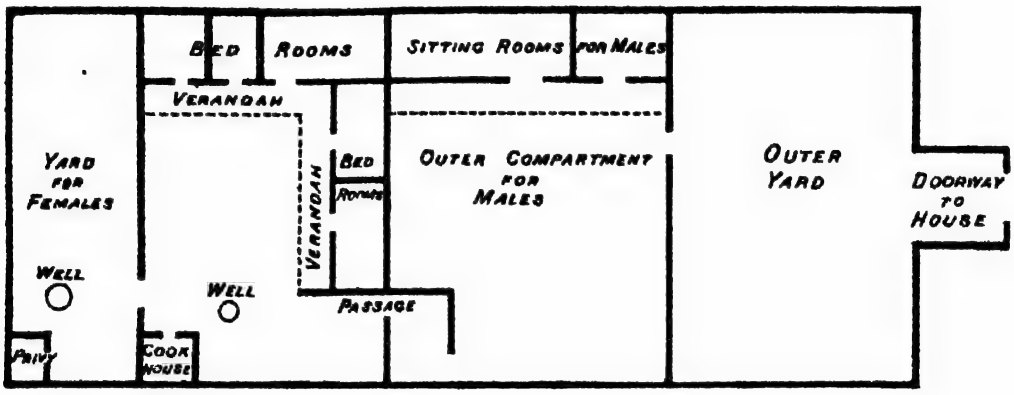
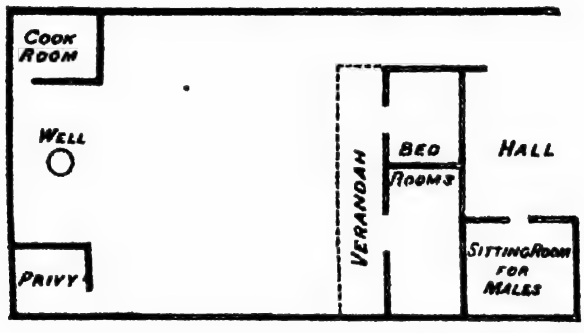
effect this object. But the nature and extent of legislative and administrative measures and authorities required to give practical effect to the principles embodied in the following paragraphs, whether for small municipal towns or villages, must be left solely to the authorities in India.

2. In all municipalities the two primary means of preventing outbursts of disease are strict attention to domestic cleanliness, and the protection of water-sources.

There is every reason for suspecting that the chief disease causes in all Indian towns are to be found within the walls which enclose the compounds and houses.

Here are sketches of two classes of houses, taken from a Bengal report. The first of well-to-do people, the second is a middle class house :—



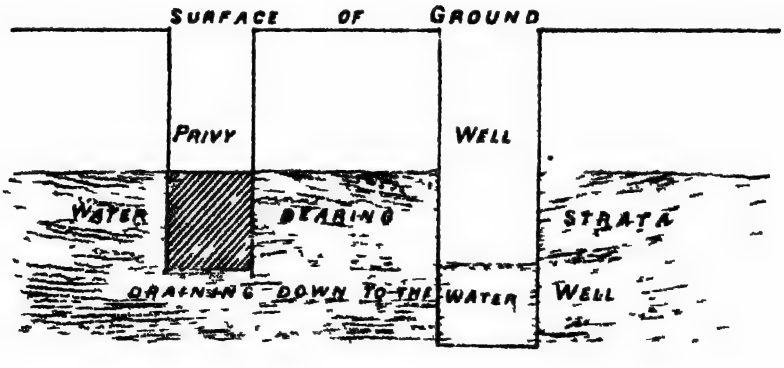


These houses, from being enclosed within walls, have no proper ventilation, and the rooms are so dark as sometimes to require a lamp day and night.

In some parts of India it is the practice to cover in the entire court-yard, so that foul exhalations are prevented from escaping into the air. In such cases ventilation of the court as well as of the houses is required. The huts of the poor have generally no enclosure walls, and have one door to the hut; they have hence more light and air.

3. The privies in all these houses are described as being "made of wells in which the dirt accumulates for years."

The plans show that the water wells are dug in the same soil close to the privies, and this rough sketch shows the dangers to health arising from such an arrangement :—



There cannot be a doubt that the well water under such circumstances is liable to constant pollution by infiltration of liquid filth from the privy, and also by foul surface washings from the yard, which is often in an exceedingly filthy state from the urine and dung of animals as well as of human beings.

Where houses have been long inhabited, the whole ground within the court walls under the sleeping rooms from which the well draws most of its water is fouled, and the inhabitants are exposed to all the consequences of living on foul ground, breathing impure air, especially at night, and drinking unwholesome water.

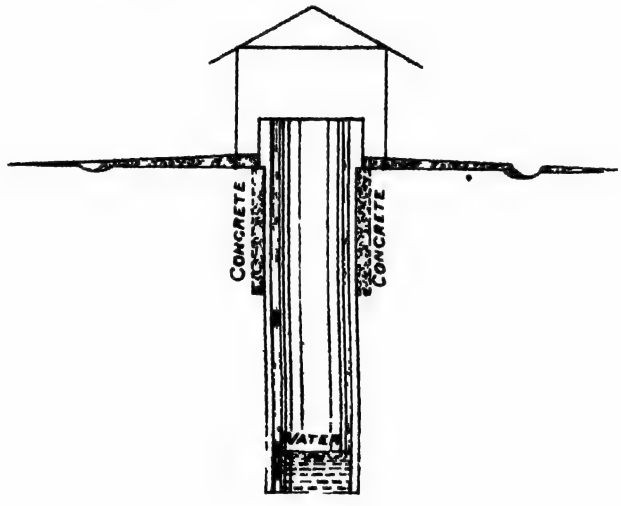
The simplest way of avoiding these dangers would be by rebuilding the houses on new ground, and adopting precautions to prevent the subsoil being polluted with filth. But as this cannot be done, the next best thing is to remedy the present evils as far as it may be practicable to do so.

4. The first step is obviously to prevent further pollution of the ground by cleansing and filling up all cesspits and filth wells. In many instances it would be advantageous to dig up and remove the surface earth of the compounds, and to replace it with fresh clean earth. Wherever means are available, the surface of the court or compound should be covered with paving, or some other hard, impermeable material, such as rammed kunkur, and drained by channels to the streets outside.

Where a durable material for surface paving cannot be obtained, the most efficient substitute would probably be found in fresh clay hard rammed, so as to form a hard impervious surface, to be renewed by clean material at short intervals.

No cattle should ever be kept in small compounds. Besides the constant danger to health inseparable from this practice, it ensures rapid pollution of the subsoil, augments the difficulty of cleansing, and fouls the well water.

5. Where the cesspit has been close to the house well in the manner shown in the plans, it would be better to fill the well up with clean earth, and dig another as far as possible from the site of the cesspit. All new wells should be cased outside with clay or cement, or with concrete, to a sufficient depth to cut off the surface and subsoil water from the well, in the manner shown in the following section :—



The well is dug and built up in the usual way, but when it comes within 8 or 10 feet of the surface the tube must be coated outside with puddle or concrete, to cut off the upper portion of the water. The tube of the well should be carried two feet above the ground level, and covered with a roof; the ground round the well should also be coated with concrete and sloped away from the well to open channels, as shown in the plan. With these precautions, which are not difficult to take, and not costly, any well within a compound, except in very foul ground, would yield wholesome water.

6. The abolition of well or cesspit privies being absolutely necessary before the water for domestic use can be safe, the only principle that can be adopted in their stead is that of continuous daily cleansing, and removal of all house filth and refuse of food, &c. The floor of the privy should be paved or covered with concrete or asphalte, and a moveable vessel placed upon it to be daily removed and emptied by sweepers, with or without the use of dry earth. There is absolutely no other safe plan except daily removal. If from any local cause daily removal cannot be carried out, then it may be suggested that the municipal authority should construct groups of privies with private keys for the use of families, and that all conveniences of the kind within private compounds should at the same time be abolished. The whole surface of the compound should be kept clean day by day.

7. As much of the fever from which the people suffer is due to sleeping on the ground, no greater improvement could be introduced by the municipality than inducing the people to use beds raised above the ground level.

Were these simple improvements carried out in the smaller municipal towns, there would be considerable improvement in the public health so far as the houses are concerned.

They may be summarized as follows :—

(1.) Abolishing all cesspits and privy wells, filling them up with clean earth and substituting for them vessels to be emptied daily, or public privies to be provided as suggested above; all other privy arrangements to be improved in the same way, and everything removed daily.

(2.) Removing all wells from the polluted ground near cesspits, and digging new wells as far as possible from them, on the principles already stated. Old wells to be filled up.

(3.) Removing cattle from house compounds, improving the surface, and maintaining strict cleanliness.

(4.) Raising all beds and sleeping places above the ground level.

(5.) Where people resort to the fields for natural purposes, provision should be made for immediately covering the deposits with fresh earth, and certain limits should be distinctly marked by posts, within which no inhabitants should be permitted to obey the calls of nature.

8. Wherever the municipality has been able to provide pure water, brought from a distance, it would be better to close all house wells, or to discourage their use. In this way the house problem would be simplified.

9. The next most important class of sanitary improvements are those required for the surface of the town outside the houses, and have for their object surface cleanliness, surface drainage, filling up and levelling all hollows and water holes not needed for supplying water for domestic purposes, or for bathing, or for watering animals, and removing animals and unwholesome trades beyond the outskirts of the population.

10. It will be seen that every one of these objects can be attained without outlay of capital. All that is required is labour and a suitable direction of it.

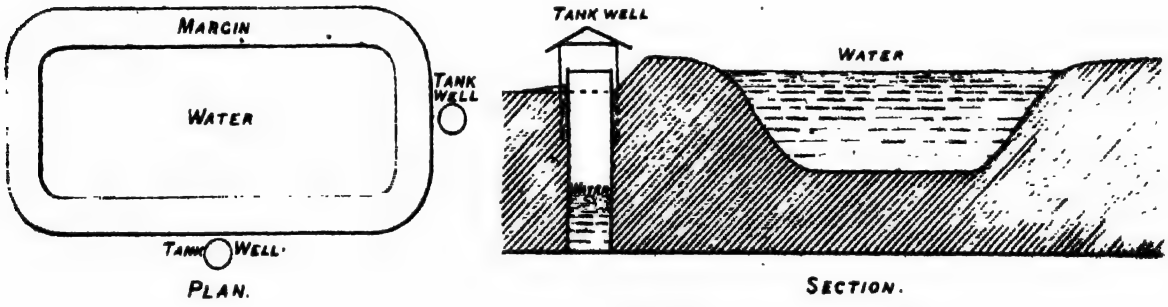
For instance, many municipal towns suffer in health from the presence in or near them of broken ground, holes with water in them, a larger number of tanks than is required for purposes of water-supply, using the same tank for drinking, bathing, washing, and watering animals.

Where such disease causes are present, the following rules should be applied:—

(1.) All holes or inequalities should be filled up and levelled.

(2.) No tank used for supplying domestic water should ever be used for bathing, or for watering animals. The number of tanks required for all the purposes of the town should be carefully decided, and then all others should be filled up, and the land, which is often of considerable value, should be turned to use.

(3.) The margins of all tanks should be carefully formed and paved, or covered with grass. Suitable places should be provided for dawing water, not directly from the tank, which should be considered as only the water reservoir, but connected with it, and made of masonry, as shown in the following sketch:—



Wells sunk in clean ground at convenient places, and protected as already described, would supply tank water naturally filtered, and probably there would be no objection to draw the water by iron buckets, chain, and windlass in a mixed community.

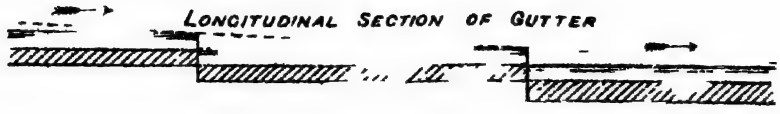
The municipality should take steps for the protection of all tanks and public wells. This is indeed one of their most important duties. There should always be a separate water-supply provided for low-caste people.

(4.) At present the only kind of drainage suitable for small towns is open surface drainage carried along lanes and streets to some convenient outlet.

All covered drains should be avoided. The surfaces of lanes and streets should be graded so as to allow rain-water to pass readily to the surface drain, and the drain should have a shallow water-tight section.

The material should be the best and cheapest to be obtained on the spot. Cut stone or concrete or asphalte might be used, or masonry or close-fitting vitrified brick; but in any case it is absolutely necessary that the channel should itself be laid true, have a sufficient fall, and that all the joints should be water-tight. Open cuts in the earth are of no use, but are, on the contrary, to be avoided, as leading to a damp, unwholesome state of the subsoil.

(5.) Where lanes and roadways have a considerable fall, the strong currents produced by tropical rains are apt to injure or even to ruin the side drains. This may be avoided by constructing the drains with steps to break the current.



Surfaces of roads and lanes must, as everywhere, be made of the hardest and cheapest material available. The essential points in small town and village road formation are that the gradients should be properly laid out to drain the road to the side gutters, and that the surface should be carefully kept in repair. Little labour would be required for this purpose in comparison with the outlay necessary for reinstating the road after it has been half ruined by rain and traffic.

Shallow saucer-sectioned surface drains can be kept clean by sweeping or by throwing water into them. With due care in cleansing with fresh water there would be no risk in allowing water used by households for washing and bathing to run into the surface drains.

The surface drains should discharge their contents into open, impervious, shallow surface sewers, by which the water could be conveyed to a distance from the town and used at once for irrigating land, and so be finally disposed of.

All household and town impurities are best made use of by being applied to agricultural purposes, and dung-heaps near the town should be avoided.

(6.) The general health of small towns may be much improved by removing all useless jungle, by lopping the lower branches of trees so as to improve the external ventilation, and by planting trees on wet or damp ground within or near the town—a measure which dries the ground and purifies the air. Tree planting along the public roads is also beneficial to health.

(7.) Another general town improvement of much importance is the removal of all ruinous dwellings and levelling their sites.

(8.) Any foul, unwholesome surfaces of ground within the town can readily be improved by covering the area with a few inches of clean earth, which is by far the best disinfectant to use.

11. As already stated, none of the measures proposed above need be expensive. All the materials and labour required are on the spot, and most of the work could be done by the inhabitants of houses themselves; and they ought to be required either to do what is necessary, or to pay for the doing of it, on the well-understood principle that an unhealthy house is, not only dangerous to its own inmates, but to its neighbours and to the town generally.

If municipalities in small towns see that these measures are carried out to the greatest practicable extent with the means at their disposal, they may confidently expect improved health and less liability to epidemic diseases.

12. But when cholera or fever, or any other epidemic, attacks a town, another duty is placed on the municipal authorities. In a small population there ought to be no difficulty in discovering the houses in which there have been cases of cholera, fever, small-pox, &c.; and whenever it comes to the knowledge of the municipal authorities that the inmates of particular houses have been attacked, immediate inquiry should be made into the sanitary state of the house. It is not safe during epidemics to stir up filth or foul ground; but there is one measure which can be taken with perfect safety, namely, to remove all animals out of the house or compound, and to cover all filth or foul ground, including cesspits, with clean earth, and in every such case the house well should be closed and water brought from outside the town. These two measures, namely, providing good water and covering all foul matter with earth, can always be adopted with safety and advantage during epidemics, and, if any other measure be considered necessary, it ought to be the removal of the people away from the affected house. When the disease has abated, the municipal authorities should proceed to improve the house and compound on the principles already mentioned.

II.

Sanitary improvement of Villages.

13. There are four agencies by means of which village improvements can be carried out:—

(1.) The inhabitants, who ought to be called on to keep their houses, cattle, privies wells, and village streets free from nuisance.

(2.) The village officers, who might be entrusted with powers to see these things done.

(3.) The zemindar or village proprietor, who ought to be called on to keep his property in a proper condition, especially as regards village work not immediately belonging to houses and compounds, such as the conservancy of village tanks and the adjustment of their numbers to the wants of the population; filling up all useless collections of water and all hollows in the ground; levelling the surface; removing ruinous huts and surface draining the village site, providing new wells, thinning jungle, &c., to improve the external ventilation. The zemindar should, in fact, see that all sanitary work is done which bears on the health of the village as a whole, as contradistinguished from the steps necessary to keep the house and its appurtenances in a healthy condition.

(4.) The Government, whose sanitary duty in regard to village populations lies in the direction of general drainage works where these are of proved necessity for the district, and irrigation where water for agricultural purposes is deficient.

Village sanitary problems are so various, and are so much influenced by causes outside the houses, that it may be useful to state, as in the preceding paragraphs, the different agencies to be called into action, as these have been indicated in the many reports on this subject which have been received from India.

14. The village officer, where he exists, may help to remove the most important domestic causes of ill-health which afflict the great mass of the people in India. He might take the following steps, and in some way authority might be given him for this purpose. He should see that all the village streets and lanes are kept clean and free of nuisance, that no filth or foul matter is thrown on the surface, and that no one is permitted to perform the offices of nature in any village street, lane, or open space.

He should set apart some area of ground to leeward of the houses to which all filth is to be taken. He should inform the inhabitants of it, and see that the ground is used for the purpose. He should set apart one or more open spaces to which people may resort for natural purposes, and every person should be required to cover up his own filth; or, where it can be done, a sweeper should be paid for the purpose, as has been done at Bijnor. The field used for this object should be cropped after it has been sufficiently manured, and another field set apart. All village filth and sweepings are useful for manure, and should be spread over land at the proper season.

Care should be taken that the ground set apart for these purposes is not near any well, or tank, or water-source, from which drinking water is drawn.

The village officer might possibly be charged with oversight of the compounds and houses; or, at all events, he might call the attention of the people to the necessity for rigid cleanliness and for removing cattle outside the compounds. Some provision might be made for stalling them outside the village; but, at any rate, it would be far safer to have a cattle-pen on some open ground within the village than to keep cattle inside the houses. In such a case the village officer might enforce rigid cleanliness and removal of all manure outside the village. It would be advisable, to follow the course which has been adopted in some parts of India, namely, to put up boundary marks round villages within which no deposit of any kind of filth should be allowed.

It follows from what has been said that the most urgent sanitary improvement for Indian villages is one that need cost nothing. It is simply cleanliness, in which every inhabitant should lend his assistance; but in the case of those who would prefer to pay rather than to do their own cleansing, the expense would be very small.

15. Next in importance to cleanliness is the protection of water-sources; and a very simple rule of judging of the need of this can be applied by any one. It is this, to examine the ground about the well or tank. If the ground is foul and filth-sodden, no well dug in it can yield good water, and no tank is safe unless the margins are raised to prevent surface filth being washed into the tank during the rains. If in any house or compound there is a cesspit together with a well or tank, both should be filled up. It may be taken for granted that the cesspit has so fouled the subsoil that no good water can be got from it, and besides this no cesspit or dung-heap should be permitted within the boundary of any house. Unless the inhabitants resort to the fields, the whole house filth should be removed daily in a portable vessel.

The safest course to take where wells are the source of the water-supply, and where they have been dug in fouled ground, is to provide a new well; probably one for the whole village might be sufficient. It should be dug in clean ground away from all nuisance. The sub-soil water should be cut off from it by casing the well outside with concrete to a depth of 8 or 10 feet from the ground level. The tube of the well should be raised two feet above the ground, and the surface should be sloped away from the well, and paved or covered with concrete, so as to carry away all waste water. Probably the best way of drawing water would be by a windlass and iron bucket and chain, and some kind of cover should be used to keep leaves out of the well. As already stated, there should be wells for low-caste people.

Where village water is obtained from tanks it is most important to keep one tank solely for drinking and cooking water. It should be specially protected, and never used either for bathing, washing clothes, or watering animals. Tank water can always be filtered by digging a well at a short distance from the tank.

Improved water-supply for an entire village ought to be undertaken by the proprietor, because the people have not the means of doing the work.

16. It may be repeated here that the general measures required for the whole village, and which in default of other means should be done for the people by the zemindar, are village water-supply as described, surface improvements, such as levelling ground, filling up useless tanks and holes, surface drainage, removing jungle, removing ruinous huts, &c.

These improvements would cost very little in comparison to the gain in health among the people.

17. The measures in which Government might aid have been already stated, but it may be further suggested that the Vaccination Officers might be charged by Government with the duty of instructing both village officers and people in these matters. Civil Surgeons could also render efficient aid; and all should be done under the general supervision of the Sanitary Commissioner of the Government, who would also decide the precise nature of the responsibilities resting on the village proprietors.

CALCUTTA,
The 12th August 1879.

REPORT ON THE STATE OF THE SALT MARKET FOR THE FOURTH QUARTER OF 1878-79.

No. 843B, dated Fort William, the 8th August 1879.

From—COLMAN MACAULAY, Esq., Secretary to the Board of Revenue, Lower Provinces,

To—The Secretary to the Government of Bengal, Revenue Department.

I AM directed to submit the following report on the state of the salt market for the fourth quarter of 1878-79, comprising the months of January, February, and March 1879.

R. L. MANGLES, Esq., V.C.

2. The quantity of salt of every description cleared in the quarter under report amounted to 20,41,318 maunds 16 seers and 14 chittacks, against 19,01,619 maunds 19 seers and 14 chittacks in the previous quarter, and 21,74,904 maunds 16 seers and 11 chittacks in the corresponding quarter of the previous year; and the amount of duty levied thereon was Rs. 54,22,595-4, against Rs. 50,37,902-14-8 in the previous quarter, and Rs. 64,45,047-8-1 in the corresponding quarter of the previous year.

3. The quantity of excise salt sold in the districts of Cuttack, Balasore, Pooree, and 24-Pergunnahs during the present quarter from the stock of the different seasons' manufacture, and the quantity which remained in store at the close of the quarter, are shown in Table I:—

RESOLUTION ON THE BOARD'S REPORT UPON THE LAND REVENUE ADMINISTRATION OF THE LOWER PROVINCES FOR THE YEAR 1878-79.

REVENUE DEPARTMENT.—LAND REVENUE.

Darjeeling, the 13th August 1879.

RESOLUTION.

READ—

The Board's Report upon the Land Revenue Administration of the Lower Provinces for the year 1878-79.

IT is satisfactory to find that the Board have been able to submit this report two months earlier than last year—a fact which proves that the orders of Government insisting upon greater punctuality in the preparation of annual reports were not unreasonable. The Lieutenant-Governor hopes that the improvement will be maintained in future years.

2. The most important event of the year, so far as the land revenue administration is concerned, is said to have been the introduction of the "Bill to define and limit the powers of settlement officers" in amendment of Act III (B.C.) of 1878. This measure has since become law, and the Lieutenant-Governor trusts that it will be found to lessen materially, if it does not altogether remove, the difficulties felt of late years by the Settlement Department in dealing with questions of enhancement of rent. It is expected to do this without interfering unduly with the just rights of under-tenants and ryots, and without injuring their legal position under the existing rent law. The local rent law of Chota Nagpore has also been amended by Act I (B.C.) of 1879, and has now been brought into harmony with the land system of that province.

3. The total number of estates on the revenue-roll during the last three years is shown in the following table:—

Class of estates.	1878-79.	1877-78.	1876-77.
I.—Permanently-settled estates ...	138,031	136,228	132,571
II.—Temporarily „ ...	7,607	7,560	7,468
III.—Government estates ...	2,573	2,569	2,432
IV.—Ryotwari tracts ...	23	23	27
Total ...	148,234	146,380	142,498

The increase in Class I is, as usual, due to partitions; and though the number of estates thus added to the roll is much less than in 1877-78, it would appear, from later paragraphs in the report, that the decrease is only temporary, and caused by a partial suspension of partition proceedings pending the completion of operations under the Land Registration Act. The number of Government estates will, nominally at any rate, have to be very largely increased if each

parcel of land in Chittagong, bearing a distinct demand of land revenue, is treated as an estate. At present it appears that each group of talooks, which, until lately, constituted a circle farm, is treated as one estate, and the whole number of Government estates in Chittagong is returned as 187, whereas they are really over 43,000. A very inadequate idea of the collectorate work in this district is given by the present mode of classification.

4. The current land revenue demand for the year stood thus for each class of estates, as compared with 1877-78—

	1878-79.	1877-78.
	Rs.	Rs.
Class I	3,23,46,686	3,23,37,283
„ II	23,98,229	24,01,457
„ III	17,21,152	16,38,545
„ IV	5,28,216	5,18,682
Total ...	3,69,94,283	3,68,95,967

No explanation is given of the fluctuations which Appendix II shows to be common to most districts, but they are nowhere considerable.

5. The arrear demand was Rs. 22,20,355 against Rs. 20,73,191, thus—

	1878-79.	1877-78.
	Rs.	Rs.
Class I	8,07,106	9,18,606
„ II	4,15,716	3,92,458
„ III	8,25,260	6,48,654
„ IV	1,72,273	1,13,473
Total ...	22,20,355	20,73,191

The total demand of the year, current and arrear, thus aggregated Rs. 3,92,14,638.

6. The collections, current and arrear, were as follows:—

CURRENT COLLECTIONS.

	Class I.	Class II.	Class III.	Class IV.	Total.	Percentage on demand.
	Rs.	Rs.	Rs.	Rs.	Rs.	
1878-79	3,17,35,773	21,28,247	12,60,597	4,62,301	3,55,86,918	96·16
1877-78	3,16,24,007	21,63,506	10,63,036	4,20,244	3,52,70,793	95·59

ARREAR COLLECTIONS.

	Rs.	Rs.	Rs.	Rs.	Rs.	
1878-79	7,49,327	2,94,989	4,60,588	1,50,821	16,55,725	74·57
1877-78	8,16,078	2,20,909	3,66,225	91,661	14,94,873	72·10

(There is a serious error in the totalling of column 9 of Appendix II C, which is corrected in the above table. The arrear collections under Class III, according to the Board's totals, would be only Rs. 4,20,930.) The current and arrear collections together were Rs. 3,72,42,643, or 94·97 per cent. of the total demand against 94·34 per cent. in 1877-78. The general result is slightly in favour of the year under report. In eight districts the total collections were less than 90 per cent. on total demand. Their position will be noticed below in connection with the statement of outstanding balances.

7. The remissions granted during the year aggregated Rs. 98,686, thus—

	1878-79.		1877-78.
	Rs.		Rs.
In Class I	13,683	as against	8,598
„ II	31,074		3,888
„ III	47,068		58,363
„ IV	6,861		13,206

Classified according to character the figures are—

	1878-79. Rs.		1877-78. Rs.
Nominal remissions	20,313	as against	17,888
Remissions of right	55,656		44,306
Remissions of grace	22,717		21,862

There is an increase under every head, but it is satisfactory to find that the increase under remissions of grace is comparatively trifling. The other remissions are due to diluvion, adjustments in account, and the like, and do not indicate any unfavourable state of things among the revenue-paying class.

8. The unrealized balances at the close of the year were as follow:—

	1878-79. Rs.		1877-78. Rs.	
Under Class I ...	6,55,009, or 1·97	per cent. of demand as against	8,07,206, or 2·42	per cent.
„ „ II ...	3,59,635, or 12·78		4,05,612, or 14·51	„
„ „ III ...	7,78,159, or 30·56		7,99,575, or 32 96	„
„ „ IV ...	80,506, or 11·49		1,07,043, or 16·93	„
Total ...	18,73,309, or 4 77		21,19,436, or 5·43	per cent.

There was thus a satisfactory reduction of balances by Rs. 2,46,127, the improvement being common to all classes of estates. Of the balances at the close of 1878-79, Rs. 17,29,229 were in process of recovery, and Rs. 1,44,080 were classed as irrecoverable and will probably have to be formally remitted.

9. Under the heading of Class I *(permanently-settled estates)*, the heaviest balances, as compared with demand, were as last year in the districts of—

	Balances.
Moorshedabad	9·81 of demand.
Chittagong	11·55 „
Noakholly	9 10 „

Large sums were outstanding also in Midnapore and Backergunge, while the percentages of collection in Darjeeling, Furreedpore, and Lohardugga were very unsatisfactory, though the actual outstandings were comparatively small in amount. As in former years, a large part of the balances is accounted for by unpaid revenue in Wards' estates. There had not probably been time to give full effect to the Government orders on last year's report during the last two quarters of 1878-79, and the Lieutenant-Governor will therefore content himself with repeating here that the Board must see that arrears of this kind are not allowed to accumulate, and must insist on Collectors treating the Government revenue as the first charge on the estates after payments of the allowances fixed for the support and education of the ward and his family, and of the charges for management and supervision [see section 48, Act IX (B.C.) of 1879]. Of the total arrears due on permanently-settled estates, Rs. 2,04,328 have been realized since the close of the year, Rs. 95,055 are being recovered by process of law, and Rs. 2,67,593 are due from Wards' estates.

10. Of the balance of Rs. 3,59,635 due from *temporarily-settled estates*, Rs. 49,085 have been collected since the year closed, Rs. 57,996 are classed as doubtful or irrecoverable, and the rest was under realization by process. The heaviest balances were in—

	Rs.		Rs.
Midnapore	1,28,004	Furreedpore ...	38,629
Pubna ...	32,790	Backergunge ...	80,428

The large balance in Midnapore appears to have been mainly due to the sickness of the Deputy Collectors in charge of Majnamutha during the best part of the collecting season. In Pubna most of the balance will have to be remitted on account of diluvion. In Furreedpore diluvion accounts for a fourth, unfinished settlements for another fourth, and the rest is being recovered. The outstandings in Backergunge are not satisfactorily accounted for. The bulk of the arrears is said to be under recovery by the certificate procedure. The outstanding balance in Darjeeling was very heavy in proportion to the demand (36·31 per cent.). This is attributed to the fact that the sale laws are not in force in that district. The question of extending these is under consideration.

11. The balances in *Government estates*, though less than last year, are still unduly large. Only in ten districts (including Calcutta) were the collections over 90 per cent. on the demand. In the following districts not only were the collections below that standard, but the amount of arrears had actually increased at the close of the year :—

	Arrears in	
	1878-79.	1877-78.
	Rs.	Rs.
Midnapore	22,777	21,289
Moorshedabad	16,121	15,569
Dacca	12,790	9,715
Backergunge	2,69,507	2,53,419
Tipperah	18,051	10,519
Patna ... , ...	13,580	9,357
Shahabad	16,882	15,919
Lohardugga	12,348	9,001

Generally speaking, it would seem that in Midnapore, Moorshedabad, Dacca, Tipperah, and Shahabad the greater portion of the balances are under recovery, and the delays of the certificate procedure are blamed for the outstandings. This is by no means a satisfactory explanation of the increase in the balances; and if Collectors were a little more prompt and careful in supervising the routine work of their offices, even the delays of Act VII (B.C.) of 1868 would not be found insuperable. In the absence of any special cause, the existence of a large recoverable balance indicates almost certainly lax administration. In Backergunge the lingering effects of the cyclone of 1876 are put forward as accounting for the non-recovery of Rs. 1,02,700 of the balance. High prices, floods, and diluviations are said to account for the rest. But high prices mean more money paid for agricultural produce, which should have put the ryots in a better position than before for paying their rents, while there is strong ground for believing that the effects of the cyclone have long since passed away. Indeed in paragraph 52 of the report this is stated as a fact to account for better collections in the *khas* estates of the Dacca Division generally. The truth appears to be, as the Commissioner evidently suspects, that the tehsildari establishments in this district have not been properly looked after. In Lohardugga, again, the high prices of food-grains are put forward as the cause of the outstandings, along with a local failure of crop. There may be something in the last excuse: the first is unintelligible. The arrears in Patna are satisfactorily accounted for. In Noakholly and Chittagong the arrears, though heavy in amount, are less than in 1877-78, thus—

	1878-79.	1877 78.
	Rs.	Rs.
Noakholly , .	1,53,561	1,56,106
Chittagong	99,458	1,25,143

Most of the Chittagong balances are being recovered by process. Over a third of those in Noakholly will have to be remitted. The rest is in course of recovery.

11. The outstanding balances in *ryotwaree tracts* were less than in 1877-78—Rs. 80,506 against Rs. 1,07,043. Of the total, Rs. 22,311 were due in Bhagulpore and Rs. 15,019 in Monghyr, and no sufficient explanation being given of the cause, the Board have called for special report. Rs. 19,614 were due from Julpigoree, but this is, on the whole, satisfactorily accounted for.

12. During the year 81 Government estates, with an area of 2,224 acres and a Government demand of Rs. 1,945, were sold for Rs. 21,273; two shares of an area of 213 acres, bearing a demand of Rs. 192, were sold for Rs. 800; 99 plots of railway B lands, with an area of 328 acres, were sold revenue-free for Rs. 6,229; and five plots of C land, with an area of 36 acres, were sold for Rs. 351. The original price of these C lands was Rs. 762.

13. In paragraphs 47 to 57 of the report, the Board discuss the working of the system of direct management of Government estates in the different divisions. The total number of estates or properties under management is nowhere given, nor is any summary of results embodied in the report. So far as can be gathered, the facts differ little from those reported last year. In districts where there are no special difficulties, and where the subordinate establishments are properly supervised, this system works with a reasonable amount

of success. It is not suited to tracts like Palamow, where the habits and customs of the people lean to a system of resident and hereditary farmers, nor to the reclamation of the island churs of the eastern districts, where capitalists are essential to the due settlement of ryots. In the resolution upon last year's report the Lieutenant-Governor invited the Board to reconsider the whole question of direct management in exceptional tracts of this character. From the remarks in paragraph 57 of the report, it would seem that they have overlooked this invitation. In Noakholly a revised tehsildari agency has been lately sanctioned, and proposals of a similar character regarding Chittagong are said to be now before the Board, but have been laid aside on the ground of their involving increased outlay. It is no economy to keep back such reforms on account of their involving a present increase of expenditure, while the balances of Government revenue are allowed to mount to such figures as are shown in the return. It appears, however, that the Board have now called for quarterly in lieu of annual returns from estates under direct management, and the Lieutenant-Governor hopes that close and intelligent supervision will be brought to bear upon the present very unsatisfactory state of affairs. It does not appear that any attention has been paid to the suggestions in last year's resolution for the better control of the administration of Government estates in each district by placing it in special charge of Assistant Collectors and by utilizing more freely the Sub-Deputy Collectors. Next year the Lieutenant-Governor will expect precise information as to how the Government estates of each district are supervised and administered.

14. The *miscellaneous revenue* of the year amounted to Rs. 1,91,435 against Rs. 2,13,277 in 1877-78. The decrease was due mainly to the less frequent sales of Government estates. The outstanding balances amounted to Rs. 76,636, mostly due on railway C lands, and since remitted.

15. There were 141 original settlements effected during the year, involving a revenue of Rs. 15,640; 258 re-settlements, with a revenue of Rs. 1,69,540; and 137 summary settlements, with a revenue of Rs. 83,501. The net increase of revenue under the first two headings was Rs. 56,181. Summary settlements caused a decrease of Rs. 6,728, almost entirely in Monghyr ryotwaree tracts. At the close of the year there were 1,472 estates awaiting settlement, bearing an estimated revenue of Rs. 10,07,942. The amount of settlement work disposed of was by no means satisfactory, and the heavy files in some districts call for the attention of the Board.

16. The important settlements of the Western Dooars, of the Darjeeling Terai jotes, of the Noabad lands in Chittagong, and of the Government estate of Khoorda in Pooree, have all made good progress during the year, and separate orders have from time to time been passed by Government in respect of each of them, which need not be here again noticed in detail. In Bogra it appears that the Jaipore estates are now being settled, under the orders of the Board, by special arrangements with each ryot, and that, up to the close of the year, 3,007 ryots had been settled with for Rs. 21,543, being Rs. 5,067 more than the late farmer paid for the same lands. The Lieutenant-Governor would wish to have more precise information as to the nature of the arrangements that are being made, the title given to the ryots, and the mode of collecting the revenue from them. The settlement work in Noakholly, involving the measurement of 47,000 acres, has been hindered by the illness of the Deputy Collector in charge. The Board will no doubt continue to direct special attention to this district, the revenue administration of which had fallen into a very unsatisfactory state.

17. The Estates Improvement Fund had receipts aggregating Rs. 1,80,508, and disbursed Rs. 1,41,934 during the year. The receipts in 1877-78 were only Rs. 1,10,700. The increase is due to the treatment as Government estates of the Noabad talooks in Chittagong, formerly under circle farmers. No account is given of the mode in which the Fund was utilized in each district. The question of doing away with the Fund altogether in its present form is now under consideration. In many districts small sums are credited to it, which it is impossible to spend to advantage, while its existence entails the making of complicated calculations on every payment of revenue from the estates contributing to the Fund. It would be far better that the Imperial accounts should be credited with the whole of the revenue that reaches the treasury, and that

the local Government should receive an addition to its allotment, which it could expend on the improvement of Government estates in any part of the province, as necessity arose.

18. Paragraphs 73 to 85 of the report deal with irrigation, drainage, and embankments, and will be considered in the Public Works Department, Irrigation Branch.

19. During the year the Board have made enquiries as to the strength and work of the subordinate executive establishments in each district with special reference to the orders in last year's resolution directing the more regular employment of these establishments in out-door duties. From 14 districts only were the replies received satisfactory. In many districts it is to be feared that no proper use is made of the Sub-Deputy Collectors and Canoongoes, and that they are allowed to hang about head-quarters, the former trying petty cases, and the latter doing miscellaneous clerical work. The result has led the Board to suggest that instead of allotting these establishments to all districts indiscriminately, where there may or may not be field work for them, they should be arranged in divisional lists, and be distributed by the Commissioners as required. The Lieutenant-Governor will be glad to have definite proposals of this nature submitted for separate consideration, with such suggestions for reduction of expenditure, where possible, as may commend themselves to the Board.

20. The work of the registration of proprietary interests under Act VII (B.C.) of 1878 has continued to occupy much of the time of the collectorate establishments. Of 768,772 applications received up to the 31st March 1879, 275,275 were disposed of during the year, making a total of 519,085 since the passing of the Act. The balance was 249,687, and it is hoped that in all but five districts the files will be entirely cleared during the current year. In Sarun, Cuttack, Pooree, Balasore, and Chittagong the files are peculiarly heavy. Indeed, in Orissa and Chittagong it is difficult to say when the work will be closed, as the number of petty tenures, rent-free and revenue-paying, is abnormally great. The average cost of disposing of each application was 4 annas only, against 6·6 annas in 1877-78.

21. In accordance with the practice introduced last year, a brief account is given of the working of the Road Cess and Public Works Cess for the cess year ending 30th September 1878. The following table embodies the main facts of the cesses upon lands and mines :—

	Arrears of 1876-77.	Demand of 1877-78.	Collections.	Remissions.	Balance.
	Rs.	Rs.	Rs.	Rs.	Rs.
Road Cess	3,70,722	30,59,181	29,35,407	5,394	4,89,102

This balance had by the end of December 1878 been reduced to Rs. 7,21,484. The cess upon houses was discontinued from the 1st April 1878. The following are the figures for the year :—

Demand of 1877-78 ...	4,17,028	Balances ...	2,69,034
Collections ...	1,97,149		

Of the demand one-half is nominal, owing to the orders suspending the tax, and the true balance is therefore Rs. 60,520 only.

22. The amalgamation of the collection of Road Cess and Public Works Cess has enabled the Board to effect a saving in establishments, while the apportionment of the collections between Government and the District Road Committees gives comparatively little trouble. The first quinquennial period for which the valuation of estates was made under the Road Cess Act terminated in many districts during the year. The Lieutenant-Governor has directed that no general re-valuations should be made which would only prove harassing to the agricultural and landholding community; but where there

are good grounds for believing that estates have been under-valued, revision will take place as regards such properties only. The necessity of amending the Act, which experience has shown to be defective in many points, has now been fully admitted, and will shortly be undertaken.

23. Under the sale laws no fewer than 20,648 estates and shares defaulted during the year against 8,077 in 1877-78, and the actual number of sales increased from 907 to 2,510. This apparently alarming increase is, however, explained by the fact that in Chittagong for the first time a vast number of petty talooks were thrown on the Collector's hands owing to the abolition of circle farms. The number of defaults in that district rose from 4,032 to 15,453, and more than four-fifths of the actual sales in the province took place there (viz. 2,050). In the other districts the increase of 1,150 is believed to be due to a more correct system of returns called for by the resolution on last year's report. The sales affected 2,450 whole estates, 58 shares, and two "rights and interests." The revenue demand on these was Rs. 95,491; the arrears causing sale, Rs. 47,244; and the purchase money realized, Rs. 7,72,179, or over eight times the revenue. Government bought in 264 estates, with a demand of Rs. 5,246, for Rs. 195; and one share, with a revenue of Rs. 24, for Re. 1. Appeals against sales were preferred in 57 cases, and in 23 instances the sale was annulled. In four cases the sales were set aside on ground of hardship.

24. The number of partition cases disposed of was only 330, against 584 in 1877-78. There was a great increase in the number of institutions in the Patna Division, from 89 to 233, attributed to the fact that the Land Registration Act has cleared the way for applications. The files of pending cases in the Patna Division are heavy, aggregating 680. An increase in Bhagulpore is expected this year, as the land registration operations come to a close. Two special Deputy Collectors have been appointed since the close of the year in the Patna Division to clear the files.

25. There were 78 cases of redemption of land revenue during the year, all in Calcutta and the Suburbs. The revenue redeemed was Rs. 158 and the price paid Rs. 3,888. This brings the number of estates redeemed to the end of 1878-79 up to 16,341, and the price realized to Rs. 1,38,142, for a revenue of Rs. 10,288. There are still 42,148 estates open to redemption, bearing a revenue of Rs. 80,009, and expected to realize Rs. 20,00,227.

26. The area and cost of the lands acquired for public purposes during the year is shown below—

	Area.			Revenue abated.			Total cost.		
	A.	R.	P.	Rs.	A.	P.	Rs.	A.	P.
For Government departments	105	2	8	11	4	10	1,52,222	7	11
For irrigation works ...	5,117	0	29	613	14	8	3,25,299	11	7
For municipalities ...	14	2	22	19	4	2	69,829	7	2
For railways ...	5,521	3	1	151	0	3	4,72,335	2	11
For road committees ...	163	2	25	26	1	7	5,304	9	2
To replace service land ...	3	0	8	.....			182	12	7
Total ...	10,925	3	13	821	9	6	10,25,174	3	4

Most of the land required by municipalities was in Calcutta and Howrah, which accounts for the high price per acre. The first item includes the sums paid for public buildings and Government offices at Darjeeling.

27. The only leases of waste lands given during the year were in Julpigoree, where 548 leases, covering 32,769 acres, were granted for a present revenue of Rs. 8,601, to rise eventually to Rs. 24,847. The lease rules for the Sunderbuns have been revised. The tea lease rules for Julpigoree have also been amended and extended to the Darjeeling district. Rules for the lease of lands in the Hill Tracts of Chittagong have been framed, and others for the district of Chittagong are now under consideration.

28. The report called for last year on the working of the putwaree system in Orissa and Bengal Proper has not yet been submitted by the Board, but is promised shortly. In Patna considerable progress is said to have been made in the reorganization of the putwarees commenced some time ago. The Lieutenant-Governor desires to have a fuller report on this subject, and to know precisely how matters stand in each district of the division.

29. The following table shows the number of notices of enhancement and relinquishment served under the rent-law for the last two years:—

	Enhancement.		Relinquishment.	
	1878-79.	1877-78.	1878-79.	1877-78.
Burdwan	1,314	556	1,411	2,945
Presidency ...	1,611	1,384	922	1,237
Rajshahye and Cooch Behar	1,282	963	1,993	2,901
Dacca	1,537	1,501	296	388
Chittagong ...	696	909	79	362
Patna	965	497	651	355
Bhagulpore ...	894	665	1,477	1,451
Orissa	136	163	17	2
Chota Nagpore ...	211	188	44	24
Total ...	8,646	6,826	6,890	9,665

The totals are so small in themselves, and so affected by the action of landlords and tenants in even one or two estates, that no general deduction can be based upon them. No marked change would seem to have anywhere taken place in the relations of landlords and tenants during the year. There have been, as a rule however, no active hostilities, and many officers seem to consider this an indication of better feeling, while others think that there has been little, if any, real improvement. There can be no satisfactory settlement of the conflicting claims of rent-payers and rent-receivers in Bengal until the law of rent is placed upon a sound and intelligible basis, and the collection of rent made more simple and certain than it is at present.

30. There was an increase in the institutions of rent suits in the districts where those suits are still tried by the revenue courts from 19,364 to 22,033. This was common to nearly all districts. Out of 24,871 cases for disposal, the courts tried 21,363, leaving 3,508 pending, of which only 511 were of over six months' standing.

31. The duty of inspecting carefully the various departments of their offices at least twice annually has not yet been fully performed by many Collectors. It is to be hoped, however, that the Inspection Manual, now under preparation by the Board, will bring the importance of this matter clearly before all district officers. Referring to the remarks in paragraph 40 of last year's resolution, the Board should have given some explanation of the figures of pending cases in the Collector's business statement, Appendix XX.

32. The receipts and disbursements of sub-divisional treasuries have recovered the fall shown in last year's return, and stand thus for the last three years—

		Rs.
Receipts ...	1878-79	1,32,98,586
	1877-78	1,24,90,857
	1876-77	1,30,89,657
Disbursements	1878-79	1,16,52,180
	1877-78	1,06,55,554
	1876-77	1,16,18,939

The license tax accounts for the increase in both receipts and disbursements.

33. The paragraphs of the report (196-97) making favourable mention of particular officers will be forwarded to the Appointment Department of this office for information.

By order of the Lieutenant-Governor of Bengal,

A. MACKENZIE,

Secretary to the Government of Bengal.

BABOO UMBICA CHARAN CHOWDHURY'S MEDAL.

GENERAL DEPARTMENT—EDUCATION.

Darjeeling, the 5th August 1879.

RESOLUTION.

READ—

An endorsement from the Director of Public Instruction, No. 4459, dated 16th July 1879, forwarding a copy of a correspondence with Baboo Umbica Charan Chowdhury, B.C.E., Assistant Engineer, Nagode, Bundelkhand Road Division, on the subject of the wish of that gentleman to give annually a gold medal (to be called the "Umbica Charan Chowdhury's medal") to the student of the Engineering Department of the Presidency College who gains the first place in Mathematics at the B.C.E. examination of the Calcutta University.

A letter from Baboo Umbica Charan Chowdhury, B.C.E., dated 1st July 1879, intimating that he has forwarded to the Director of Public Instruction 4 per cent. Government promissory notes of the value of Rs. 1,200, endorsed jointly to the Secretary to the Government of Bengal in the Financial Department, and the Accountant-General, Bengal, for the purpose mentioned above.

THE Lieutenant-Governor accepts the offer made by Baboo Umbica Charan Chowdhury, and desires that he be thanked for his liberality, which has been prompted by his wish to advance the interests of the institution where he received his own professional education. The Director of Public Instruction will be requested to employ the interest of the promissory notes in providing a medal to be annually awarded in the manner indicated by the donor.

ORDER.—Ordered that a copy of this Resolution be communicated to Baboo Umbica Charan Chowdhury, the Director of Public Instruction, and the Accountant-General, Bengal; also that it be published in the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

A. MACKENZIE,
Secretary to the Government of Bengal.

RESOLUTION ON THE REPORT ON THE CALCUTTA COURT OF SMALL CAUSES FOR 1878-79.

JUDICIAL.

Calcutta, the 19th August 1879.

RESOLUTION.

READ—

Report on the Calcutta Court of Small Causes for 1878-79.

The report shows that the number of cases instituted during the year was higher than in any previous year since the establishment of the Court. The total number of institutions was 37,681, or 4,171 in excess of the number in 1877-78. The amount in litigation was Rs. 18,70,566, a larger amount than in any previous year except 1865-66.

2. The increase in litigation in the year under review is noticeable in cases of every value, but especially in suits of small amount, in which there was a considerable decrease during the previous two years. The number of suits of different values in each of the past five years is shown in the following statement:—

	1874-75.	1875-76.	1876-77.	1877-78	1878-79.
Cases below Rs. 5	8,287	8,093	7,395	7,267	8,559
„ between Rs. 5 and Rs. 50	20,776	20,618	19,635	19,806	22,150
„ „ „ 50 „ 100	2,693	2,577	2,491	2,840	3,037
„ „ „ 100 „ 500	2,718	2,671	2,600	2,913	3,202
„ „ „ 500 „ 1,000	473	502	475	627	653
„ above „ 1,000	36	41	44	57	80
Total ...	34,983	34,502	32,640	33,510	37,681

3. The Judges have been unable to offer any very positive explanation of this sudden increase. It is noticed, however, that there were 2,574 more suits for goods sold and delivered than in the previous year, and it may be, as suggested by the Judges, that the present high rates of provisions compel shop-keepers to sue their customers in order to secure payment. The increase in suits of high value is not so large as to require any explanation. The year 1877 was one of great activity in trade, and the transactions of that year, which explained the number of suits of high value in 1877-78, no doubt affected also the litigation of the past year.

4. The extension of sections 26 to 30, 32, 90, 137, 192 (with the exception of the last paragraph), 209, 223, 225, and 383 to 387 of the Code of Civil Procedure to the Calcutta Court of Small Causes was notified in October last, and the powers of the Court have not only thereby been more clearly defined, but in some important points materially increased. The change effected by the fifth Judge in the system under which sales of property in execution of the decrees of the Court are conducted appears to have had good results.

5. The following statement shows the result of the trials of the past three years, and it is satisfactory to find that the very large increase in the number of cases is composed entirely of suits in which the plaintiff had apparently good grounds for resorting to litigation. The number of suits in which the decision was adverse to the plaintiff was less than in either of the previous two years:—

	1876-77.	1877-78.	1878-79.
For plaintiffs after trial	7,073	7,402	8,841
Ditto *ex-parte*	6,917	6,938	8,109
Compromised	11,501	12,010	13,700
Nonsuited	2,515	2,248	2,026
Dismissed after trial	1,504	1,502	1,423
Ditto in default of plaintiff	3,082	3,134	3,358
	Against plaintiff, 7,101.	Against plaintiff, 6,884.	Against plaintiff, 6,877.
Total ...	32,592	33,234	37,527

6. The receipts of the year amounted to Rs. 2,43,670 and the expenditure to Rs. 1,62,564. The net sum to be credited to the General Revenues was therefore Rs. 81,106 as compared with Rs. 67,359 in the previous year. The net revenue from fees on the service of mofussil processes was about Rs. 3,737.

7. In accordance with the instructions already communicated to the Judges, the next report will be for the calendar instead of for the financial year. The report should be for the whole year 1879, and not only for the nine months from the 1st April last.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Judges of the Calcutta Court of Small Causes.

By order of the Lieutenant-Governor of Bengal,

HORACE A. COCKERELL,

Secretary to the Government of Bengal.

RESOLUTION ON THE ADMINISTRATION OF THE POLICE DEPARTMENT FOR THE YEAR 1878.

POLICE.

The Report on the Administration of the Police Department for the year 1878.

The Reports for the years 1876 and 1877, and the orders of Government passed upon them.

The total budget grant for the year, including the cost of the Chittagong Frontier Police and the Government contribution towards the Municipal and Railway Police, was Rs. 36,85,218. The actual expenditure was Rs. 36,42,158, or Rs. 2,16,604 less than that of the previous year, the principal causes of this reduction being the general revision of the strength of the force in April 1878, and the substitution of warders for police guards in nearly all the jails of the province. Compared with the previous year, there was a net decrease in the district police force of 59 inspectors, 8 sub-inspectors, 151 head constables, 1,025 constables, and 28 sowars; and the entire strength of the force at the close of the year, including the police of the Chittagong Hill Tracts and the Railway Police, but excluding the Municipal Police, was 78 superior officers, 3,047 subordinate officers, and 14,789 constables. The cost of the force employed on purely police work was 6·6 pies per head of the population of the Lower Provinces. In Bengal proper it was 7·1 pies, in Behar 5 pies, in Orissa 7·1 pies, and in Chota Nagpore 10·4 pies. The proportion of police to area was 1 to 8 square miles in Bengal proper, 1 to 11·3 in Behar, 1 to 19·4 in Orissa, and 1 to 21·5 in Chota Nagpore. The proportion to population was 1 to 3,824 in Bengal, 1 to 5,265 in Behar, 1 to 3,465 in Orissa, and 1 to 2,565 in Chota Nagpore.

2. The strength of the Municipal Police was diminished by 51 native constables, while there was an increase of nine head constables and one European constable. The percentage of casualties was 26·2 as compared with 26·6 in the previous year and 23·4 in 1876. In the 24-Pergunnahs the total number of casualties was 54·1 per cent. of the entire force; and there, as well as in many other districts, the efficiency of the police must have been seriously impaired by the repeated changes that took place. Excluding discharges on account of reductions in the sanctioned strength, the percentage of dismissals and resignations on the strength of the Municipal Police Force at the beginning of the year was 43·5 in the 24-Pergunnahs, 43·2 in Howrah, 38·6 in Hooghly, 33·5 in Bhagulpore, and 32·2 in Bogra. In the 24-Pergunnahs, Howrah, and Hooghly, the service appears to be very unpopular, and great difficulty has been found in getting Bengalis to enlist. Hitherto municipal constables on sick leave have received no pay during their absence, and this fact has no doubt kept many men from joining the force. The Lieutenant-Governor is glad to find that the duty of providing for those who are temporarily incapacitated for work is being now recognized by municipalities, and that some of the budgets for the current year contain a provision on this account. The total strength of the Municipal Police Force was 6,336 rank and file, against 6,377 in the previous year.

3. The Inspector-General has taken much pains during the past year to acquire information regarding the working of the Chowkidaree Act; but the Lieutenant-Governor regrets to find that further enquiry has only tended to confirm Mr. Monro in the view expressed by him in the last report, that "the punchayets ought to be made simply to collect the money, the chowkidar being paid at the thana as a member of the regular police force posted for a special purpose on detached duty in the villages." The result of his late enquiries is thus summed up in paragraphs 49 and 50 of the report for the past year:—

"Admitting, therefore, that the chowkidars are better paid, and that they attend more regularly, I have, on the other hand, to report, as the result of my enquiries, that in scarcely

any district are the provisions of the law as laid down in the Act attended to. The chowkidars are not paid regularly. They are often not paid what by law they are entitled to receive. They are paid sometimes in grain, sometimes in cash, sometimes even in land. They are employed to collect their own dues, and to make their own arrangements with the villagers about the same.

"The punchayets are often illiterate villagers. They do not object to having the power which attaches to the position, but they very strongly object to perform any of the duties which are imposed on them by the Act. They do not collect the tax in advance, either monthly or quarterly; they do not pay the chowkidars regularly; they make illegal deductions from their pay when it is given to them; they do not collect in accordance with the provisions of the Act, nor do they make any attempt to realize arrears from defaulters, either through fear of influential men, or from sympathy with the poor, or from the general want of punctuality visible amongst natives; they keep no accounts, prepare false statements of collections, forge chowkidars' receipts and entries in their pay-books freely, and lie unblushingly in support of their fictitious papers. Is it likely that men who fabricate statements in this way will honestly give information about crime, or exercise a healthy influence on chowkidars in the way of making them report offences? Is it likely that men who defraud the chowkidars of their legitimate wages, and who induce the chowkidars to conceal the fact of their being so defrauded by the use of undue influence over them, will honestly and truthfully inform Government of all criminal occurrences which take place in their villages? I have had so many instances of dishonesty on the part of punchayets with regard to their acts in connection with chowkidars, that I have no faith in their honesty with reference to reporting of crime."

4. The Lieutenant-Governor must admit that the evidence of those Magistrates who have enquired most closely into the actual working of the Act shows that the provisions of the law are not carried out, that the proceedings laid down in its provisions are altogether in advance of the standard to which the villagers of whom the punchayets are composed can conform themselves, and that what is done by the punchayets in the way of collecting wages, paying chowkidars, and keeping accounts is really done in an informal and unbusiness-like way, whilst irregularities abound, which are kept out of sight at inspection time. It is, however, hardly to be expected that the members selected to serve on a punchayet in a mofussil village will at first be found to discharge the duties devolving on them in a thoroughly efficient and business-like manner, or that men who have been brought up under the *laisser-aller* system of rural life in Bengal will fully realize the grave irregularity they are guilty of in not paying the chowkidar with punctuality, or the serious impropriety of a relapse into the well-known native custom of paying a watchman partly in grain and partly in cash.

5. The Lieutenant-Governor must not be understood as in any way underrating the seriousness of the irregularities noticed by the Inspector-General in the extract of the report quoted above. Some allowance must, he thinks, be made for want of method and punctuality among mofussil villagers—faults which no doubt experience and judicious supervision will go far to remedy. It is unreasonable to expect from the punchayets a higher standard in the management of public matters than they attain in the management of their own affairs or even to reach this standard; and whether the Act is perfectly suited to the existing condition of Bengal or not, it is certain that it provides what before was wholly wanting, a rough sort of machinery for paying and supervising chowkidars without cutting them off from the daily life of their village, and this advantage is not to be under-valued.

6. It is hardly to be wondered at if in many places mistakes have been made and unfit persons occasionally selected to serve on the punchayet. To give the Act a fair chance of success, it requires very careful and efficient supervision on the part of the District Magistrate and the police. It is possible that further experience will indicate how the procedure of the Act can be simplified without sweeping away the machinery which it provides; but, until it has been given a further trial, the Lieutenant-Governor is not prepared to accept the general condemnation passed on it by the Inspector-General. The Lieutenant-Governor desires that the working of the Act may receive the careful attention of District Magistrates and Sub-divisional Officers. All irregularities brought to notice by the District Superintendent of Police and his Assistant should be at once enquired into, and opportunity should be taken by the Magistrate of the district during the ensuing cold season of deputing officers to visit as many villages as possible where the Act is in force, to examine the accounts, and to ascertain that the punchayets are acquainted with the provisions of the Act.

7. The reports received by the Inspector-General are certainly not very encouraging; but looking to the state of things that prevailed prior to the introduction of the Act, the Lieutenant-Governor considers that it cannot be denied that some progress has been made, when the Magistrates and District Superintendents of Police generally admit that the chowkidars are now much more regularly and better paid than formerly, that they are more regular in attendance at the police station, and in many districts more prompt in reporting crime to the police. If these objects have, as the Lieutenant-Governor believes, been gained, there is no reason to despair of further improvement with more effective supervision and more care exercised in the selection of the punchayets. The power over punchayets and chowkidars given by the Act to the District Magistrate, and through him to the District Superintendent, is almost absolute; but the number of chowkidars is so large that an intermediate agency is indispensable. The Lieutenant-Governor is unable to agree with the Inspector-General that it would be an improvement on the existing system to restrict the duty of the punchayets to that of collecting the Chowkidari Tax, and to convert the 47,000 village watchmen into an additional body of regular police distributed throughout the country. Much good might, however, result if, without depriving the punchayet of its present powers and responsibilities, the pay of the chowkidars could be disbursed through the District Superintendent. On this point the Lieutenant-Governor has directed further enquiries with a view to ascertain if any practical scheme can be suggested which would not throw too much temptation on the police through whose hands the money would probably have to pass. Any change in the existing practice will require an amendment of section 43 of the Act.

8. The inefficiency of the ghatwali police of Manbhoom and Bankoora was brought prominently to notice during the past year. The hold of the District Superintendent and the Magistrate over the ghatwals was much weakened by the decision of the Judge of Bankoora in 1876, restoring to a sirdar ghatwal the service-tenure of which he had been deprived on his dismissal for misconduct. Had this decision been upheld it would have been impossible any longer to exercise any control over the ghatwali police. The decree of the Judge was, however, reversed in July 1878 by the High Court, and it has now been clearly and definitely laid down that a ghatwal on being dismissed from his post is liable to be ejected by the Magistrate from his ghatwali tenure, and has no right to be reinstated unless the executive authorities condone his conduct and restore him to his situation. There should therefore now be no difficulty as regards exercising control over the ghatwals, provided their service lands can be clearly and readily ascertained. At present, however, doubts exist as to the area and even as to the locality of many of the service lands, and a survey and record of the tenures is necessary before the Magistrate can effectually exercise the powers that he undoubtedly possesses of controlling and punishing ghatwals who refuse or neglect to do the work for which their lands were originally assigned to them. Two Commissions have recently been appointed under sections 58 to 61 of Act VI (B.C.) of 1870 for the purpose of ascertaining and determining the service lands in four thanas of the Midnapore district, and the Board of Revenue have been consulted as to the measures to be adopted in order to secure an accurate survey and record of the ghatwali tenures in Manbhoom and Bankoora. The provisions of sections 58 to 61 of Act VI (B.C.) of 1870 will not apparently apply to the great majority of the tenures in these districts which are held, not for guarding single villages, but for guarding groups of villages, roads, &c., within specified tracts of country called ghâts.

9. Casualties in the Railway Police were 30 per cent. during the year, or 2·8 per cent. less than in 1877. The admissions to hospital were 139 per cent. against 179·9. The want of proper accommodation for the police at many of the most unhealthy stations was noticed in last year's resolution, and the sanction of the Board of Directors has now been obtained to the construction of the necessary buildings at Howrah. As regards the buildings at the other stations, there appears to have been considerable delay, as the sanction of the Directors has not yet been received. The system of patrols in Hazareebagh, which was reorganized in 1877, was maintained throughout the past year, and the introduction of Act VIII (B.C.) of 1878 will, it is hoped, remove the

practical difficulty hitherto felt in controlling the sirdars and digwars of Hazareebagh and Lohardugga. In Gya, owing to frequent attacks on the mails, the patrols were strengthened by men from the reserve, but the facts that have recently been brought to light in this district show that some at least of the reported robberies were really the work of the police themselves. There were 10 parties of punitive police quartered on disturbed villages in 1878, as compared with 17 in 1877. Three such parties were rendered necessary in Backergunge, owing to the frequent occurrence of unlawful assemblies and riots. The three parties sanctioned for Rajshahye in 1877 were retained in 1878, and there was one party in each of the districts of Jessore, Pubna, Chittagong, and Balasore. The total strength of the ten parties of punitive police was 1 sub-inspector, 13 head constables, and 108 constables, as compared with 1 sub-inspector, 23 head constables, and 163 constables in 1877. An extra inspector was sanctioned last August for the Patna Division to supervise the traffic in arms on the Nepal frontier. There were 175 fairs specially attended by the police, against 152 in 1877. Convictions were obtained in 88 out of the 112 cases investigated by the police in connection with these fairs. The aggregate value of the property stolen from the 3,857,541 persons who attended the fairs was reported to be only Rs. 2,526, of which Rs. 1,340, or 53 per cent., was recovered by the police. The sum of Rs. 2,526 can, however, scarcely represent the total loss, and it is probable that only the more serious cases of theft were reported. Two cases at the Baroonee Fair in Dacca alone account for Rs. 1,720 out of the Rs. 2,526 returned as stolen, and in one of these cases Rs. 750 was recovered, leaving only Rs. 590 as the total value of the recoveries in the remaining reported cases. Thirty-eight professional thieves from Gonda in Oudh were arrested on their way to the Sonepore Fair.

10. In the regular police, 99 per cent. of the inspectors, 98 per cent. of the sub-inspectors, 86 per cent. of the head constables, and 38 per cent. of the constables can read and write, there being an improvement of one per cent. in each of the last two figures as compared with the corresponding returns of the previous year. In the Municipal Police the number of constables who can read and write is only 12 per cent. of the total number, and of head constables and sub-inspectors only 71 per cent. Casualties in the regular police amounted to 18 per cent. of the entire strength as compared with 13 per cent. in each of the years 1877 and 1876, 11·5 per cent. in 1875, and 13·1 per cent in 1874. This increase is mainly accounted for by the increased number of retirements on pension or gratuity, and discharges due to the general revision of the police force in April 1878, and the introduction of the warder system in jails. The same causes no doubt explain part of the increase in the number of resignations; but in many districts the large number of resignations can only be accounted for by the unpopularity of the service, and the difficulty the men find in living on their pay with grain at its present price. The resignations in Pubna were 10 per cent. of the entire strength, in the Government Railway Police and in Moorshedabad 11 per cent., in the 24-Pergunnahs and in Howrah 12 per cent., and in Hooghly 36 per cent. In the last-named district it has recently been found necessary to hold in abeyance the rule restricting the proportion of foreigners to Bengalis in the force. The proportion of dismissals to strength was highest in Bogra, where it was 13 per cent.; in Noakholly it was 9 per cent.; in Hooghly and in the Railway Police 7 per cent; and in Jessore and Purneah 6 per cent. There was an improvement in the general health of the force, the admissions to hospital being 58 per cent., or 5·7 per cent. less than in the previous year. In the Chittagong Hill Tracts, the admissions to hospital were 323·9 per cent. of the total strength of the force, and in the Railway Police, Beerbhoom, Singbhoom, and Tipperah, the admissions were above 100 per cent. of the strength of the police. The mortality was highest in Dinagepore and Julpigoree, being 6·4 and 5·8 per cent. of the total strength. In the entire force of the province the death-rate was 2·3 per cent., or the same as in 1877.

11. The total number of punishments inflicted on members of the force was 4,513, as compared with 4,792 in 1877 and 5,094 in 1876. There has been a steady fall during the past three years in the number of departmental punishments, and also in the number of convictions under Act V of 1861; but the number of convictions under the Penal Code has risen during the same period.

These convictions were 339 in 1875, 341 in 1876, 364 in 1877, and 380 in 1878. The number of officers punished for offences under the Penal Code was 2 per cent. of the total strength, and the number of constables 1·9 per cent. Two sub-inspectors, three head constables, and ten constables of the regular police were convicted of causing hurt or wrongful confinement in order to extort confessions, while in 1877 five head constables and nine constables were found guilty of these offences. Mr. Monro states that he believes that this class of cases is rapidly disappearing, and that, although the number of men punished was slightly greater than in the previous year, the number of cases has diminished. The Lieutenant-Governor trusts that this is so; but, although the number of men convicted does not accurately indicate the amount of crime, it appears to be the only criterion available. In most cases when a police officer is convicted of extorting or attempting to extort a confession, or of fabricating false evidence, it may be assumed that it is not his first offence. The aim of the police officer is to gain a good reputation as a detective, and this cannot be secured by a confession extorted in a solitary case. The one case in which a conviction is obtained is probably only the last of a series of cases in which the policeman has escaped detection. This view has been confirmed by the disclosures that have taken place in the Gya district, where it has been proved that some of the police have for years been engaged in the commission of dacoities, mail robberies, and other offences, with the chief object of gaining a reputation for detective ability by securing the conviction of innocent persons for the crimes that they themselves had committed or caused to be committed. The High Court have recently upheld the conviction of a sub-inspector of this district for fabricating false evidence in a case of mail robbery in which an innocent man was convicted; and although another and still more important trial of an inspector of the same district has ended in the prisoner's acquittal, there can be no doubt as to the guilt of a large portion of the Gya police. The recent disclosures have rendered necessary the entire revision of the district force, and this is now being carried out under the Inspector-General's instructions. During the year 2 head constables, 18 constables, and 1 chowkidar were judicially punished for extortion, and in one case a constable of the 24-Pergunnahs force was convicted of extorting money from some villagers by telling them that he had orders to select men for service in the Afghan war. On the other hand there were many instances of excellent service rendered by the police. In 41 districts, 14 inspectors, 128 sub-inspectors, 363 head constables, 1,089 constables, and 79 chowkidars were specially rewarded by promotion or money grants for courage, address, or distinguished ability, and these figures compare very favourably with the corresponding statistics of the previous year. Inspectors Huro Prosad Das, Jadu Nath Das, Gouripodo Chuckrabatti, Prosono Kumar Bose, Ram Kumar Ghose, Nobokissen Pal, Abdul Ali, and Rama Rao, and sub-inspectors Dwarkanath Banerjea, Issur Chundra Chatterjea, Raghobram Ghose, Nizamutollah, Hurrish Chundra Chowdhry, Shushi Kumar Sen, Degun Lal, Feda Hossein, Kripa Sunder Mohunto, and Chundra Sekur Bose are mentioned by the Inspector-General as deserving special commendation.

12. The total amount of treasure escorted by the police was nine crores and sixty-six lakhs of rupees, and no loss occurred during the year. The number of suicides was 2,429, or 83 less than in the previous year. There were in all 27,034 reported deaths from accidental causes, as compared with 24,380 in 1877. Of these 11,100 were caused by drowning, 10,242 by snake-bite, and 1,314 by wild beasts, the corresponding figures for 1877 being 10,018, 9,361, and 1,213 respectively. The total reported loss of life in Bengal by wild beasts and snake-bite during the year amounted to 11,556, or ·19 per thousand of the population, as compared with ·17 per thousand in 1877. There were 219 railway accidents during the year; in these, 36 servants of the railway companies and 40 private persons were killed, while 23 servants of the companies and 17 other persons were wounded. Four of the accidents were collisions involving serious damage to the line and rolling stock.

13. The total number of cognizable cases reported was 113,621, against 108,989 in 1877 and 117,559 in 1876. If cases declared false by Magistrates are deducted, the numbers are 101,319, 94,362, and 95,747 respectively. Of offences against property there was an increase of 6,310 reported cases and of 7,974

true cases, while of offences against the person the increase was 282 reported cases and 858 true cases. The rise of 1·8 per cent. in reported crimes against the person is too small to need explanation, and the larger increase in the number of true cases is sufficiently explained by the stricter procedure in striking off cases as false. The orders of Government on this subject had effect throughout the past year, and the result was a falling-off of 4 per cent. in the number of offences against the person declared to be false. For the increase in the number of offences against property various possible causes are assigned, but it appears to the Lieutenant-Governor that high prices and the consequent distress among the non-agricultural classes afford a true and sufficient explanation. In nearly every district in the province the prices of the staple food-grains were higher than in the scarcity year of 1874, and yet with the returns of that year those of 1878 compare very favourably. The number of reported offences against property was, in 1878, 79,575, as compared with 73,265 in 1877, and 92,489 in 1874; the number of cases declared true was 69,736, against 61,762 in 1877 and 71,958 in 1874. It is possible that the increase in the number of reported offences against property, as compared with the returns of the years 1877 and 1876, may be partly due to crime being now more regularly reported by chowkidars, but there is certainly no reason to think that the reduction in the police force, or the additional work thrown on its members by the investigation of cases which were formerly treated under section 117 of the Criminal Procedure Code, has in any way affected the number of cases reported to have occurred during the year; the number of reported cases was in five Commissioners' Divisions less in 1878 than in 1877, one of these being the Orissa Division, in which the heaviest reductions were effected. The Inspector-General does not apparently attribute any material portion of the increase in crimes against property to the diminution in the number of prosecutions for bad livelihood, although the prosecutions under this head fell from 5,154 in 1876 and 3,173 in 1877 to 1,216 in 1878, while the convictions in the same three years were 3,618, 2,184 and 777, respectively. In more than one district, however, the policy of Government on this subject has been assigned as an explanation of the large number of offences against property. The Lieutenant-Governor is well aware that among the large number of persons convicted in previous years on evidence of general bad repute, there must have been some real criminals whose imprisonment tended to the decrease of crime, though in no way in proportion to the amount of hardship and wrong caused to the number of innocent persons who were prosecuted. Any slight increase in offences against property that may be fairly attributed to Sir Ashley Eden's orders with regard to these prosecutions appears, from a comparison of the returns of 1878 with those of 1874 and 1875, to have been far more than compensated for by the increased activity of the police in watching bad characters and in the investigation and suppression of actual crime.

14. The diminution in the number of cases declared false still continues, there being only 12,302 such cases out of a total of 113,621 cases reported in 1878, as compared with 14,627 out of 108,989 in 1877 and 21,812 out of 117,559 in 1876. The percentages of cases struck off as false to cases reported were highest in Backergunge (28·4), Rungpore (28·2), Balasore (21·8), Cuttack (21·4), Midnapore (18·7), and Pubna (15·9). The percentages were lowest in the Sonthal Pergunnahs (1·3), Darjeeling (2·7), Maldah (3·2), Dinagepore (3·6), Bankoora (3·9), Mymensingh (4), Chumparun (4·2), Lohardugga (4·2), and Singbhoom (4·3). It is clear, therefore, that there is still a great want of uniformity of procedure in dealing with cases reported by the police in C form as false, for it is impossible to suppose that the proportion of false cases to the total number reported varies in different districts to the extent indicated by the figures given above. In Backergunge, for example, there were 3,914 cases reported, and of these 1,115, or 28·4 per cent., were declared to be false, while prosecutions against complainants were only instituted in 62 cases. In the adjoining district of Mymensingh the number of cases reported was 3,904, and of these only 157, or 4 per cent., were struck off as false, while the number of prosecutions of complainants was 63. Similar discrepancies are noticeable in the percentages of cases declared false to the total number of cases in adjoining districts in other divisions; and it seems clear that the figures in the statement on pages 35 and 36 of the report are yet valueless for

the purpose of comparing different districts. The extracts from the reports of Magistrates and Commissioners, given by the Inspector-General, show that the orders of Government, embodied in Police Circular No. I of 1877, are in many instances wholly misunderstood or neglected. Where the police and magistracy are efficient, and where prosecutions are judiciously instituted against those who wilfully and maliciously prefer false complaints, there will no doubt be a decrease in the number of cases that should, under the circular, be entered as false; but these causes are wholly insufficient to account for percentages of 21 or 28 per cent. Probably in every district where the number of cases declared false exceeds 10 per cent. of the total number, it will be found on enquiry that the Magistrates enter as false, cases that should be excluded from the returns of cognizable crime either because they are non-cognizable or because they are false only through a mistake of law or fact. As remarked by the Inspector-General, "it is obviously useless to present to Government statistics of false cases and comment on percentages when the very plain instructions contained in the circular on false cases are disregarded. The instructions are perfectly clear and distinct, the very orders to be recorded are given, and there can be no possible difficulty in carrying out the instructions contained in the circular." The subject is one of great importance, for if the orders of Government were attended to the returns of false and true cases would be of considerable value as a test of magisterial and police administration. The Lieutenant-Governor must therefore request Commissioners to call for a report from all District Magistrates and satisfy themselves that every Magistrate in their divisions has read and made himself thoroughly acquainted with the orders contained in Circular No. I of the 17th August 1877 and now understands which cases are to be entered as false, and which cases are not to appear in the returns of cognizable crime. The number of prosecutions instituted for false complaints was 1,459, or 1·28 per cent. of the number of cases reported, against 1,176, or 1·07 per cent in 1877. The number of cases in which convictions were obtained was 592 against 449; the number of persons convicted 640 against 486. Until uniformity of system is adopted in declaring cases to be false, it is useless to compare with those cases the number of prosecutions instituted for false complaints. The results of prosecutions for preferring false complaints were good in Rajshahye, Noakholly, Shahabad, Mozufferpore, Chumparun, Cuttack, Gurjhats, Durbhunga, Monghyr, and the Sonthal Pergunnahs. These cases are extremely difficult to prove, and yet in each of the districts just named convictions were obtained in at least 50 per cent. of the cases instituted. In the Sonthal Pergunnahs each of the 16 cases instituted resulted in a conviction; in the Gurjhats 13 out of 14, and in Chumparun 14 out of 16 cases were successful.

15. The orders of Government on the subject of refusal of enquiry in petty cases had full effect during the past year. Out of a total of 101,319 cases reported as true only 3,727 were not enquired into by the police, while in 1877, out of 94,362 true cases reported, investigation was refused in 8,595 cases. In every division the percentage of cases not enquired into has diminished, and in only two districts, Gya and Singhboom, did the cases not investigated reach 10 per cent. of the total number of cases reported. In the former of these districts the percentage fell from 33·2 in 1877 to 13·9 in 1878. The increase in the number of cases investigated was attended by a decrease in the proportion of cases in which convictions were obtained to the number investigated—the natural result of a large number of unpromising cases being enquired into. This was of course anticipated and is in no way a subject for regret. It shows that the police exercise some discretion in selecting the cases in which they abstain from investigation, but every case which, under the practice formerly adopted, would have remained without investigation but now results in a conviction is a clear gain. The views, however, expressed by Mr. Monro in his 143rd paragraph, as to the expediency of relaxing the hard and fast line, where he thinks the orders of Government have been overstrained, have the Lieutenant-Governor's concurrence.

16. The total number of cognizable cases reported during the year and pending from the previous year was 115,058. Of these 12,302 were declared false and 3,727 were treated under section 117 of the Criminal Procedure Code. In 35,812 out of the remaining 99,029 cases, or in 36·1 per cent., convictions were obtained. The percentages of convictions in 1876 and

1877 were 39·2 and 38·05 respectively. This falling-off in the general percentage of convictions occurred in cases under miscellaneous laws, in which the percentage of convictions is always high; omitting these cases the percentage of convictions to true cases investigated was 23·5, against 23·4 in 1877. Taking into consideration the fact that there was an increase in the proportion of cases investigated, it follows that the improvement was somewhat greater than the figures just given indicate, but the results of the investigation of crime in Bengal cannot be regarded as satisfactory. Of 101,039 persons arrested in 1878, 60,147 or 59·5 per cent. were convicted, against 59·3 per cent. in 1877 and 59 per cent. in 1876. Of those actually put on trial 60 7 per cent. were convicted, as compared with 61·6 per cent in 1877; the acquittals were 33·9 per cent., as compared with 34·1 per cent. in the previous year. The percentages of convictions to arrests in the different divisions were Burdwan, 65; Bhagulpore, 65; Chittagong, 64; Chota Nagpore, 64; Patna, 63; Rajshahye, 61; Presidency, 60; Orissa, 58; Dacca, 56. The best results were obtained in Howrah (77·1), Darjeeling (77), Patna (72), 24-Pergunnahs (71·7), and Lohardugga (70·1). Less than half the number arrested were convicted in Mymensingh (46 9), Backergunge (48), Rungpore (48·6), and Balasore (49·3). The statement showing the results of investigations by the police is most unfavourable to the districts of Manbhoom and Rungpore, where only 17·9 and 19 per cent. respectively of cases investigated were successful. In the Gurjhats, Gya, Purneah, Mymensingh, Furreedpore, Rajshahye, Backergunge, and Sarun the results were but little more satisfactory, the proportion of successful cases to the total number investigated being in each district less than 30 per cent.

17. Of prisoners committed to the Sessions 40 per cent. were acquitted, against 39 per cent. in 1877 and 36·9 per cent. in 1876. The largest percentages of acquittals on commitments to the Sessions were in the Gurjhats (100), Beerbhoom (75), Pooree (70), Pubna (61·2), Gya (60), Furreedpore (59·2), Dinagepore (58·6), Shahabad (54·5), Balasore (53·3), and Hooghly (51·5). In only 183 out of 2,169 cases, in which appeals from Magistrates' decisions were preferred to the Court of Sessions, was Government represented. Out of 1,151 cognizable sessions cases, 144 were conducted before the Magistrate by the District Superintendent or Assistant Superintendent, and in 69 cases the prosecution was similarly conducted before the Court of Sessions. The Lieutenant-Governor has recently directed that in all difficult poisoning cases the prosecution shall, whenever it is possible, be conducted by the District Superintendent.

18. The gross value of property stolen during the year was Rs. 10,71,578 and of recovered property Rs. 3,33,344, or 31·1 per cent. of the amount stolen. In 1876 and 1877 the percentages were 31·8 and 31·2 respectively. In no single district did the recoveries amount to 60 per cent. of the property stolen, but in each of the districts of Bogra, Balasore, 24-Pergunnahs and Monghyr the recoveries exceeded 50 per cent., while in Dacca, Mymensingh and Rungpore they were below 20 per cent.

19. The following statement shows the number of true cases of cognizable crime reported under each heading during the past six years:—

		1873.	1874.	1875.	1876	1877.	1878.
Class I .	Offences against the State and public tranquillity	2,929	2,606	2,755	2,700	2,513	2,735
,, II .	Serious offences against the person ..	4,392	3,905	4,184	4,103	4,141	4,267
,, III	Serious offences against person and property or against property only	24,631	23,615	23,957	22,280	20,667	23,887
,, IV .	Minor offences against the person	4,126	6,405	9,863	9 071	8,812	9 734
,, V .	Minor offences against property .	40,267	43,348	38,093	38,872	41,095	43,849
,, VI .	Other offences not specified above ...	13,765	13,272	15,200	13,257	16,348	14,407
	Other special laws	672	951	726	493	480	589
	Total ...	90,882	99,187	94,783	95,745	94,361	101,318

The figures under Classes I and II have varied little during the past six years. Under each of Classes III and V there was a considerable increase in 1878 owing to distress consequent on the high price of food. Class IV shows an increase of 722 cases, chiefly under the head of hurt, and in Class VI there was a decrease of nearly 2,000 cases, owing to the diminution in the number of prosecutions for bad livelihood.

20. Under Class I the results of prosecutions at the Sessions were even more unsatisfactory than in 1877, only 134 persons being convicted to 319 acquitted, while in 1877 there were 145 convictions against 257 acquittals. There was a

decrease of 95 cases of rioting and unlawful assembly; and although more than a third of the whole number of cases were in the Dacca division, it is satisfactory to find that there was there a decrease of 40 cases, as compared with 1877. The number of cases in the Backergunge district alone was 266, a larger number than in any other entire division, except Patna, where there were 277 cases. The Lieutenant-Governor is glad to find, however, that none of the cases in this division arose out of disputes connected with the cultivation of indigo. The most satisfactory results were obtained in Burdwan and Howrah, where 22 and 31 convictions were obtained in 31 and 45 true cases respectively. In Balasore, Cuttack, Gya, Patna, Jessore, Hooghly and Bankoora the results of prosecutions were unfavourable. In Nuddea, out of 83 cases, convictions were obtained in only 28 cases, and of 499 persons put on their trial 235 were acquitted, the number of acquittals being swelled by the release on appeal of 31 persons convicted by the Magistrate in a single case. True cases of riot increased in every district of the Dacca division, except in Mymensingh, where there was a decrease of 50 per cent., explained by the District Superintendent as due to the energetic action of the police, the binding-down of disputants to keep the peace, and the operations of the Land Registration Act. There seems, however, to be no reason why the last-mentioned cause should operate to a greater extent in Mymensingh than in the other districts of the division. The number of true cases of riot and unlawful assembly in Backergunge was 235, as compared with 199 in 1877, and there can be no doubt that the only effectual way of dealing with these cases after they have occurred is to prosecute every person concerned, and not to be satisfied with the conviction of a few of those implicated. The percentage of convictions in cases of riot in this district is stated to have been 44·6, and of persons sent up 70·9. It is not clear, however, how this latter figure has been obtained, for from the returns the percentage of persons convicted to the number tried would appear to have been 62·1, and even this number contrasts favourably with the corresponding figure (52·4) for the previous year. Eighteen cases of riot in the Dacca division were attended with loss of life against 25 in 1877; in Backergunge alone there were nine cases against twelve in the previous year. Security to keep the peace was taken from 1,280 persons in this district, and although the gross returns of the year show that lawlessness and disorder extensively prevailed in the district, it is satisfactory to find from the recent quarterly reports that the punitive and preventive measures adopted are now beginning to have effect.

21. The number of serious offences against the person ascertained to have occurred was 4,267 against 4,141 in 1877, and under none of the sub-heads of this form of crime was the fluctuation sufficiently great to call for special notice. Convictions were obtained in 38 per cent. of the number of true cases, as compared with 39·4 per cent. in 1877. The percentage of persons convicted to persons arrested was 42·8 in 1878 against 44·5 in the previous year. There were 322 cases of murder as compared with 315 in 1877, but the increase is more than accounted for by the 43 murders in the Presidency division against 23 in 1877. Convictions were obtained in 37·2 per cent. of the cases, against 33·3 per cent. in 1877. The percentage of persons convicted to the number arrested was, however, only 20·7 against 25·1 in 1877. There were five cases of murder by dacoits, one in each of the districts of Beerbhoom, Midnapore, Backergunge, Mymensingh and Shahabad, but the case in Midnapore was the only one in which a conviction was obtained during the year. Of the 23 true cases of murder by poison, 6 were committed in Backergunge. The result of the actions of the police in these cases was most unsatisfactory; and in only two cases out of the 21 decided during the year were convictions obtained. The largest number of other murders took place also in the Backergunge district, where there were 27 true cases; in Patna there were 16 cases; in Dinagepore, 14; in Burdwan, 13; and in each of the districts of the 24-Pergunnahs and Lohardugga, 12. There was a satisfactory decrease in the number of murders in the Dacca division, from 99 in 1877 to 74 in 1878. Excluding cases of murder by professional criminals, the number of cases in Backergunge was 27, against 44 in 1877; and in Mymensing 10 against 20. The difficulty in obtaining convictions in these cases appears to increase yearly. In 11 districts in which murders took place there was not a single conviction; and in Pubna and Noakholly to one conviction there were 22 and 8 acquittals respectively. The police of Backergunge were

more successful in the detection than in the prevention of these crimes, convictions being secured in 19 cases out of 27. The Lieutenant-Governor will call for the record of the case of murder in Moorshedabad, described on page 67 of the Report, in order that he may see whether the Magistrate, who made the preliminary enquiry into the case, is really responsible for the lamentable failure of justice that occurred. In the Sonthal Pergunnahs there were 11 cases of non-professional murder, resulting in only two convictions. One of the cases of acquittal was that of a Sonthal who had joined in the murder of a supposed witch before the Sonthal rebellion. He was discharged by the High Court, on the ground that there was no law under which he could be tried. The most important case in the Orissa division was the trial of the Rajah of Pooree for causing the death of a byragi by torture. This case was very skilfully investigated by the District Superintendent and the police, and resulted in the Rajah and four of his servants being sentenced to transportation for life. There were in all 60 cases of attempt at murder in 1878, against 51 in 1877. Cases of culpable homicide rose from 199 in 1877 to 224 in 1878, and in the detection of this offence, as well as of murder, the police of Backergunge were the most successful, 17 out of 19 cases resulting in convictions. The police failed completely in their efforts to detect the cases that occurred in Bankoora, Hooghly, Dinagepore, Noakholly, Purneah, Maldah, Cuttack, and the Gurjhats. The only case of grievous hurt, in order to extort a confession, occurred in Midnapore and resulted in a conviction. There was an increase during the year in the number of cases of administering stupefying drugs; and the Lieutenant-Governor has found it necessary to draw the attention of all District Officers to this form of crime, and to the necessity of being on the alert in order to have any reasonable chance of detecting professional poisoners. Convictions were secured in 10 out of the 24 true cases reported. Cases of grievous hurt and hurt by dangerous weapons were 601 and 807 respectively, against 634 and 733 respectively in 1877.

22. The returns of minor offences against the person show an increase of reported cases of hurt from 6,090 in 1877 to 7,078 in 1878, and of true cases from 5,651 to 6,734. Of reported cases of wrongful restraint there was a decrease from 4,221 in 1877 to 3,613 in 1878, and of true cases from 3,009 to 2,675. The results under each heading were better than in 1877. There was a large decrease in the number of cases of wrongful restraint in the Dacca division, the falling off in Mymensingh as well as the decrease in cases of riot in that district being attributed to the introduction of the Land Registration Act, which is said to have "smoothed relations between the rent-receiving and rent-paying classes." It is possible that the cause assigned may explain to some extent the great decrease in this crime in the province, where the number of reported cases has fallen from 5,005 in 1876 to 3,613 last year.

23. As one of the natural results of a year of scarcity there was a great increase in the number of offences against property. The number of serious cases of this nature rose from 20,667 in 1877 to 23,887 in 1878; but the number of cases was less by 4,728 than the number in the scarcity year of 1874. Compared with 1877, there was an increase of 50 cases of dacoity, the numbers for the past five years being 465 in 1874, 254 in 1875, 154 in 1876, 138 in 1877; and 188 in 1878. In each of the Patna and Chota Nagpore divisions the number of cases was double that of 1877; in Orissa there were 8 cases against 3 in 1877; and in the Burdwan and Dacca divisions there were 41 and 46 cases respectively, against 30 and 33 in the previous year. In the Bhagulpore division there was an increase of two cases, and in each of the Presidency and Chittagong divisions there was a falling off of three cases. In Jessore, Chittagong, the Chittagong Hill Tracts, Mozufferpore, Monghyr, the Gurjhats, Balasore, and Singbhoom there was not a single case of dacoity during the year. Convictions were obtained in only 40 cases out of 188, and against 213 persons out of 872 placed upon their trial. These results are even more unsatisfactory than those of the previous year. Of the persons sent up by the police, the Magistrates committed 60 per cent. for trial; but at the Sessions only 48 per cent. of those committed were convicted. The only district in which good results were obtained was Tipperah, where convictions were secured in 6 out of 9 cases and against 42 persons out of 61. In Beerbhoom, Moorshedabad, Dinagepore, Rajshahye, Bogra, Pubna, Darjeeling, Julpigoree, Mymensingh, Durbhunga, Sarun and Bhagulpore

not a single conviction was obtained, and the results were nearly as unsatisfactory in the districts of the 24-Pergunnahs, Pooree, Gya, Rungpore, Midnapore and Manbhoom. The outbreak of dacoity in the Hooghly district, noticed in last year's resolution, continued in 1878. In the past two years there were 22 cases against 5 in the preceding two years. Of the 11 cases in 1878, a conviction was obtained in only one case, but better results have followed since the close of the year. One of the causes assigned for the want of success in the detection of cases of this serious crime is most discreditable to those concerned. It would appear that the deputation of a special detective agency, under an Assistant Superintendent, was regarded by the local police as a slight upon themselves, and they accordingly withhold their assistance from petty feelings of jealousy and disappointment. The Lieutenant-Governor trusts that Mr. Monro will enquire into this matter thoroughly. If the explanation given for the failure to put a stop to the outbreak of dacoity in Hooghly is correct, it is clear that the local police force requires revision, and no officer should be allowed to remain in the district who permitted his personal pique to interfere with the discharge of his public duties. The Magistrate of Beerbhoom ascribes the increase of dacoity in his district to the prosperity of "the past two years, which has filled the villages with money in cash and has induced professional robbers to ply their business." This explanation does not commend itself to the Lieutenant-Governor. The police were as unsuccessful in the detection as in the investigation of crime, not a single conviction being obtained in the ten true cases of dacoity that occurred during the year. The administration of the Beerbhoom district has on more than one occasion recently been brought unfavourably to the notice of Government, and the Lieutenant-Governor cannot acquit the late Magistrate of responsibility for the unsatisfactory state of the police. The Inspector-General has recently made several changes in the native officers in the district; there has been a change also in the District Officer, and Sir Steuart Bayley trusts that it will no longer be necessary for the Commissioner and Government to characterize the action of the Beerbhoom police as unsatisfactory, weak and ineffectual. Convictions were secured in two out of five true cases of dacoity in Burdwan. The action taken by the Joint Magistrate, on the disclosures of an approver in one of the dacoity cases, appears to have been extremely injudicious; out of 85 persons arrested in consequence of the approver's statements only one was convicted. There was an increase of dacoity in every district of the Dacca division, except Furreedpore, where there were 6 cases against 10 in 1877, and in Backergunge, where the number was 14, the same as last year. In Dacca there were 9 cases, against 4 and 2 in 1877 and 1876 respectively; in Mymensingh there were 8 cases, against 2 and 0 in 1877 and 1876; and in Tipperah 9, against 4 and 6 in the same two years. Of the 14 cases in Backergunge, 10 were professional dacoities and 8 were committed on rivers. In most of these dacoities the property stolen is cash, and the chance of detection, when once the dacoits have made off, is very slight. Altogether the results of police action in the detection of serious crime in the Dacca division were better in 1878 than in the previous year, although the actual returns of crime are still extremely unsatisfactory. From a special report received from the Inspector-General, it appears that the District Superintendent assigns as one reason for the increase of dacoity that less attention is now paid to bad characters than formerly. If this is so, the orders conveyed in paragraph 23 of the Resolution on the report for 1877 must have been entirely ignored, and the Lieutenant-Governor requests that the Inspector-General will call the special attention of the District Superintendent to the instructions of Government. The Lieutenant-Governor has found it necessary, in the interests of justice, to condemn the wholesale prosecution and imprisonment of those against whom there is mere suspicion, and it is now all the more necessary that the movements of those who are suspected may be carefully watched. The views of Government have been so repeatedly stated that the Lieutenant-Governor will not now dwell upon the subject, but will leave it to the Inspector-General to enforce the orders wherever he may find that they are ignored or neglected. In Gya there were 15 true cases of dacoity, against 7 in 1877 and 3 in 1876; but it is impossible to determine how many of these cases were really the work of the police in concert with bad characters, with whom

they shared the plunder. The whole subject of police administration in the Gya district has been dealt with in a separate correspondence; and the Lieutenant-Governor is satisfied that such a state of things as has been brought to light could not have existed if the District Superintendents of recent years had not been blindly confident where they ought to have been vigilant and suspicious. The increase of dacoity in Chota Nagpore is, the Lieutenant-Governor thinks, rightly ascribed to high prices and consequent distress. This is borne out by the results of 1878 when compared with those of 1877. Of 28 cases, there were nine in which convictions were obtained, and 54 persons were convicted out of 109 placed on their trial. In 1877 only four persons were convicted in one out of the 14 cases that occurred. The dacoits were not professionals; and in Manbhoom, where there were 12 cases, the crime disappeared as soon as the crops were gathered.

24. There were 179 cases of robbery during the year against 144 in 1877. In the Presidency Division there were eleven cases of highway robbery as compared with six in the previous year; in the Patna Division there were 13 cases against 5 in 1877. In 64 cases of robbery convictions were obtained, and of 241 persons placed upon their trial for this offence, 118 were convicted against 116 out of 277 in the previous year. There was a decrease in the number of cases of serious mischief, there being 606 cases against 637 in 1877 and 811 in 1876; but the results were most unsatisfactory. Convictions were obtained in only 96 cases against 153 in 1877, and of 660 persons sent up for trial, 216 were convicted and 405 were acquitted. Two serious cases of arson in Julpigoree, by which a bazar and all the divisional and district offices were destroyed, took place during the year. The fires were clearly the work of incendiaries, but they remain till now undetected, although special officers were deputed for the investigation.

25. The following table shows the fluctuations in cases of burglary and house-trespass, including serial numbers 35 and 36:—

	1876.	1877.	1878.
Cases reported ...	75,522	71,163	77,415
„ declared false ...	16,071	10,975	9,327
Total true cases ...	59,451	60,188	68,088
Not enquired into ...	9,589	7,985	3,287
Enquired into ...	49,862	52,203	64,801
Convictions in cases ...	13,076	13,435	16,947
Persons tried ...	40,045	41,430	48,619
„ convicted ...	22,264	22,620	27,667
„ acquitted ...	15,969	17,003	19,027

Apart from the large increase in the number of cases shown by this statement, there are two very noticeable features—the decrease in the number of cases struck off as false, and the still greater decrease in the number of cases not enquired into. The orders of Government, with reference to the non-investigation of cases under section 117 of the Criminal Procedure Code, had, as stated above, full effect during the year, and the result goes far to confirm the Lieutenant-Governor's view that many cases in which investigation might have been successful had in past years been allowed to pass without enquiry. Although the number of cases not enquired into was in 1878 only 4·8 per cent. of the total number of true cases as compared with 13·2 per cent. in 1877, and a large number of unpromising cases were necessarily brought under investigation, it appears that the results, with reference to both persons and cases, were better than in the previous year. Convictions were obtained in 26·1 per cent. of true cases enquired into in 1878 against 25·7 per cent. in 1877. Of persons tried, 56·9 per cent. were convicted against 54·5 per cent. in 1877. The Inspector-General again points out the great assistance that would be given to the police if streets and lanes in municipalities were better lighted than they now are. There is no doubt, as stated by Mr. Monro last year, that nothing is so effectual as good lighting in putting a stop to burglaries and crimes against property, and the Lieutenant-Governor commends the subject to the consideration of the Municipal Commissioners of all large towns. If a good system of lighting were adopted in a few such cities as Patna and Dacca, the results would, Sir Steuart Bayley believes, induce other municipalities to follow the example. There was a large increase in the number of cases of lurking house-trespass and theft in Beerbhoom; but the late Magistrate, it appears,

regarded this with satisfaction, as an indication not only that "the police have been shaken out of their old delusion that the less crime they showed the more credit they would get," but that the people are beginning to have more confidence in the efficiency of the police, and therefore to court police enquiries more freely. If this explanation is correct, the confidence of the people was strangely misplaced, for only 7·9 per cent. of the cases of lurking house-trespass, and only 28·8 per cent. of cases of theft, were detected in 1878 against 13·3 and 29·8 per cent. in 1877. The results of investigation of these forms of crime in Beerbhoom have during the past four years been very unsatisfactory, and there has been nothing in the police or general administration of the district to increase the public confidence.

26. The operations of the police in cases of ordinary theft and cattle-theft are shown in the following statement :—

	1876.	1877.	1878.
Cases reported	37,306	35,735	39,536
„ declared false	10,894	7,411	6,454
Total true cases	26,412	28,333	33,082
Not enquired into	2,225	2,184	877
Enquired into	24,187	26,149	32,205
Convictions in cases	8,148	8,600	11,336
Persons tried	22,397	23,919	28,946
„ convicted	12,668	13,436	16,937
„ acquitted	8,532	9,371	10,850

The same features noticed above in the returns of burglary and house-trespass are here also observable. Notwithstanding the increased number of cases entered as true, and the greatly increased proportion of cases investigated, the results were better last year than in either 1876 or 1877. Convictions were obtained in 33·1 per cent. of cases of ordinary theft, and 49·5 per cent. of cases of cattle-theft against 29 and 42·2 per cent. respectively in 1877, and 29·6 and 47·5 per cent. respectively in 1876. The proportion of persons convicted to the number placed on trial in 1878 compares also favourably with the corresponding figures for the two previous years. A serious check was administered to cattle thieves in Noakholly by the detection and prosecution of an organized gang of cattle-lifters who had been carrying on operations since the cyclone. The Lieutenant-Governor is unable to agree with the Inspector-General that all cases of cattle-straying, in which the property is not recovered, within a fortnight, should be treated as theft. Cases in which there is reasonable suspicion can of course be so treated; but a general rule, such as that proposed, would throw much additional work upon the police without any equivalent advantage. Convictions were obtained in 1,698 out of 2,247 true cases of receiving stolen property against 1,492 out of 2,018 in 1877.

27. The number of persons tried for bad livelihood during the year was 1,216, against 3,173 in 1877 and 5,154 in 1876. Of those tried 777, or 64 per cent., were convicted against 69 per cent. in the previous year. This falling off in results, notwithstanding the great decrease in the number of prosecutions, is no doubt due to the Lieutenant-Governor's orders, that judicial officers before convicting under sections 504 and 505 of the Criminal Procedure Code, must satisfy themselves that the accused really supports himself by preying on society. The enquiry, it was directed, should as a rule be held in the village of the accused; but this order appears to have been much neglected in every district except Burdwan, Rungpore, Monghyr, Dinagepore, Jessore and Manbhoom, while in the districts of the 24-Pergunnahs, Backergunge, Rajshahye, Chumparun, Purneah, Mozufferpore, Noakholly and the Sonthal Pergunnahs, in each of which there were many prosecutions, the order was entirely ignored, and not a single case was enquired into by the Magistrate on the spot. In Patna, out of 110 cases, only two were tried in the villages of the accused; in Sarun, only 1 out of 47; in Chittagong, 1 out of 28; in Mymensingh, 4 out of 64; and in Dacca 4 out of 93. In Patna, most of those convicted were Burwars from Gonda, while nearly all the cases in Chumparun were against Mughya domes. Excepting these two districts and the Sonthal Pergunnahs, the figures given by the Inspector-General show that the most unsatisfactory results were in those districts where the orders for local investigation by the Magistrate were ignored, and the best results occurred where a large proportion of the cases were tried in the villages. From the returns before

Government, it would appear that when it is known that the trial will be held in the village of the accused both the police and private persons are afraid to institute false charges of bad livelihood, while, when it is known from the practice of the Magistrate that the cases will be decided in Court away from the villages of the accused, the law is at once turned into an engine of oppression, and used for the gratification of private spite. The results in the Dacca division show this very clearly. Out of 156 cases instituted on police reports, there were convictions in only 67. In the whole division only 13 cases were tried in the villages of the accused, and as the natural result false charges of bad livelihood were brought forward without fear, in the certainty that no proper enquiry would be held. Out of 246 cases instituted on petitions before Magistrates in the whole of the Lower Provinces, 165 were in the Dacca division; and of the 41 cases declared to be false 39 were in the same division. The small proportion of cases in this division tried in the villages of the accused requires explanation, and a report will be called for from the Commissioner. The attention of other Commissioners is also drawn to the neglect of the orders of Government in the districts named above.

28. In non-cognizable cases there was a slight decrease from 95,367 cases in 1877 to 95,247 in 1878. The number of persons summoned rose from 100,687 to 103,242, and there was a slight increase from 41·7 to 42·1 in the percentage of convictions to persons summoned. The number of non-cognizable cases in which the agency of the police was employed fell from 5,670 in 1877 to 5,060 in 1878; but in many districts the orders of Government on this subject appear to have been neglected, and while the number of institutions of non-cognizable cases diminished the number of instances in which police agency was employed increased. As pointed out by the Inspector-General, it is, however, impossible to tell accurately the extent to which the police were used in the investigation of cases that do not properly belong to them, unless a note is made of the number of non-cognizable cases transferred from the statement of cognizable crime and investigated before transfer. The necessary information should be given in future in the divisional reports. In Monghyr the action of the magistracy was very unsatisfactory. Only three cases taken up as cognizable were transferred to the returns of non-cognizable crime, and yet no less than 473 non-cognizable cases were made over to the police for investigation and of these 383 were municipal cases. The explanation of the Magistrate, that these investigations took place in absolute defiance of his express orders, cannot be accepted. The orders of Government on this subject appear also to have been entirely ignored in Hooghly, Dacca, Mymensingh, Tipperah, Patna, Durbhunga and Mozufferpore. In Noakholly there was an improvement in this as in every other point of police administration. The proportions of persons convicted of non-cognizable crime to the total population are given in the report, but the Inspector-General has not been able to find any explanation for the extraordinary variations in the different districts. The returns for the whole of Bengal show that one person out of 1,405 was convicted of non-cognizable crime in 1878, as compared with one out of 1,433 in 1877.

29. Much attention was given during the year to the supervision of criminal tribes, and the measures adopted by the Inspector-General for keeping a watch over the Bedyas of Nuddea and securing their detection when they visit other districts, appear already to have been attended with considerable success.

30. There were 3,283 reconvictions recorded during the year, against 3,042 in 1877 and 2,435 in 1876. It is satisfactory to find that the views of Government, expressed in last year's resolution with regard to the sentences on habitual offenders, have been attended to; but some of the sentences passed on a second or third conviction for an offence of the same character are still utterly inadequate. Thus in Tipperah a man who, in July 1875, underwent six months' imprisonment for cattle theft was in 1878 sentenced to 15 days' imprisonment for receiving stolen property, and in the same district, Shufuruddin, who in June 1878 underwent seven days' imprisonment for receiving stolen property was in September sentenced to fifteen days' imprisonment for cattle theft. In Durbhunga Bullah Sing was sentenced to 20 Rs. fine on a second conviction for theft: in the 24-Pergunnahs, Wahid Sheik was on a third conviction sentenced to ten stripes: in Bhagulpore, Boodhoo Momim, after five previous sentences for theft, house-breaking and receiving stolen

property, the last of which only expired in January 1878, was on the 19th August sentenced to three months' imprisonment for a sixth offence of theft: in Beerbhoom, Moboob Khan, after five previous convictions for theft, was on a sixth conviction for the same offence sentenced to six months' imprisonment: in Shahabad, Hurdyal Bind, on a second conviction for theft, was sentenced to fifteen days' imprisonment; Etwaroo Mosahar, on a second conviction for house-breaking, to five months' imprisonment, and Koriman, on a fourth conviction for receiving stolen property, to one month's rigorous imprisonment. These and other sentences entered in the statement on pages 127 to 130 of the Report are wholly unintelligible to the Lieutenant-Governor. Sir Steuart Bayley requests that Commissioners will call for and examine the records of the cases brought to notice by the Inspector-General. Some of the Magistrates would appear to be unfit to exercise the powers entrusted to them, and in several cases section 315 of the Criminal Procedure Code must have been entirely ignored. The records of the cases specially mentioned above should be submitted for the Lieutenant-Governor's perusal.

31. On the whole the Lieutenant-Governor agrees with the Inspector-General that the police of the province deserve credit for their work during the year. The increase in crime consequent on the exceptional pressure caused by high prices threw much additional work upon the reduced police force. Under Mr. Monro's energetic supervision, no department of police administration was, however, neglected, and the recent orders of Government regarding the investigation of cognizable cases and the supervision of suspicious characters and criminal tribes have generally been carefully observed in spite of the additional work involved. The important duty of inspection of stations and outposts by District and Assistant Superintendents of Police was well performed, and the Inspector-General reports that in every district much attention was given to the rural police. Note has been taken of the names of those officers who have been selected by Mr. Monro for specially favourable mention.

ORDER.—Ordered that a copy of the above Resolution be forwarded to the Inspector-General of Police, the Commissioner of Police, Calcutta, and to all Commissioners of Divisions for information.

Ordered, also, that a copy of the Resolution and extract, paragraphs 109, 318 and 322 of the Report, be forwarded to the Appointment Department of this office for information.

Ordered, also, that a copy of the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

HORACE A. COCKERELL,

Secretary to the Government of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different District of Bengal, as reported to Government during the week ending the 16th August 1879.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL		
	Western Districts.		
BURDWAN DIVN. 1	Burdwan, Aug. 16 '79	2·13	Weather—seasonable. In Cutwa and Culna sub-divisions crops doing well. In other sub-divisions, especially in Sudder, more rain very much wanted for transplantation. At present in these sub-divisions not more than half the usual quantity of land planted with *amun*, and unless there is plentiful rain during next two weeks and in October, that crop will probably be a very short one. Fever in a village in thana Munglecote; 21 out of 120 cases have proved fatal. In other parts public health good.

	Cutwa ...	2·40	
	Bood-Bood ...	2·82	
	Raneegunge ...	2·91	
	Jehanabad ...	6·26	
2	Bankoora, „ 16 „	2·13	Weather—showery. By special enquiry, crops in thana Bishenpore found not so bad as reported last week. In Talishire outpost rain abundant, transplantation nearly finished, and crop promising. Only in some villages of Bishenpore Sudder station and Joypore outpost transplantation greatly impeded. On 10th a shower fell at Bishenpore and people commenced transplantation in earnest. Nothing to create unusual fear. Good rain in Gangajalghati. In Bankoora and Onda more still wanted.
3	Beerbhoom, „ 16 „	1·31	Rain insufficient, and more wanted quickly to complete transplantation on high lands.
4	Midnapore, „ 16 „	1·64	Weather—cloudy. Rain scanty; more wanted all over district. Transplantation at a stand-still in many places. Cholera decreasing.
	Contai ...	3·23	
	Tumlook ...	1·25	
	Ghatal ...	1·57	
5	Hooghly, „ 16 „	1·09	Weather—too dry for the time of year. Ryots busy everywhere transplanting *amun* seedlings and preparing ground for transplantation. Rain wanted in all parts of district.
	Howrah „ 18 „	2·68	Weather—cloudy, with occasional showers. Rain wanted for transplantation throughout district, except in Shampore and Khanakul.
	Mohesrekha ...	1·14	
	Central Districts.		
PRESIDENCY DIVN. 6	24-Pergunnahs, Aug. 16 '79	3·29	Weather—showery and cloudy. Transplantation still going on briskly. Prices high. Public health in general good.
7	Nuddea, „ 16 „	4·55	Weather—cloudy and sultry. In Bongong, Meherpore, and Kooshtea sub-divisions crops on some lower lands submerged by rising of rivers. If no further rise takes place, prospects will be on the whole fair, and very good at all other sub-divisions.

9	Moorshedabad, „ 16 „	1·87	Weather—cloudy and rainy. Prospects of *amun* and *aus* good, except in low lands in north and east where *aus* has suffered very much from overflow of rivers. Prices of food-grains high. General health good.
RAJSHAHYE AND COOCH BEHAR DIVNS. 10	Dinagepore, Aug. 15 '79	5·15	Much heavy rain. Weather cool. *Bhadoi* rice harvest commenced. Transplantation going on. Prospects good.
11	Rajshahye, „ 16 „	3·44	Rain almost daily; but in north-west less frequent. *Aus* being cut in some parts. Winter rice looks well and promises to be a very fine crop, except where damaged by sudden and early inundations. Ganges unusually high.
12	Rungpore, „ 15 „	1·79	Weather—seasonable. State and prospects of crops good. Public health good. Small-pox much abated.
	Gaibanda ...	2·36	
	Bagdogra ...	4·43	
13	Bogra, „ 16 „	4·76	Weather—showery Heavy rain on night of 15th. *Aus* and jute continue to be reaped. Prospects of *amun* good.
14	Pubna, „ 16 „	0·58	Weather—showery, with wind, and cool. Parts of *aus* and *amun* crops have suffered from rise of rivers; prospects of rest good. Public health good.
15	Darjeeling, „ 15 „	10·53	Continual rain during week. In Terai three-fourths of *kaimanti* rice transplanted. Excessive rain has done some damage to *bhadoi* rice. In Hills Indian-corn and other crops doing well.
16	Julpigoree, „ 16 „	3·75	Fine weather, broken up by drizzling showers. Rice crop good. Jute cutting commenced in parts; outturn not good.
	Cooch Behar, „ 14 „	3·18	Weather—showery and cool. Prospects of winter paddy good. Outturn of jute will not be satisfactory. Cutting of early rice and transplantation still going on. Public health generally good. Small-pox not yet disappeared from Dinhatta sub-division. Cases of cholera and small-pox reported in Mathabhanga sub-division.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, *g* gloomy, *d* drizzling, *t* thunder.

GOVERNMENT OF INDIA.

MILITARY (MARINE) DEPARTMENT.

NOTICE TO MARINERS.

(No. 27.)

Bay of Bengal—Coromandel Coast.

MADRAS.

Change in the anchorage limits of the port.

The Master Attendant of Madras has given notice that owing to the extension of the Harbour Works into deep water, it has become necessary to shift the Northern and Southern Port Buoys into eight fathoms of water. These buoys, which are painted half red and half

white vertically, should henceforward be looked upon as *danger* buoys, and Commanders of Vessels, making or leaving the anchorage, are hereby warned *not to pass in shore of either of these buoys* by day, nor to come under eight fathoms by night, as the rubble bases of both groynes extend much further seaward than the walls themselves, and in some places have only 17 feet of water on them.

The middle, or large buoy which is painted red, is laid down in six and a quarter fathoms, and marks the western limit of the anchorage for steamers.

All sailing vessels, excepting dhonies, should anchor outside the eight-fathom line of soundings.

By Direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr. (late I. N.)*
Superintendent, Marine Survey of India.

MARINE SURVEY DEPARTMENT, CALCUTTA, the 21st August 1879.

This Notice affects the following:—

BRITISH ADMIRALTY Charts, Nos. 71*c* & *d*, 828, 70*a*, and 748*b*.
INDIAN MARINE SURVEY Charts, Nos. 105 and 15*b*.
Taylor's Sailing Directory, Vol. I, page 458.

If this notice is received on boardship, the substance of it should be inserted on the Charts affected by it, and introduced into the Sailing Directions to which it relates.

RESOLUTION.—By the Government of Bengal, Marine Department.

Submitting memorials of certain Branch and Master Pilots on the subject of revising the tonnage allotted to the several grades of the pilot service.

Read again the resolution of this Government of the 8th of May 1879, regarding the system under which Commanders or agents of ships had the privilege of applying for particular pilots to pilot their vessels to sea, and the employment of special pilots on board of mail steamers.

1. By the resolution of the 8th May 1879, the agent's right of application is restricted to a request for the services of the pilot who brings a vessel into port, and the employment of "special" pilots is strictly confined to mail lines of steamers. At the time of issuing that resolution it was anticipated that a demand for a revision of the tonnage allotted to the various grades of the pilot service would thereby be created. Owing to the yearly increase in the size of ships coming to Calcutta, the number of ships falling within the tonnage of the Branch Pilots' grade is at present out of all proportion to the small numbers of pilots in that grade, and, as at the Sandheads, pilots get vessels by turn in accordance with their grade, the practical effect of the present arrangement is that the Branch Pilots are now in constant employment. They meet with little or no detention at the Sandheads; and as they are always bringing vessels up, they alone can be applied for to take these vessels down again. Formerly many Masters had regular connections with merchants and commanders, and were applied for to take down vessels of the Branch Pilots' grade; and although, under the orders referred to above, Masters can still be applied for to take down any vessel which they bring up, it is found that they lose a large number even of applications which they might still receive, whilst waiting their turn for ships at the Sandheads.

2. It appears also from the papers submitted that the dullness of trade has been such as to press severely on the Pilots' earnings, especially of the Masters' grade, and an urgent demand is now made on the Masters' behalf for a readjustment of the tonnage, so as to throw at least a fair share of the work of the port into their hands. The present distribution of the tonnage is this:—

Mate Pilots	...	...	Up to 800 tons.
Junior Masters	...	...	801 to 1,175 „
Senior Masters	...	...	801 to 1,300 „
Branch Pilots	...	...	Above 1,300 „

The Port Officers propose, and the Masters ask for, the following scale:—

Mate Pilots	...	...	Up to 800 tons.
Junior Masters	...	...	801 to 1,300 „
Senior Masters	...	...	801 to 1,600 „
Branch Pilots	...	...	Over 1,600 „

3. The Branch Pilots admit that a case for readjustment has been made out, though they dispute the equity of the precise proposal made by the Port Officers, urging that the Masters allowed to run as special pilots take ships of the Branch Pilots' grade all the year round. Allowing, however, for this, and after full and careful consideration of all the circumstances of the case put forward by the Branch and Master Pilots, the Lieutenant-Governor agrees with the Port Officers that some immediate relief for the Masters' grade is required; and His Honor accepts the Port Officers' proposals tentatively, pending the accumulation of information on which finally to settle the question of allotting the tonnage. The Port Officer is meantime requested to submit monthly statements similar to that at the bottom of page 2 of the annual report of the Marine Department for 1874-75. These statements should commence from the 1st of April 1879.

[Second Publication.]

Rules made by the Lieutenant-Governor of Bengal under Section 2, Act VII (B. C.) of 1879, for the examination of, and the granting of certificates to, Commanders of Inland Steam Vessels.

N.B.—The provisions of Rule 1 will not be applied in the case of candidates who are at the date of the publication of these rules actually in command of a river steamer.

1. Candidates for certificates as commanders of inland steam vessels must be not less than 21 years of age, and have served at least 3 years at sea, and 3 years as mate of a river steamer, or master of a river flat.

2. Every such candidate shall apply for permission to appear for examination in a printed form,* to be filled up by him, and forwarded to the Port Officer, Calcutta, together with such documentary evidence as shall satisfy the Port Officer that the candidate has complied with the conditions of Rule 1 above, and that he is of sober habits and of good character. Each candidate shall forward with his application a fee of Rs. 16.

* Copies will be supplied to intending candidates by the Port Officer, Calcutta, on application.

3. The Port Officer shall notify to accepted candidates the date and hour of examination in fixing which he shall have due regard to the convenience of their employers. The fees of any candidate who is not accepted shall be returned to him.

4. The examination of candidates shall ordinarily be conducted by the Committee which sits quarterly for the examination of pilots, but the Port Officer may at any time convene a special committee for the examination of candidates under these rules.

5. Before proceeding to examine any candidate in the manner provided in the rule next following, the Committee shall carefully test his ability to distinguish the following colours which enter largely into the combinations of signals by day and night, viz. black, white, red, green, yellow, and blue. In the event of any candidate failing to satisfy completely the usual tests for colour blindness in respect of all of these colours, the Committee will decline to proceed with his examination, and will report the case through the Port Officer for the information of the local Government.

6. The Committee will examine each candidate apart, and *vivâ voce*, in each and all of the following subjects:—

(1).—The names and courses of the river reaches from Calcutta to Mud Point and the extent of the sands in such reaches.

(2).—The sets of the tides within the said limits.

(3).—The names of all Points in the river within the said limits.

(4).—The candidate's general knowledge of soundings in the channels and over the sands within the said limits.

(5).—The tracks over the Moyapore and Royapore flats, the Fultah tracks, and the Eastern and Western Guts.

(6.)—The marks for fair channels or hauling into reaches where such exist.

(7).—The marks for the limits of sands where such exist.

(8).—The rules of the road.

(9).—The management of river steamers under all contingencies of meeting, overtaking, and passing vessels in all possible positions within the limits described in No. 1.

(10).—The anchorages to select in view of the requirements of sea-going vessels.

(11).—The Tide Table.

(12.)—The rules of the Port of Calcutta including the prescribed Storm Signals.

(13).—The provisions of Act VII of 1879.

7. If the candidate satisfy the Committee as to his knowledge of the subjects set forth in the foregoing rule, and generally as to his competency to command an inland river steamer, they shall certify the same to the Port Officer, who will then grant a certificate of such competency in the form appended to these rules.

8. No candidate who fails to satisfy the Committee shall be at liberty to submit a fresh application for examination until six months have passed from the date of such failure.

Secy. to the Govt. of Bengal.

NOTIFICATION.

The 18th August 1879.—It is hereby notified for general information that the limits of the Port of Calcutta, and of the navigable river and channels leading thereto, as fixed with the sanction of the Governor-General in Council, are severally as described below.

The limits of the Port are—

On the north, a line drawn from the boundary pillar at the Cossipore Gun Foundry Ghât to a point on the opposite side at Ghoosery.

On the south, a line drawn from a point called Paikpara on the north to a creek called Nardukhal on the south.

So much of Tolly's Nullah as lies to the west of a line drawn across the Nullah, 25 feet to the west of Hasting's Bridge.

The limits of the Port include to the east and west so much of the river Hooghly and the shores thereof, as are within 50 yards of high-water mark, spring tides.

N.B.—Within the above limits, the Port is subject to the jurisdiction of the Commissioners for making Improvements in the Port of Calcutta, under the powers conferred upon them by the Lieutenant-Governor of Bengal, by an order published in the *Calcutta Gazette* of the 5th April 1875, which vested them with the powers of Conservator of the Port.

The limits of the navigable river and channels leading to the Port are—

On the north, the Port of Calcutta as above defined.

On the south, a line drawn east and west from the Eastern Channel Floating Light-vessel.

All parts of the navigable channels, called the Eastern and the Western Channels, and of the river Hooghly between the said limits and below high-water line at spring-tides.

N.B.—The Port Officer, Calcutta, is the Conservator of the navigable river and channels thus defined, and they are under his jurisdiction.

REVISED RULES

for the Port of Calcutta within the jurisdiction of the Port Commissioners.

UNDER the provisions of Act XII of 1875, the Lieutenant-Governor is pleased to sanction the following revised rules to be observed within the Port of Calcutta:—

Vessels not to move at night.

1. No vessel of the burthen of 200 tons or upwards shall enter the Port, or move from one place to another within the Port, between sunset and day-break, without the special permission of the Commissioners: provided that a vessel which has entered the Port before sunset may at once proceed to a safe anchorage at any part of the Port not higher than Prinsep's Ghât. No vessel shall be moored or anchored abreast of the Peninsular and Oriental Company's premises without the permission of the Commissioners.

Exception in favour of steam tugs.

2. Steam tugs having no vessel in tow shall be permitted to enter the Port after sunset at their own risk, but they shall not proceed above Chandpaul Ghât. Steam tugs shall be held liable for any damage which they may cause by moving at night.

Vessels not to move up on the flood or down on the ebb.

* 3. No vessel of the burthen of 200 tons or upwards shall steam, sail, or be towed up on the flood or down on the ebb within the Port above the house of the Superintendent, Government Botanical Gardens, without the special permission of the Commissioners; and in cases where such permission is granted, the officers in charge shall be held strictly responsible for accidents which may occur in consequence of their taking the vessels up or down at a greater speed than is absolutely necessary in order to keep them under command; and in every case where such permission is granted, the speed of the vessel shall not exceed four miles an hour through the water.

Speed of vessels restricted

4. No vessel shall steam, sail, or be towed up on the ebb or down on the flood within the Port at a speed greater than four miles an hour over the ground.

Vessels dropping up or down.

5. Vessels may at all times drop up or down the Port with their anchors on the ground. Steamers of the Peninsular and Oriental Company, or of the Messageries Maritimes, and any other vessels specially permitted to start with the ebb, are prohibited from turning out from their moorings while vessels are dropping down the Reach, but the Deputy Conservator and Harbour Master shall, as far as possible, prevent vessels from dropping down at the time the Peninsular and Oriental Company's steamers and Messageries Maritimes' steamers are about to turn and proceed down the Reach. Pilots and Assistant Harbour Masters having charge of outward-bound vessels are forbidden to pass below the India General Steam Navigation Company's jetty on an ebb-tide whilst the Assistant Harbour Master's flag is flying on board any of the outward steamers belonging either to the Peninsular and Oriental Steam Navigation Company or Messageries Maritimes, and they are not to commence dropping their vessels again until the steamer has turned and proceeded fairly down the Reach

---

* With reference to Port Rule No 3, the following instruction for the guidance of Assistant Harbour Masters is published for general information —

Assistant Harbour Masters are forbidden, without a special order from the Harbour Master's Office, to turn outward-bound vessels until they are below the lower College Sand buoy.

Vessels entering the Port on neap-tides.

6. Vessels entering the Port at neap-tides during the freshets are permitted to come up at slack water at a speed not exceeding four miles an hour over the ground.

River and tug steamers exempted.

7. River steamers and tug steamers having no vessels in tow are permitted to move up on the flood or down on the ebb at their own risk, and at a speed sufficient to keep the vessels under command; but in no case shall the speed exceed four miles an hour through the water.

8. All steam launches, steam cargo-boats, steam ferry-boats, and all other small vessels propelled by steam, plying within the limits of the Port, shall have their steering gear so placed that the men steering can have a clear look-out ahead.

9. No steam vessel shall proceed at a greater rate of speed than four miles an hour when inside the moorings, and no steam vessel shall proceed at a greater rate of speed than four miles an hour anywhere within the Port after dark.

Ferry steamers may be exempted.

10. Special permission may be given by the Commissioners to ferry steamers to move in the Port otherwise than is prescribed in these rules, due limitation being laid down as to place and hours of plying and speed in each case.

Vessels having powder in excess of the authorized quantity to be kept outside the Port.

11. No vessel shall have on board, within the limits of the Port, more than 15lb of gunpowder as defined in the Act, so as not to exceed 5lb of common gunpowder and 10lb of rockets and combustible ammunition.

Regulations for vessels carrying inflammable oils.

12. When a vessel has on board more than 40 gallons of any inflammable oil, the Master shall inform the Pilot and Harbour Master on board, and the vessel shall not be moved above Mutteabrooj Ghât without the permission of the Commissioners. If the Master delivers to the Pilot or Harbour Master, or the Agent delivers to the Commissioners, a certificate duly attested at the port of shipment, stating that the oil is not inflammable, the vessel shall not be detained at the entrance of the Port. No vessel lying above Mutteabrooj Ghât shall take or keep on board more than 40 gallons of any inflammable oil without the permission of the Commissioners.

Explanation.—"Inflammable oil" includes petroleum, benzole, kerosine, and any oil, or product of oil, that gives off an inflammable vapour at a temperature of less than one hundred degrees of Fahrenheit's thermometer.

Landing of oil in covered boats.

13. Inflammable oil shall only be landed between sunrise and sunset in a covered cargo-boat, and at such places only as may be appointed for the purpose under the sanction of the Government of Bengal, due notice of which shall have been given to the public. No smoking, fire, or light of any description shall be allowed in any such boat during the time that such oil is on board.

Place for landing inflammable oil.

14. The place appointed for landing inflammable oil shall be Neemuck Mehal Ghât, and such oil shall not be landed at any other ghât, except with the special permission of the Commissioners.

Harbour Master's Assistants not to be interfered with.

15. The Harbour Master and his Assistants shall not be interfered with in the execution of their duty. After a vessel is moored she shall not be moved without permission of the Harbour Master.

Vessels to be berthed and moved at the discretion of the Commissioners.

16. All vessels within the Port shall take up such berths as may be appointed for them by the Commissioners or the Deputy Conservator, and shall move from one berth to another when ordered to do so.

Vessels in the stream to keep a clear hawse

17. All vessels moored in the stream shall keep a clear hawse.

Moorings not to be occupied without Commissioners' permission.

18. No vessel shall use any of the moorings, whether fixed or swinging, without permission of the Commissioners.

Application for Assistant Harbour Masters to be made to the Deputy Conservator.

19. All applications to be hauled into or cast off from the moorings, or for any other assistance, shall be made either personally or by letter to the Deputy Conservator. Applications will, as far as possible, be complied with in order according to date of receipt.

Vessels arriving in the Port to rig in the jib and driver booms.

20. All vessels on arrival in the Port shall rig in their jib and driver booms, and shall keep them so rigged in until the Pilot takes charge of the vessel at Garden Reach for the purpose of taking her to sea. They shall also strike their yards and masts when ordered by the Commissioners. Vessels proceeding to the jetties shall remove all boats and other projections likely to damage the jetties and cranes.

Rules for regulating striking of yards and masts.

21. From the 1st day of May until the 30th day of June, and from the 1st day of October to the 15th day of November, all vessels in the Port shall have their royal and top-gallant yards on deck, and mast-ropes rove in readiness to send the top-gallant masts down at short notice when required, that is, when the storm warning signal (*double cone*) is displayed; and shall send down their top-sail yards, and house top-masts, when the storm signal (*drum*) is hoisted, or when ordered to do so by the Commissioners. Vessels about to leave the Port may send their top-gallant yards aloft 24 hours before leaving the moorings. Vessels entering the Port between the above dates, having top-gallant masts and yards aloft, may be placed in moorings, and the top-gallant yards of such vessels shall be sent down within 24 hours after they are moored.

Additional precautions to be taken on approach of bad weather.

* 22. On the occurrence of signs of an approaching cyclone, a black drum will be hoisted during daylight from the flagstaff on the roof of the Sailors' Home, Bankshall Ghât, and another from the flagstaff at the Government Dockyard, Kidderpore. During the night, under similar circumstances, four bright lights in a square will be exhibited from the same flagstaffs, one at each yard-arm. When these signals are displayed, Masters of vessels shall immediately take every additional precaution in their power to make the vessels snug and secure; they shall stow their top-gallant masts on deck below the rails, and shall have awnings furled, and the lower and top-sail yards counterbraced or pointed to the wind, if not struck. The cables shall be bent to both bower anchors when possible.

STORM SIGNALS.

	Day.	Night.
This signal means, cyclone probable, look out, send down royal and top-gallant yards, reeve mast ropes, furl awnings ...	A black double cone ...	... Three lights in a triangle.
This signal means, cyclone approaching, carry out the intructions laid down in Port Rule No. 19	A black drum ...	... Four lights in a square.

Free channel of 200 yards to be kept.

23. A free channel of not less than 200 yards width shall be kept for ships moving up or down the river in the Port, and also free passages to piers, jetties, landing-places, wharves, quays, docks, and moorings; and all vessels shall move when ordered to clear such channels or passages.

Vessels to have an anchor at the bow.

24. Vessels lying in the stream, or at the moorings shall at all times have at least one anchor at the bow, with a cable bent and ranged ready to let go.

Stern fastenings in time of bores.

25. All vessels placed in the moorings on the ebb-tide shall during spring-tides, when bores are expected, have their best hawsers passed from each quarter pipe abaft the mainmast, and made fast to the stern moorings if possible, otherwise to their own chains close to the moorings, and hove taut with sufficient strain to relieve the jerk on the chains and bitts when the bore comes up.

Vessels to remove projections from sides.

26. Every ship or vessel within the Port shall remove any anchor or spar, or other substance projecting from her side, when ordered to do so.

Vessels anchored or under weigh in the Port to show lights between sunset and sunrise.

27. All vessels anchored in the stream within the Port shall exhibit between sunset and sunrise, where it can best be seen, but at a height not exceeding twenty feet above the hull of the vessel, a white light in a globular lantern of eight inches in diameter, and so constructed as to show a clear, uniform, and unbroken light visible all round the horizon, and at a distance of at least one mile. Vessels under weigh at night shall show the lights prescribed by the Admiralty Regulations.

Cargo and other boats to carry a light.

28. All coasting vessels, cargo-boats, bhurs, budgerows, up-country boats, and passenger-boats, when under weigh on the river after dark within the limits of the Port, shall carry a white light in a lantern in the forepart of the vessel, where it can be distinctly seen; and all steam vessels shall show when under weigh the lights prescribed by the Admiralty Regulations.

Steamers occupying moorings not to move screws or paddles, except under limitation.

29. Steam vessels occupying moorings shall not turn their screws or paddles without giving sufficient warning of the intention to boats in the vicinity; they shall not put full power on when trying their engines in the moorings, nor shall any trial under steam be permitted so long as a vessel is lying at the jetties.

Smoking and use of lights prohibited below the upper deck.

30. No person shall smoke or use naked lights of any description in the hold or between-decks of any vessel lying in the Port. Closed lanterns secured by lock and key, and in charge of an officer of the vessel, shall alone be taken between-decks or into the hold.

Application of foregoing rule to ships in dock.

31. The foregoing rule shall also apply to vessels in dock.

Fires permitted only in galleys within stated hours.

32. Fires shall be permitted only in galleys or fire places regularly constructed for the purpose, such fires to be kept alight only between day-break and 9 P.M. Cooking fires shall not be allowed on board of vessels in dock.

Gunpowder and combustible matter not to be taken into dock.

33. All gunpowder shall be landed before a vessel is put into dock.

Proprietors of docks to take precautions against fire.

34. The proprietor of every dock shall keep on the premises a good fire-engine, with serviceable hose and fire-buckets ready for immediate use, with a supply of water at hand.

Obligation of vessels to be provided with fire-buckets.

35. With a view to the extinction of fires, all vessels in Port shall be provided with three buckets for every hundred tons of registered measurement up to 600 tons, and two additional buckets for every 100 tons above 600: provided that the total number of buckets shall not be required to exceed 50 in any vessel. One-half of such buckets shall be left constantly hung up on the quarter deck or other convenient place.

* See also notification of Government, dated 30th November 1874, appended to these rules regulating the storm signals or use in the Port and the Port approaches.

* 36. When fire has broken out in any vessel, the officers in charge of all vessels in neighbouring moorings or anchorage shall furl their awnings, get their force-pumps ready for use, and prepare for slipping their cables and chains, seeing specially that the pins of the shackles can be immediately knocked out.

Measures to be taken by vessels on the occurrence of a fire.

37. The river bank being a place of public resort, Masters of vessels in moorings shall have the forecastles and heads of their vessels screened in, so as to avoid indecent exposure.

Precautions against indecent exposure.

38. No vessel shall lie at single anchor in the Port unless a Pilot or Assistant Harbour Master is on board.

Lying at single anchor prohibited.

39. All vessels about to leave the Port shall hoist the Blue-Peter at the fore at least twenty-four hours before leaving the moorings, and shall keep it hoisted until the Pilot takes charge of the vessel to take her to sea.

Signal of departure to be hoisted.

40. With the exceptions hereinafter noted, no vessels of or exceeding 200 tons of burthen shall, without the special sanction of the Commissioners, move up or down the Port through the ship opening of the Howrah Bridge, except such vessel is propelled or towed by steam against the tide, and then only at such a rate of speed not exceeding four miles an hour over the ground, as is absolutely necessary to keep good steerage way.

Exceptions.—Tug and river steamers when not towing or propelling other vessels, may drop through the bridge opening, under steam, head to tide.

River flats may be dropped or warped at slack water through the ship opening or through the 60 feet openings.

41. No steam vessel shall attempt to pass any other vessel proceeding in the same direction whilst between the pontoons of the Hooghly Bridge.

42. No steam vessel shall have in tow more than two cargo-boats when proceeding through the bridge opening with the tide.

43. All steam vessels when passing through the bridge opening shall sound their whistles as a warning to other vessels.

44. Any person committing an infringement of any of the foregoing Port Rules is liable to the penalties prescribed by the Act.

Penalties.

Special Rules for regulating the Discharge and Loading of Gunpowder on shipboard.

45. All inward-bound vessels carrying gunpowder, the total quantity of which is in excess of 15℔, are prohibited from proceeding above Budge-Budge, and the Master of any vessel lying within the Port, or in the river above Budge-Budge, which shall have on board any gunpowder in excess of 15℔, shall be liable to the penalty provided in section 34 of the said Act XII of 1875; provided that boats will be permitted to bring as far as Neemuck Mehal Ghât, under cover of a pass to be granted by the Commissioners, 50℔ of gunpowder, the property of dealers and consignees.

46. All such gunpowder, in excess of the prescribed quantity, 15℔, must be landed and deposited in the magazine at Moyapore.

47. The Magazine-keeper will take charge of the gunpowder immediately on its being conveyed to the shore at Moyapore, and will deposit it in the magazine.

48. For the convenience of vessels having gunpowder on board, a properly-constructed powder-boat will be always in attendance off the magazine for landing and shipping powder. No charge will be made for the use of the boat for landing ship's powder, but the responsibility of the keeper in respect of the powder will not commence until it is landed on the bank, and will cease as soon as it is shipped on board the boat. Every precaution will be taken to ensure the safety of the powder while in the boat, but the landing and shipping is at the risk of the vessel.

49. Vessels bringing consignments of trade or Government powder will be liable to pay landing charges for the use of the boat if the magazine boat is used, and should passing vessels require the use of the boat to put out or receive ship's powder, such vessels must be accommodated before the boat can be used to discharge powder or ammunition brought as cargo.

50. In order to avoid unnecessary detention, Masters of vessels requiring the use of the powder-boat are required to hoist a flag at the foretopmast head on coming in sight of the magazine, as a signal to the keeper to have boat and coolies in attendance.

51. Masters of vessels are required to mark the names of their respective vessels on the barrels and packages of gunpowder previously to their being landed, and, if not marked, they will not be received by the magazine boat.

52. Gunpowder shall not be landed or received into the magazine when artificial lights are required to be used.

53. The Magazine-keeper shall give to the Master or other person making the deposit a receipt for the number of packages, and he shall be accountable to such Master or other person for the re-delivery of such packages.

* For the better security of vessels against damage or loss by fire a steam floating fire-engine has been provided, and is always kept under steam, ready to proceed at once to any place where her services may be required. The fire-engine station is at Fort Point, where the vessel is moored, and where a look-out is kept day and night. In case a fire breaks out on board a vessel, notice should at once be sent to the fire engine station.

54. A native clerk will be always in attendance in the powder-boat, and will receive from the Master the declaration required by section 30 of the Act, and grant the receipt specified in the foregoing rule.

55. If any vessel shall be prevented by stress of weather, or by being in distress from landing or depositing such gunpowder in excess of the quantity allowed as aforesaid, such vessel may be permitted to come up to the lower limits of the Port, but shall not proceed above Mutteabrooj Ghât, and the Master of such vessel shall forthwith give notice to the Conservator of his having such gunpowder on board, and shall obey his directions relating to the same.

56. Masters of vessels outward bound, who may require gunpowder for their outward voyage, shall not take gunpowder on board in any part of the river above Budge-Budge, with the exception of a quantity not exceeding 15lb.

57. Masters of vessels who have deposited ship's powder at the magazine should inform the Deputy Conservator of the date on which the vessel will pass the magazine outward bound, and on receipt of this information, orders will be forwarded to the keeper to place the powder in the boat, and send it off in such time as to avoid any detention of the outward-bound vessel. Before delivering the powder, the receipt granted by the Magazine-keeper must be given up.

58. Delivery of powder into boats at the magazine for conveyance to Calcutta will only be granted upon orders issued from the office of the Commissioners.

59. No boat containing powder shall be allowed to proceed above Neemuck Mehal Ghât. All powder shall be landed at Neemuck Mehal Ghât, and no powder shall be landed at any other ghât, except with the special permission of the Commissioners.

60. The two foregoing rules shall not apply to Government powder-boats, which will be allowed to enter the Port and discharge their powder under the rules laid down by the Inspector-General of Ordnance.

61. No smoking and no fire or light of any description shall be permitted on board of any boat having gunpowder or combustible ammunition on board.

62. No powder shall be landed within the Port at any time when artificial light is required to be used.

Special Rule.

63. The provisions of sections 38, 39, 40, 41 of the Act have been specially extended to the Port of Calcutta under the operation of the provisions of section 3 of the Act.

Rules for the navigable River and Channels within the jurisdiction of the Port Officer.

THE Lieutenant-Governor also directs that the following rules shall be observed in the navigable river and channels leading to the Port of Calcutta :—

1. All vessels anchored in the stream in the channels of the river Hooghly leading to the Port of Calcutta shall exhibit between sunset and sunrise, where it can best be seen, but at a height not exceeding 20 feet above the hull of the vessel, a white light in a globular lantern of eight inches in diameter, and so constructed as to show a clear, uniform, and unbroken light visible all round the horizon, and at a distance of at least one mile. Vessels under weigh at night shall show the lights prescribed by the Admiralty Regulations.

2. All coasting vessels, cargo-boats, bhurs, budgerows, up-country boats, and passenger boats, when under weigh on the river after dark within the navigable river and channels, shall carry a white light in a lantern in the forepart of the vessel where it can be distinctly seen ; and all steam vessels shall show when under weigh the lights prescribed by the Admiralty Regulations.

3. Vessels meeting with any accident, or causing damage to others, while in charge of an officer under the authority of the Port Officer, or of any Pilot, have no claim on Government for such damage ; but the parties concerned are to represent the case to the Port Officer, who will take such cognizance of the same as the merits of the case may seem to require.

4. Vessels are prohibited from throwing overboard ballast or rubbish of any kind detrimental to the bed of the river. All Pilots are strictly enjoined to see that this rule is observed, and to report any infraction of it. As in other cases of breaches of the Port Regulations to which any penalty attaches, whenever and as often as the penalty is incurred, a bill will be made out against the Commander for the amount, and no Pilot will be granted to the vessel on board of which the offence has been committed until such fine be paid.

5. The Conservator of the navigable river and the channels leading to the Port of Calcutta, or any person subordinate to him, may, at any time, board any vessel in order to ascertain that the rules are carried out.

6. Any infringement of the above rules will subject the offender or offenders to the penalties laid down in the Act.

GENERAL DEPARTMENT.

MARINE.

NOTIFICATION.

Calcutta, the 20th November 1874.

THE following arrangements of storm-signals for the approaches to the Port of Calcutta, as well as within the Port, are published for general information, in supersession of this Government Marine Resolution dated 12th April 1873, which was published in the *Calcutta Gazette* of the 23rd idem:—

I.—Signals for the approaches to the Port of Calcutta.

When there is bad weather in the Bay of Bengal, the following signals will be hoisted at the Flagstaff near the Light-house on Saugor Island, at Mud Point, and at the Flagstaff, Diamond Harbour, near the Telegraph Station, on receipt of instructions telegraphed from the Meteorological Office, Calcutta:—

During Day.

Name.	Shape.	Signification.
Bad weather signal.		A single cone indicates that bad weather (such as usually precedes, but is not always followed by, a cyclone) is probably prevalent in the Bay.
Warning signal.		A black double cone indicates that the passage of a cyclone is probable, as a cyclonic vortex is believed to have been formed in the Bay. When this signal is up, Pilots will not put to sea unless in their judgment the local weather symptoms are such that this course is not imprudent; and unless the Master, concurring in this opinion, distinctly takes upon himself the responsibility of going to sea, and gives the Pilot a writing to that effect.
Danger signal.		A black drum indicates that a cyclone is probably approaching. When this signal is hoisted, Masters or Pilots in charge of vessels are forbidden to put to sea from Saugor, or proceed down from Diamond Harbour, and should make their vessels as snug and secure as possible.

At Night.

Bad weather signal.		Two lights in a vertical line. Cyclonic disturbance in the Bay.
Warning signal.		Three lights in a triangle. Cyclone probable.
Danger signal.		Four lights in a square. Cyclone approaching.

The following rules for the guidance of Running Pilots are also published for general information:—

Rules 28A and 28B of the Rules for the Guidance of Running Pilots.

Rule 28A.—When the warning signal, as described in the notification of the 20th November 1874, is hoisted on the Flagstaff at Saugor Island near the Light-house, or at Mud Point, officers in pilotage charge of vessels will not put to sea, unless in their judgment the local weather symptoms are such that this course is not imprudent; and unless the Master, concurring in this opinion, distinctly takes upon himself the responsibility of going to sea, and gives the Pilot a writing to that effect.

Rule 28B.—When the danger signal, as described in the notification of the 20th November 1874, is hoisted on the Flagstaff at Saugor Island near the Light-house, or at Mud Point, officers in pilotage charge of vessels shall not put to sea, but should make the vessels under their charge as snug and secure as possible; nor should they proceed below Diamond Harbour when a black drum is hoisted at the Flagstaff at that station.

II.—Signals for the Port of Calcutta.

The following storm-signals only are to be used within the limits of the Port of Calcutta, and are to be hoisted on the yard-arm of the Flagstaff near the Government Dockyard, Kidderpore, and on the yard-arm of the Flagstaff on the roof of the Sailors' Home, on the receipt of instructions from the Meteorological Office:—

During day.

Name.	Shape.	Signification.
Warning signal.	*Double cone.*	Cyclone probable.
Danger signal.	*Drum.*	Cyclone approaching.

At Night.

Warning signal.	*Three lights in a triangle.*	Cyclone probable.
Danger signal.	*Four lights in a square.*	Cyclone approaching.

The following are the conditions of sale:—

1.—The Opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 13 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 4 o'clock in the afternoon of the fifth day after the sale: or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts, or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said promissory notes shall be absolutely payable in any event and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the last-mentioned condition, if remaining unredeemed at 4 o'clock of the fifth day following the day of sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of Opium upon which the prescribed deposit may not have been made before 4 o'clock of the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to the delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such note or from the additional liability for the loss and expenses of such resale as provided for in clauses No. 5 and No. 6.

9.—The Opium advertised for sale shall be paid for not later than by 4 o'clock of the fifteenth day from the day of sale; and in case any lots of such Opium shall not be so paid for and adjusted, then the cash deposit made under the 5th Condition, or any public securities that may have been deposited on account of such lots or chests shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of Opium after making full payment as above prescribed shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present Conditions will be received in this Office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 600 specified in the second of these Conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency Opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the Opium advertised for sale; No. 2, report of the examination of such Opium.

17.—The public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1877-78, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the drug when packed at Behar and Benares, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the Opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the Opium for shipment.

19.—It is hereby further notified that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of Behar and Benares Opium declared as above for sale at the twelve sales of the year 1879, there shall be delivered to them, at the average of the particular sale or sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of Opium required by them at any particular sale within thirty days from the advertisement of such intended sale: provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agents of the French Government shall not make the requisition for Opium within the time above mentioned, the entire quantity of about 60,000 chests of Behar and Benares, as above estimated, will be brought to sale in the usual manner; and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing after the date fixed for payment, or by selling such Opium, or any portion of it at any subsequent monthly sale in addition to the quantity which in this advertisement is approximately mentioned as the quantity to be sold at such sale; or by selling such Opium at a sale to be held expressly for the purpose.

* *No.* 2133*E.-P.*—The following extract from the *London Gazette,* dated 4th July 1879, is published for general information :—

At the Court at Windsor, the 26th day of June 1879.

PRESENT :

The QUEEN'S Most Excellent Majesty.
His Royal Highness Prince Leopold.
Lord President.
Lord Privy Seal.
Sir Michael E. Hicks-Beach, *Bart.*

WHEREAS by the second section of an Act passed in the Session of the 29th and 30th years of Her Majesty's reign, chapter 115, entitled "an Act to provide for the Government of the Straits Settlements," it is enacted that it shall be lawful for Her Majesty by order or orders in Council to be by Her from time to time made, with the advice of Her Privy Council, to establish all such Laws, Institutions, and Ordinances, and to constitute such courts and officers, and to make such provisions and regulations for the proceedings in such Courts, and for the administration of justice, and for the raising and expenditure of the public revenue as may be deemed advisable for the peace, order, and good government of Her Majesty's subjects and others within the said Settlements, or within any territory which may at any time be part of or dependant upon the same, any law, statute, or usage to the contrary in anywise notwithstanding:

And whereas it is expedient to provide for the surrender by the Governor of the said Settlements to Foreign States in the case of which the Extradition Act, 1870, does not apply of persons accused of the commission of certain crimes within the jurisdiction of such States:

Now therefore it is hereby ordered by Her Majesty by and with the advice of Her Privy Council as follows :

1. If requisition by made to the Governor of the Straits Settlements by any Foreign State in the case of which the Extradition Act, 1870, does not for the time being apply, or by any person recognised by him as an authorised minister or officer, consul, or vice-consul of such state for the surrender of a fugitive criminal of such State who is or is suspected of being in any part of the Straits Settlements, the Governor may issue an order under his hand and seal to any Magistrate of the said Settlements directing him to enquire into the truth of the charge.

2. Every such order for inquiry shall signify that the requisition for surrender has been made, shall state the nature of the crime charged, the name or designation (if the name be not known), and any other description that may be thought necessary of the fugitive criminal, and shall require the Magistrates to whom it shall be directed or any of them to inquire into the truth of the charge and proceed in pursuance of this Order in Council.

3. The order for enquiry shall be a sufficient proof of the requisition having been made, and a sufficient justification for all acts done in pursuance thereof; and upon production thereof to the Magistrate to whom it is directed, he shall have the same powers as if the crime charged had been committed within his jurisdiction.

4. If the evidence adduced shall be such as would, in the opinion of the Magistrate, justify the apprehension of the fugitive criminal named or designated in the order, if the crime charged had been committed within his jurisdiction, he shall issue his warrant for the apprehension of the fugitive criminal. The warrant shall be issued in the same manner as if the crime charged had been committed within the jurisdiction of the Magistrate issuing it, and shall contain a memorandum stating that it is issued under this Order in Council.

5. Every warrant for the apprehension of a fugitive criminal issued under this Order in Council may be executed in any part of the Straits Settlements.

6. A fugitive criminal apprehended on a warrant issued under this Order in Council shall be forthwith brought before a Magistrate within whose jurisdiction he shall be apprehended, and such Magistrate shall deal with the case in the same manner as if the fugitive criminal were charged with an indictable offence committed within his jurisdiction.

7. If any fugitive criminal shall, in pursuance of this Order in Council, be brought before a Magistrate other than the Magistrate who issued the warrant for his apprehension, the depositions and documents upon which the warrant was issued, or copies thereof certified under the hand of the Magistrate by whom the warrant was issued, shall, upon the requisition of the Magistrate before whom the fugitive criminal shall be brought, be forwarded to such last-mentioned Magistrate.

8. Depositions, statements on oath, or affirmations taken in a foreign State, and copies of such original depositions or statements on oath or affirmations may, if duly authenticated, be received in evidence in proceedings under this Order in Council. Such depositions, statements, or affirmations, and copies thereof, shall be deemed to be duly authenticated, for the purposes of this Order in Council, if they purport to be certified under the hand of a Judge, Magistrate, or officer of the foreign State where the same were taken, to be the original depositions, statements, or affirmations, or to be true copies thereof, as the case may require; and if they are authenticated by the oath of some witness, or by being

sealed with the official seal of some Minister of State; and all courts of justice and Magistrates in the Straits Settlements shall take judicial notice of such official seal.

9. The Magistrate before whom a fugitive criminal shall be brought in pursuance of this Order in Council shall, if such evidence is produced as would, according to the law of the Straits Settlements, justify the committal for trial of the fugitive criminal, if the crime of which he is accused had been committed in the Straits Settlements, commit him to some prison in the Straits Settlements, but otherwise shall order him to be discharged. If the Magistrate commits the fugitive criminal to prison, he shall inform such fugitive criminal that he will not be surrendered until after the expiration of 15 days, and that during such 15 days he may appeal to any Judge of the Supreme Court of the Straits Settlements.

10. Every Magistrate who shall commit a fugitive criminal to prison under this Order in Council, shall forthwith report the result of his proceedings to the Governor, together with any remarks which he may deem it necessary or proper to make upon the case, and together with a copy of all depositions and documents used before him.

11. Upon receipt of a Magistrate's report of the committal of a fugitive criminal under the provisions of this Order in Council, the Governor may, after the expiration of 15 days from the date of committal, or after the decision of the Judge before whom the appeal of the fugitive criminal is brought, as the case may be, or after such further period as may be allowed in either case by the Governor by warrant under his hand and seal, order the fugitive criminal to be surrendered to such person as may in his opinion be duly authorized to receive the fugitive criminal by the foreign State from which the requisition for his surrender proceeded, and such fugitive criminal shall be surrendered accordingly. Provided always that no fugitive criminal shall be surrendered under this Order in Council if (1) the offence in respect of which his surrender is demanded is of a political character, or if it is shown to the satisfaction of the Governor that the requisition for his surrender has been made with a view to try or punish him for an offence of a political character, nor (2) unless provision is made by the law of the State from which the requisition for his surrender proceeds or by arrangement that he shall not, until he has been restored to Her Majesty's Dominions, be detained or tried in that State for any offence committed before his surrender other than the crime in respect of which he is surrendered.

12. It shall be lawful for the person to whom a fugitive criminal shall be so ordered to be surrendered to receive, hold in custody and convey within the jurisdiction of the Foreign State from which the requisition for his surrender came such fugitive criminal, and if such fugitive criminal escapes out of the custody of such person, it shall be lawful to retake him in the same manner as any person accused of any crime against the laws of the Straits Settlements may be retaken upon an escape from lawful custody.

13. If any fugitive criminal committed to prison under this Order in Council shall not be surrendered and conveyed out of the Straits Settlements within two calendar months after his committal, it shall be lawful for any Judge of the Supreme Court of the Straits Settlements, upon application by or on behalf of the fugitive criminal, and upon proof that notice of the application has been given to the Governor or to the Colonial Secretary, to order the fugitive criminal to be discharged out of custody, unless sufficient cause is shown to the contrary.

14. For the purposes of this Order in Council every Colony, Dependency, and constituent part of a Foreign State shall be deemed to be within the jurisdiction of such Foreign State.

15. In this Order in Council the term "Fugitive Criminal" means any person accused of any crime committed either before or after the date of this Order in Council, which, if committed in England or within English jurisdiction, would be one of the crimes described in the schedule to this Order in Council; and the term "Fugitive Criminal of a State" means a person accused of any such crime as aforesaid committed within the jurisdiction of that State; and the term "Governor" means the person for the time being administering the government of the Straits Settlements; and words in the masculine gender include the feminine.

16. Every person who is accused of having counselled, procured, commanded, aided or abetted the commission of any such crime as aforesaid, or of being accessory before or after the fact to any such crime, shall be deemed, for the purposes of this Order in Council, to be accused of having committed such crime.

17. The schedule to this Order in Council annexed shall be taken to be part of this Order in Council.

Notice.

PUBLIC WORKS DEPARTMENT, IRRIGATION BRANCH.

ARRAH DIVISION.

NOTICE is hereby given that the right to collect tolls from the 1st of September 1879 to the 31st August 1880 at the Sone ferry and causeway, Dehree, on the Grand Trunk Road, will be sold by public auction at the office of the Executive Engineer, Arrah division, at Arrah, on Tuesday, the 26th August, at 2 P.M.

(2.) The sale will be subject to conditions which will then and there be produced, a draft copy of which (subject to modification) may be seen at the office of the Executive Engineer after the 13th instant.

(3.) The tolls will be put up at an upset price of Rs. 6,000 (six thousand) per annum, and the highest bidder above that price will, subject to paragraph 6, be accepted. Bids must advance by Rs. 50 (fifty) at least at a time, and no bid will be entertained from a person who has not previously deposited Rs. 100 (one hundred), to be forfeited unless the earnest-money is paid up.

(4.) The right will be let at a yearly rate, and the person whose bid is accepted will be required to deposit, immediately after his bid is accepted, the sum of Rs. 200 (two hundred) as earnest-money. He will be required to, within forty-eight hours of the sale, sign a bond embodying the conditions produced, and deposit such further sum as will make up one month's rent, together with Rs. 50 (fifty), the cost of the stamps on which the bond is written, and which must be borne by the lessee.

(5.) If within forty-eight hours from the time of sale the person whose bid is accepted does not sign the bond and deposit a full month's (one-twelfth of a year's) rent, plus fifty rupees, the sale will be liable to be declared by the Executive Engineer null and void, and the rupees two hundred deposited as earnest-money will be forfeited to Government.

(6.) The sale will be subject to confirmation by the Superintending Engineer, Sone Circle.

C. W. ODLING, C.E., Executive Engineer.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

RESOLUTION ON THE ANNUAL REPORT OF THE ROYAL BOTANICAL GARDEN, CALCUTTA, FOR 1878-79.

FINANCIAL DEPARTMENT—AGRICULTURE.

Calcutta, the 22nd August 1879.

RESOLUTION.

READ—

Letter from the Superintendent of the Royal Botanical Garden, Calcutta, No. 496, dated 10th July 1879, submitting the Annual Report of the Garden for 1878-79.

The Government Resolution on the Report for 1877-78.

NOTWITHSTANDING the excessive drought of the cold season, which killed a number of young plants, it is satisfactory to find that the condition of the recently planted groups is fairly good. The improvements proposed in the previous year's report have been partly carried out. The new plant-houses have received considerable additions to the collection of plants grown therein, and continue to attract visitors. A broad straight road from the river entrance ghât to the great banian tree on the west, the want of which was long felt, was commenced during the year under review. The low swampy ground in the vicinity of the banian tree, which has hitherto been one of the most unsightly parts of the garden, has been partly laid out, and it is hoped that, when the design has been fully carried out, it will present a greatly improved appearance. Changes have also been made in the roads towards the north of the garden,

which have had the effect of opening to view a second banian tree of very large size. Many other minor improvements have been effected in various parts of the garden.

2. As ordered last year, the building in which the Herbarium and office are placed has been enlarged and improved by the Public Works Department, so as to afford sufficient space to prevent the overcrowding which has hitherto existed.

3. The experiments which have been going on for some years past in cultivating in the garden certain special plants are again found to have been mostly unsuccessful. It is now decisively shown that the *pará* rubber will not grow in Calcutta. It is therefore useless continuing the experiment any further. The *ceará* rubber, however, promises to thrive, and Dr. King is in hopes of being able before long to supply seedlings for trial in various parts of the country.

Ipecacuanha cannot be grown to profit, though supplies of young plants continue to be issued. *Rhea* will not thrive as a crop, but two acres have been put under plant to supply fresh stems to intending competitors for the Government prize for a machine for clearing the fibre.

A large quantity of *mahogany* seed was received from Jamaica, and was partly distributed and partly sown in the garden. The Forest Department have commenced mahogany cultivation in Chittagong, and many seedlings have been sent to the Assistant Conservator there.

4. The rain trees, of which a quantity of seed was received from the India Office three years ago, flowered during the year and large quantities of seed and seedlings have been distributed. The sweet succulent pod of this tree is an excellent food for cattle, and it may become highly useful as a fodder plant.

The *Carob* and the *Eucalypti* have been again found to be unsuited to the climate of Bengal. The plants of *Prosopis pallida* continue to thrive, but have not yet flowered.

5. The further experience gained during the year in the process of cropping clumps of *bamboos* in the way recommended by Mr. Routledge has confirmed Dr. King in the opinion previously formed of the unsuitability of the plan originally proposed by Mr. Routledge. Mr. Routledge, however, is understood to have changed his plan, and to have recommended that instead of cutting down all the shoots of a bamboo clump, only a few shoots should be annually taken from each clump. Dr. King says that this is the principle on which bamboos have been cut in India from time immemorial, and that no experiments on its feasibility are required. The value of the fibre contained in the succulent shoots of bamboo as a material for the manufacture of paper can only be tested by practical paper-makers. Even, accepting Mr. Routledge's estimate of its value, the questions which, Dr. King says, should be settled are whether commercial success can be obtained (1) by forming plantations of bamboos for the collection of succulent shoots; (2) by collecting the immature shoots of wild bamboos in the forests, and carrying them to a paper factory, or (3) by fitting up a floating paper-stock mill and moving it about on rivers by the banks of which bamboos naturally abound.

The *baobab* cannot be grown in this country so as to be a source of paper fibre. The samples of wiry grasses of the Orissa coast which Dr. King sent to the India Office have been unfavourably reported on by the paper-makers in London, to whom they were submitted for opinion. Dr. King does not seem to have yet examined the grass which grows on the banks of the Adjai and Damoodah, as was suggested to him in the Government Resolutions on his Reports for the two previous years. As he is making further investigations on the subject, the Lieutenant-Governor will be glad to hear the result of his enquiry into the capability of the above grass to produce a paper fibre.

6. The interchange of plants and seeds has gone on steadily. The thanks of Government are due to Sir Joseph Hooker, of the Royal Garden, Kew, to the directors of the gardens in Ceylon, Mauritius and Australia, as well as to the garden collector, for the contributions received from them during the year.

7. The thanks of Government are also due to the gentlemen named in paragraph 11 of the Report for the large and valuable collections of dried plants presented by them to the Herbarium.

8. The branch Botanical Garden which was established at Rangaroon some years ago not being found a success, owing principally to its distance from Darjeeling, a garden has lately been opened at the station of Darjeeling, where a suitable piece of land has been presented for the purpose by Mr. W. Lloyd, an old and well-known resident of the place. This land is being cleared and laid out under the superintendence of Mr. Jaffary, late of the Cinchona Plantation.

9. The Lieutenant-Governor observes that it has not been the practice hitherto in these annual reports to state the expenditure incurred during the year in maintaining the gardens. In future years a statement should be appended showing the expenditure incurred in the Calcutta and in the Darjeeling gardens separately ; also the receipts if any.

10. The Lieutenant-Governor thanks Dr. King and his staff for their useful labours during the year.

ORDER.—Ordered that a copy of the Report and of the Resolution be submitted to the Government of India, in the Department of Home, Revenue and Agriculture for information.

Ordered, further, that a copy of the Resolution be forwarded to the Conservator of Forests, and a copy of the Resolution to the Superintendent, Botanical Garden, for information.

By order of the Lieutenant-Governor of Bengal,

H. L. HARRISON,
Offg. Secretary to the Govt. of Bengal.

ANNUAL GENERAL ADMINISTRATION REPORT, CHITTAGONG DIVISION, FOR 1878-79.

GENERAL DEPARTMENT.—MISCELLANEOUS.

Calcutta, the 19th August 1879.

RESOLUTION.

READ—

The General Report on the Chittagong Division for 1878-79.

THE Report has reached Government punctually. It is submitted by Mr. Beames, who was Commissioner during the entire year.

2. *Tours.*—The Commissioner visited the head-quarters of the Hill Tracts and Noakholly and also inspected Cox's Bazar and the island of Maiscal. In Chittagong the district officers spent 120 days altogether in the interior of the district. Mr. Cotton, who was in charge from November to the end of the year, was absent from head-quarters for 83 days, and succeeded in visiting every part of his district, including the island of Kutubdia and the embankments on the sea-face. His tours were well planned, and he gave careful attention to every department of the administration. In Noakholly Mr. Manson was on tour for only 52 days ; but the Commissioner reports that, owing to the small size and compactness of the district, he was able to carry out all the inspection that was required. The sub-divisional officers of Cox's Bazar and Feny appear to have been usefully employed during their tours.

3. *The Weather and the Crops.*—The distribution of rainfall up to the end of November was most favourable for the rice crop, and an excellent harvest was obtained everywhere. The cold-weather crops were less fortunate. They suffered badly from drought, and the general outturn was poor. The loss was not, however, serious, as these crops are comparatively unimportant in the division. Cultivation is extending in both districts of the division, but more notably in the southern parts of Chittagong. Vast tracts of waste land are available in this region, and are being rapidly taken up by settlers from the thickly populated parts of the district. Among the difficulties with which the settlers have to contend not the least are the depredations of wild animals, such as pigs, deer and elephants.

4. *Health and the condition of the people.*—Fever was less prevalent than usual in Chittagong, and the district also suffered little from cholera and small-pox. In Noakholly there was a slight increase of fever and small-pox as

compared with the previous year. The material condition of the people is reported to be generally prosperous. Except in a few small tracts the people have entirely recovered from the effects of the cyclone of 1876. The Commissioner thus describes their condition: "Indeed the homestead of a Chittagong or Noakholly peasent is a picture of rural comfort and prosperity. The people everywhere are well clad, the local markets are well attended, and though there is still some difficulty in realizing Government dues this arises not from inability, but from unwillingness to pay. There is apparently plenty of money for the favorite pursuit of litigation in the civil courts."

5. *Immigration and Emigration.*—The number of labourers imported into Chittagong for the tea gardens has fallen to an almost nominal figure. In the past year only 33 labourers were introduced under the Act. Local labour is largely employed by the planters, and no difficulty appears to be felt in procuring as much as is required at the different periods of the year for the purposes of cultivation and manufacture. In some cases imported labourers, whose contracts have expired, have settled down as free labourers on the gardens for which they were originally engaged.

6. In Chittagong a good deal of emigration goes on from the central to the southern parts of the district, and again from the latter to Arracan. It is probable that, in many cases, the people emigrate to avoid payment of their rents, but to the bulk of the emigrants the inducement must, doubtless, be the prospect of obtaining in the south larger and cheaper holdings than they can procure in their own neighbourhood. The results of this movement cannot fail to be beneficial to the districts affected, but it is a matter for regret that one of its effects is the gradual expulsion of the Mughs from the tracts occupied by the Bengali settlers.

7. *Prices of food and labour.*—There was not much improvement in the prices of the chief articles of food as compared with those ruling in the previous year. Notwithstanding the excellent harvest the price of common rice fell but slightly in Chittagong. Exportation is now so extensively resorted to when a good harvest is obtained that prices cannot long remain above the lowest rate at which it is profitable to export. They are, in fact, tending to the same level in all rice-producing districts from which the surplus produce can be readily exported. The Commissioner, however, points out that high prices do not necessarily mean distress in a district like Chittagong, where the great majority of the people hold land and grow their own food, and where fish and vegetables, which are largely consumed, are abundant and easily procurable.

8. *Trade and Commerce.*—A considerable export trade in rice and betel-nuts is carried on by petty traders in Noakholly. During the past year part of the rice exports went to the districts of Dacca and Mymensing where unusually high prices prevailed.

9. The trade of the port of Chittagong expanded very largely during the year, as will appear from the following statement:—

	Exports.	Imports.	Total.
1878-79	58,36,031	29,84,721	88,20,752
1877-78	42,17,391	25,96,037	68,13,428
Increase ...	16,18,640	3,88,684	20,07,324

There was thus a total increase of Rs. 20,07,324 in the value of the trade. This is chiefly due to the jute exports, which were more than double those of the previous year, amounting to 318,517 cwts. valued at Rs. 19,63,170, as against 141,428 cwts. valued at Rs. 7,70,000 in 1877-78. The other exports consisted of paddy, rice, tea and tobacco. The exports of paddy and rice increased from 401,199 cwts. in 1877-78 to 596,623 cwts. in the past year. The quantity of tea exported was 607,388 lbs., of which 86,265 lbs. were shipped direct to England. The total outturn of the season is said to have amounted to 690,925 lbs.

10. Notwithstanding the increased prosperity of the port, its trade cannot yet be regarded as established on a stable footing. Of the articles composing the exports, only tea and a small portion of the rice are the produce of the district itself, the whole of the jute and the greater part of the rice being

brought from other districts of Eastern Bengal. Thus, any change of circumstances, making it advantageous to the firms now engaged in the rice and jute trade to send their stocks to Calcutta for shipment, might reduce the trade of Chittagong to insignificance. There appears, fortunately, to be no reason to believe that such a change is impending.

11. The Lieutenant-Governor has lately decided, in compliance with the desire of the leading mercantile firms of the town, to redistribute the duties of the Conservator and Assistant Conservator of the port, with the view of improving the pilot service and securing greater efficiency in the management of the port. Sanction has also been recently given to the purchase of new boats for the port establishment. Further expenditure for the improvement of the port can only be gradually sanctioned as funds permit.

12. *State of public feeling* —In Chittagong an uneasy state of feeling continues to prevail. "The people," says the Commissioner, "have for many years contributed very little to the public exchequer, and now that they are for the first time made to bear their fair share of taxation, it is not unnatural that there should be some murmuring." The Noabad settlement proceedings are, as might be expected, regarded with no favour by the large number of people who are found to have held lands for years without right and without payment, and have now been assessed with revenue. The Road Cess and Public Works Cess could not, unfortunately, be collected in the first instance without some harassment to the people, owing to the immense number of petty estates, and the difficulty of assessing them and dividing the assessments fairly among the sharers. As the assessments become better known, the collections will, no doubt, be made with much less trouble both to the people and the officers. The License Tax is said to be more disliked in name than in reality. In Chittagong its unpopularity was due in a great measure to unequal assessments. This district has certainly no reason to complain, the total demand being only Rs. 16,482 as compared with Rs. 15,036 in the far smaller district of Noakholly. A thorough revision of the assessments is being made. The Chowkidaree Act is still spoken of as unpopular and unsuited to the division; but the Lieutenant-Governor has found reason to believe that it has never received a fair trial, and has lately issued further instructions for the better observance of its provisions. The matter will be again considered on the receipt of a report which the Commissioner has been desired to submit.

12. *Public Press.*—A new weekly newspaper, called the "Echo of the East," has been started in Chittagong. It is reported to be well disposed to Government, but has not yet achieved a great circulation.

13. *Police and Crime.*—The Police of Chittagong are said to have worked better than in the previous year, but this statement is scarcely borne out by the statistics of crime furnished in the report. In Noakholly, on the other hand, a great improvement has evidently taken place in the Police and the criminal administration generally. The following statement exhibits the number of cases in the division during the past two years:—

District.	Cases.	1877.	1878.	Increase.	Decrease.
Chittagong	Cognizable	1,761	2,144	383	.....
	Non-cognizable...	1,974	2,500	526	.....
	Total ...	3,735	4,644	909	..
Noakholly	Cognizable	2,076	1,568	.....	508
	Non-cognizable	3,114	2,923	.....	191
	Total ..	5,190	4,491	.....	699

The increase of cases in Chittagong is most marked. In the Lieutenant-Governor's opinion this result must have been due in a great measure to inefficiency on the part of the Police, and carelessness in admitting complaints on the part of the Magistrates. It is clear that, in this department of the district administration, more vigour is needed; and the Lieutenant-Governor expects that both the Commissioner and the Magistrate will give their special attention to the subject. The great decrease in crime which has occurred in Noakholly shows how much may be achieved within a short period by energetic and judicious measures. The Police are still unable to cope with the crime of arson in Chittagong, but their want of success cannot be considered as

altogether discreditable to them. The offence is so freely resorted to by certain classes of the people as the simplest and surest means of revenge, and is so difficult of detection, that its suppression is no easy matter.

14. The proportion of convictions and acquittals in both districts of the division is less satisfactory than in the previous year. In Chittagong 2,006 persons were arrested, of whom 166 were convicted and 701 were acquitted, the percentage of acquittals being thus 35·5. The figures for Noakholly are—arrests, 2,371; convictions, 1,532; acquittals, 725; and percentage of acquittals, 30·6. The Chittagong Police were very successful in murder cases, securing convictions in all the eight cases of the year.

15. As regards civil justice the information given in the Report is very meagre. The Commissioner reiterates his opinion that there are too many Moonsifs' Courts in Chittagong, and states that a very large number of the cases instituted are of a very petty nature, such as in other districts would be settled amicably out of court. In Noakholly petty and frivolous litigation is less common.

16. *Land Revenue.*—The collections during the past year showed a great improvement, but there are still heavy balances in both districts. Owing to the cyclone and consequent distress the revenue fell into arrears, and great difficulty is now experienced in realizing from the defaulters. The total demand of the past year was Rs. 18,93,970, out of which Rs. 14,82,039 were collected and Rs. 18,242 were remitted, leaving a balance of Rs. 3,92,789 outstanding. The number of estates which defaulted and were advertised for sale was 15,457 against 4,032 in the previous year. The number actually sold was only 2,050. It is clear therefore that a great deal of useless work was thrown upon the Collector and his subordinates by the unpunctuality with which the Government demands were met. The enormous number of defaults was chiefly due to the fact that during the past year Noabad and other khas talooks, paying a revenue of less than Rs. 50, were for the first time required to pay direct to Government. It also appears that a large number of proprietors of other petty estates, who could have paid punctually, took advantage of the leniency shown in exempting such estates from sale to withhold payment for a time. Until punctual payment becomes far better observed than appears to be the case at present, the Collector must allow the lesson to be learnt that default will inevitably be followed by sale. Leniency in such circumstances is positively mischievous.

17. The settlement establishment in Chittagong completed a survey of thanna Chakaria during the year, and the papers are now being compiled. In Noakholly settlements have been greatly mismanaged, and it has been found necessary to appoint a special establishment to do over again a large number of settlements of islands and chur lands which the Collector submitted for approval at the beginning of the year.

18. The collections from wards' and Government estates in Chittagong have been most satisfactory. Credit is due to Mr. Cotton for his personal exertions in this matter. The demand for the year, including arrears, was Rs. 1,63,571, and of this sum Rs. 1,51,824 were collected, leaving a balance of Rs. 11,747 outstanding at the end of the year. Good collections were also made in Noakholly, except on the Courjon estate, which has been for years in a very embarrassed condition.

19. *Excise and Salt.*—The excise revenue of the year shows an increase in both districts, notwithstanding a combination among old dealers to stifle competition for the licenses put up for auction. The outstill system has been fully introduced in Chittagong. The consumption of salt fell off considerably in that district. The Commissioner attributes this to a mistaken view of the law taken by the Collector, which led to an increase of illicit manufacture, but does not state what this view was. Fuller explanation should have been given on this point.

20. *Stamps.*—The revenue of the division in the past two years was as follows:—

	1877-78.	1878-79.
Chittagong	3,36,834	3,15,630
Noakholly	2,02,109	2,56,423
Total ...	5,38,943	5,72,053

21. *Communications.*—The roads are reported to be in a very bad state in Chittagong. The Committee should lose no time in appointing a District Engineer and carrying out vigorously the repairs and new works required, in the order of their urgency. Noakholly is far better off in this respect. The Lieutenant-Governor quite agrees with the Commissioner that in this district a good deal of the Committee's funds might be more advantageously spent in improving the water communications and in making towing paths and landing places than on roads.

22. *Education.*—The number of schools of all classes in Chittagong is 309, and the number of pupils 10,353. In Noakholly there are 243 schools with 7,724 pupils. The Report does not speak favourably of the general condition of the schools and the prospects of education in the division. Among the mass of the population, which consists chiefly of Mahomedans, education, such as the majority of our schools offer, is very little appreciated. It is only the schools in which instruction, however rudimentary, is given in Persian and Arabic that are really popular. The chief supporters of the more advanced school belong to the Hindu minority. The Lieutenant-Governor would, however, observe that in a Mahomedan district like Chittagong it should be the main object of the local authorities to harmonise the system of subsidising schools of primary instruction with the existing habits and wishes of the people. It is no use trying to force their primary school-teaching into our grooves. We should retain and improve what we find to be indigenous and suited to the soil.

23. The Noakholly zillah school is the only institution of the division which is favourably noticed. The Commissioner remarks that it "does not, like the Chittagong High School, wish to be a College, but is contented to do useful work in its own sphere" The school classes of the Chittagong College did very badly in the Entrance examination. The middle English schools, the middle vernacular schools, and the lower vernacular schools are all stated to be almost stationary. Regarding the lower vernacular schools the Inspector reports that there was a very general failure to come up to the required standard, and he agrees with the Magistrate of Chittagong in considering them "patshalas spoilt." The Lieutenant-Governor fears that, in most cases, the usefulness of these schools has not been enhanced since they were permitted to aim at being something more than patshalas. The number of girls under education in the division has largely increased, but it is remarked that they are constantly withdrawn after a few weeks' attendance.

24. *Committees.*—The Collector of Chittagong reports well of his Committees, especially the Road Cess and Municipal. A very fair number of meetings was held by each Committee. In Noakholly the Collector complains of the difficulty of obtaining any assistance from the Committees and of their reluctance to assume responsibility.

25.—*Monetary arrangements.*—The Savings Banks of the division are mostly used by Government officials. The balances in deposit at the end of the year were larger than at the same period of the previous year. Money-order transactions have fallen off largely in Chittagong. The decrease in the orders issued appears to be partly due to the introduction of the value-payable parcel system. In the case of orders received the correct explanation of the decrease would seem to be that, owing to the scarcity of currency notes in Chittagong, remitters are now generally requested to remit in notes instead of money orders. In Noakholly, where notes are also scarce and hoondees are not procurable, there was a large increase in money-order transactions. The circulation of currency notes throughout the division is reported to be in an unsatisfactory state. Some interesting remarks recorded on the subject by Mr. Cotton are quoted in the Report.

26.—The Commissioner's remarks on his subordinates will be communicated to the Appointment Department of this office.

By order of the Lieutenant-Governor of Bengal,

A. MACKENZIE,

Secretary to the Govt. of Bengal.

CULTIVATION OF THE GROUND-NUT IN INDIA.

No. $\frac{2}{382-392}$.

Extract from the Proceedings of the Government of India in the Home, Revenue, and Agricultural Department (Agriculture and Horticulture),—under date Simla, the 15th August 1879.

READ—

Resolution in the Department of Revenue, Agriculture, and Commerce, Nos. 514-24C., dated the 2nd November 1877, relative to the cultivation of the ground-nut in India.

RESOLUTION.

OBSERVATIONS.—The ground-nut (*Arachis hypogæa*—N. O. *Leguminosae*) is otherwise known as Manila-nut, earth-nut, pea-nut, and pig-nut. Its vernacular synonyms are *China-badám* and *Vilaiti Moong*, Hindustani; *Moong phalli*, Bengali; *Myé-bye*, Burmese; *Ver kadale* and *Vella kadale*, Tamil; *Katjang*, Malay.

2. From the seed of the nut a considerable proportion of excellent oil is expressed, varying in quantity, according to circumstances, from 33 to 50 per cent. of the weight of the husked seed. The oil is of a light-greenish colour, very clear and bright, and is largely used in Europe and in India for illumination. It is also used both for the table when mixed with olive-oil and for the lubrication of machinery. The oil is good for every purpose for which olive and almond oil are used; it makes good soap, and has the advantage of not quickly becoming rancid, and of burning without smoke. The nut is eaten roasted by natives, and occasionally by Europeans in India. It is of universal consumption in the United States, and by Spaniards both in Spain and in America: it is eaten roasted, and is also used in confectionery. The following extract from Mr. P. L. Simmonds' *Tropical Agriculture* shows the value of the ground-nut as a food:—

"Dr. Muter, after giving the following analysis of ground-nut meal, urges its more general use as an important article of food:—

Moisture	9·6
Fatty matter	11·8
Nitrogenous compound (flesh-formers)	31·9
Sugar, starch, &c.	37·8
Fibre	4·3
Ash	4·6
Total ...	100

"From this analysis it is evident," he observes, "that the residue from them, after the expression of the oil, far exceeds that of peas, and is even richer than lentils in flesh-forming constituents, while it contains more fat and more phosphoric acid than either of them. On these grounds we are justified in urging the adoption of the ground-nut meal as a source of food, it being superior in richness of all important constituents to any other vegetable products of a similar nature. Although in the raw state it possesses a somewhat harsh odour, similar to that of lentils, this flavour entirely passes off in cooking, and, when properly prepared, it has a very agreeable flavour."

The green plant forms excellent fodder for cattle, and the cake left after expression of the oil is a valuable cattle food and manure.

3. In the Resolution read in the preamble the following remarks were made in regard to the development of the cultivation and trade in the nut:—

In connection with this subject, the Governor-General in Council thinks it opportune to record his opinion that it is of more importance to stimulate and develope the production of articles already known in the country, than to initiate costly experiments in articles not commercially known, and of which the ultimate success is problematical. One of these articles is the ground-nut (*Arachis hypogæa*). The kernel of the pod of this plant produces a very large proportion of excellent oil, extensively used in Europe as well as in this country. The plant grows abundantly in the Madras Presidency and elsewhere, but it does not seem to be fully utilized. The exports of the nut to foreign countries in 1875-76 were, from Madras, 6,994 cwt., value Rs. 29,774, and from Bombay, 3,721 cwt., value Rs. 13,845. From Bengal the exports have been so trifling that they have not been separately distinguished. The plant is grown to some extent in Burma, but not sufficiently for local consumption, and quantities are imported from Madras.

Although the exports to foreign countries from British India are trifling, considerable quantities are sent from Pondicherry to France, as will be seen from the following figures, which have been extracted from the French trade returns of 1875:—

	Kilogrammes.	Value. Francs.
Imports from British India	1,231,803	406,494
" " French India	6,404,899	2,113,616

The total imports into France in the year from all countries were 101,524,468 kilogrammes, or nearly 100,000 tons, worth 33,503,000 francs.

Thus, out of this total value of 33½ millions francs, only 2½ millions stand against India, of which French India has by far the largest share. Nearly all the rest is imported from the western coast of Africa.

The French trade in ground-nuts is a large and increasing one, the extraction of the oil, which is in considerable demand for the manufacture of soap, for consumption as food, and for other purposes, being conducted on a large scale at Marseilles. If the cultivation can be developed in this country, it seems probable that British India should be able to compete with Africa and supply France with a very considerable part of her requirements of this article, adding the ground-nut to other oil-seeds, such as gingelly and rape, which are now exported to France in great quantities.

The Governor-General in Council requests that the local Governments will be good enough to obtain particulars of the extent of its cultivation in their provinces, and to report them with any particulars they can ascertain as to the consumption of the seed and oil in the country. His Excellency in Council will also be glad to be favoured with any suggestions they may wish to make as to possible development of the cultivation and trade. In the maritime provinces it is desirable that the export trade should be recorded in the monthly and annual returns, and this should be done with effect from the 1st of April next, in both the foreign and coasting trade returns.

4. The results of the enquiries instituted by local Governments and Administrations are summarized below:—

5. MADRAS.—The Board of Revenue, reviewing the replies of the Collectors of the districts, state that the cultivation of the ground-nut is on the whole very limited, the total area cultivated with this crop in *Fasli* 1286 (*i.e.*, 1876-77) being only about 34,632 acres, out of an area of 19 millions of acres under crop in that year in the Madras Presidency. Loose sandy soil in the vicinity of the sea, or alluvial soils on the side of rivers, are stated to be best suited for the growth of the plant.

The nut is generally consumed as an article of food; but the kernel is fried and eaten by the poor, especially by children, more as a luxury than as an article of ordinary diet. The oil is used for lamps, giving a bright light, free from smell and smoke, and sometimes for cooking purposes. In France it passes as olive-oil. The cake is given to cattle, and also used as a manure.

The following figures are available as illustrating the exports of the seed and oil, both foreign and coastwise, in the districts of the Presidency:—

	1873-74.		1874-75.		1875-76.		1876-77.		1877-78.

Total ...	6,768	6,103	735	15,468	4,464	18,506	8,110	44,539	32	1,149

In 1876-77, the exports by land from South Arcot to Pondicherry were seed 29,700 cwt. and oil 20,502 cwt. The areas under cultivation in Tanjore and South Arcot, where there are French Settlements, average 5,413 and 25,000 acres respectively, yielding a produce of 41,802 cwt. and 258,750 cwt. respectively. The cultivation of the nut is well known in the Presidency, and increase of production will follow any increased demands.

6. BOMBAY.—The nut is not cultivated anywhere in Sind, but imported for sale, and is to be found in all bazars; it is roasted and eaten by the natives, and is very generally used. Several officers have evinced a desire to try its cultivation.

It is not cultivated, except to a very trifling extent, in the Northern Division of the Bombay Presidency. In 1877 it was experimentally cultivated in one field in Ahmedabad, and on a small area in the Surat district, where it produced about 1,238 Bengal maunds, which were locally consumed for food purposes. Importation into this division is on a very small scale, the nut being merely used for food, and not for manufacturing oil; and any development of the export trade must be looked for elsewhere than in the Northern Division, a very great part of which is not well suited for the cultivation of the nut.

The Collector of Násik states that the ground-nut is grown in almost all the talukas of that district in land irrigated by páts as a rotation crop; that not more than from 1,000 to 2,000 acres are cultivated with it in any one taluka; that the nut is used as food; that oil is also extracted from it, generally for the purpose of adulterating other oils; that the crop requires a good deal of water; and that about half the produce is consumed within the district, the remainder being exported to Bombay.

The Collector of Khandesh reports that, in 1876-77, ground to the extent of 2,151 acres and 37 gunthás was cultivated with the ground-nut in his district, and subjoins remarks by Messrs. Blathwayt, Woodward, and Stormont to the effect that—

> what is grown is used almost entirely for food, and consumed within the district; that a small portion is used for the production of oil, which is employed chiefly for adulterating other oils; and that the crop is grown on irrigated land, and is not profitable in comparison with other garden produce.
>
> The main objection to the ground-nut as a regular oil-crop is that in Khandesh, where the soil is mostly tenacious and cloddy, it is difficult to recover all the nuts from the ground, so that some always remain in the ground, and by germinating become a troublesome weed.

The Collector of Ahmednagar reports that a small area (between 1,100 and 1,200 acres) of land is cultivated with ground-nut; that good soil is necessary for its cultivation; that it is invariably an irrigated crop; and that the expenses of cultivation are great; but that the profits are in proportion, and generally exceed those from other crops usually grown on soil of similar description to that on which the ground-nut is sown.

The Collector of Poona roughly estimates that about 21,000 acres are cultivated with ground-nut chiefly in Khed taluka. He says that it requires irrigation, and can be grown on almost any soil, but flourishes best on red and stony ground; that it is a more profitable crop than any other; and that about three-fourths is converted into oil, and the rest used as food on fast days. He is of opinion that if an export trade could be started from Bombay, and agents established in the mofussil towns to purchase the nut, the cultivators would learn its value, and the crop could be grown to almost any extent required.

The Acting Collector of Sholápur reports that land to the extent of about 15,000 acres, chiefly in Bársi taluka, is cultivated with the nut, which is grown in soft, black, and reddish soil, and used as food by the poor to a small extent, and by Hindus generally on fast days. He states that oil is extracted from it to a great extent for lighting and other purposes, and that it is said to be a very profitable crop where it can be grown without irrigation, and moderately so elsewhere.

The Collector of Satara reports that about 29,000 acres are annually cultivated with the nut in that district; that it is generally grown on good soil, but irrigation is absolutely necessary for its proper growth; and that the profits from its cultivation exceed those from other crops usually grown on similar soils.

In submitting these reports from the Collectors of his division the Commissioner, Central Division, says that—

The nut is chiefly grown in the Satara, Sholápur, and Násik Collectorates, and he has no doubt that should a demand for the nut spring up in mercantile circles, its growth would be largely and rapidly extended, as it is said to be a very paying crop.

The Commissioner, Southern Division, states that the ground-nut is cultivated to a limited extent in two talukas of the Belgaum district only, and 75 per cent. of the produce is consumed locally; and that in the remaining districts of that division it is imported in small quantities for local consumption, and is mixed with *kardi*, *kusumbá* or safflower, the oil thus extracted being used for culinary and lighting purposes.

The Government of Bombay adds generally that the nut is grown in that Presidency almost entirely for local consumption, but that should any great demand for the crop arise, an immediate and large extension of the cultivation would undoubtedly result.

7. Bengal.—The ground-nut is not grown as an article of trade in the Lower Provinces of Bengal. The following paragraphs contain such particulars as have been furnished of its cultivation:—

In the *Presidency Division* it is grown to a very small extent, and the seed and oil are not largely consumed.

In the *Patna Division* it is not grown, except to a very limited extent in the gardens of some of the rich natives of the Hajeepore sub-division of the Mozufferpore district, and in the Chumparun district.

In the *Rajshahye and Cooch Behar Divisions* it is not grown. From a private experiment made by him, Mr. French, Manager of the Court of Wards' Estates, Dinagepore, thinks that the nuts might grow in Dinagepore.

In the *Chota Nágpur Division* it is unknown, except in Hazáribágh, where it is cultivated in the town on a very small scale as a dessert fruit by a few gentlemen.

In the *Bhágalpur Division* the nut is not grown, except occasionally in the gardens of a few planters in the Muddehpoora sub-division of the Bhágalpur district, and to a small extent as an article of luxury in the Purneah district.

In the *Burdwan Division* it is not grown, except to a very small extent in the Beerbhoom district, where it is used as an article of food, but not of commerce, and in the gardens of a few well-to-do natives in Hooghly.

In the *Chittagong, Dacca, and Orissa Divisions* it is not grown.

8. North-Western Provinces and Oudh.—Mr. Buck, Director of Agriculture and Commerce, states that his attention was drawn to this product from his having noticed the enormous extent to which it is cultivated in America under the name of pea-nut. The nut is little grown in the North-Western Provinces, but it is found in market-gardens near towns under the name of *Moong-phalli*. It requires a sandy soil, and perhaps wants a moister climate than the North-Western Provinces can give it, but may succeed with canal irrigation. In the North-Western Provinces it appears to be used as a luxury, and no oil is extracted from it, nor is it exported. It is cultivated as a garden and not a field crop. The only districts in which it is known to have been grown are Bánda, Hamirpur, Jaunpur, and Mirzapur; it is sown in the months of June and July, and the crop is cut from December to February, the outturn being from 4½ to 15 maunds per acre. It is chiefly used for food, though in Bánda and Mirzapur oil is said to be extracted from the seed. The green leaves are readily eaten by cattle, and, when rotted, make excellent manure. It is occasionally imported into the North-Western Provinces from Gwalior and Jubbulpore. Experiments with the plant have been undertaken in the Government Farms at Cawnpore and Allahabad, and in the Lucknow and Saháranpur gardens with the results reported below:—

The experiments at Saháranpur were made partly with seed raised in the gardens during the previous year and with seed obtained from Bengal: 1 lb. 3 ozs. of the former seed gave an outturn of 61 lbs., being almost 49-fold; and 8 lbs. of the latter seed yielded 192 lbs., or 24-fold. There was no apparent difference in the size of the nut or quantity of the crops.

In the Lucknow horticultural gardens 6 lbs. of Bengal seed sown gave an outturn of 192 lbs., or 32-fold. The land was ploughed three times and manured at the rate of 400 maunds per acre; the crop was irrigated four times and weeded twice. The area on which the seed was sown was 1,164 yards, which gives a rate of yield per acre of about 9¾ maunds. The value of the produce at 4 seers per rupee would be Rs. 97-8 per acre. This compares favourably with the value of the produce of an acre of sugarcane, which, under the same amount of cultivation, is estimated at Rs. 70.

Bengal seed was sown at the Allahabad and Cawnpore Government Farms, but the result in both places proved a failure owing to want of proper management, the outturn per acre at Allahabad being only 90 lbs. and at Cawnpore somewhat less.

Mr. Buck believes that the nut can be cultivated with profit only in the damper Sub-Himalayan regions, where the climate most closely approximates to that of Bengal. It is well known at Cawnpore and other places.

9. PUNJAB.—The ground-nut is unknown in most districts as an article of local cultivation. It is imported into Delhi from Bombay and Gwalior, and into the neighbouring districts from Delhi, and is generally sold by the vendors of dried fruits at the rate of 8 annas a seer. It is eaten in small quantities like pistachio nuts, but its use as an oilseed is unknown. The value of the nut cannot be judged from the few experiments made with it in all three districts of the Delhi division; but seeing that the zemindars are averse to the introduction of any new products, it seems doubtful whether the cultivation of the nut would there be successful. The Punjab Government suggest that a few experiments might be tried in the Government garden in each district.

In *Hissar* it is not cultivated. Some years ago the Deputy Commissioner (Colonel Forster) tried its cultivation experimentally in the public garden, where it throve very well and produced a good crop. It requires a fair share of irrigation; and there is no doubt it would grow well enough and be sufficiently productive on canal-irrigated land, but it will not otherwise flourish.

It is unknown in the *Jullundur* division, except to Mr. J. W. Wright, C.E., Executive Engineer, Military Works, Jullundur Division, who in 1865 tried the following experiment:—Half a seer of nuts was sown on a plot of 400 square feet about the end of April, and germinated freely. The crop was dug up in January 1866, and the outturn was five seers of fine nuts. Half a seer of nuts was kept for seed and sown again in the spring of 1866, and the result was about the same; but the nuts were not quite so full and large. Half a seer was kept and sown in the spring of 1867, but the nuts failed to germinate. The nut requires a light sandy soil, and, so far as Mr. Wright's experience goes, much irrigation is not necessary. The surface of the soil should not be allowed to become a hard crust, as it prevents the plants from sending down the nut-bearing shoots from the runners which are thrown out during the rains. Just before the rains a small quantity of manure was sprinkled over the plot after it had been broken up. The nut will thrive best in a moist climate, and Mr. Wright doubts much whether the Punjab is well suited for it. It would be easy to try it on some of the sandy patches in Jullundur, trusting to the natural moisture of the ground, and also a second lot near wells where water can be had when required, and then note results. When the crop is dug up, the old plants should be destroyed and a fresh piece of ground selected for the next year's crop.

In *Siálkot* an experiment was tried in the public gardens some three years ago, and "the produce of a small plot of ground was sufficient to indicate that the cultivation would be remunerative." The Deputy Commissioner of the district suggests that the sandy and fertile soil of the "Bajwat" tract in that district would probably be a suitable place for experiment.

It is unknown in *Sirsa*, and, according to the Deputy Commissioner, unlikely to succeed there; but Mr. Wakefield, a former Deputy Commissioner of the district, now at Ludhiána, states that he grew it at Sirsa in his own garden, and he proposes to try it in Ludhiána.

Dr. Henderson, Civil Surgeon of Ráwalpindi, says that in Lahore the plant succeeded well on sandy soil, but failed on clayey soil.

The Financial Commissioner says that the manufacture of oil from this nut does not seem to be known in any part of the Punjab. The nut, where it is known at all, is eaten in small quantities as food, and probably only as a luxury; and it cannot be determined whether the cultivation of the plant for the sake of the oil or for export to Europe would be remunerative, until experiments on a larger scale have been undertaken With this view the Financial Commissioner thinks it would be useful to ascertain whether nuts produced in the dry climate of the Punjab will yield the same proportion of oil as in the moister parts of India where the cultivation is better known. He suggests that seed be procured for further experiment The Lieutenant-Governor seems to think experiment unnecessary, because the plant apparently requires a higher temperature than that of the Punjab.

10. CENTRAL PROVINCES.—In these provinces, as in the Punjab, the plant is grown to but a small extent for food, and not for the extraction of oil. The divisional officers report as follows:—

Nágpur Division.—It is not cultivated at all in the Chánda, Bálághát, and Upper Godávári districts, and scarcely at all in Bhandára; it is cultivated to a limited extent in the Wardha and Nágpur districts; but the necessity for irrigation on the one hand, and the limited demand on the other, prevent its cultivation from being more general.

Jubbulpore Division.—The people understand its cultivation better than in Nágpur, and it is therefore more general; but there is no exportation, and it is only used as an edible luxury.

Nurbudda Division.—It is not cultivated at all in Narsinghpur, and but little in Hoshangabad, Betúl, and Chhindwára. Nimar is the only district in which there is really any regular, though very limited, cultivation of the plant. Consumption is chiefly local, and but little is exported to the neighbouring district of Hoshangabad.

Chhattisgarh Division.—The plant is quite unknown, except in the Bilaspur district, where it was introduced by a Mahratta gardener, who uses the seed only in the preparation of sweatmeats.

It seems to be generally believed that soil suitable for its production would be easily obtainable in the Central Provinces; but the demand must rise considerably before itwill be possible to extend cultivation to any appreciable degree.

11. British Burmah.—The plant is grown to a very limited extent in this province; the seed is used as food, and no oil is extracted. It is cultivated almost exclusively by Shans, who seem to have introduced it into the province.

12. Assam.—There is no cultivation of the plant, nor any appreciable trade in, or consumption of, the nut or its oil in Assam; it is doubtful whether any artificial encouragement of its introduction would be successful.

13. Mysore.—The cultivation of the nut is almost wholly limited to the Bangalore and Kolar districts of the Nundydroog division.

In the Bangalore district the statistics for 1873-74 to 1877-88 show that the average area annually under cultivation with the nut was 3,540 acres, with an outturn of about 3,131 tons, of which about 1,149 tons were exported. Of the remainder, 1,085 tons were retained for consumption, and about 897 tons used for extraction of the oil.

In the Kolar district the area under cultivation annually is stated to be 1,054 acres, yielding about 1,640 tons. The greater portion of this quantity, viz. 1,190 tons, was consumed locally as food, and the remainder, 450 tons, used for the extraction of oil. It does not appear that any portion of the product is exported; but the Chief Commissioner apprehends that the information supplied on this point is deficient.

The nut is cultivated to a small extent in the Túmkúr district of the Nundydroog division, and in the Chitaldroog district of the Nagar division.

The Chief Commissioner states that from the fact that the nut is chiefly cultivated in the Nundydroog division it may be inferred that its value as an article of export has been to some extent recognised in the districts adjacent to Bangalore, and its cultivation and use otherwise than as an article of consumption may be expected in course of time to develope and extend further into the interior. The progress already made may be estimated by the fact that prior to the assumption of the British rule in the province, the extraction of oil from the ground-nut had been prohibited, and in 1860 Sir Mark Cubbon, the then Chief Commissioner, deemed it necessary to issue a notification formally cancelling that interdict, and pointing out to the people the advantages of employing the oil as an article of trade.

The plant is ordinarily cultivated as an alternative crop on land watered by wells; it is put down during the first rains in April to June, and harvested in January or February following. The leaves are used to enrich the soil for the cultivation of sugarcane and other crops, which are considered more productive.

14. Berar.—In Amráoti, 1,300 acres were cultivated with the plaint during the year 1877-78. A small quantity was exported to the Bombay Presidency. The nut is eaten by the people, but oil is not extracted from it. The soil of the district is said to be quite unsuitable for its growth; and the ravages caused by pigs, combined with the scanty yield, is against the extension of its cultivation.

In Ellichpur it is practically unknown. A few *malis* are said to have raised a small quantity; but the cultivation is so limited that it has not been separately recorded in the returns.

In Wún about 259 acres in one taluka were sown with the nut last year, the yield from which is said to have been at the rate of 800lb per acre. It was sold at 13 seers per rupee, the receipts per acre being thus Rs. 30-12. The cost of cultivation is not mentioned. The nut is eaten, but is not used for the extraction of oil.

In Akola it is cultivated in only two talukas: the area cultivated last year was 190 acres. The nut is generally eaten by Hindus on fast days, but nowhere used for making oil. The Deputy Commissioner does not think its cultivation could be increased, as other crops are more profitable.

In Buldána 1,111 acres were cultivated with the nut. It is eaten by Hindus on fast days, but no oil is extracted.

In Básim cultivation is so limited that the area under it has not been separately shown.

The Resident thinks the cultivation of the plant not capable of much extension in Berar. It is culturable only as a garden crop, and garden cultivation being comparatively limited, this alone acts as a check upon the extended cultivation of the nut. He feels confident, from his own experience, that where the ground-nut thrives, as in Mysore and other places, it may be turned to most useful and profitable account. The oil extracted from it is good, and realizes a price which repays production; while the refuse forms an excellent cake for feeding cows, and fattening cattle and sheep for market.

15. Ajmere.—The nut is not grown in this district; it was once grown in two or three biswas of well land in the village of Rúmsar, and the outturn was about 13 seers.

16. From the above summary it appears that the total recorded area under cultivation with the ground-nut in all India is about 112,000 acres, exclusively in the Madras and Bombay Presidencies, Berar and Mysore. In the Bombay Presidency, the area (70,350 acres) is more than double that of Madras (34,630 acres), although such exportation as there is from British India to foreign countries is confined to the latter Presidency. The yield per acre is stated to range from ten cwts. in Tanjore and South Arcot to over one ton per acre in Kolar. In Central and Northern India the nut is cultivated for food or for conversion into oil, in both cases to a very small extent, and only for local consumption. The plant likes a light sandy soil and a considerable amount of water, with a tolerably equable, sub-tropical temperature, and these requirements may be supplied in many parts of the littoral of the Bombay and Madras Presidencies, the eastern districts of Bengal, and the Burman coast. The cultivation is very profitable, and the

demand, which is mostly for France, is large. In 1878, the imports into France of "Arachides et noix de toulouccuna" amounted to 111,443,366 kilogrammes, valued at 30,239,602 francs. Of this quantity, upwards of 103,000,000 kilogrammes were imported from the western coast of Africa, where the negroes have found the cultivation a very profitable investment. The exports of the nut from British India in the official year 1878-79 amounted to only 25,472 cwt. (1,294,402 kilogrammes), or little more than 1 per cent. of the imports into France.

17. The question now is whether India should be content to leave France to draw all her supplies of this valuable food-stuff and commercial product from Africa, or whether she should not enter actively into competition for at any rate a substantial portion of the trade. The cultivation is no novelty requiring the removal of prejudices and other obstacles for its introduction. The plant is well known and appreciated by the people, and in some places the cultivation is already not insignificant, and there is abundant room for development. Cultivators would probably respond without delay or difficulty to any call made upon them for an increased production, but they can hardly be expected to undertake any considerable risk by largely increasing the area under the plant without first having an assured demand for the produce The increase of the effective demand must depend upon the action of produce merchants at the chief ports of export. The Governor-General in Council has thought it expedient to give publicity to the foregoing details, in case the merchants of Bombay, Madras, and Calcutta should find it to their advantage to enter into relation with the Marseilles houses who import this staple, or with dealers in the districts where the nut is already a recognised agricultural staple.

SCALES OF DIET IN THE HOSPITALS OF CALCUTTA.

MEDICAL.

Darjeeling, the 19th August 1879.

RESOLUTION.

READ—

Resolution recorded by the Lieutenant-Governor on the 11th July 1879 on the report on the Calcutta Medical Institutions for 1878.

READ—

Letter No. 888BG, dated the 30th idem, from the Surgeon-General, Bengal, offering the following remarks explanatory of those portions of his report in regard to the restrictions recently imposed upon hospital expenditure, which formed the subject of Sir Ashley Eden's observations:—

"Referring to Bengal Government Resolution on the annual report on the medical institutions of Calcutta, dated 11th instant, I have the honor to say that I desire to make a few remarks on paragraph 7, which I have not seen till this morning, and which, having heard of its purport, I did not at one time think it worth while to notice as I now do in this manner. The Hon'ble the Lieutenant-Governor objects to my characterizing the year as one of 'rigid economy,' in which 'the screw was continuously applied for the purpose of reducing expenditure in all possible ways.' In writing thus, I alluded particularly to my own action in endeavouring to curb expenditure in every manner, in the matter of medicines, diet, establishment, &c. I imagined that I was carrying out the policy of Government, and being myself responsible that the sick were not injuriously affected, I was not likely to do anything in consequence of which I thought it possible that they might suffer. But if I did not 'put on the screw' and enforce 'rigid economy,' I do not understand the meaning of these words. In writing an annual report, it was not for me to allude to the policy of the Government, as there is, I understand, a distinct order against doing so.

"I maintain that in saying what I did about the diet rates, all I intended to say was that a single year, and especially the first year, could be no test as to whether the new scale would eventually be approved by experience, and in selecting the Campbell Hospital by way of example, I stated that the death-rate during 1878 'was very nearly the same as usual' (I ought to have said *rather less* than usual, as will be seen hereafter). I never have been more surprised in my life than to learn from the Resolution that I am supposed to have insinuated or inferred that the trifling increase of mortality in 1878 was in any way owing to the new diet. I further maintain that what I have written should not have led any one, used to interpret medical statistics, to think that I did I have been

used to compiling and reading such statistics for many years, and therefore know very well, what I thought most people did, that the experience of any two years is not comparable; so that, if it had been the fact that in the Campbell Hospital in 1878 the mortality had been 20·3, and in 1877 24·8, no one conversant with medical statistics would deem himself justified in inferring that this was owing to the sick getting all the food intended for them, and to the stoppage of peculation, or in any way connected with the new diet scale. Nor would he, from a single year's experience, think of indicating the cause of the reduced mortality with anything like certainty.

"The actual difference between the mortality in 1877 and 1878 is 0·5 in favour of the former, a fraction which is of no account in the comparison of the mortality of two years; but had the other figures which I gave been considered, viz. the rate of mortality of the years 1874–77, it would have been evident that the average yearly mortality of these four previous years was 25·7, and that therefore the mortality of 1878 was 0·4 short of the average of the four previous years. I did not deem it necessary to explain all this, as it seemed to me that anyone who was in the way of looking at figures would see it at once. It would also be seen that the average cost of each diet in the Campbell Hospital from 1874 to 1877 was three annas and seven pies, the rate proposed by the Committee being three annas and six pies, and the average rate for 1878 two annas and six pies.

"It will thus be seen that my remarks as to the mortality in the Campbell Hospital, and the question of the diet rate, refer not to 1878 only, but also to four years previously."

The Lieutenant-Governor is glad to receive Dr. Irving's assurance that he did not intend his words to convey the meaning which they at first sight appear to bear. The interpretation, however, arose naturally from the collocation of ideas in the paragraph of his report cited in the resolution, and was scarcely avoidable. Dr. Irving, after expressing his doubts if the new scale would suffice, proceeded to remark that this year, in which "the screw was continuously applied," the rate had been strictly kept to,—that the mortality, though about the same as in previous years, was terrible,—and he inferred that more expensive diets should be provided. It could hardly be doubted that whatever persons accustomed to medical statistics would conclude from this, to the public it would seem that Dr. Irving connected the high rate of mortality during the year in some way with the new diet scale, and it was therefore necessary to show how incorrect such a conclusion would be.

Dr. Irving also explains that his suggestion as to the possible effect of a more generous diet in the preservation of life referred to patients after they had been admitted into the Campbell Hospital and not before. On this point it is unnecessary for Sir Steuart Bayley to say more than that, in the treatment of the sick, the medical officers of the hospital have the fullest power to order anything they consider necessary for the preservation of life.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Surgeon-General, Bengal.

By order of the Lieutenant-Governor of Bengal,

HORACE A. COCKERELL,

Secretary to the Government of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different District of Bengal, as reported to Government during the week ending the 23rd August 1879.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date
	BENGAL		
	Western Districts.		
BURDWAN DIVN. 1	Burdwan, Aug. 23 '79	0·60	Weather—showery. More rain very much wanted all over district except in Cutwa and Culna. Prospects of *amun* bad, though even now with rain that crop might be a good one. Some cases of cholera in Sudder and Raneegunge sub-divisions. Several cases of fever in Culna and Cutwa.
	Culna ...	0·54	
	Cutwa ..	0·45	
	Raneegunge ..	0·53	
	Jehanabad ...	2·59	
2	Bankoora, „ 23 „	1·60	Rain of 22nd local, but said to have fallen also at Bishenpore. Transplantation generally not satisfactory for want of rain. In Bishenpore prospects not good; and as no rain fell during week at Joypore they are bad. In Onda and Barjora outposts crops still reported fair. Special enquiries, however, this day ordered for Bishenpore and Onda and pergunnah Moheshri.
3	Beerbhoom, „ 23 „	3·18	Heavier rain done much good, and prospects favourable, except in south where transplantation still incomplete, and what has been planted looks poor.
4	Midnapore. „ 23 „	0·29	Weather—very sultry and cloudy. State and prospects of crops not favourable, owing to scanty rainfall. Cholera decreasing.
	Ghatal ...	0·88	
	Tumlook ...	1·04	
	Contai ...	0·90	
5	Hooghly, „ 23 „	0·41	Weather—bright and pleasant. *Amun* still being transplanted. More rain wanted, *Aus*, jute, and sugarcane doing well.
	Howrah, „ 25 „	1·84	Much less rain than there ought to be. More rain still wanted in Jagatbullubpore for transplantation which is going on in other parts of district. Prospects good.
	Mohesrekha ..	1·91	
	Central Districts.		
PRESIDENCY DIVN. 6	24-Pergunnahs, Aug. 23 '79	1·79	Weather—moderately hot with occasional showers. Prospects generally good; but in some places seedlings suffering and more rain wanted throughout district. Prices continue high Public health fair. Fever and attle disease in Satkhira and fever in Buseerhaut.
7	Nuddea, „ 23 „	1·74	Weather—rainy, cloudy, and cool. *Aus* being cut in various places, and nearly fit for gathering everywhere. *Amun* looking well. Rivers risen everywhere, and fears of inundation entertained Measures being adopted to secure all embankments. Much of *aus* and some portion of *amun* already suffered from high floods.
	Kooshtea ...	0·65	
	Meherpore ...	1·30	
	Chooadanga ...	0·11	
	Ranaghat ...	0·71	
	Bongong ...	0·20

	Magoorah ...	1·07	
	Narail ...	0·30	
	Khoolna ...	2·85	
	Bagirhat ...	1·79	
9	Moorshedabad, „ 23 „	1·24	Weather—occasionally cloudy and rainy. Prospects of *amun* and *aus* in high lands good. Rivers risen very high and some embankments given way, although every precaution was taken. Damages done not yet estimated. Public health good.
RAJSHAHYE AND COOCH BEHAR DIVN. 10	Dinagepore, Aug. 22 '79	8·58	Continuous heavy rain and floods. Weather cool. Harvesting of early rice and transplantation going on. Prospects favourable.
11	Rajshahye, „ 23 „	1·39	Rain almost every day. Ganges unusually high. Country generally flooded. Considerable damage done to crops in low lands; in high lands prospects of winter rice still continue good.
12	Rungpore. „ 22 „	11·63	Weather—very cloudy and rainy. State and prospects of crops good. Harvest of *aus* almost finished. Transplantation going on vigorously. Public health good.
	Gaibanda ...	5·93	
	Bagdogra ...	15·90	
	Kurigram ...	7·27	
13	Bogra, „ 23 „	1·97	Weather—rainy at beginning of week; fair and bright for last four or five days. *Aus* crop first-rate; it is being cut. *Amun* too most promising and will be a bumper crop, provided it gets October rains.
14	Pubna, „ 23 „	3·11	Occasional rain. State of *aus* and *amun* satisfactory, except where submerged along banks of Pudma. Floods higher at present than for some ten years. Health good.
15	Darjeeling, „ 22 „	6·54	Weather—rainy. In Terai transplantation still going on and will soon be completed; a little damage done to *bhadoi* rice by heavy rain. In Hills winter rice being transplanted; Indian-corn being reaped; other minor crops doing well.
16	Julpigoree, „ 23 „	12·80	Rain throughout week all over district. *Bhadoi* being reaped with good outturn; 12 annas reaped in Alipore. *Haimanti* nearly all transplanted. Rain during week beneficial in Alipore. Prospects of jute, cotton, and sugarcane not good. General health good.
	Cooch Behar, „ 21 „	13·40	Heavy rain. Weather cool. Reaping of early paddy nearly finished; outturn satisfactory. New rice coming into market. Weather favourable for winter paddy. Transplantation still continues. Public health generally good, but cases of small-pox still reported in Dinhatta and Mathabhanga sub-divisions.

23	Noakholly, „ 21 '79	8·66	Weather—wet throughout week. *Aus* being harvested; outturn good. In some places complaints of excessive rain and rots. Cases of fever and small-pox.
24	Chittagong Hill Tracts, „ 19 „	2·41	Weather—cloudy, with slight rain and occasional sunshine throughout week. Early joom paddy ripening; good outturn anticipated. Transplantation in low lands still continues. Fever still prevalent.
	Hill Tipperah, „ 20 „	1·30	Weather—seasonable. Rain on five days of week. Gathering in of *aus* continues. Transplantation finished. Prospects of crops fair. Public health being improved, but fever still prevailing in parts.
BEHAR.			
Patna Div. 25	Patna Aug. 23 '79	7·32	Weather—seasonable. Great damage done by heavy floods in Ganges. Rice and *bhadoi* crops, and many villages, on inundated lands, entirely destroyed. Out of range of these floods prospects favourable.
	Barrh ...	1·67	
26	Gya, „ 23 „	5·15	Weather—cloudy and rainy. Maximum reading in shade 93·8°. Prospects of *bhadoi* favourable Transplantation progressing satisfactorily. Cholera less frequent. Health of plough-cattle good.
	Nowada ..	3·45	
	Aurungabad ...	0·99	
27	Shahabad, „ 23 „	3·99	Weather—showery. It appears to be clearing up now. Rice crop flourishing. Much of *bhadoi* damaged by heavy rain and floods, especially near Ganges.
28	Durbhunga, „ 23 „	9·67	Very heavy rain at head-quarters, but much less in sub-divisions. Ganges' flood done considerable harm to *bhadoi* in south of district. Rice crop still promises well. Some cholera hanging about in Madhoobani.
29	Mozufferpore, „ 23 „	2·22	Weather—fine and showery alternately. Weather very favourable for all crops. Prospects generally improved. In Hajeepore sub-division maize on *dearah* and rice on low lands much injured by floods.
	Hajeepore ...	1·95	
	Seetamurhee ...	3·71	
30	Saran, „ 23 „	4·60	Weather—cloudy, with slight showers. East wind prevailing State and prospects of crops good, except in south and south-east, where injury has been caused by inundation, which has, however, now much subsided. Gogra has flooded southern part of Sewan sub-division, and considerable loss has been done to *sama*, maize, and *kodo* in jurisdictions of Siswan and Roghunathpore. Crops on west, east, and north flourishing well. Prices stationary. Cases of cholera still reported. Destruction by inundation of Ganges comprises whole of crops on *dearah* lands and on mainland for some miles near banks of rivers and small streams leading to Ganges.
	Sewan	3·78	
31	Champaran ...	.....	Return not received.
Bhagulpore Division 32	Monghyr. Aug 23 „	4·54	Weather—overcast, with frequent rain. Rice prospects continue good A large extent of country to north of Ganges under water.
	Begusarai ...	2·52	
	Jamui ...	0·60	
33	Bhagulpore, „ 23 „	3·78	Continuous showers, but last two days fine. District chiefly under water. Rice prospects good.
34	Purneah, „ 23 „	11·50	Weather—very wet; last two days sultry; wind south-east. Crops in south of Gondowarah, *i.e.*, 14 miles north of Ganges, much damaged by floods. *Aghani* and *rubbee* prospects excellent.
	Kissengunge ...	6·88	
	Arrareah ...	8·37	
35	Maldah, „ 23 „	6·82	Weather—frequent heavy rain till 22nd, when it became rather clear and fine. More than three-fourths of *bhadoi* and *makai* and about one-fourth of winter rice destroyed by heavy floods in Ganges, Mohanands, and other rivers. The entire district is under water, excepting a few patches of high ground here and there Much of the station is under water.
36	Sonthal Pergha. „ 23 „	2·11	Heavy showers and sunny intervals; seasonable and favourable for crops Maize indifferent. *Dhan* good. Floods have caused some cattle mortality.
	Deoghur ...	3·61	
	Godda ...	5·74	
	Jamtara ...	1·28	
	Rajmehal ..	5·37	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
ORISSA.			
Orissa Divn. 37	Cuttack, Aug. 22 '79	1·76	Weather—seasonable. In several places crops said to be under water in consequence of recent flood, and in Kendrapara sub-division considerable damage apprehended. *Beali* has also suffered in that sub-divison, but as there has been fine weather ever since, it will probably improve matters.
Orissa Divn. 38	Pooree, Khoorda ... ... „ 21 „	Not given 0·75	Weather—seasonable. In Khoorda sub-division *sarad* crop promising. Greater part of Sudder sub-division flooded owing to breaches in embankments. Many parts of pergunnahs Malud, Bajrakot and Parikud in salt tracts have been under water. Much damage anticipated. Common rice sells at 14½ to 21 seers a rupee. Price of rice slightly risen owing to floods.
Orissa Divn. 39	Balasore, „ 23 „	0·38	Weather—close, with light showers. Rainfall insufficient; more rain much required for high lands In south floods in Baitarni and Salandi rivers beneficial. In north no seasonal inundation. Cholera still decreasing: week's report shews 26 deaths.
CHOTA NAGPORE			
	South-West Frontier Agency.		
40	Hazareebagh. Aug. 22 '79	3·26	Weather—seasonable. Heavy rain in all parts of district. A little sunshine would now be of benefit to crops.
41	Lohardugga, „ 23 „	4·74	Heavy rain on 17th; then a break of fine weather. Showery at close of week. Prospects continue good. Indian-corn in Palamow injured by excessive rain, but rice crop promises to be a splendid one. Prices show a tendency to fall. Public health improving.
42	Singbhoom, „ 22 „	3·06	Weather—seasonable. Prospects of all crops good. Break of past three days very beneficial. Indian-corn yielding well. Cholera nearly extinct.
43	Manbhoom, „ 23 „	1·90	Weather—showery and seasonable. In south there seems to have been less rain. Transplantation still progresses State of upland crops good.

NOTE.

Barometric Pressures.—The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page, by adding the weight of a column of air of the temperatures given in column 18. For stations above 500 feet elevation the reduction is made by Captain Allan Cunningham's table, "Prof. Papers on Indian Engineering, No. CXIII." The temperatures at the sea-level are taken from column 3 of the above table.

Temperatures.—The temperatures in column 3 are reduced from those in column 18 on the preceding page, by adding 1° Fahrenheit for every 450 feet.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Cloud.—This column gives the average proportion of clouded sky, a cloudless sky being indicated by *o*, and one completely overcast by 10.

The above, being all comparable, afford the data for constructing a meteorological chart for the month, which will show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length, proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tables.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, *g* gloomy.

Reports of Fluctuation of Traffic on the East Indian Railway from 1st to 26th July 1879.

EAST INDIAN RAILWAY. TRAFFIC MANAGER'S OFFICE, JAMALPORE, THE 18TH AUGUST 1879.

Remarks on Traffic of East Indian Railway from 1st to 26th July 1879.

THE approximate figures for the period are—

	Coaching.		Goods.		Total.
	No.	Rs.	Mds.	Rs.	Rs.
1879	496,062	5,89,416	34,59,541	14,56,644	20,46,060
1878	508,062	5,61,042	33,15,376	13,93,019	19,54,077
Increase	.....	28,366	.....	63,625	91,991
Decrease	12,000	.....	3,55,835	.....	.....

The increase in coaching traffic is mainly due to pilgrims visiting Bankipore and Baidyanath as well as to Benares and Allahabad for the purpose of bathing in the Ganges during the eclipse of the sun on 19th July. We have also carried Government removals during this month and run a special troop train.

Merchandise Traffic.

The principal increases and decreases are as follows :—

Increases.

Coal, up.	Piece-goods.	Saltpetre.
Cotton.	Railway materials, foreign.	Spelter and
Jaggree and sugar.	Salt.	Edible grains.

Decreases.

Coal, down.	Hides and horns.	Lac.
Ghee and oil.	Iron.	Seeds and tobacco.

Increases.

Coal, upwards	Mds.	93,956	Rs.	58,441
„ downwards	„	3,20,247	„	46,166
		2,26,291		+ 12,275

The supplies to the Punjab Northern State Railway *vid* Gazeeabad, Rajpootana State Railway *vid* Agra, and Oudh and Rohilkund Railway *vid* Benares, account for this increase in upward coal.

The remarks in my reports for May and June on the falling off in downwards coal apply equally to this month.

Cotton ... ... Mds. 21,324 Rs. 35,320

This slight increase is due to the export to China and Europe.

Jaggree and sugar ... ... Mds. 29,021 Rs. 5,407

The demand in the Bombay Presidency and in Rajputana has led to the export of these staples from Behar and Oudh; but the lead on the main line has not been a long one.

Piece-goods ... ... Mds. 7,570 Rs. 10,418

This increase is due to the despatches from Howrah to the Upper Provinces.

Railway materials, foreign ... ... Mds. 81,570 Rs. 81,370

We continue to carry large quantities of rails for the Furrukabad and Gazeepore State Railways.

Salt ... ... Mds. 7,676 Rs 16,382

This increase results from the despatch of English salt from Howrah to Patna for the interior; but there has been a falling off in the Sambre salt *vid* Delhi. The figures compare as follows :—

Increase, Howrah	Mds.	41,400	Rs.	22,600
Decrease, *vid* Delhi	„	46,400	„	9,300
		—5,000		+ 13,300

and explain the large increase in earnings.

Saltpetre ... ... Mds. 10,976 Rs. — 8,054

This is owing to despatches from Patna and Cawnpore to meet demands in Calcutta.

Spelter ... ... Mds. 4,286 Rs. 6,944

Mirzapore and Cawnpore imported this from Howrah in tiles.

Grain and pulses—

	Increases.		Decreases.	
	Mds.	Rs.	Mds.	Rs.
Rice	.....	.....	1,06,460	26,388
Wheat	82,129	46,162	.....	.....
Other grain	3,050	.....	.....	271
Total ...	85,179	46,162	1,06,460	26,659

Net decrease	Mds.	23,271
„ increase	Rs.	19,503

The noticeable items are the decrease in rice and increase in wheat. There have been very small despatches of rice from the Beerbhoom district owing to the high prices ruling locally. It is satisfactory to note the increase in wheat. The despatches were principally from Cawnpore and Delhi to Bombay and Calcutta for export to Europe.

Decreases.

Ghee and oil ... ... Mds. 6,971 Rs. 10,515

Prices are still high in Behar and the North-West, and we are not likely to see an improvement in these staples until October.

Hides ... ... Mds. 9,480 Rs. 6,793

Owing to the cattle mortality last year in the district of Behar there were large despatches of hides, and the supplies this year are small although there is demand.

Iron ... ... Mds. 6,420 Rs. 5,399

This falling off is in first class iron from Howrah, owing to less demand from up-country stations.

Lac ... ... Mds. 7,617 Rs. 5,002

The decrease is principally in the despatches from Mirzapore to Howrah. There appears to be a general depression in the manufacture of this article owing to the rates offered being low.

Seeds ... ... Mds. 1,87,125 Rs. 1,01,477

I remarked fully in my last monthly report on the falling off in seed traffic, and there is nothing further to add. The decreases are still chiefly from Cawnpore and Patna.

Tobacco ... ... Mds. 20,326 Rs. 12,81[illegible]

The crops in Tirhoot and Purneah last year were particularly good, while there has been a failure this year
The train mileage for the period is—

Report on the Fluctuations in Traffic on the Northern Bengal State Railway during the month of July 1879.

GENERAL REMARKS.

ALTHOUGH the jute market has been much lasier during the month, and the ruling prices slightly below previous quotations, a quantity nearly six times as large as that lifted in July 1878 has found its way to the line. The low rate at which this staple is now being carried has, as is proved by the result, had the effect of drawing the traffic from the river to a considerable extent.

Increases.

Ale ... ... Mds. 31

This increase is but slight. The despatches of Commissariat beer will now be light until next cold season.

Food-grain ... ... Mds. 6,804

There has been a slight demand during the month for shipment to Colombo and the West Indies.

Gunny-bags ... ... Mds. 611

An increase of from 8 annas to one rupee per 100 in mill-made bags has brought hand-made bags again into request for local uses.

Jute ... ... Mds. 17,013

Small parcels of the new crop are beginning to find their way to market, and the heavy traffic done during the month is no doubt to a great extent the result of holders making a push to place old stocks before the new crop is thoroughly in.

Piece-goods ... ... Mds. 4,392

For the corresponding period of last year we carried 736 maunds only. The increase noted may be fairly attributed to the gradual increase in public favor of the railway as the mode of transit for high class goods of this description.

Salt ... ... Mds. 10,848

759 maunds of this staple only were carried during July 1878. The increase is doubtless the result of the reduced rate lately introduced.

Sugar ... ... Mds. 363

The movement in this staple has been entirely for local consumption.

Tea ... ... Mds. 4,446

The gross weight of tea lifted during the month stands at 8,168, against 3,722 for the same month last year. The increase is due to the lateness of the season and to closing of the Caragola route.

Tobacco ... ... Mds. 12,860

The reduced rate introduced in March has had the effect of drawing a large quantity of this staple to the line, that would otherwise have found its way to the port by the water route. The opening to kawnea has alsohelp ed to the result, as 2,840 maunds have been carried from that station during the month.

All other goods ... ... Mds. 13,759

21,615 maunds have been carried under this head during the period under review against 7,858 maunds in July last year, a result that cannot but be looked upon as satisfactory.

Decreases.

Ginger ... ... Mds. 3,089

No transactions in this staple appear in the market reports for the month. The whole weight lifted during the month was only 192 maunds, against 3,281 for the same period last year.

Railway material ... ... Mds. 27,936

This falling off is the natural result of the completion of the line. There has also been a cessation in despatches of tramway material during the month.

REVISED BOUNDARY OF THANAS BAGMARA AND PANCHOOPORE.

Thana Bagmara.

On the north, north-west, and west.—The boundaries remain as defined in the notification dated 24th February 1875, published in the *Calcutta Gazette* of the 10th March 1875.

On the south.—The boundary remains unaltered between the villages of Chuk Hyatpore and Gopeenathpore.

On the east.—The boundary follows that of the following villages, viz.—Gopeenathpore, Bonegaon, Katonee, Mudaiemoree, Bhadghurpara, Barceahatee, Kumarbareea, Noadapara Arazee, Baroepara, Muroogaon, and Lamkan.

Thana Panchoopore.

On the north.—The boundary remains as defined in notification dated 10th January 1876.

On the west.—The boundary coincides with the boundaries of thanas Bandaiekhada and Bagmara.

On the south.—The boundary follows that of the following villages, viz.—Kusbah, Ramchunderbatee, Kasoonda, and Boaleea; thence the boundary remains as previously defined.

On the east.—The boundary remains unaltered.

NOTE.—All the villages above named fall within the limits of the thanas under description.

NOTICE TO MARINERS.

(No. 27.)

Bay of Bengal—Coromandel Coast.

MADRAS.

Change in the anchorage limits of the port.

The Master Attendant of Madras has given notice that owing to the extension of the Harbour Works into deep water, it has become necessary to shift the Northern and Southern Port Buoys into eight fathoms of water. These buoys, which are painted half red and half

white vertically, should henceforward be looked upon as *danger* buoys, and Commanders of Vessels, making or leaving the anchorage, are hereby warned *not to pass in shore of either of these buoys* by day, nor to come under eight fathoms by night, as the rubble bases of both groynes extend much further seaward than the walls themselves, and in some places have only 17 feet of water on them.

The middle, or large buoy which is painted red, is laid down in six and a quarter fathoms, and marks the western limit of the anchorage for steamers.

All sailing vessels, excepting dhonies, should anchor outside the eight-fathom line of soundings.

By Direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr. (late I. N.)*
Superintendent, Marine Survey of India.

Submitting memorials of certain Branch and Master Pilots on the subject of revising the tonnage allotted to the several grades of the Pilot Service.

Read again the resolution of this Government of the 8th of May 1879, regarding the system under which Commanders or agents of ships had the privilege of applying for particular pilots to pilot their vessels to sea, and the employment of special pilots on board of mail steamers.

1. By the resolution of the 8th May 1879, the agents' right of application is restricted to a request for the services of the pilot who brings a vessel into port, and the employment of "special" pilots is strictly confined to mail lines of steamers. At the time of issuing that resolution it was anticipated that a demand for a revision of the tonnage allotted to the various grades of the Pilot Service would thereby be created. Owing to the yearly increase in the size of ships coming to Calcutta, the number of ships falling within the tonnage of the Branch Pilots' grade is at present out of all proportion to the small numbers of pilots in that grade, and as at the Sandheads pilots get vessels by turn in accordance with their grade, the practical effect of the present arrangement is that the Branch Pilots are now in constant employment. They meet with little or no detention at the Sandheads; and as they are always bringing vessels up, they alone can be applied for to take these vessels down again. Formerly many Masters had regular connections with merchants and commanders, and were applied for to take down vessels of the Branch Pilots' grade; and although, under the orders referred to above, Masters can still be applied for to take down any vessel which they bring up, it is found that they lose a large number even of applications which they might still receive, whilst waiting their turn for ships at the Sandheads.

2. It appears also from the papers submitted that the dulness of trade has been such as to press severely on the Pilots' earnings, especially of the Masters' grade, and an urgent demand is now made on the Masters' behalf for a re-adjustment of the tonnage, so as to throw at least a fair share of the work of the port into their hands. The present distribution of the tonnage is this:—

Mate Pilots	...	...	Up to 800 tons.
Junior Masters	...	...	801 to 1,175 „
Senior Masters	...	...	801 to 1,300 „
Branch Pilots	...	...	Above 1,300 „

The Port Officers propose, and the Masters ask for, the following scale:—

Mate Pilots	...	...	Up to 800 tons.
Junior Masters	...	...	801 to 1,300 „
Senior Masters	...	...	801 to 1,600 „
Branch Pilots	...	...	Over 1,600 „

3. The Branch Pilots admit that a case for re-adjustment has been made out, though they dispute the equity of the precise proposal made by the Port Officers, urging that the Masters allowed to run as special pilots take ships of the Branch Pilots' grade all the year round. Allowing, however, for this, and after full and careful consideration of all the circumstances of the case put forward by the Branch and Master Pilots, the Lieutenant-Governor agrees with the Port Officers that some immediate relief for the Masters' grade is required; and His Honor accepts the Port Officers' proposals tentatively, pending the accumulation of information on which finally to settle the question of allotting the tonnage. The Port Officer is meantime requested to submit monthly statements similar to that at the bottom of page 2 of the annual report of the Marine Department for 1874-75. These statements should commence from the 1st of April 1879.

Rules made by the Lieutenant-Governor of Bengal under Section 2, Act VII (B. C.) of 1879, for the examination of, and the granting of certificates to, Commanders of Inland Steam Vessels.

N B.—The provisions of Rule 1 will not be applied in the case of candidates who are at the date of the publication of these rules actually in command of a river steamer.

1. Candidates for certificates as commanders of inland steam vessels must be not less than 21 years of age, and have served at least 3 years at sea, and 3 years as mate of a river steamer, or master of a river flat.

2. Every such candidate shall apply for permission to appear for examination in a printed form,* to be filled up by him, and forwarded to the Port Officer, Calcutta, together with such documentary evidence as shall satisfy the Port Officer that the candidate has complied with the conditions of Rule 1 above, and that he is of sober habits and of good character. Each candidate shall forward with his application a fee of Rs. 16.

* Copies will be supplied to intending candidates by the Port Officer, Calcutta, on application.

3. The Port Officer shall notify to accepted candidates the date and hour of examination, in fixing which he shall have due regard to the convenience of their employers. The fees of any candidate who is not accepted shall be returned to him.

4. The examination of candidates shall ordinarily be conducted by the Committee which sits quarterly for the examination of pilots, but the Port Officer may at any time convene a special committee for the examination of candidates under these rules.

5. Before proceeding to examine any candidate in the manner provided in the rule next following, the Committee shall carefully test his ability to distinguish the following colours which enter largely into the combinations of signals by day and night, viz. black, white, red, green, yellow, and blue. In the event of any candidate failing to satisfy completely the usual tests for colour blindness in respect of all of these colours, the Committee will decline to proceed with his examination, and will report the case through the Port Officer for the information of the local Government.

6. The Committee will examine each candidate apart, and *viva voce*, in each and all of the following subjects:—

(1).—The names and courses of the river reaches from Calcutta to Mud Point, and the extent of the sands in such reaches.
(2).—The sets of the tides within the said limits.
(3).—The names of all Points in the river within the said limits.
(4).—The candidate's general knowledge of soundings in the channels and over the sands within the said limits.
(5).—The tracks over the Moyapore and Royapore flats, the Fultah tracks, and the Eastern and Western Guts.
(6.)—The marks for fair channels or hauling into reaches where such exist.
(7).—The marks for the limits of sands where such exist.
(8).—The rules of the road.
(9).—The management of river steamers under all contingencies of meeting, overtaking, and passing vessels in all possible positions within the limits described in No. 1.
(10).—The anchorages to select in view of the requirements of sea-going vessels.
(11).—The Tide Table.
(12.)—The rules of the Port of Calcutta including the prescribed Storm Signals.
(13).—The provisions of Act VII of 1879.

7. If the candidate satisfy the Committee as to his knowledge of the subjects set forth in the foregoing rule, and generally as to his competency to command an inland river steamer, they shall certify the same to the Port Officer, who will then grant a certificate of such competency in the form appended to these rules.

8. No candidate who fails to satisfy the Committee shall be at liberty to submit a fresh application for examination until six months have passed from the date of such failure.

NOTIFICATION.

The 18th August 1879.—It is hereby notified for general information that the limits of the Port of Calcutta, and of the navigable river and channels leading thereto, as fixed with the sanction of the Governor-General in Council, are severally as described below.

The limits of the Port are—

On the north, a line drawn from the boundary pillar at the Cossipore Gun Foundry Ghât to a point on the opposite side at Ghoosery.

On the south, a line drawn from a point called Paikpara on the north to a creek called Nardukhal on the south.

So much of Tolly's Nullah as lies to the west of a line drawn across the Nullah, 25 feet to the west of Hastings Bridge.

The limits of the Port include to the east and west so much of the river Hooghly and the shores thereof, as are within 50 yards of high-water mark, spring tides.

N.B.—Within the above limits, the Port is subject to the jurisdiction of the Commissioners for making Improvements in the Port of Calcutta, under the powers conferred upon them by the Lieutenant-Governor of Bengal by an order published in the *Calcutta Gazette* of the 5th April 1875, which vested them with the powers of Conservator of the Port.

The limits of the navigable river and channels leading to the Port are—

On the north, the Port of Calcutta as above defined.

On the south, a line drawn east and west from the Eastern Channel Floating Light-vessel.

All parts of the navigable channels, called the Eastern and the Western Channels, and of the river Hooghly between the said limits and below high-water line at spring-tides.

N.B.—The Port Officer, Calcutta, is the Conservator of the navigable river and channels thus defined, and they are under his jurisdiction.

REVISED RULES

for the Port of Calcutta within the jurisdiction of the Port Commissioners.

UNDER the provisions of Act XII of 1875, the Lieutenant-Governor is pleased to sanction the following revised rules to be observed within the Port of Calcutta:—

Vessels not to move at night.

1. No vessel of the burthen of 200 tons or upwards shall enter the Port, or move from one place to another within the Port, between sunset and daybreak, without the special permission of the Commissioners: provided that a vessel which has entered the Port before sunset may at once proceed to a safe anchorage at any part of the Port not higher than Prinsep's Ghât. No vessel shall be moored or anchored abreast of the Peninsula and Oriental Company's premises without the permission of the Commissioners.

Exception in favour of steam tugs.

2. Steam tugs having no vessel in tow shall be permitted to enter the Port after sunset at their own risk, but they shall not proceed above Chandpaul Ghât. Steam tugs shall be held liable for any damage which they may cause by moving at night.

Vessels not to move up on the flood or down on the ebb.

3. No vessel of the burthen of 200 tons or upwards shall steam, sail, or be towed up on the flood or down on the ebb within the Port above the house of the Superintendent, Government Botanical Gardens, without the special permission of the Commissioners; and in cases where such permission is granted, the officers in charge shall be held strictly responsible for accidents which may occur in consequence of their taking the vessels up or down at a greater speed than is absolutely necessary in order to keep them under command; and in every case where such permission is granted, the speed of the vessel shall not exceed four miles an hour through the water.

Speed of vessels restricted.

4. No vessel shall steam, sail, or be towed up on the ebb or down on the flood within the Port at a speed greater than four miles an hour over the ground.

Vessels dropping up or down.

5. Vessels may at all times drop up or down the Port with their anchors on the ground. Steamers of the Peninsula and Oriental Company, or of the Messageries Maritimes, and any other vessels specially permitted to start with the ebb, are prohibited from turning out from their moorings while vessels are dropping down the Reach, but the Deputy Conservator and Harbour Master shall, as far as possible, prevent vessels from dropping down at the time the Peninsula and Oriental Company's steamers and Messageries Maritimes' steamers are about to turn and proceed down the Reach. Pilots and Assistant Harbour Masters having charge of outward-bound vessels are forbidden to pass below the India General Steam Navigation Company's jetty on an ebb-tide whilst the Assistant Harbour Master's flag is flying on board any of the outward steamers belonging either to the Peninsula and Oriental Steam Navigation Company or Messageries Maritimes, and they are not to commence dropping their vessels again until the steamer has turned and proceeded fairly down the Reach.

---

* With reference to Port Rule No. 3, the following instruction for the guidance of Assistant Harbour Masters is published for general information:—

Assistant Harbour Masters are forbidden, without a special order from the Harbour Master's Office, to turn outward-bound vessels until they are below the lower College sand buoy.

6. Vessels entering the Port at neap-tides during the freshets are permitted to come up at slack water at a speed not exceeding four miles an hour over the ground.

Vessels entering the Port on neap-tides.

7. River steamers and tug steamers having no vessels in tow are permitted to move up on the flood or down on the ebb at their own risk, and at a speed sufficient to keep the vessels under command; but in no case shall the speed exceed four miles an hour through the water.

River and tug steamers exempted.

8. All steam launches, steam cargo-boats, steam ferry-boats, and all other small vessels propelled by steam, plying within the limits of the Port, shall have their steering gear so placed that the men steering can have a clear look-out ahead.

9. No steam vessel shall proceed at a greater rate of speed than four miles an hour when inside the moorings, and no steam vessel shall proceed at a greater rate of speed than four miles an hour anywhere within the Port after dark.

10. Special permission may be given by the Commissioners to ferry steamers to move in the Port otherwise than is prescribed in these rules, due limitation being laid down as to place and hours of plying and speed in each case.

Ferry steamers may be exempted.

11. No vessel shall have on board, within the limits of the Port, more than 15lb of gunpowder as defined in the Act, so as not to exceed 5lb of common gunpowder and 10lb of rockets and combustible ammunition.

Vessels having powder in excess of the authorised quantity to be kept outside the Port.

12. When a vessel has on board more than 40 gallons of any inflammable oil, the Master shall inform the Pilot and Harbour Master on board, and the vessel shall not be moved above Mutteabrooj Ghât without the permission of the Commissioners. If the Master delivers to the Pilot or Harbour Master, or the Agent delivers to the Commissioners, a certificate duly attested at the port of shipment, stating that the oil is not inflammable, the vessel shall not be detained at the entrance of the Port. No vessel lying above Mutteabrooj Ghât shall take or keep on board more than 40 gallons of any inflammable oil without the permission of the Commissioners.

Regulations for vessels carrying inflammable oils.

Explanation.—"Inflammable oil" includes petroleum, benzole, kerosine, and any oil, or product of oil, that gives off an inflammable vapour at a temperature of less than one hundred degrees of Fahrenheit's thermometer.

13. Inflammable oil shall only be landed between sunrise and sunset in a covered cargo-boat, and at such places only as may be appointed for the purpose under the sanction of the Government of Bengal, due notice of which shall have been given to the public. No smoking, fire, or light of any description shall be allowed in any such boat during the time that such oil is on board.

Landing of oil in covered boats.

14. The place appointed for landing inflammable oil shall be Neemuck Mehal Ghât, and such oil shall not be landed at any other ghât, except with the special permission of the Commissioners.

Place for landing inflammable oil.

15. The Harbour Master and his Assistants shall not be interfered with in the execution of their duty. After a vessel is moored she shall not be moved without permission of the Harbour Master.

Harbour Master's Assistants not to be interfered with.

16. All vessels within the Port shall take up such berths as may be appointed for them by the Commissioners or the Deputy Conservator, and shall move from one berth to another when ordered to do so.

Vessels to be berthed and moved at the discretion of the Commissioners.

17. All vessels moored in the stream shall keep a clear hawse.

Vessels in the stream to keep a clear hawse

18. No vessel shall use any of the moorings, whether fixed or swinging, without permission of the Commissioners.

Moorings not to be occupied without Commissioners' permission.

19. All applications to be hauled into or cast off from the moorings, or for any other assistance, shall be made either personally or by letter to the Deputy Conservator. Applications will, as far as possible, be complied with in order according to date of receipt.

Application for Assistant Harbour Masters to be made to the Deputy Conservator.

20. All vessels on arrival in the Port shall rig in their jib and driver booms, and shall keep them so rigged in until the Pilot takes charge of the vessel at Garden Reach for the purpose of taking her to sea. They shall also strike their yards and masts when ordered by the Commissioners. Vessels proceeding to the jetties shall remove all boats and other projections likely to damage the jetties and cranes.

Vessels arriving in the Port to rig in the jib and driver booms.

21. From the 1st day of May until the 30th day of June, and from the 1st day of October to the 15th day of November, all vessels in the Port shall have their royal and top-gallant yards on deck, and mast-ropes rove in readiness to send the top-gallant masts down at short notice when required, that is, when the storm warning signal (*double cone*) is displayed; and shall send down their top-sail yards, and house top-masts, when the storm signal (*drum*) is hoisted, or when ordered to do so by the Commissioners. Vessels about to leave the Port may send their top-gallant yards aloft 24 hours before leaving the moorings. Vessels entering the Port between the above dates, having top-gallant masts and yards aloft, may be placed in moorings, and the top-gallant yards of such vessels shall be sent down within 24 hours after they are moored.

Rules for regulating striking of yards and masts.

Additional precautions to be taken on approach of bad weather.

* 22. On the occurrence of signs of an approaching cyclone, a black drum will be hoisted during daylight from the flagstaff on the roof of the Sailors' Home, Bankshall Ghât, and another from the flagstaff at the Government Dockyard, Kidderpore. During the night, under similar circumstances, four bright lights in a square will be exhibited from the same flagstaffs, one at each yard-arm. When these signals are displayed, Masters of vessels shall immediately take every additional precaution in their power to make the vessels snug and secure; they shall stow their top-gallant masts on deck below the rails, and shall have awnings furled, and the lower and top-sail yards counterbraced or pointed to the wind, if not struck. The cables shall be bent to both bower anchors when possible.

STORM SIGNALS.

	Day.	*Night.*
This signal means, cyclone probable, look out, send down royal and top-gallant yards, reeve mast topes, furl awnings ...	A black double cone ...	... Three lights in a triangle.
This signal means, cyclone approaching, carry out the intructions laid down in Port Rule No. 19	A black drum ...	... Four lights in a square.

Free channel of 200 yards to be kept.

23. A free channel of not less than 200 yards width shall be kept for ships moving up or down the river in the Port, and also free passages to piers, jetties, landing-places, wharves, quays, docks, and moorings; and all vessels shall move when ordered to clear such channels or passages.

Vessels to have an anchor at the bow.

24. Vessels lying in the stream, or at the moorings shall at all times have at least one anchor at the bow, with a cable bent and ranged ready to let go.

Stern fastenings in time of bores.

25. All vessels placed in the moorings on the ebb-tide shall during spring-tides, when bores are expected, have their best hawsers passed from each quarter pipe abaft the mainmast, and made fast to the stern moorings if possible, otherwise to their own chains close to the moorings, and hove taut with sufficient strain to relieve the jerk on the chains and bitts when the bore comes up.

Vessels to remove projections from sides.

26. Every ship or vessel within the Port shall remove any anchor or spar, or other substance projecting from her side, when ordered to do so.

Vessels anchored or under weigh in the Port to show lights between sunset and sunrise.

27. All vessels anchored in the stream within the Port shall exhibit between sunset and sunrise, where it can best be seen, but at a height not exceeding twenty feet above the hull of the vessel, a white light in a globular lantern of eight inches in diameter, and so constructed as to show a clear, uniform, and unbroken light visible all round the horizon, and at a distance of at least one mile. Vessels under weigh at night shall show the lights prescribed by the Admiralty Regulations.

Cargo and other boats to carry a light.

28. All coasting vessels, cargo-boats, bhurs, budgerows, up-country boats, and passenger-boats, when under weigh on the river after dark within the limits of the Port, shall carry a white light in a lantern in the forepart of the vessel, where it can be distinctly seen; and all steam vessels shall show when under weigh the lights prescribed by the Admiralty Regulations.

Steamers occupying moorings not to move screws or paddles, except under limitation.

29. Steam vessels occupying moorings shall not turn their screws or paddles without giving sufficient warning of the intention to boats in the vicinity; they shall not put full power on when trying their engines in the moorings, nor shall any trial under steam be permitted so long as a vessel is lying at the jetties.

Smoking and use of lights prohibited below the upper deck.

30. No person shall smoke or use naked lights of any description in the hold or between-decks of any vessel lying in the Port. Closed lanterns secured by lock and key, and in charge of an officer of the vessel, shall alone be taken between-decks or into the hold.

Application of foregoing rule to ships in dock.

31. The foregoing rule shall also apply to vessels in dock.

Fires permitted only in galleys within stated hours.

32. Fires shall be permitted only in galleys or fire-places regularly constructed for the purpose, such fires to be kept alight only between day-break and 9 P.M. Cooking fires shall not be allowed on board of vessels in dock.

Gunpowder and combustible matter not to be taken into dock.

33. All gunpowder shall be landed before a vessel is put into dock.

Proprietors of docks to take precautions against fire.

34. The proprietor of every dock shall keep on the premises a good fire-engine, with serviceable hose and fire-buckets ready for immediate use, with a supply of water at hand.

Obligation of vessels to be provided with fire-buckets.

35. With a view to the extinction of fires, all vessels in Port shall be provided with three buckets for every hundred tons of registered measurement up to 600 tons, and two additional buckets for every 100 tons above 600: provided that the total number of buckets shall not be required to exceed 50 in any vessel. One-half of such buckets shall be left constantly hung up on the quarter deck or other convenient place.

* *See* also notification of Government, dated 20th November 1874, appended to these rules regulating the storm signals for use in the Port and the Port approaches.

* 36. When fire has broken out in any vessel, the officers in charge of all vessels in neighbouring moorings or anchorage shall furl their awnings, get their force-pumps ready for use, and prepare for slipping their cables and chains, seeing specially that the pins of the shackles can be immediately knocked out.

Measures to be taken by vessels on the occurrence of a fire.

37. The river bank being a place of public resort, Masters of vessels in moorings shall have the forecastles and heads of their vessels screened in, so as to avoid indecent exposure.

Precautions against indecent exposure.

38. No vessel shall lie at single anchor in the Port unless a Pilot or Assistant Harbour Master is on board.

Lying at single anchor prohibited.

39. All vessels about to leave the Port shall hoist the Blue-Peter at the fore at least twenty-four hours before leaving the moorings, and shall keep it hoisted until the Pilot takes charge of the vessel to take her to sea.

Signal of departure to be hoisted.

40. With the exceptions hereinafter noted, no vessels of or exceeding 200 tons burthen shall, without the special sanction of the Commissioners, move up or down the Port through the ship opening of the Howrah Bridge, except such vessel is propelled or towed by steam against the tide, and then only at such a rate of speed, not exceeding four miles an hour over the ground, as is absolutely necessary to keep good steerage way.

Exceptions.—Tug and river steamers when not towing or propelling other vessels may drop through the bridge opening, under steam, head to tide.

River flats may be dropped or warped at slack water through the ship opening or through the 60 feet openings.

41. No steam vessel shall attempt to pass any other vessel proceeding in the same direction whilst between the pontoons of the Hooghly Bridge.

42. No steam vessel shall have in tow more than two cargo-boats when proceeding through the bridge opening with the tide.

43. All steam vessels when passing through the bridge opening shall sound their whistles as a warning to other vessels.

44. Any person committing an infringement of any of the foregoing Port Rules is liable to the penalties prescribed by the Act.

Penalties.

Special Rules for regulating the Discharge and Loading of Gunpowder on shipboard.

45. All inward-bound vessels carrying gunpowder, the total quantity of which is in excess of 15℔, are prohibited from proceeding above Budge-Budge, and the Master of any vessel lying within the Port, or in the river above Budge-Budge, who shall have on board any gunpowder in excess of 15℔, shall be liable to the penalty provided in section 34 of the said Act XII of 1875; provided that boats will be permitted to bring as far as Neemuck Mehal Ghât, under cover of a pass to be granted by the Commissioners, 50℔ of gunpowder, the property of dealers and consignees.

46. All such gunpowder, in excess of the prescribed quantity, 15℔, must be landed and deposited in the magazine at Moyapore.

47. The Magazine-keeper will take charge of the gunpowder immediately on its being conveyed to the shore at Moyapore, and will deposit it in the magazine.

48. For the convenience of vessels having gunpowder on board, a properly constructed powder-boat will be always in attendance off the magazine for landing and shipping powder. No charge will be made for the use of the boat for landing ship's powder, but the responsibility of the keeper in respect of the powder will not commence until it is landed on the bank, and will cease as soon as it is shipped on board the boat. Every precaution will be taken to ensure the safety of the powder while in the boat, but the landing and shipping is at the risk of the vessel.

49. Vessels bringing consignments of trade or Government powder will be liable to pay landing charges for the use of the boat if the magazine boat is used, and should passing vessels require the use of the boat to put out or receive ship's powder, such vessels must be accommodated before the boat can be used to discharge powder or ammunition brought as cargo.

50. In order to avoid unnecessary detention, Masters of vessels requiring the use of the powder-boat are required to hoist a flag at the foretopmast head on coming in sight of the magazine, as a signal to the keeper to have boat and coolies in attendance.

51. Masters of vessels are required to mark the names of their respective vessels on the barrels and packages of gunpowder previously to their being landed, and, if not marked, they will not be received by the magazine boat.

52. Gunpowder shall not be landed or received into the magazine when artificial lights are required to be used.

53. The Magazine-keeper shall give to the Master or other person making the deposit a receipt for the number of packages, and he shall be accountable to such Master or other person for the re-delivery of such packages.

---

* For the better security of vessels against damage or loss by fire a steam floating fire-engine has been provided, and is always kept under steam, ready to proceed at once to any place where her services may be required. The fire-engine station is at Fort Point, where the vessel is moored, and where a look-out is kept day and night. In case a fire breaks out on board a vessel, notice should at once be sent to the fire engine station.

54. A native clerk will be always in attendance in the powder-boat, and will receive from the Master the declaration required by section 30 of the Act, and grant the receipt specified in the foregoing rule.

55. If any vessel shall be prevented by stress of weather, or by being in distress from landing or depositing such gunpowder in excess of the quantity allowed as aforesaid, such vessel may be permitted to come up to the lower limits of the Port, but shall not proceed above Mutteabrooj Ghât, and the Master of such vessel shall forthwith give notice to the Conservator of his having such gunpowder on board, and shall obey his directions relating to the same.

56. Masters of vessels outward bound, who may require gunpowder for their outward voyage, shall not take gunpowder on board in any part of the river above Budge-Budge, with the exception of a quantity not exceeding 15lb.

57. Masters of vessels who have deposited ship's powder at the magazine should inform the Deputy Conservator of the date on which the vessel will pass the magazine outward bound, and on receipt of this information, orders will be forwarded to the keeper to place the powder in the boat, and send it off in such time as to avoid any detention of the outward-bound vessel. Before delivering the powder, the receipt granted by the Magazine-keeper must be given up.

58. Delivery of powder into boats at the magazine for conveyance to Calcutta will only be granted upon orders issued from the office of the Commissioners.

59. No boat containing powder shall be allowed to proceed above Neemuck Mehal Ghât. All powder shall be landed at Neemuck Mehal Ghât, and no powder shall be landed at any other ghât, except with the special permission of the Commissioners.

60. The two foregoing rules shall not apply to Government powder-boats, which will be allowed to enter the Port and discharge their powder under the rules laid down by the Inspector-General of Ordnance.

61. No smoking and no fire or light of any description shall be permitted on board of any boat having gunpowder or combustible ammunition on board.

62. No powder shall be landed within the Port at any time when artificial light is required to be used.

Special Rule.

63. The provisions of sections 38, 39, 40, 41 of the Act have been specially extended to the Port of Calcutta under the operation of the provisions of section 3 of the Act.

Rules for the navigable River and Channels within the jurisdiction of the Port Officer.

THE Lieutenant-Governor also directs that the following rules shall be observed in the navigable river and channels leading to the Port of Calcutta :—

1. All vessels anchored in the stream in the channels of the river Hooghly leading to the Port of Calcutta shall exhibit between sunset and sunrise, where it can best be seen, but at a height not exceeding 20 feet above the hull of the vessel, a white light in a globular lantern of eight inches in diameter, and so constructed as to show a clear, uniform, and unbroken light visible all round the horizon, and at a distance of at least one mile. Vessels under weigh at night shall show the lights prescribed by the Admiralty Regulations.

2. All coasting vessels, cargo-boats, bhurs, budgerows, up-country boats, and passenger boats, when under weigh on the river after dark within the navigable river and channels, shall carry a white light in a lantern in the forepart of the vessel where it can be distinctly seen ; and all steam vessels shall show when under weigh the lights prescribed by the Admiralty Regulations.

3. Vessels meeting with any accident, or causing damage to others, while in charge of an officer under the authority of the Port Officer, or of any Pilot, have no claim on Government for such damage ; but the parties concerned are to represent the case to the Port Officer, who will take such cognizance of the same as the merits of the case may seem to require.

4. Vessels are prohibited from throwing overboard ballast or rubbish of any kind detrimental to the bed of the river. All Pilots are strictly enjoined to see that this rule is observed, and to report any infraction of it. As in other cases of breaches of the Port Regulations to which any penalty attaches, whenever and as often as the penalty is incurred, a bill will be made out against the Commander for the amount, and no Pilot will be granted to the vessel on board of which the offence has been committed until such fine be paid.

5. The Conservator of the navigable river and the channels leading to the Port of Calcutta, or any person subordinate to him, may, at any time, board any vessel in order to ascertain that the rules are carried out.

6. Any infringement of the above rules will subject the offender or offenders to the penalties laid down in the Act.

GENERAL DEPARTMENT.

MARINE.

NOTIFICATION.

Calcutta, the 20th November 1874.

THE following arrangements of storm-signals for the approaches to the Port of Calcutta, as well as within the Port, are published for general information, in supersession of this Government Marine Resolution dated 12th April 1873, which was published in the *Calcutta Gazette* of the 23rd idem :—

I.—Signals for the approaches to the Port of Calcutta.

When there is bad weather in the Bay of Bengal, the following signals will be hoisted at the Flagstaff near the Light-house on Saugor Island, at Mud Point, and at the Flagstaff, Diamond Harbour, near the Telegraph Station, on receipt of instructions telegraphed from the Meteorological Office, Calcutta :—

During Day.

Name.	Shape.	Signification.
Bad weather signal.		A single cone indicates that bad weather (such as usually precedes, but is not always followed by, a cyclone) is probably prevalent in the Bay.
Warning signal.		A black double cone indicates that the passage of a cyclone is probable, as a cyclonic vortex is believed to have been formed in the Bay. When this signal is up, Pilots will not put to sea unless in their judgment the local weather symptoms are such that this course is not imprudent; and unless the Master, concurring in this opinion, distinctly takes upon himself the responsibility of going to sea, and gives the Pilot a writing to that effect.
Danger signal.		A black drum indicates that a cyclone is probably approaching. When this signal is hoisted, Masters or Pilots in charge of vessels are forbidden to put to sea from Saugor, or proceed down from Diamond Harbour, and should make their vessels as snug and secure as possible.

At Night.

Bad weather signal.		Two lights in a vertical line. Cyclonic disturbance in the Bay.
Warning signal.		Three lights in a triangle. Cyclone probable.
Danger signal.		Four lights in a square. Cyclone approaching.

The following rules for the guidance of Running Pilots are also published for general information :—

Rules 28A and 28B of the Rules for the Guidance of Running Pilots.

Rule 28A.—When the warning signal, as described in the notification of the 20th November 1874, is hoisted on the Flagstaff at Saugor Island near the Light-house, or at Mud Point, officers in pilotage charge of vessels will not put to sea, unless in their judgment the local weather symptoms are such that this course is not imprudent; and unless the Master, concurring in this opinion, distinctly takes upon himself the responsibility of going to sea, and gives the Pilot a writing to that effect.

Rule 28B.—When the danger signal, as described in the notification of the 20th November 1874, is hoisted on the Flagstaff at Saugor Island near the Light-house, or at Mud Point, officers in pilotage charge of vessels shall not put to sea, but should make the vessels under their charge as snug and secure as possible; nor should they proceed below Diamond Harbour when a black drum is hoisted at the Flagstaff at that station.

II.—Signals for the Port of Calcutta.

The following storm-signals only are to be used within the limits of the Port of Calcutta, and are to be hoisted on the yard-arm of the Flagstaff near the Government Dockyard, Kidderpore, and on the yard-arm of the Flagstaff on the roof of the Sailors' Home, on the receipt of instructions from the Meteorological Office:—

During day.

Name.	Shape.	Signification.
Warning signal.	*Double cone.*	Cyclone probable.
Danger signal.	*Drum.*	Cyclone approaching.

At Night.

Warning signal.	*Three lights in a triangle.*	Cyclone probable.
Danger signal.	*Four lights in a square.*	Cyclone approaching.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the Gazette of India.*]

The following order, issued by the Government of India in the Home, Revenue, and Agricultural Department, is republished for general information :—

NOTIFICATIONS—PUBLIC.

Simla, the 22nd August 1879.

No. 1534.—In exercise of the power conferred by the Statute 33 Vic., Cap. 3, Section 6, the Governor-General in Council has been pleased to make the following rules, which have been sanctioned by the Secretary of State in Council with the concurrence of a majority of members present :—

I.—Each local Government may nominate persons who are Natives of India within the meaning of the said Act for employment in Her Majesty's Covenanted Civil Service in India within the territories subordinate to such Government. Such nominations shall be made not later than the first day of October in each year. No person shall be nominated for employment in the said Service after he has attained the age of 25 years, except on grounds of merit and ability proved in the service of Government, or in the practice of a profession.

II.—Nominations under the foregoing rule shall, if approved by the Governor-General in Council, be provisionally sanctioned by him. The total number of nominations so sanctioned in any year shall not exceed one-fifth of the total number of civilians appointed by Her Majesty's Secretary of State to the said Service in such year; provided that the total number of such nominations sanctioned in each of the years 1879, 1880, and 1881 may exceed the said proportion by two. On sanction being given by the Governor-General in Council, the nominee shall be admitted on probation to employment in the said Service; such admission may be confirmed by the Governor-General in Council, but shall not be so confirmed until the local Government shall have reported to the Governor-General in Council that the probationer has acquitted himself satisfactorily during a period of not less than two years from the date of his admission, and that he has, unless specially exempted by the Governor-General in Council, passed such examinations as may from time to time be prescribed by the local Government subject to the approval of the Governor-General in Council. In case of persons admitted under these rules after they have attained the age of 25 years, the Governor-General in Council may confirm their admission without requiring them to serve for any period of probation.

III.—Persons admitted under these rules to employment in the said Service shall ordinarily be appointed only to offices in the province wherein they were first admitted. But the Governor-General in Council may transfer from one province to another a person finally admitted to employment in the said Service.

IV.—Any person admitted under these rules may, with the previous sanction of the Governor-General in Council, be declared by the local Government to be disqualified for further employment in the said Service.

LAND SALE NOTICES.

NOTICE is hereby given that the proprietory right of Government as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Midnapore, will be put up to sale at the Midnapore Collectorate on Monday, the 29th September 1879, corresponding with 15th Assin 1287 Amli:—

The purchasers will be subject to the following conditions of sale:—

CONDITIONS OF SALE.

1*st*.—The estates to be sold to the highest bidder above the upset price. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietory right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in case of original sale.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different District of Bengal, as reported to Government during the week ending the 30th August 1879.

No	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date
	BENGAL		
	Western Districts		
	BURDWAN DIVN.		
1	Burdwan, Aug. 30 '79	2·66	Weather—hot and muggy. In Sudder sub-division owing to want of rain prospects of crops bad. In Raneegunge, Bood-Bood, and Jehanabad prospects better, but not good. In Culna and Cutwa prospects fair; slight damage done in these sub-divisions by rise of Bhagiruthee Public health good, except in thana Indas, where there have been several cases of cholera and small-pox. Cattle disease has broken out in a village in Kaksa thana.
	Culna ...	1 30	
	Cutwa ...	0 55	
	Bood-Bood ...	3·30	
	Raneegunge ..	1·13	
	Jehanabad ...	0 98	
2	Bankoora, „ 30 „	2 07	Weather—more or less showery throughout week all over district. More rain wanted generally for crops. In some places one-third, and in a few two-thirds of lands not cultivated. Some low-lying lands also not cultivated In pergunnah Mahisra, between Saltora and Majia outposts, condition of crops bad owing to lands being very high and probably only cultivable during specially rainy years. Condition of laboring classes, however, in Bishenpore and Joypore not good, and many emigrating to eastern districts in search of labor.
3	Beerbhoom, „ 30 „	2 19	Weather—seasonable. Every prospect of an average rice crop, except in south where things backward.
4	Midnapore „ 30 „	2·12	Weather—cloudy and sultry State and prospects of crops not favorable. Rain still keeps off. A week more of such weather, and out-look will be very bad.
	Tumlook .	2 10	
	Ghatal .	0 61	
	Contai ..	3·95	
5	Hooghly, „ 30 „	2·45	Weather—more seasonable the last few days. Short rainfall has delayed transplantation, and *amun* crop suffering in consequence, but heavy showers in September will set all right. Sugarcane and jute doing well Early *aus* being cut in places.
	Howrah Sep 1 „	0 78	Weather—sultry. Transplantation going on, but more rain wanted. Prospects fair.
	Mohesrekha	1·13	
	Central Districts.		
	PRESIDENCY DIVN.		
6	24-Pergunnahs, Aug. 30 '79	1·86	Weather—moderately hot and showery. Transplantation nearly completed. More rain wanted. Prices of food-grains continue high General prospects good Public health fair Fever in Baripore and Bussecrhaut.
	Nuddea, „ 30 „	0·49	Weather—rainy, cloudy and cool for the time of year Throughout district crops on low lands submerged. To north, north-west and north-east of Kishnaghur high floods have wholly destroyed crops on all but highest lands. In Meherpore, Kooshtea, and Sudder about three fourths of crop gone. Prospects therefore most gloomy.
	Kooshtea .	1 91	
	Meherpore ..	3·15	
	Chooadanga	4·00	
	Ranaghat ..	1 1	
	Bongong ..	2 23	
8	Jessore, „ 30 „	0·82	Weather—showery. More rain wanted at Sudder State of crops still favorable on the whole. *Aus* cutting being pushed on in Jhenida from fear of floods Fears entertained for *amun* also in Magoorah and Narail, if rivers continue rising.
	Jhenida ..	1·18	
	Magoorah .	0 98	
	Narail ..	0 95	
	Khoolna .	0·81	
	Bagirhat ...	1·18	
9	Moorshedabad, „ 30 „	0 85	Weather—dry and hot. Rice plants not submerged doing well. *Aus dhan* on river banks and low lands in east of district damaged considerably, and in many places utterly destroyed by rise and overflow of Bhagiruthee and Bhoirab rivers A good harvest of *amun* expected in greater portion of district Little hope for hemp and sugarcane Public health generally good.
10	Dinagepore, Aug 29 '79	0·89	Light showers, with hot sunshiny weather Harvesting of early rice and transplantation going on favorably
11	Rajshahye, „ 30 „	1·60	Two or three days moderate rain during week. Ganges still very high, though fallen slightly during last two or three days. Owing to heavy breaching in several places of Surda road, sudden rush of water has seriously damaged crops in parts of thanas Charghat and Pooteah. *Aus* and *amun* in low lands destroyed, but elsewhere promise well, and transplanted rice in Bhurind a splendid crop. Cutting of *aus* commenced. Public health remarkably good.
	RAJSHAHYE AND COOCH BEHAR DIVN.		
12	Rungpore „ 29 „	0·41	Weather—fair. Occasional drizzling showers in mornings. *Aus* cut and yielded a good outturn Prospects of crops on ground continue good and favorable Transplantation still going on. Sickness less than at this time of year.
	Gaibanda ..	4·48	
	Bagdogra ...	3 88	
	Kurigram ..	4 15	
13	Bogra, „ 30 „	0·11	Weather—generally fine and rains local. Crops most promising An opportune break in rain has had a beneficial effect Most of jute cut; crop an average one.
14	Pubna, „ 30 „	2 14	Occasional showers. *Aus* being reaped, but much of it and some of *amun* lost in inundations. Pudma rose during week higher than has been known. Health good, but there are cases of fever
15	Darjeeling, „ 30 „	5·97	Alternate sunshine and heavy shower of rain. Transplantation still going on. Reaping of *bhadoi* rice nearly completed Outturn will be somewhat less than previous years. Other minor crops doing well.
16	Julpigoree, „ 30 „	4 73	Weather—seasonable. *Bhadoi* nearly reaped. *Haimanti* nearly all transplanted and promises well. Jute backward. General health good.
	Cooch Behar, „ 28 „	2·23	Weather—seasonable. Harvesting of early paddy nearly completed. Transplantation still going on. Prospects of winter paddy good. Public health good. A few cases of small-pox still reported.
	Dinhatta ...	16 60	
	Mathabhanga ...	13·08	
	Mockligunge ...	11·63	

No	District and date of return	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date
BENGAL.—(*Continued.*)			
	Eastern Districts.		
DACCA DIVN. 17	Dacca, Aug. 30 '79	3·31	First part of week clear, but very sultry; latter half variable, though still close and warm. Floods which rose steadily until middle of week have now commenced to fall. *Aus* where reaped has relieved market; on the whole a 6-anna crop. *Amun* in most places very promising, though almost entirely destroyed over one-third of southern half of district. Public health good.
	Moonshigunge (for week ending 27th Aug.)	2·93	
18	Furreedpore Aug. 30 „	1·11	Weather—seasonable. *Aus* about three-fourths destroyed by floods, also *amun* in some places, but prospects generally good.
	Madaripore ...	1·85	
19	Backergunge, „ 28 '79	1·95	Weather—rainy and damp. Except in thana Gournadi, where some damage has been done by floods, prospects continue to be good.
20	Mymensingh, „ 29 „	3·96	Some heavy rain, but breaks of fine weather with sunshine. Prospects of *aus* and *amun* very favorable.
21	Tipperah, „ 29 „	0·58	Weather—fair, with occasional showers. Considerable fall of rain in south of district. *Aus* still being cut all over district; outturn will probably be above average. *Amun* promises very well.
	Brahmunbaria ...	1·73	
	Chandpore ...	3·53	
CHITTAGONG DIVN. 22	Chittagong Aug. 28 „	5·92	Weather—fair throughout week. Heavy rain on night of 27th. *Aus* harvest begun with favorable outturn. *Amun* being transplanted and prospects good.
	Cox's Bazar ...	1·69	
23	Noakholly, „ 28 '79	5·78	Weather—fine and seasonable in latter part of week. Reaping of *aus* and transplantation of *amun* going on briskly. General prospects of crops good.
24	Chittagong Hill Tracts, „ 26 „	2·57	Weather—sultry, with occasional showers. Joom paddy being harvested in small quantities; a fair outturn anticipated. Transplantation in low lands still continues. Fever still prevalent.
	Hill Tipperah, „ 27 „	4·17	Weather—seasonable. Rain on five days of week. Gathering in of *aus* continues. *Amun* thriving. Prospect of *mug* fair. Public health gradually improving though fever yet prevalent in parts.
BEHAR.			
PATNA DIVN. 25	Patna, Aug. 30 '79	0·09	Weather—seasonable. Floods have subsided considerably. People busy repairing their houses. No crop can be sown on the flooded lands at present, but a bumper *rubbee* crop may be anticipated from them.
26	Gya, „ 30 „	1·15	Weather—cloudy and hot. Maximum reading in shade 94·2°. Transplantation still in progress. Prospect of *bhadoi* favorable, but *makai* injured. Cholera reported from a few stations. Health of plough-cattle good.
	Nowada ...	1·10	
	Aurungabad ...	0·82	
27	Shahabad, „ 30 „	0·44	Heavy showers occasionally. Much of *bhadoi* destroyed by heavy floods, which are now going down. Paddy promising well. Prospects generally good.
28	Durbhunga, „ 30 „	0·73	Weather—extremely hot and close, with occasional storms of rain. Transplantation still going on. *Makai* in some places being gathered.
29	Mozufferpore, „ 30 „	0·59	Weather—cloudy and showery. Prospects generally continue favorable. More rain wanted for rice crop in Seetamurhee sub-division.
	Hajeepore ...	3·26	
	Seetamurhee ...	0 92	
30	Sarun, „ 30 „	0·07	Weather—moderately hot, with occasional showers. East wind prevailing. Both *bhadoi* and paddy crops progressing well, except on inundated lands in south and south-east of Sudder sub-division and in south of Sewan sub-division. Prices slightly fallen. Cases of cholera still reported.
	Sewan ...	0·27	
31	Chumparun „ 30 „	1·87	Weather—bright and hot; occasional thunderstorms. State and prospects of crops fair. Sekhrana river again in flood. Cholera still prevalent.
BHAGULPORE DIVISION 32	Monghyr, Aug. 30 „	0·58	Weather—cloudy, with a break of two days. Rice prospects continue good. Ganges has fallen considerably. In Begusarai it is reported that there will be great difficulty now in procuring food for cattle. Prices of grain stationary.
	Begusarai ...	2·41	
	Jamui ..	1·28	
33	Bhagulpore, Sep. 1 „	1·53	A break in the rains for three days out of week, but it has begun again. Rice prospects excellent.
34	Purneah, Aug. 30 „	7·03	Weather—seasonable; very sultry. Inundations have caused some damage, but future prospects excellent. *Bhadoi* in south lost to some extent, but not considerable.
	Kissengunge ...	0·29	
	Arrareah ...	1·63	
35	Maldah, „ 30 „	3·47	Weather—cloudy, with some rain and occasional sunshine. Country still under water which has subsided about a foot and has become bad and offensive in inhabited neighbourhoods. Paddy crops in thana Kharba in north of district all safe. *Bhadoi* of dearah tract lost. Total *bhadoi* saved now reported to be six annas. *Amun* in Borindra, viz. east of Mahanunda, reported to be in splendid condition. Hâts held in boats.
36	Southal Perghs. „ 30 „	1·76	Weather—rainy, sunny, seasonable and excellent for crops. Much rice inundated and lost on Ganges' banks. Floods subsiding. Elsewhere rice good, and autumn crops indifferent.
	Deoghur ...	0·43	
	Rajmehal ...	3·12	
	Jamtara ...	2·04	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date
ORISSA.			
Orissa Div. 37	Cuttack Aug. 30 '79	2·53	Weather—close and hot, with rain. In inundated tracts crops on low lands have suffered, but those on high lands doing well. In Kendrapara sub-division some tracts still under water; though rivers have fallen, sufficient water still lies on crops to cause some damage.
Orissa Div. 38	Pooree, „ 28 „	3·28	Weather—variable, with damp wind Low lands in ten pergunnahs still under water. Much damage done to property. In some places whole villages swept away. Villages near Sardeipore suffered much. Many people must have been rendered destitute. Rice crop damaged. If water does not go down at once, there cannot be more than an eight-anna crop; but no doubt oilseeds and other cold-weather crops will be grown to a larger extent owing to fertilizing deposit. Road between Pipli and Khoorda breached in many places Fever and sickness very prevalent.
Orissa Div. 39	Balasore „ 29 „ Bhudruck ...	1 36 0 83	Weather—mostly bright and sunny. Rainfall up to date insufficient. Rice lands drying up, and rain badly required. Cholera almost disappeared.
CHOTA NAGPORE			
	South-West Frontier Agency.		
40	Hazareebagh. Aug. 29 '79	0 88	Weather—seasonable. State of rice crop good in all parts of district. Transplantation going on. *Makai* in some parts suffered from excessive moisture
41	Lohardugga, „ 30 „	1·28	Weather—showery and fine alternately. Prospects continue good. Outturn of *bhadoi* crops expected to be from 12 to 15 annas. Transplanted paddy doing well. Cholera and small-pox decreasing.
42	Singbhoom, „ 29 „	1·87	Weather—bright and hot, with only two heavy showers during week Prospects continue good. *Gora dhan* ripening Indian-corn yielding fairly Cholera died out.
43	Manbhoom, „ 30 „	0·96	Weather—dry compared to last week, except in south-west where more rain fallen. Rice doing well. Transplantation about three-quarters done. *Bhado* crop turning out well.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

The 27th August 1879.

Eastern Bengal Railway.

Report on the Goods Traffic for the four weeks ending the 26th July 1879.

Dated Calcutta, the 30th August 1879.

From—W. INNES, Esq., Acting Traffic Superintendent, Eastern Bengal Railway,
To—The Agent, Eastern Bengal Railway, Calcutta.

THE total weight of goods carried over this railway during the above period was 5,91,318 maunds, which, as compared with the corresponding period of last year, shows an increase of 2,49,310 maunds. This increase is chiefly in jute, salt, and miscellaneous goods, although most of the items show an increase. The following articles show the largest decrease, viz. cotton, seeds, and twist.

Increases.

Grain, including rice ... ... Mds. 6,903
Owing to the scarcity in the eastern districts, rice has been sent in large quantities from Calcutta this year.

Gunny, bales ... ... Mds. 787
This increase is from the larger quantity forwarded from Serajgunj mills.

		Bundles.	Bales.
Hides	Mds.	692	3,640

This increase in bales is owing to the bales sent down from Serajgunj and Dacca, which chiefly arrive at this season.

Jute, drums ... ... Mds. 1,62,202
This large increase is owing to the early opening out of the small nullahs, enabling the cultivators to bring from the interior their store of old jute, as well as to arrivals of new jute.

Piece-goods ... ... Mds. 4,565
This increase is satisfactory, and is probably owing to a larger demand in the interior.

Foreign railway material ... ... Mds. 7,025
The increase is in consequence of the material which is being sent to the Darjeeling Tramway Company.

Salt ... ... Mds. 48,056
This increase is very satisfactory, and is partly owing to the paucity of boats in Calcutta and partly to the increased facilities now offered by the railway for transport.

Sugar ... ... Mds. 6,442
This increase is to be attributed to the backwardness of the season and a large quantity of inferior sugar being forwarded from the manufacturing districts.

Tea ... ... Mds. 6,787
This is owing to the tea which is now arriving from Darjeeling and Cachar.

Tobacco ... ... Mds. 4,323
This is to be attributed to a larger demand in the market.

Turmeric ... ... Mds. 2,197
This staple fluctuates according to the demand, and shows variably an increase and decrease.

Miscellaneous goods ... ... Mds. 10,670
This large increase is owing to increased activity in the market, and is chiefly from brass and iron ware.

Decreases.

		Bundles.	Bales
Cotton	Mds.	1,611	1,350

This decrease is owing to smaller quantities arriving from the growing districts.

Seeds ... ... Mds. 11,632
This staple shows the largest decrease, and is to be attributed to a falling off in the demand for export, as well as the failure in crops.

Twist ... ... Mds. 1,138
This staple shows a continued decrease owing to a lesser demand for this kind of goods.

I attach the usual statement of increases and decreases.

Rules made by the Lieutenant-Governor of Bengal under Section 2, Act VII (B. C.) of 1879, for the examination of, and the granting of certificates to, Commanders of Inland Steam Vessels.

N B—The provisions of Rule 1 will not be applied in the case of candidates who are at the date of the publication of these rules actually in command of a river steamer.

1. Candidates for certificates as commanders of inland steam vessels must be not less than 21 years of age, and have served at least 3 years at sea, and 3 years as mate of a river steamer, or master of a river flat.

2. Every such candidate shall apply for permission to appear for examination in a printed form,* to be filled up by him, and forwarded to the Port Officer, Calcutta, together with such documentary evidence as shall satisfy the Port Officer that the candidate has complied with the conditions of Rule 1 above, and that he is of sober habits and of good character. Each candidate shall forward with his application a fee of Rs. 16.

* Copies will be supplied to intending candidates by the Port Officer, Calcutta, on application

3. The Port Officer shall notify to accepted candidates the date and hour of examination, in fixing which he shall have due regard to the convenience of their employers. The fees of any candidate who is not accepted shall be returned to him.

4. The examination of candidates shall ordinarily be conducted by the Committee which sits quarterly for the examination of pilots, but the Port Officer may at any time convene a special committee for the examination of candidates under these rules.

5. Before proceeding to examine any candidate in the manner provided in the rule next following, the Committee shall carefully test his ability to distinguish the following colours which enter largely into the combinations of signals by day and night, viz. black, white, red, green, yellow, and blue. In the event of any candidate failing to satisfy completely the usual tests for colour blindness in respect of all of these colours, the Committee will decline to proceed with his examination, and will report the case through the Port Officer for the information of the local Government.

6. The Committee will examine each candidate apart, and *viva voce*, in each and all of the following subjects :—

(1).—The names and courses of the river reaches from Calcutta to Mud Point, and the extent of the sands in such reaches.
(2).—The sets of the tides within the said limits.
(3).—The names of all Points in the river within the said limits.
(4).—The candidate's general knowledge of soundings in the channels and over the sands within the said limits.
(5).—The tracks over the Moyapore and Royapore flats, the Fultah tracks, and the Eastern and Western Guts.
(6.)—The marks for fair channels or hauling into reaches where such exist.
(7).—The marks for the limits of sands where such exist.
(8).—The rules of the road.
(9).—The management of river steamers under all contingencies of meeting, overtaking, and passing vessels in all possible positions within the limits described in No. 1.
(10).—The anchorages to select in view of the requirements of sea-going vessels.
(11).—The Tide Table.
(12.)—The rules of the Port of Calcutta including the prescribed Storm Signals.
(13).—The provisions of Act VII of 1879.

7. If the candidate satisfy the Committee as to his knowledge of the subjects set forth in the foregoing rule, and generally as to his competency to command an inland river steamer, they shall certify the same to the Port Officer, who will then grant a certificate of such competency in the form appended to these rules.

8. No candidate who fails to satisfy the Committee shall be at liberty to submit a fresh application for examination until six months have passed from the date of such failure.

Change in the anchorage limits of the port.

The Master Attendant of Madras has given notice that owing to the extension of the Harbour Works into deep water, it has become necessary to shift the Northern and Southern Port Buoys into eight fathoms of water. These buoys, which are painted half red and half white vertically, should henceforward be looked upon as *danger* buoys, and Commanders of Vessels, making or leaving the anchorage, are hereby warned *not to pass in shore of either of these buoys* by day, nor to come under eight fathoms by night, as the rubble bases of both groynes extend much further seaward than the walls themselves, and in some places have only 17 feet of water on them.

The middle, or large buoy which is painted red, is laid down in six and a quarter fathoms, and marks the western limit of the anchorage for steamers.

All sailing vessels, excepting dhonies, should anchor outside the eight-fathom line of soundings.

HIGH COURT NOTICES.

Circular Order issued by authority of the High Court of Judicature at Fort William in Bengal.

CIVIL.

No. 31, *dated* 30*th August* 1879.

It is provided by Section 217 of the Code of Civil Procedure that copies of judgments and decrees shall be given to parties on their application and at their expense, and it has consequently become necessary to modify the rule contained in paragraph 2 of Circular Order No. 31, dated 8rd October 1864.

2. By a recent order (Circular Order No. 22, dated 28th May 1879,) the High Court made provision for the giving of information, to parties applying for copies, of the amount of fees chargeable for their preparation. It now further directs that the time to be deducted, in computing time under the Limitation Act, for the period occupied in obtaining a copy of a decree or order, shall not begin to count until the whole of the court fees chargeable for the same under the Court Fees Act, and also the fees for the preparation of it, shall have been paid, and that any time during which the preparation of the copy is stopped in consequence of the applicant failing to supply sufficient material for it shall not be deducted.

3. When the fee for the preparation of the copy is not paid on the second day next following, and exclusive of that on which the application for the same has been made, the application should, unless good cause be shown, be then rejected.

CRIMINAL.

No. 4, *dated the* 30*th August* 1879.

Under Chapter XII of the Code of Criminal Procedure, service of a summons should, if possible, be made personally; but when the person named therein cannot be found, substituted service is allowed to be made (1) by giving a copy to a male adult member of his family living with him, or, where there is none such on whom service can be made, (2) by fixing a copy on some conspicuous part of the house in which the person to whom the summons is addressed ordinarily resides.

2. The Court has reason to believe that some laxity of practice exists in the matter of seeing that the requirements of the law are strictly attended to, and, in a case recently brought to its notice, has observed that a Magistrate taking affidavits of the service of summonses received from the Calcutta Small Cause Court, under Section 30, Act IX of 1850, entirely failed to record the particulars which were material to enable that Court to judge whether the provisions of the law had been complied with. The Judges are therefore pleased to circulate, for the information and guidance of the Criminal Courts, the accompanying extracts from Circular Order No. 9 of 6th April 1871, addressed to Civil Judges, pointing out how the service of process should be proved, and to direct that the instructions given be observed not only with respect to process received from other Courts or districts, but in every case where it is material to prove the service of process.

Extracts from Circular Order No. 9 *of* 6*th April* 1871, *addressed to Civil Judges.*—Vide *unrepealed Circular Orders, page* 25, *&c.*

As to personal service.

Rule 1.—When the summons or notice is served on the defendant personally, the service and the signature of the defendant on the back of the summons or copy should be proved by the affidavit or solemn declaration recorded in writing of the person who actually effected the service; and the identity of the person served with the party to whom the process is addressed, should be proved by the affidavit or solemn declaration of some one personally acquainted with the party to be served.

As to service on an adult male member of the family.

Rule 2.—If the service be made on an adult male member of his family residing with him, it should be proved by the affidavit or solemn declaration of the officer effecting the service, and, if necessary, of some other person or persons acquainted with the facts that the defendant could not be found, and that the person to whom the process was

delivered was an *adult* male member of his family, and was actually residing with him at the time of such service.

As to service by affixing copy of the summons to the house.

Rule 3.—If the service be made by affixing it to the dwelling-house of the defendant, it should, in like manner, be proved that the defendant could not be found nor any other person on whom the service could be made, and that the defendant *was actually dwelling* in the house, on the outer door of which a copy of the process was fixed, at the time when it was so fixed.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the Gazette of India.*]

The following orders, issued by the Government of India in the Home, Revenue, and Agricultural Department, are republished for general information :—

NOTIFICATIONS.—PUBLIC.

Simla, the 29th August 1879.

No. 1572.—Under Section 27 of the Indian Arms Act, 1878, the Governor-General in Council is pleased to exempt from the prohibitions and directions contained in Section 6 of the said Act such arms, ammunition, and military stores brought into an Indian port as may be declared under manifest to be consignments without transhipment to another port, provided such other port be not situate on the coast of India, between the most westerly point of India and the most southerly point of British Burma, and provided such port be not a foreign port on the eastern sea-board of Africa.

This exemption will become void in the event of any of the articles claiming such exemption being landed at, or transhipped in, the port into which they may have been brought.

GOVERNMENT OF INDIA.

HOME, REVENUE, AND AGRICULTURAL DEPARTMENT.

MELBOURNE INTERNATIONAL EXHIBITION, 1880.

Nos. $\frac{4}{170-82}$.

Extract from the Proceedings of the Government of India in the Home, Revenue, and Agricultural Department, ($\frac{\text{Education.}}{\text{Industry, Science and Art.}}$), under date Simla, the 9th August 1879.

READ—

The following despatches from Her Majesty's Secretary of State for India relative to the International Exhibitions which it is proposed to hold at Sydney and Melbourne, in Australia—the former in September 1879, and the latter in October 1880:

No. 136	(Statistics and Commerce), dated the	18th July	1878.
No. 62	ditto	ditto	30th April 1879.
No. 36	ditto	ditto	13th March 1879.
No. 68	ditto	ditto	8th May 1879.

OBSERVATIONS.

WITH the despatch first cited, the Secretary of State forwarded copies of the prospectus of the Sydney Exhibition, and of a letter from the Colonial Office, in which the co-operation of the Indian Government in carrying the project to a successful issue was invited.

His Lordship left it to the Government of India to comply with this invitation in such manner as they thought fit; and observed that, as exhibitions of this nature were very frequent, a moderate limit of expenditure should be fixed.

2. The Governor-General in Council concurred in this view; and it was accordingly resolved merely to publish the prospectus of the Exhibition for general information, and to circulate it to local Governments and Administrations, leaving it to them to take such action in the matter as they considered desirable in the interests of the territories under their control, and as the funds at their disposal permitted. A sum of Rs. 400 was, however, sanctioned from Imperial revenues for the purchase of samples of India teas and of coffee grown in Southern India, it being thought probable that a considerable trade in these commodities might result between Australia and India, if measures were adopted for bringing them prominently before the colonial public.

3. The only Government by which any steps were taken in the direction indicated was that of the North-Western Provinces and Oudh, under whose orders a collection comprising the following articles was prepared and despatched through Mr. O'Conor to Sydney by Mr. E. C. Buck, the Director of the local Department of Agriculture and Commerce:—

Azimgarh silk cloth.
Benares and Moradabad ware.
Carpets from Mirzapur, Agra, and Jhánsi.
Cloth from the Cawnpore mills.
Tea from Kumaun.
Sugar from the Rosa Works at Sháhjahánpur.
Rámpur chadars.
Ludhiána cloth.

In addition, selected samples of teas grown in Bengal, Assam, and Arakan were sent to the Exhibition. The Cawnpore mills' cloth, the Sháhjáhanpur sugar, and the teas were supplied gratuitously, the Government paying their freight to Sydney; the remaining articles being purchased by the Government of the North-Western Provinces and Oudh at a cost of Rs. 2,650. Major M. Clementi, a retired officer of the Indian Army, has kindly offered his services towards making the most of the Indian contribution to the Sydney Exhibition, and His Excellency the Governor-General in Council has gladly accepted Major Clementi's offer.

4. The prospectus of the Melbourne Exhibition was received with the Secretary of State's despatch of the 13th March last; and with his despatch of the 8th May following was forwarded copy of a letter from His Royal Highness the Prince of Wales, in his capacity as President of the Commission for the Australian Exhibitions. His Royal Highness expressed a hope that India would be represented at those exhibitions, and observed that a collection of objects illustrative of the arts and manufactures of the country, such as was sent to Philadelphia, would be of great utility. As in the case of the Sydney Exhibition, the Secretary of State left it to the Government of India to decide upon the measures to be taken to meet the wishes of the colonial authorities.

5. The Governor-General in Council, as at present advised, is not prepared to send any considerable quantity of the art-manufactures of India to the Melbourne Exhibition, and it is apprehended that private exhibitors may be few. Possibly the officer, Major M. Clementi, who has consented to act in behalf of the Government of India at the Sydney Exhibition, may be able, in his report to the Government of India on that Exhibition, to make suggestions regarding the art-manufacture contributions that might usefully be sent to the Melbourne Exhibition. There are, however, various classes of goods, raw products, and manufactures outside the domain of art, a collection of which could be easily and inexpensively made; and whilst this would better represent the resources and industrial capacity of India, it might also tend to further the interests of Indian commerce. For the purpose of forming such a collection, the Governor-General in Council sanctions the expenditure of a sum not exceeding Rs. 5,000, and desires that all needful arrangements for the preparation and despatch of the collection should be entrusted to a Committee, which will be composed of the gentlemen named below, if their services can be made available:—

President:

E. C. Buck, Esq., C.S., Director of the Department of Agriculture and Commerce, North-Western Provinces and Oudh.

Members:

J. S. Gamble, Esq., M.A., Officiating Conservator of Forests, Bengal.
J. E O'Conor, Esq., Assistant Secretary to the Government of India, Department of Finance and Commerce.

The Bengal Government will be asked to invite the Chamber of Commerce to nominate one of its body to represent the commercial interests of Bengal.

6. The prospectus of the Melbourne Exhibition will be published in the *Gazette of India* and in the several local Gazettes for general information. The attention of all local Governments and Administrations will also be drawn to the subject, and they will

be asked to send to the Committee, care of the Home, Revenue, and Agricultural Department, Calcutta, such articles in the shape of raw agricultural and forest produce and special local manufactures, either from jute, cotton or carpet factories, or from jail workshops, or from private persons, as they can readily obtain or lend It would add greatly to the value of the collection if local Governments and Administrations could spare a small grant from the funds at their command for the purchase of specimens of local manufactures. In the event of any local Government or Administration finding itself in a position to co-operate in the matter, it would be convenient if a selected officer were appointed to correspond with the President of the Committee on the subject; but should the Governments of Madras and Bombay prefer sending their contributions separately, there would be no objection to their doing so.

7. Since the foregoing paragraphs were put in type, the Governor-General in Council has learned that the Chamber of Commerce, Bombay, recently addressed His Excellency the Governor in Council of that Presidency on the subject of appointing a local Committee for the purpose of promoting India contributions to the Melbourne Exhibition. If other local public bodies would co-operate cordially in the matter, the task of procuring an adequate representation of Indian products at the Melbourne Exhibition would be greatly facilitated.

Government of Bengal
Ditto North-Western Provinces.
Ditto Punjab.
Chief Commissioner of the Central Provinces.
Ditto ditto British Burma.
Ditto ditto Mysore and Coorg.
Ditto ditto Assam.
Resident at Hyderabad.

ORDER—Ordered that a copy of the foregoing Resolution and of the prospectus of the Melbourne Exhibition be forwarded to the local Governments and Administrations marginally noted for information and guidance, and that they be published in the *Supplement to the Gazette of India* for general information.

Ordered also that a copy of the Resolution be communicated to the Governments of Madras and Bombay and to the Foreign Department for information, and to the Department of Finance and Commerce for information and further orders.

THE MELBOURNE INTERNATIONAL EXHIBITION, 1880.

IN accordance with a Commission issued under the great seal of the Colony of Victoria, and with the co-operation of the Imperial Government of our Gracious Sovereign the Queen, an International Exhibition of Arts, Manufactures, and Agricultural and Industrial Products of all Nations will be opened at Melbourne on the 1st day of October 1880, and will close on the 31st day of March 1881.

The Exhibition will be held in buildings specially erected for the purpose in Carlton Gardens, centrally situated in the city of Melbourne, and the cost of erecting such buildings, and all expenses incidental to the Exhibition, will be defrayed out of funds voted by the Parliament of Victoria.

The Commissioners are empowered to invite the British, Foreign, and Colonial Governments to take part in this Exhibition, and they will be glad to learn that steps have been taken to provide for the representation of every country and colony thereat.

The fact that Australasia has been represented at all the great Exhibitions of the world since their inception in the year 1851, and the advance she has made in productive industry, the extent of her commercial relations, and the high position to which her imports and exports have attained, indicate that she has now reached the period when she may profitably invite the great manufacturing countries to send the most complete products of their skilled industry to a people who are in a position to become not only good customers, but generous competitors.

1. Applications for space, with full particulars, are invited as early as possible. Copies of the official form of entry can be obtained upon application to the Secretary to the Commission.

2. Excepting under the circumstances specified under article 4, applications for space must be made through the representatives of the country or colony to which the applicants belong.

3 Governments intending to take part in this Exhibition are requested to forward an intimation to that effect not later than the 1st of June 1879.

4. In the event of no representatives being appointed by the country or colony to which an intending exhibitor belongs, he can communicate direct with the Secretary.

5. Applications for space should be made not later than the 30th day of June 1879.

6. British, Foreign, and Colonial Governments, or Commissioners appointed by them, are requested to inform the Melbourne Commission not later than the 1st day of January 1880 whether they require any increase or diminution of the space offered them, and the amount. They are also requested to state whether there will be any exhibits for which special space should be provided, together with a description showing their nature and quantity.

7. Before the 1st day of June 1880 the representatives of countries or colonies should furnish approximate plans showing the manner of allotting the space assigned to them, and lists of their exhibitors, and other information necessary for the production of the official catalogue.

8. Commissioners representing countries or colonies and private exhibitors may adopt one of three courses, viz.—

(*a*) They can ship their exhibits direct to Melbourne, and make their own arrangements for their shipment, reception, and exhibition.

(*b*) Or consign their exhibits to

The Secretary, International Exhibition, 1880,
Melbourne, Australia,

with specific instructions as to what is desired.

(*c*) Or, having previously forwarded an entry to the Melbourne Commission, they can forward the goods, together with invoices and descriptions, to any of the following firms or companies:

London—MESSRS. JAMES M'EWAN & Co., 27, Lombard Street; or to MESSRS. M'ILWRAITH, M'EACHRAN & Co., Leadenhall Street.
Liverpool—MESSRS. JOHN SWIRE & SONS.
Glasgow—MESSRS. AITKEN, LILBURNE & Co.
Antwerp—MESSRS. JULES RENARD & Co.
New York—MESSRS. R. W. CAMERON & Co.
San Francisco—PACIFIC MAIL COMPANY.
All ports where the company has agencies—THE PENINSULA AND ORIENTAL COMPANY.

9. Packages forwarded from countries and colonies represented at the exhibition should be addressed

To the Commissioner for _____
at the International Exhibition of 1880,
Melbourne,
Victoria,
Australia,

and have two labels bearing the flag of the country to which the exhibitor belongs; or, where no representative has been appointed,

To the Secretary,
International Exhibition of 1880,
Melbourne,
Victoria,
Australia,

and two labels affixed to different, but not opposite sides of the package, giving the following information: (1) The country from which it comes. (2) Name or firm of exhibitor. (3) Residence of the exhibitor. (4) Group and class to which exhibits belong. (5) Total number of packages sent by same exhibitor. (6) Serial number of that particular package. Each package must contain a list of the exhibits it contains.

Packages from foreign countries containing goods intended for the exhibition must likewise have painted on them as distinctive marks the letters M. I. E. surrounded by a

circle 
Packages from foreign countries must all be marked in such a way as to show distinctly whence they come, viz., with the colours and devices of their national flag. Foreign Commissioners are particularly requested to forward to the Melbourne Commission, as soon as possible, copies of the forms of address and the distinguishing marks which they have severally adopted.

10. In cases where exhibits are forwarded to Melbourne through any of the abovenamed agents of the Commission, all expenses of freight, marine insurance, &c., should be prepaid by the exhibitor; but if that be inconvenient, the exhibits will be forwarded and the charges and freight paid by the agents. The sum advanced by the agents will be regarded as a first charge upon the exhibits, to be deducted from the net proceeds, in the event of their being sold. Should such exhibits, however, not be sold, but be claimed by the exhibitor or his authorized agent at the close of the Exhibi-

tion, then such sums as may have been disbursed by the Commission or any of its agents must be paid before such goods are delivered.

11. Customs entries, transportation, receiving, unpacking, and arranging the products for exhibition will, if required by the exhibitor, be undertaken by the Commission at the expense of the exhibitor.

12. Arrangements will be made for transporting goods from the port of Melbourne, or the several railway stations, to the Exhibition grounds at a fixed rate of charges.

13. Exhibits will be admitted free of duty. The removal of goods, except under special circumstances, will not be permitted prior to the close of the Exhibition Facilities will be given for the sale of exhibits; delivery to be made after the close of the Exhibition.

14. The protection of inventions capable of being patented and of designs is secured by the patent laws of Victoria.

15. The placing and fixing of heavy articles, requiring special foundations or adjustment, should begin by special arrangement as soon as the progress of the work upon the Exhibition buildings will permit. The general reception of articles in the Exhibition buildings will commence on 1st June 1880, and no articles will be admitted after 31st August 1880. The plans for the display and accommodation of such objects as may require either special arrangements or exceptional works for their erection must receive the approval of the Commission before they are executed, and the works must be carried out under the supervision of its agents. The special preparations of which mention has been made will be commenced as soon as the buildings and various annexes are sufficiently advanced. The works of general fitting-up must be commenced not later than the 1st of May 1880, and must be ready to receive goods before the 15th day of July 1880.

16. Space assigned to countries and colonies, and not occupied on the first day of September 1880, will revert to the Commission, and will be subject to re-arrangement.

17. If exhibits are not intended for competition it must be so stated by the exhibitors, and they will be excluded from examination by the International Jurors.

18. An official catalogue will be published in English by the Commission, by which the sale of catalogue is reserved. Every country and colony will, however, have the right of producing at its own expense, but in its own language only, a special catalogue of the objects exhibited in its section. No work of art, nor any article whatever, exhibited in the buildings, parks, or gardens may be drawn, copied, or reproduced in any manner whatsoever without the permission of the exhibitor. The Commission reserves the right of authorizing the production of general views.

19. The representatives of countries and colonies, when appointed, will be allowed to group their exhibits as they may think fit in that portion of the Exhibition buildings allotted to the country or colony which they represent.

20. Exhibits from any country or colony whose Government is not represented will be grouped according to some one of the following classes. The same direction will be followed in the catalogue:

(1.) Works of art.
(2.) Education and instruction—apparatus and processes of the liberal arts.
(3.) Furniture and accessories.
(4.) Textile fabrics, clothing and accessories.
(5.) Raw and manufactured products.
(6.) Machinery—apparatus and processes used in the mechanical industries.
(7.) Alimentary products.
(8.) Agriculture.
(9.) Horticulture.
(10.) Mining industries—machinery and products.

Each of these groups is divided into classes, according to the system of general classification annexed to these Regulations (Appendix). This Appendix includes for each class a summary enumeration of the objects which it will comprise.

21. A limited quantity of steam and water power will be supplied gratuitously. The quantity of each will be settled definitely at the time of the allotment of space. The Commissioners desire to encourage the display of machinery in motion, and they will endeavour to provide adequate power to meet all reasonable demands. Any power required by the exhibitor in excess of that allowed will be furnished by the Commission at a moderate price. Demands for such excess of power must be settled prior to the 31st August 1880.

22. By the introduction of steam-power it is proposed to afford facilities for presenting not only the machinery for any given manufactures, but the manufactures themselves; and it is further intended that space shall be afforded for the production in the Exhibition of interesting objects by manual labour.

23. Exhibitors must provide at their own cost all show-cases, shelving, counters, fittings, &c., which they may require; and all shaftings, pulleys, belting, &c., for the traces and measures of power from the main shafts; but the Commission is prepared, if required, and upon being furnished with full particulars, to make arrangements for the construction of show-cases by contract at a price per cubic foot, the cost to be borne by the exhibitor using the same. All artistic decorations and arrangements must be approved by the Commission.

24. The Commission reserves the right of rejecting or returning any proposed exhibit.

25. The following special regulations are framed for the reception and admission of works of art. The works admissible include the five classes mentioned below:

(1.) Paintings.
(2.) Drawings, water-colours, crayon drawings, miniatures, enamels, porcelain, designs for stained-glass windows (with the exception of those which merely represent subjects of ornamentation), and mosaic work.
(3.) Sculpture and die-sinking, and engraving on precious stones.
(4.) Architecture.
(5.) Engraving and lithography.

26. The following are excluded:

(1.) Unframed pictures or drawings.
(2.) Sculpture in unbaked clay.

27. The duty of deciding upon the admission of works of art will devolve upon a special jury. Special and suitable rooms will be reserved for the exhibition of such ancient pictures and works of art as may be admitted by a special jury. Other regulations will give information as to the despatch and reception of works of art.

28. Facilities will be given, upon application to the Commission, for the erection of special constructions, whether in the buildings or grounds.

29. The Commission will take precautions for the safe preservation of all objects in the Exhibition, but will be in no way responsible for damage or loss of any kind, or accidents by fire or otherwise, however caused.

30. Facilities will be afforded the representatives of countries and colonies, and private exhibitors, for insuring their goods; and they may also employ watchmen of their own choice to guard their goods during the hours their exhibition is open to the public. The appointment of such watchmen will be subject to the approval of the Commission. These persons shall wear a special dress or distinctive badge, and they will always have the power of calling the police to their aid.

31. Articles that are in any way dangerous or offensive, or injurious to public decency and morality, will not be admitted into the Exhibition.

32. Sketches, drawings, photographs, or other reproductions of articles exhibited will only be allowed upon the joint consent of the exhibitor and the Commission; but views of portions of the building may be made upon the sanction of the Commission alone.

33. The following is the system under which the awards will be made:

The awards shall be based upon written reports adopted by the jurors.

The jurors shall be selected for their known qualifications and character, and shall be experts in the departments to which they are specially assigned; the British, Foreign, and Colonial jurors shall be appointed by the representatives of each country or colony exhibiting. The jurors for Victoria will be appointed by the Melbourne Commission.

Jurors will be reimbursed their personal expenses.

Reports and awards shall be based upon inherent and comparative merit, the elements of merit being held to include considerations relating to originality, invention, discovery, utility, quality, skill, workmanship, fitness for the purposes intended, adaptation to public wants, economy, and cost.

Each report shall be delivered to the Commission as soon as completed.

Awards shall consist of gold, silver, and bronze medals, and a certificate of honorable mention, together with a special report of the jurors on the subject of the award.

Each exhibitor shall have the right to produce and publish the report awarded to him, but the Commission reserves the right to publish and dispose of all reports in the manner it thinks best for public information, and to embody and distribute the reports as records of the Exhibition.

34. Immediately after the close of the Exhibition, exhibitors, or their duly appointed agents, shall remove their effects, and complete such removal by the 1st June 1881. Goods then remaining will be removed by the Commission, and sold by auction, or otherwise disposed of, under the direction of the Commission, and the net proceeds handed to the exhibitors or their duly appointed agents.

35. Every person who becomes an exhibitor thereby acknowledges and undertakes to observe the rules and regulations established for the government of the Exhibition.

36. The Commission reserves the right to alter, explain, amend, or add to these regulations whatever may be deemed necessary.

Information upon any question of details can be obtained upon application to

THE AGENT GENERAL FOR VICTORIA,
8, VICTORIA CHAMBERS,
VICTORIA STREET,
WESTMINSTER,
LONDON, S. W.

REGULATIONS

CONCERNING THE DESPATCH, RECEPTION, ARRANGEMENT, AND RETURN OF THE GOODS EXHIBITED, AND DISPOSAL OF SPACE.

1. Every person admitted as an exhibitor will receive in due time, and with the least possible delay, an exhibitor's ticket, showing his rotation number and the dimensions of the space allotted to him. He will receive at the same time printed address labels to be affixed to the packages he may send to the Exhibition.

2. The address labels supplied to exhibitors will be printed on paper of different colours, according to the group to which the products to be exhibited may belong.

The conventional colours adopted are as follows:

Group 1.	Works of art	Pink
Group 2	Education and instruction—apparatus and processes of the liberal arts	White.
Group 3	Furniture and accessories	Blue
Group 4	Textile fabrics, clothing and accessories	Bright yellow.
Group 5.	Raw and manufactured products	Brown.
Group 6	Apparatus and processes used in the mechanical industries ...	Red.
Group 7	Alimentary products	Violet
Group 8	Agriculture	Dark-green
Group 9	Horticulture	Light-green.
Group 10.	Mining industries—machinery and products	Grey

3. The Commission places at the disposal of countries and colonies all information and plans which may be useful for their arrangements.

4. Exchange of spaces between countries and colonies cannot be made without the consent of the Commission.

5. Exhibitors will not have to pay rent for the space occupied by them in the Exhibition. The flooring will be provided in sound condition and ready for use within the whole of the main building, with the exception of the hall for machinery; but the flooring must not be altered, removed, or strengthened for the convenience of arrangement, except with the consent of the Commission and at the expense of the exhibitors.

6. The spaces reserved outside the Exhibition allotments being strictly calculated with a view to the necessities of circulation, packages and empty cases will not be allowed to remain there.

Cases must therefore be unpacked as early as possible after their reception, and the empty cases at once taken away by the exhibitors or their agents.

Should the exhibitors neglect to carry out in the manner thus indicated the unpacking of the goods and the removal of the empty cases, the work will be undertaken by the Commission, but in no case will the Commission incur any responsibility whatsoever in the execution of this duty. The Commission will have nothing to do with the warehousing and preservation of the empty cases; neither have any arrangements been made, nor any space reserved for the purpose Exhibitors who may be unable to provide for the removal and preservation of their empty cases are advised to communicate with the Secretary.

GENERAL ARRANGEMENTS.

7. Certain products which it may be found impossible to display in the main buildings will, in some exceptional cases, be exhibited in the surrounding parks and gardens in buildings erected for the purpose.

8. With regard to the Victorian section, the Commission will place itself in communication with the committees established in each locality. The duties of these committees are:—

(1) To make known the rules concerning the organization of the Exhibition, and to distribute the forms of application for admission, as well as all other documents relative to the Exhibition.

(2.) To point out as soon as possible the principal artists, agriculturists, and manufacturers whose exhibits would appear to be particularly calculated to promote the success of the undertaking.

(3) To encourage the exhibition of the mineral, pastoral, agricultural, and horticultural products of the district.

(4.) To encourage and to organize, when necessary, the collective exhibition of groups of similar products of the district, and to accredit to the Commission the delegate charged with the representation of each collective exhibition.

9 Spirits, or alcohol, oils and essences, corrosive substances, and generally all substances which might spoil other articles, or inconvenience the public, can only be received in solid and suitable vessels of small size.

Percussion caps, fireworks, chemical matches, and other similar objects can only be received when made in imitation, and deprived of all inflammable ingredients.

10 Exhibitors of objects of a disagreeable nature, or such as may be prejudicial to health, will be bound at all times to conform to such precautionary measures as may be laid down for them.

11. The Commission reserves the absolute right to cause the removal of any product, from whatever quarter it may come, if on account of its nature or appearance it seems to be detrimental to, or incompatible with, the object or the decorum of the Exhibition.

ADMINISTRATION AND POLICE.

12. All goods must be exhibited under the name of the person who has signed the application for admission.

13. Exhibitors are entitled to insert after their name or that of their firm the names of their assistants, of every class and grade, who may have taken part in the production of the goods exhibited.

14. Exhibitors are particularly requested to mark the trade price of the articles exhibited, so as to facilitate the judgment of the jury, as well as for the information of visitors.

15. A general supervision will be established for the prevention of robbery and embezzlement.

16. In the Victorian section the exhibitors of each class must arrange among themselves as to the organization of a staff of attendants independent of the general supervision established by the Commission. Private agents of this description must be approved by the Commission, and must wear badges bearing the number of the class to which they will be attached.

17 It must be distinctly understood that the Commission declines all responsibility for any thefts or embezzlements which may be committed.

18. All communications relating to the Exhibition must be addressed

The Secretary to the Commissioners,
International Exhibition,
Melbourne, Australia.

19. Persons desirous of exhibiting articles not mentioned in the Appendix may apply to the Commission

Silk or cotton net, plain or figured.

Tambour embroidery, crotchet-work, &c. Gold, silver, and silk embroidery. Church embroidery. Embroidery, tapestry, and other work done by the hand.

Lace-work and trimmings of silk, floss silk, worsted, mohair, horsehair, thread, and cotton; laces.

Lace-work and trimmings, real or imitation; lace-work for military uniforms.

Class 37.—*Hosiery and Underclothing and Accessories of Clothing.*

Hosiery of cotton, thread, wool, cashmere, silk, or floss silk, pure or mixed. Elastic fabrics. Underclothing for men, women, and children; baby linen. Flannel and other woollen garments.

Stays, scarves, gloves, gaiters, garters, braces, fans, screens, umbrellas, parasols, walking-sticks, &c.

Class 38.—*Clothing for both Sexes.*

Men's clothes; women's clothes. Waterproof clothing.

Men's and women's head-dresses; artificial flowers and feathers.

Wigs and works in hair.

Boots and shoes.

Children's clothes.

Clothing peculiar to various professions and trades.

Native costumes of different countries.

Class 39.—*Jewellery and Precious Stones.*

Jewellery in precious metals (gold, platinum, silver, aluminium), chased, filagreed, set with precious stones, &c.

Plated and imitation jewellery.

Ornaments in jet, amber, coral, mother-o'-pearl, steel, &c.

Diamonds, precious stones, pearls, and imitations.

Class 40.—*Portable Weapons and Hunting and Shooting Equipments.*

Defensive armour; cuirasses and helmets.

Blunt weapons: maces, life-preservers.

Side-arms: foils, swords, sabres, bayonets, lances, axes, hunting knives.

Missile weapons: bows, cross-bows, slings.

Firearms: guns, rifles, pistols, and revolvers.

Accessory objects appertaining to every kind of small arms: powder-flasks, bullet-moulds, &c.

Round, oblong, hollow, and explosive projectiles. Percussion-caps, priming, cartridges.

Hunting and sporting equipments.

Class 41.—*Travelling Apparatus and Camp Equipage.*

Trunks, valises, saddle-bags, &c. Dressing-cases and travelling cases. Various objects. Travelling rugs, cushions, caps, travelling costumes and boots, iron-shod sticks, grapnel-hooks, sunshades, &c.

Portable apparatus specially intended for scientific voyages and expeditions; travelling photographic apparatus and instruments for astronomical and meteorological observations; equipments and implements for geologists, mineralogists, naturalists, colonists, pioneers, &c.

Tents and camp equipage; beds, hammocks, folding chairs, &c.

Class 42.—*Toys.*

Dolls and playthings: dolls and figures in wax.

Games for the amusement of children and adults.

Instructive games.

FIFTH GROUP.—RAW AND MANUFACTURED PRODUCTS.

Class 43.—*Products of the Cultivation of Forests and of the Trades appertaining thereto.*

Specimens of different kinds of forest trees.

Wood for cabinet-work, for firewood, and for building. Timber for ship-building; staves; cleft timber shingles.

Cork: bark for textile purposes. Tanning, colouring, odoriferous, and resinous substances.

Products obtained from forests: charcoal and dried wood; raw potash; turnery; basket-work; straw-work; wooden shoes, &c.

Class 44.—*Products of Hunting, Shooting, Fishing, and Spontaneous Products. Machines and Instruments connected therewith.*

Collections and drawings of terrestrial and amphibious animals, of birds, eggs, fishes; of cetacea, of mollusca, and crustacea.

Products of hunting and shooting: furs and skins, hair, bristles, undressed feathers, down, horn, teeth, ivory, bone, tortoise-shell, musk, castoreum, and analogous products.

Products of fishing train, oil, spermaceti, &c. Whalebone, ambergris, shells of mollusca, pearls, mother-o'-pearl, sepia, purple, coral, sponge.

Vegetable products of the earth obtained without culture: mushrooms, truffles, wild fruit, lichens used as dyes, food, and fodder; fermented sap; Peruvian bark; useful barks and filaments; wax, resinous gums; India-rubber, gutta-percha, &c.

Traps and snares: fishing lines and hooks, harpoons, nets, bait, and fishing apparatus.
Apparatus and instruments for gathering the products obtained without culture.

Class 45.—*Agricultural Products not used for Food.*

Textile materials: raw cotton, flax, and hemp, scutched and unscutched; textile vegetable fibres of all kinds; wool, washed or unwashed; cocoons of the silkworm.
Various agricultural products used in manufactures, in pharmacy, and for household purposes; oleaginous plants; oil, wax, resin.
Tobacco in leaves or manufactured. German tinder. Tanning and dyeing substances.
Preserved fodder and substances specially intended for feeding cattle.

Class 46.—*Chemical and Pharmaceutical Products.*

Acids, alkalis, salts of all kinds. Sea-salt and products extracted from mother water.
Various products of chemistry; wax and fatty substances; soaps and candles; raw materials used in perfumery; resins, tar, and the products derived from them; essences and varnishes; various coating substances; blacking. Objects made of India-rubber and gutta-percha; dyes and colours.
Mineral waters and natural and artificial aërated waters. Raw materials used in pharmacy. Medicines, simple and made-up.

Class 47.—*Chemical Processes for bleaching, Dyeing, Printing, and Dressing.*

Specimens of threads and fabrics, bleached or dyed. Specimens of fabrics prepared for dyeing.
Specimens of printed or dyed linen, of printed cotton fabrics, pure or mixed. Specimens of printed, worsted, or woollen fabrics, pure or mixed, combed or carded.
Specimens of printed silk fabrics, pure or mixed.
Specimens of printed felt or cloth carpets. Oilcloth.

Class 48.—*Leather and Skins.*

Raw materials used in the dressing of skins and leather.
Raw hides, salted hides. Tanned, curried, dressed, or dyed leather. Varnished leather.
Morocco and sheepskin; skins, grained, shamoyed, tawed, dressed, or dyed. Prepared skins for glove-making. Skins and furs, dressed and dyed. Parchment.
Gut-work: strings for musical instruments, gold beater's skin, sinews.

SIXTH GROUP.—MACHINERY—APPARATUS AND PROCESSES USED IN THE MECHANICAL INDUSTRIES.

Class 49.—*Agricultural Implements and Processes used in the Cultivation of Fields and Forests.*

Plans of culture, distribution, and management of crops. Apparatus and works for agricultural, engineering, draining, irrigation, &c. Plans and models of farm buildings.
Tools, implements, machines, and apparatus used in husbandry, sowing and planting, harvesting, preparation and preservation of crops.
Various agricultural machines worked by horse-power or by steam.
Carts and other rural means of transport.
Locomotives, engines, and horse-powers.
Manures, organic or mineral.
Apparatus for the physical and chemical study of soils.
Plans of different systems of replanting, managing, and cultivating forests.
Apparatus used in the cultivation of forests, and in the trades appertaining thereto.
Apparatus used in the manufacture of tobacco.

Class 50.—*Apparatus and Processes used in Agricultural Works, and in Works for the Preparation of Food.*

Apparatus used in agricultural works; manufacture of artificial manures; of drain pipes; cheese factories, dairies; apparatus used in preparing flour, fecula, starches, oils; apparatus used in breweries, distilleries, sugar manufactories and refineries; workshops for the dressing of textile materials; silkworm nurseries, &c.
Apparatus used in the preparation of alimentary products, mechanical appliances for kneading and baking; apparatus used in making pastry and confectionery.
Apparatus for the manufacture of vermicelli, macaroni, &c. Machines for making sea biscuits. Chocolate machines. Apparatus for roasting coffee.
Apparatus for making ices and cooling drinks; manufacture and preservation of ice.

Class 51.—*Apparatus used in Chemistry, Pharmacy, and Tanning.*

Laboratory utensils and apparatus.
Apparatus and instruments used in assays for industrial and commercial purposes.
Processes and apparatus used in the manufacture of chemicals, soaps, and candles.
Processes and apparatus used in the manufacture of essences, varnishes, and articles made of India-rubber and gutta-percha.
Processes and apparatus used in gas-works.
Processes and apparatus used in bleaching.
Processes used in the preparation of pharmaceutical products.
Processes used in tan-yards, and in leather-dressing.
Processes and apparatus used in glass-works and in china and earthenware manufactories.

Class 52.—Machines and Apparatus in general.

Separate pieces of machinery; bearings, rollers, slide-bars, eccentrics, toothed wheels, connecting rods, cranks, parallel joints, belts, funicular apparatus, &c. Gearing, spring and catchwork, &c. Regulators and governors.

Lubricators.

Machines for counting and registering: dynamometers, steam gauges, weighing machines. Gauges for liquids and gas.

Machines used for moving heavy weights.

Hydraulic machines for raising water, &c; norias (chain pumps), scoop wheels, hydraulic rams, &c.

Hydraulic engines, water-wheels, turbines, hydraulic lifts, centrifugal, steam, and other pumps.

Accumulators and hydraulic presses.

Steam engines. Boilers, steam generators, and apparatus appertaining thereto.

Apparatus for condensing steam.

Machines set in motion by the evaporation of either chloroform, ammonia, or by a combination of gases.

Machines set in motion by gas, hot air, and compressed air.

Electro-magnetic machines. Windmills and panemones. Air-balloons.

Class 53.—Machine Tools.

Travelling circular saw benches, self-acting, for breaking down heavy timber. Machines for boring timber used in fencing.

Engines and tools for preparing wood for the workshop. Machines for making casks.

Machines for cutting cork. Lathes, boring and planing machines. Slotting, drilling, and shaping machines. Screw-cutting engines and rivetting machines. Various kinds of tools used in machine workshops.

Tools, engines, and apparatus for pressing, crushing, working up, sawing, polishing, &c. Special tools and engines used in various trades.

Class 54.—Apparatus and Processes used in Spinning and Rope-making.

Hand spinning apparatus. Separate parts of spinning apparatus Machines and apparatus used in the dressing and spinning of textile materials. Apparatus and processes for the subsidiary operations appertaining thereto; for drawing, winding, twisting, throwing, dressing. Apparatus for separating the qualities and numbering the thread.

Materials used in rope manufacture: round, flat, tapering cables, cord and twine, wire ropes, cables with wire core, rope-matches, quick-matches, &c.

Class 55.—Apparatus and Processes used in Weaving.

Apparatus used in the preparation of materials for weaving: warping mills, spooling (winding) machines. Card-making for the Jacquard looms.

Hand looms and mechanical looms for the manufacture of plain fabrics. Looms for the manufacture of figured and brocaded stuffs; damask looms, electric looms.

Looms for the manufacture of carpets and tapestry.

Mesh-weaving looms for the manufacture of hosiery and net. Apparatus for making lace. Apparatus used in the manufacture of lace-work.

High warp looms and different modes of preparing the bobbins for weaving. Accessory apparatus: machines for fulling, calendering, figuring, watering, measuring, folding, &c.

Class 56.—Apparatus and Processes for Sewing and for making-up Clothing.

Ordinary implements used by tailors and seamstresses. Sewing, quilting, hemming, and embroidering machines.

Implements for cutting out materials and leather for making garments and shoes.

Machines for making, nailing, and screwing boots and shoes.

Machines for the application of India-rubber.

Class 57.—Apparatus and Processes used in the Manufacture of Furniture and Objects for Dwellings.

Machines for cutting veneers. Turning webs, vertical and circular saw-frames, shingle-cutters, &c.

Machines for cutting the mouldings and beadings of frames, the squares of inlaid floors, furniture, &c. Lathes and other apparatus used in carpentry and cabinet-making.

Machines for stamping and burnishing. Machines and apparatus for working stucco, papier-maché, ivory, bone, and horn.

Machines for pointing, carving, and reducing statues; for engraving, engine-turning, &c.

Machines for making bricks and tiles; machines for making artificial stones.

Machines for sawing and polishing hard stones, marbles, &c.

Class 58.—Apparatus and Processes used in Paper-making, Dyeing, and Printing.

Materials and products of the manufacture of pulps for making paper, of wood, straw, alpha, &c.

Processes and products of the bleaching of wood fibre.

Apparatus for making paper by hand and by machinery. Apparatus for pressing, glazing, watering, embossing, and ruling paper. Machines for cutting out, paring, stamping paper, &c.

Apparatus for bleaching and dyeing, and for the preparation of paper and tissues.

Apparatus for printing paper-hangings and tissues. Machines for engraving cylinders, for printing.

Materials, apparatus, and products of type-founding, stereotypes, &c.

Machines and apparatus used in typography, stereotyping, copper-plate printing, autography, lithography, chaleography, paniconography, chromo-lithography, &c. Machines for setting up and sorting types. Printing of blank notes, postage stamps, &c.

Class 59.—*Machines, Instruments, and Processes used in various works.*

Coining presses.

Machines for making buttons, pens, pins, envelopes; packing machines, brush-making machines, machines for making cards, capsules; for affixing lead seals to merchandise; for corking bottles, &c.

Tools for, and processes of, making clocks, toys, marqueterie, baskets, &c.

Machines for binding books. Writing machines.

Class 60.—*Carriages and Wheelwright's Work.*

Separate parts of wheels and carriages: wheels, tyres, axles, axle-boxes, iron-work, &c Springs and various methods of hanging carriages.

Different systems of harnessing. Breaks.

Wheelwright's work: waggons, tumbrels, drays, and other vehicles for special purposes.

Carriages; public, State, and private carriages; sedan chairs, litters, sledges, &c.; velocipedes.

Class 61.—*Harness and Saddlery.*

Various articles used for carriage horses and saddle horses; pack-saddles, saddles, bridles, and harness for saddle horses, beasts of burden, and draught horses; stirrups, spurs, whips.

Class 62.—*Railway Apparatus.*

Separate parts: springs, buffers, breaks.

Permanent-way: rails, chairs, crossings, switches, fishplates, turntables; buffers, feeding cranes and tanks; optical and acoustic signals

Permanent-way for tramways.

Rolling stock: wagons for passengers, for carrying earth, goods, cattle; locomotives, tenders.

Self-moving carriages; locomotives for roads.

Special tools and machines for the maintenance, repair, and construction of railways.

Appartus for inclined planes and self-acting planes; apparatus and engines for atmospheric railways; models of engines, of systems of traction, of apparatus appertaining to railways.

Models, plans, and drawings of platforms, stations, and engine-houses, and other buildings necessary for the working of railways.

Class 63.—*Telegraphic Apparatus and Processes.*

Appliances for telegraphs based on the transmission of light, sound, &c.

Apparatus for the electric telegraph, post, wires, stretchers, &c.

Batteries and apparatus for sending and receiving messages.

Bells and electric signals.

Telegraphs for military purposes. Objects appertaining to telegraphy: lightning conductors, commutators, prepared paper for printing messages and for sending autographic messages.

Special apparatus for pneumatic telegraphy.

Class 64.—*Apparatus and Processes of Civil Engineering, Public Works, and Architecture.*

Building materials: stone, wood, metals; ornamental stone; lime, mortar, cements, artificial stone, and concrete; asphalt; roofing tiles, bricks, paving tiles; slates, pasteboard and felt for roofing

Apparatus and products of processes used in the preservation of wood. Apparatus and instruments for testing building materials.

Apparatus for earthwork, excavators. Apparatus used in building yards. Tools and processes used by stone-dressers and cutters, masons, carpenters, tilers, blacksmiths, joiners, glaziers, plumbers, house painters, &c.

Locksmith's work; locks, padlocks, railings, balconies, bannisters, &c.

Apparatus and engines used in making foundations; pile-drivers and pile-work, screw piles, pumps, pneumatic apparatus, dredging machines, &c. Apparatus used in hydraulic work connected with harbours, canals, rivers; machines used in reducing stones, quartz, or other hard substances.

Apparatus used in the supply of water and of gas. Apparatus used in the maintenance of roads, plantations, and public walks

Models, plans, and drawings of public works; bridges, viaducts, aqueducts, drains, canal bridges, dams, weirs, &c.

Lighthouses. Public buildings for special purposes; buildings for civil purposes; mansions and houses for letting; workmen's towns, industrial dwellings, &c.

Class 65.—*Navigation and Life-saving.*

Drawings and models of ships, graving docks, floating docks, &c.

Drawings and models of vessels of all kinds, sea-going and for rivers. Models of the systems of shipbuilding adopted in the navy.

Boats and barges.

Materials for the rigging of ships.

Flags and signals. Apparatus for the prevention of collisions at sea: buoys, beacons, &c.

Apparatus for swimming, diving, and life-saving exhibited in action; floats, swimming-belts, &c. Diving-belts, cork-jackets, nautilus life-belts, &c. Submarine boats; apparatus for saving life at sea, rocket apparatus, lifeboats, &c.

Apparatus of all kinds used for saving life from fires and other accidents.

Pleasure boats, yachts, &c.

Class 66.—*Materials and Apparatus for Military Purposes.*

Military engineering and fortifications.

Artillery, gun-carriages, and weapons and projectiles of every kind.

Military equipment, clothing, and encampments.

Military transport service.

Military topography and geography.

SEVENTH GROUP.—ALIMENTARY PRODUCTS.

Class 67.—*Cereals, Farinaceous Products, and Products derived from them.*

Wheat, rye, barley, rice, maize, millet, and other cereals in grain and in flour.

Grain without husk, and groats.

Fecula from potatoes, rice, lentils, &c., gluten.

Tapioca, sago, arrowroot, cassava, and other fecula, compound farinaceous products, &c.

Italian pastes, semolina, vermicelli, macaroni.

Alimentary preparations as substitutes for bread, home-made paste, &c.

Class 68.—*Bread and Pastry.*

Various kinds of bread, with or without yeast, fancy bread and bread in shapes, compressed bread for travelling, military campaigns, &c. (*See* Biscuits.)

Pastry of various kinds peculiar to each country. Gingerbread and dry cakes capable of being preserved.

Class 69.—*Fatty Substances used as Food.—Milk and Eggs.*

Fatty substances and oils good for food.

Fresh and preserved milk; fresh and salt butter; cheese.

Eggs of all kinds.

Class 70.—*Meat and Fish.*

Salt meat of all kinds. Meats preserved by various processes. Meat and soup cakes. Hams and prepared meats.

Poultry and game.

Salt fish, fish in barrels: cod, herrings, &c.; fish preserved in oil: sardines, tunny, &c.

Crustacea and shell-fish: lobsters, shrimps, oysters, potted oysters, anchovies, &c.

Class 71.—*Vegetables and Fruits.*

Tubers: potatoes, &c.

Dry farinaceous vegetables: beans, lentils, &c.

Green vegetables for cooking: cabbages, &c.

Vegetable roots: carrots, turnips, &c.

Vegetables used for flavouring: onions, garlic, &c.

Salads, cucumbers, gourds: pumpkins, melons, &c.

Vegetables preserved by various processes.

Fresh fruit; dried and prepared fruits: prunes, figs, raisins, &c.

Fruits preserved without sugar.

Class 72.—*Condiments and Stimulants, Sugar and Confectionery.*

Spices, pepper, cinnamon, allspice, &c.

Table salt.

Vinegar.

Compound condiments and stimulants: mustard, kari, English sauces, &c.

Tea, coffee, and other aromatic beverages, chicory and sweet acorn coffee.

Chocolate.

Sugar for household purposes: grape sugar, sugar of milk.

Confectionery: sugar plumps, bonbons, nougats, angelica, aniseed, &c., preserves and jellies.

Dried and preserved fruits: cedrates, lemons, oranges, pineapples.

Fruits preserved in brandy.

Syrups and liqueurs.

Class 73.—*Fermented Drinks.*

Vin ordinaire, red and white.
Sweet wines and still wines.
Sparkling wines.
Ale, porter, cider, perry, and other beverages made from cereals.
Fermented drinks made from vegetable sap, from milk, and sweet substances of all kinds.
Brandies and alcohols.
Spirits: whiskey, gin, rum, tafia, kirsch, &c.

EIGHTH GROUP.—AGRICULTURE.

Class 74.—*Specimens of Farm Buildings and Agricultural Works.*

Examples of the farm buildings of various countries.
Examples of stables, cattlesheds, sheepfolds, pigsties, and of premises for rearing and fattening such animals.
Utensils used in stables, cattlesheds, kennels, &c.
Apparatus for preparing the food of animals.
Agricultural machinery in motion: steam ploughs, reaping and binding and mowing machines, hay-making machines, threshing, finishing, and dressing machines, &c.
Specimens of agricultural works: distilleries, sugar-mills sugar-refineries, breweries, works for the preparation of flour, fecula, starch; silkworm nurseries, &c. Apparatus for artificial hatching.
Presses for wine, cider, oil.

NINTH GROUP.—HORTICULTURE.

Class 75.—*Conservatories and Horticultural Apparatus.*

Gardeners', nurserymen's, and horticulturists' tools.
Apparatus for watering and keeping turf in order, &c.
Large conservatories and apparatus appertaining thereto. Room and window conservatories.
Aquariums for aquatic plants.
Fountains and other means for ornamenting gardens.

Class 76.—*Flowers and Ornamental Plants.*

Species of plants and examples of culture, exhibiting the characteristic types of the gardens and dwellings of each country.

Class 77.—*Vegetables.*

Species of plants and examples of culture, exhibiting the characteristic types of the kitchen gardens of each country.

Class 78.—*Fruit and Fruit Trees.*

Species of plants and specimens of products, exhibiting the characteristic types of the orchards of each country.

Class 79.—*Seeds and Saplings of Forest Trees.*

Species of plants and specimens of products, illustrating the processes followed in each country for planting forests.

Class 80.—*Plants for Conservatories.*

Illustrations of the mode of culture adopted in various countries, with a view either to pleasure or to utility.

TENTH GROUP.—MINING INDUSTRIE—sMACHINERY AND PRODUCTS.

Class 81.—*Apparatus and Processes of the Art of Mining and Metallurgy.*

Boring apparatus for artesian wells and wells of large diameters. Boring machines and apparatus for breaking down coal and cutting rocks. Apparatus for blasting by electricity.
Models, plans, and views of the mode of working in mines and quarries. Works for obtaining mineral waters. Machines and apparatus used for extracting ore, and for lowering and hoisting miners.
Winding, pumping, and crushing machinery.
Safety cages and hooks; signals and other appliances for lessening the danger in mines.
Machines for draining; pumps.
Ventilating apparatus; ventilators.
Safety lamps; lamps for electric light.
Apparatus for the mechanical dressing of ores and mineral fuel.
Apparatus for compressing fuel into cakes.
Apparatus for the carbonisation of fuel. Smelting furnaces. Smoke-consuming apparatus.
Apparatus used in metal works.
Special apparatus used in forges and foundries, electro-metallurgical apparatus.

Apparatus used in metal manufactures of all kinds.
Drawings of different classes of machinery used in mining.

Class 82.—Mining and Metallurgy.

Collections and specimens of rocks, minerals, ores. Ornamental stones. Hard stones. Refractory substances. Earths and clays. Various mineral products. Raw sulphur. Rock salt; salt from salt springs.

Mineral fuel, various kinds of coal, coal dust, and compressed coal. Asphalt and rock asphalt. Bitumen. Mineral tar. Petroleum, &c.

Metals in a crude state: pig-iron, iron, steel, cast-steel, copper, lead, gold, silver, zinc, antimony, &c. Alloys.

Products of washing and refining precious metals, of gold-beating, &c.

Electro-metallurgy: objects gilt, silvered, or coated with copper, steel, nickel, &c., by the galvanic process.

Products of the working of metals, rough castings, bells, wrought-iron, iron for special purposes, sheet-iron and tin-plates, iron-plates for casing ships and constructions, &c.

Sheet-iron coated with zinc or lead; copper, lead, and zinc sheets, &c.

Manufactured metals, blacksmith's work, wheels and tyres, unwelded pipes, chains, &c.

Wire-drawing. Needles, pins, wire-ropes, wire-work, and wire-gauze, perforated sheet iron.

Hardware, edge tools, ironmongery, copper, sheet-iron, tinware, &c.

Other metal manufactures.

RESOLUTION ON THE ANNUAL GENERAL REPORT, BHAGULPORE DIVISION FOR 1878-79.

GENERAL DEPARTMENT.—MISCELLANEOUS.

Calcutta, the 8th September 1879.

RESOLUTION.

READ—

The General Report of the Bhagulpore Division for 1878-79.

1. The report has been punctually submitted by Mr. G. N. Barlow, C.S.I., who was in charge of the division throughout the year. Of the district officers Mr. Magrath, Collector of Monghyr, was in office throughout the year, and Mr. Hopkins, Collector of Purneah, held the district from 4th March. Mr. Newbery, Collector of Bhagulpore, and Mr. Boxwell, Deputy Commissioner of the Sonthal Pergunnahs, were absent from their districts for three months on privilege leave.

2. *Tours.*—The Commissioner spent some days at the head-quarters of each district of the division, and made a long tour of 52 days through the Government Estate of the Damin-i-Koh in the Sonthal Pergunnahs. He was altogether 15 days at Monghyr, 16 days at Purneah, and 10 days at Maldah. So far therefore the absolute requirements of the rule that Commissioners shall pass at least a fortnight annually in each district of their divisions were almost fulfilled. But the Lieutentant-Governor thinks that, in a light division like Bhagulpore, a great deal more than this should be done. The head-quarters inspections of Purneah, Maldah, and Monghyr might very well be done during visits paid in the course of the hot or rainy seasons, so that the greater part of the cold weather might be free for district tours, that is tours made with the object of ascertaining the actual condition of the people and the currents of popular feeling in the interior. So far as the annual reports show, the Commissioner does not appear to have spent any time during the past two years in the interior of the Monghyr, Purneah, or Maldah districts, or in North Bhagulpore; nor does he seem to have inspected any of the sub-divisions. The Lieutenant-Governor thinks that the Commissioner of Bhagulpore should have no difficulty in visiting every sub-division once during the year. The report now submitted is not wanting in indications that the writer has had to accept second-hand opinions on matters which he might well have enquired into himself, and it is consequently less complete in many points than might have been desired. The tour through the Damin-i-Koh was a very useful one. It afforded the Commissioner an opportunity of ascertaining on the spot the feelings with which the people regard the new settlement of the estate, and he reports that he nowhere observed any sign that the settlement was causing uneasiness. The people were very pleasant and well disposed along the whole route, and manifested a readiness to make roads at short notice which the Deputy Commissioner wisely proposes to utilize for the permanent good of the district.

3. The time spent in the interior of their districts by the Collectors of Monghyr and Purneah was not sufficient. In neither case is the explanation offered for the early termination of the tour quite satisfactory. The other district officers gave adequate attention to this part of their duties. The Lieutenant-Governor is glad to find that the Joint-Magistrates spent a portion of the cold weather in camp. In Bhagulpore and Purneah they were out for several weeks and did a good deal of inspection. Among the sub-divisional officers, those of Banka and Kishengungo are conspicuous for their disregard of the wishes of Government as to the length of tours. Any explanation that they may have to give of their omission in this matter must be called for and submitted to Government. It appears that no detailed accounts of their tours were received from the sub-divisional officers of Jamui and Begoosrai. The recent orders issued by the Board in regard to the submission of diaries ought to prevent the recurrence of such neglect in future. Strict compliance with these orders must be insisted on.

4. *The weather and the crops.*—In the division, taken as a whole, the season was a most favourable one for the rice crops, the rainfall being both abundant and well distributed. Parts of the division were, as might be expected, less favoured than others. In the Kishengunge sub-division in Purneah the rainfall is said to have been insufficient as the late rice crop was approaching maturity, while in the Arrareah sub-division crops in the low-lying lands were damaged by floods in September. In Maldah want of rain at the end of September and in October somewhat reduced the yield of the late rice crop. During the cold season unusually dry weather was experienced everywhere, and the outturn of the rubbee crops fell off in consequence. Summing up the results of the whole year, the Commissioner estimates that more than an average early rice (bhadoi) crop, an average late rice (aghani) crop, and three-fourths of an average cold-weather (rubbee) crop were gathered. There was heavy exportation and the prices of agricultural produce were high.

5. *Public health and material condition of the people.*—The year was very unhealthy, except in the districts of Monghyr and Bhagulpore. Purneah and Maldah suffered severely from cholera and fever. In the western and south-western parts of Purneah a virulent outbreak of cholera at the beginning of the year carried off thousands. Fever also prevailed over the whole district, and was particularly fatal in the Arrareah sub-division. The district officer remarks: "At the end of August every one had fever accompanied with severe headache and racking coughs. Fever continued bad until December; constantly half the ministerial officers of the district were incapacitated from work." In Maldah there were two outbreaks of cholera, the second of which was very violent. Fever caused far greater mortality. It appears, nevertheless, that the number of deaths was one-fourth less than in the previous year. The mortuary returns show 13,315 deaths against 17,467 in 1877-78. The district has suffered for the last four or five years from a very bad type of malarious fever. The Civil Surgeon, who made special enquiries into the matter in the course of the past year, is of opinion that the disease is similar to the Burdwan fever and is due to a lessened overflow of water into the district from the Ganges. The Sanitary Commissioner has already been requested, in connection with his last annual report, to take an early opportunity of inspecting English Bazar, where the mortality was specially high in the past year, and the Lieutenant-Governor will await his report as to the character and probable cause of the epidemic.

6. Opinion is unanimous that good crops and high prices combined to increase very materially the prosperity of the cultivating classes during the year. On the other hand, it cannot be doubted that the pressure of high prices told severely on people with fixed incomes, and the classes which have to rely mainly or entirely on labour for their subsistence. In the districts of Purneah and Maldah, however, where their numbers are limited, the labouring classes derived some compensation from a rise in wages, and appear to have tided over the difficulties of the year without much hardship. The general condition of the people in these districts is very favourably spoken of by the district officers. In Purneah the most prosperous part of the population is found in the Kishengunge sub-division. The inhabitants of the northern portion of the Arrareah sub-division, and the Goalas and Brahmins of pergunnah Dhurmpore, are also said to enjoy a considerable degree of prosperity. In Maldah, where the great mass of the population is engaged in cultivation, the full advantage of the high prices of produce was enjoyed. In Bhagulpore the labouring classes suffered from the high price of food, and though there was some increase in the rates of wages, the labourers had to stint themselves to some extent in their consumption of food. There was, however, no actual starvation. The cultivators in this district are rapidly advancing in material prosperity. At Singhessur fair several elephants were purchased by persons of this class, and one ryot is known to have bought up the estate on which his original holding was situated.

7. *Emigration and Immigration.*—The only districts of the division in which emigrants are recruited to any appreciable extent for the colonies or the tea districts are Monghyr and the Sonthal Pergunnahs. In both districts there was a considerable reduction in the number of emigrants as compared with the previous year, the figures being 1,893 against 2,503 in Monghyr, and 1,343

against 1,856 in the Sonthal Pergunnahs. Some explanation of the decrease should have been given by the district officers. It may be hoped that in Monghyr it was partly due to a cessation of the oppressive measures of the servants of Maharajah Sir Jye Mangal Singh, which were reported to have driven a large number of people to emigrate in 1877-78. The Deputy Commissioner of the Sonthal Pergunnahs says of his district:

"The tea districts recruit steadily in the Sonthal Pergunnahs, taking off Sonthals, Paharеahs, Bhuneahs, and Dhangurs. There is no other steady emigration. The Sonthal immigration from the south-west seems to have ceased years ago. The Damin Hills, bounded by the Ganges to the north and east, are a sort of harbour and barrier. The Sonthals have come up and filled this outlying bit of Central India, and have not gone beyond."

The division receives few immigrants as permanent settlers. During the harvesting of the late rice crops there is a large influx of people from the western districts in search of work; but they return to their homes after the completion of the harvest.

8. *Prices of food and labour.*—The abundant crops of the year produced no improvement in prices. A general rise, which is clearly attributable to heavy exportation, took place everywhere. Itinerant dealers or *beparis* are said to have bought up and carried off all they could get. The district officers of Purneah and Maldah alone report a rise in the rates of wages. In other districts the rates are said to have been stationary, but the Commissioner does not believe this. In Bhagulpore he knows there has been some rise, and in Monghyr the demand for skilled labour has been stimulated by the extension of the railway system in North Behar.

9. *Manufactures, Mines, and Quarries.*—The prospects of the principal manufactures of the division, consisting of indigo, silk, and saltpetre, show no signs of improvement. The general outturn of indigo was small, and prices ranged low. Several large concerns in Maldah, which could not be worked at a profit, were closed during the year. The relations between planters and ryots were generally satisfactory, but instances of disagreement were not wanting. The cases cited in the report should be carefully watched by the local authorities. The dulness of the silk trade was chiefly felt in the European filatures in Maldah. Mulberry leaves were dear, and the demand for silk in the Calcutta market was slack. The consequence was the closing of some large concerns conducted by European agency. The native filatures, however, which supply the coarse silk called *khangroo* for the Bombay market, did a brisk business. The mines of the division are not worked. An attempt made by a European to open the lead mines in the Banka sub-division has been abandoned. The quarries in the Rajmehal Hills are gaining in importance. Three ranges of hills in the Damin-i-Koh have been let at a total annual rental of Rs. 2,800. Government also receives a royalty of four annas per 100 cubic feet on limestone quarried at Sahebgunge.

10. *Trade and Commerce.*—A brisk export trade in grain was carried on during the year, but no reliable statistics of the transactions in each district are available. The returns submitted by the district officers of Monghyr and Maldah are manifestly imperfect and valueless. Rajmehal has received a large accession of trade owing to the shifting of the main stream of the Ganges to the right bank, which skirts the sub-division, while the trade of Sahebgunge is said to be declining in consequence of the recession of the river. The timber trade with Nepal is largely on the decrease. There appears to be good reason, however, for supposing that the statistics recorded at the registering stations on the frontier are incomplete. There was a large increase during the past year in the trade in wheat and tobacco, but a falling off in the trade in hides.

11. *Public feeling.*—Under this head the Commissioner's remarks are not sufficiently full. He quotes at length from Mr. Boxwell's notes regarding Sonthal popular feeling, and adds some observations of his own. But on other subjects he has very little to say; nor is this to be wondered at, as he made no attempt to ascertain the views of the people for himself by personal enquiry. In Sir Steuart Bayley's opinion, it is of more importance that Government should know fully how the people of the Bhagulpore Division regard such measures as the License Tax, than that it should be placed in possession of their views on the subject of the Afghan war. It cannot, indeed, be complained that the latter subject is

treated of at undue length, but the question of the License Tax is dismissed in seven lines. It has come separately to the notice of the Lieutenant-Governor that there has been serious mismanagement in parts of Monghyr and Bhagulpore, and that the assessments made must be set aside. It cannot be supposed that these circumstances had no perceptible influence on popular feeling. The figures given in the section devoted to the financial results of the measure afford unmistakable evidence of inefficient management and of consequent hardship to the people. Against collections amounting to Rs. 2,88,488 there were remissions and refunds to the extent of Rs. 1,20,011, and a balance outstanding at the close of the year of Rs. 1,59,712. The Commissioner has doubtless examined this question thoroughly in his special report to the Board of Revenue, but the Lieutenant-Governor considers that, in a general administration report, some more detailed notice of the public feeling on a question of such very great importance might fairly have been looked for. The war in Afghanistan is said to have excited some interest at first among the Mahomedans of Kishengunge and certain villages of Maldah. In the Sonthal Pergunnahs the Damin settlement was the absorbing topic of interest. The settlement made satisfactory progress during the year, and the terms offered have been freely accepted by the ryots. The Kharwar, or religious movement headed by Bhagirath Manjhi, continues to attract attention, and still requires to be watched. The Lieutenant-Governor has perused with interest Mr. Boxwell's remarks regarding the new sect, and agrees with him as to the wisdom of the policy hitherto followed in dealing with the movement. The Kharwars must be kept under observation, but so long as they refrain from seditious agitation or crime, all interference with them should be avoided.

12. The final report on the settlement of the Sonthal Pergunnahs is still awaited. There should not be much further delay in submitting it to Government. Meantime it is reported that the settlement has completely set at rest the rent question, which was such a fruitful source of trouble in former days. The fact that sales of ryotee holdings are now becoming common affords proof of the security which the settlement has conferred on the ryot's title.

13. *Administrative changes.*—The district officers report that the Chowkidari Act has worked well and is an improvement on the old system; but this view does not meet with the concurrence of the Commissioner. The Lieutenant-Governor has already expressed his views at some length in the Resolution on the last Administration Report of the Police Department on the questions raised in the Commissioner's remarks, and it is needless to repeat them here. The efforts of the local officers to check excessive drinking at the great Bhandua festival of the Sonthals continue to meet with success. The people have shown generally every disposition to comply with the orders issued to regulate the dates and duration of the festival, and one of the sub-divisional officers reports that in the course of his tour during the Bhandua time he did not see a single drunken man. The re-introduction of the rule requiring all complaints in the criminal courts of the Sonthal Pergunnahs to be made verbally to the Magistrate has imposed a strong check on the institution of frivolous and false cases, and the rule cannot fail, if properly observed, to prove a great advantage both to the Magistrates and the people. The Lieutenant-Governor will be glad to receive a separate report from the Commissioner through the Board of his views on the extension of the outstill system, and of the considerations on which those views are based.

14. *Police and Crime.*—The returns show a general increase of crime in the past year. The increase occurred chiefly under the head of petty offences, and may be partly accounted for by the prevalence of high prices. The proportion of true crime to population in the past two years was as follows:—

Proportion of True Crime to Population.

	1877.	1878.
Monghyr	1 in 690	1 in 723
Bhagulpore	1 „ 1,363	1 „ 946
Purneah	1 „ 899	1 „ 680
Maldah	1 „ 559	1 „ 595
Sonthal Pergunnahs	1 „ 448	1 „ 352
Total for the division ...	1 in 707	1 in 625

The number of persons arrested during the year was 9,680, of whom 2,027 were acquitted or discharged, and 6,057 were convicted. In 1877, 8,633 persons were arrested, of whom 2,732 were acquitted or discharged, and 5,143 were convicted. There was thus an improvement in the ratio of convictions to acquittals during the past year. The results in every hundred cases of cognizable crime were—

	False and not enquired into	Successful.	Unsuccessful.
Monghyr	14	38	48
Bhagulpore	8	38	54
Purneah	22	19	59
Maldah	4	32	64
Sonthal Pergunnahs	2	24	74

In Purneah the results were most unfavourable and indicate great want of efficiency in the Police. Except in this district, there was a large reduction in the number of cases in which enquiry was refused. False cases also fell off in all districts but Monghyr. It is evident that officers have exercised greater discrimination in passing orders on C forms. Non-cognizable cases increased from 10,178 in 1877 to 10,638 in the past year. The number of processes issued was, however, smaller than in 1877, a fact which tends to show that complaints were more carefully sifted before admission.

15. *Civil Justice.*—Civil litigation declined in all districts except Maldah, where it was almost stationary. Rent cases appear to have fallen off everywhere. The Commissioner remarks that enhancement cases are fewer, and that the landlords' attempts to secure enhanced rent under cover of rent suits are becoming less frequent. The high prices obtained by the cultivators for their produce enable them to meet punctually the demands of the landowners. One conspicuous instance of unsatisfactory relation between landlord and tenant is found in the Gangapore estate in Bhagulpore which is under European management. The account given by the Collector shows a very lamentable state of affairs, and the Lieutenant-Governor trusts that the managers may yet be induced to see their true interests in the proper light.

16 *Land Revenue.*—The demand of the year was Rs. 32,64,114. The amount collected was Rs. 32,01,971, or 98 per cent. The collections on account of the arrear demand were also satisfactory. The total amount outstanding was Rs. 1,47,454. Of this sum Rs. 1,09,880 were collected, Rs. 20,551 were remitted, and Rs. 17,023 only remained unrealised at the end of the year.

17. *Excise.*—The introduction of the outstill system was fully carried out during the year in all the districts of the division, except the Sonthal Pergunnahs. A general revision of the excise establishments, involving some saving, was also effected. The following statement exhibits the revenue realised from excise in the past two years, and the average of the preceding five years:—

	Total gross revenue.	Total revenue net.
	Rs.	Rs.
1878-79	8,66,930	8,31,287
1877-78	8,35,731	7,92,357
Average of 1873-74 to 1877-78 ...	7,26,386	6,81,223

It will be observed that the revenue of the past year was 3·7 per cent. in excess of the revenue of 1877-78, and 19·3 per cent. in excess of the average of the preceding five years. The increase was spread over all the chief branches of excise, namely, country sprits, ganja, and opium. The outstill system is said to have worked well in the parts of the division south of the Ganges, but to have been unsuccessful in places where the soil is damp, and the people prefer ganja and opium to spirits. It is gratifying to observe that the consumption of ganja underwent a considerable reduction concurrently with a large increase in the revenue. On the other hand, there was an increase in the consumption of opium, which is attributed to improved suppression of illicit trade and the application of the auction system to licenses.

18. *License Tax.*—The financial results of the administration of the License Tax Act during the year ending 31st March are tabulated in the following statement:—

	Demand.	Collection.	Remission	Refunds.	Balance	Percentage of collections on demand, minus remission and refund
	Rs	Rs.	Rs.	Rs.	Rs.	
Monghyr	1,68,403	69,500	55,223	3,306	40,374	63 2
Bhagulpore	1,82,479	70,034	10,350	11	1,02,075	40·6
Purneah	77,736	63,004	11,389	647	2,696	95 9
Maldah	92,051	52,879	24,048	1,207	13,817	79 8
Sonthal Pergunnahs	47,561	33,071	11,234	2,006	1,260	96 3
Total ..	5,68,211	2,88,488	1,12,834	7,177	1,59,713	64 5

These figures will doubtless be carefully criticised in the report to be submitted by the Board of Revenue, and such comparison as may be possible will be made with the outturn of the income and other similar taxes imposed in previous years. The law appears to have been carefully and efficiently administered in Purneah and the Sonthal Pergunnahs. In Monghyr and Bhagulpore the proportion borne by the collections to the original demand is very small. The heavy remission and balance in Monghyr point to great want of judgment in the assessments. The enormous balance in Bhagulpore must be similarly accounted for. The Lieutenant-Governor will require very full explanations why such large sums were neither realized, nor, if the demand was exorbitant, remitted during the year.

19. *Stamps.*—The total revenue derived from stamps was Rs. 8,65,566 against Rs. 8,61,313 in 1877-78. The decrease is accounted for by the decline in civil litigation already adverted to, and to the gradual completion of proceedings under the Land Registration Act.

20. *Monetary arrangements.*—The circulation of currency notes fell off considerably in consequence of slackness in commercial transactions. The Government Savings Banks are not much resorted to. The number of depositors and the amounts deposited are small everywhere. The money-order system is also said to be losing in popularity. This is to be accounted for in a great measure by the introduction of the insurance and value-payable parcel systems of the Post Office.

21. *Railways.*—The year was marked by a large number of accidents. Thirteen persons were run over by trains; but, it is stated, that no railway servant was to blame in any of the cases. One case of collision occurred at the Behea Station between a special goods train and two wagons which were being shunted. The guard of the train was committed to the sessions for neglecting to observe the signals, but was acquitted. In another case a train was thrown off the rails in consequence of the breaking of an axle, and much damage was done to the wagons and the permanent way. A very determined attempt to upset a train was made near the Jamtara Station, the offenders placing a whole stack of sleepers on the line. It was fortunately discovered in time, but no clue to the people concerned was obtained. Another attempt of the same character has since been perpetrated, and it is to be hoped that the Police will be more successful in tracing the offenders.

21. *Roads and Communications.*—The roads are reported to have been generally kept in good order. A larger amount was spent on repairs than on original works. The Commissioner's remarks regarding the delay caused by the existing system of preparing the estimates will be communicated to the Public Works Department for such action as may be deemed advisable. The Lieutenant-Governor concurs with him that the first object of the Committees should be to maintain and improve the most important and useful of the existing lines of communication. At the same time the improvement of village roads must not be lost sight of.

22. *Schools.*—The number of schools of all classes returned at the end of the year was 4,072 with 56,245 pupils, as against 2,684 with 44,187 pupils in 1877-78. The system of central examinations and rewards, lately introduced at the suggestion of Babu Bhudeb Mookerjee, has led to a large increase in the number of primary schools brought under inspection. In 1877-78 there were 2,409 of these schools with 33,031 pupils; but at the end of the past year

they had increased to 3,785 with 45,090 pupils. The increase was confined to Bhagulpore, Monghyr, and Purneah. In the two former districts the number of schools nearly doubled. The system appears to have been thoroughly successful, and it is likely to effect a considerable improvement in the condition of the unaided schools. As regards other classes of schools nothing of interest occurred during the year. The number of higher English schools remained the same, with a slight increase in the number of pupils. The proposal to raise the Bhagulpore school to a high school has apparently collapsed. Girls' schools have increased in number, but have lost a large proportion of their pupils.

23. *Committees.*—The Road Cess Committees are said to have done much useful work. Education committees are again reported to be apathetic, and to take little or no interest in educational matters.

24. *Municipalities.*—The Municipalities of Monghyr, Jamalpore, and Deoghur continue to take precedence of all others for the efficiency with which they are administered. The Commissioner declines to endorse the very high commendation bestowed by the Magistrate of Bhagulpore on the Committee of the Bhagulpore Municipality. It is evident from the Magistrate's own admission that the roads of the town have for some time past received less attention from the Committee than they deserve. It appears, however, that efforts are now being made to improve them. The municipalities of Purneah, Maldah, English Bazar, and Sahebgunge are said to be fairly managed.

25. *Court of Wards.*—The estates under the Court of Wards are sixteen in number. Three new estates were received during the year and one was temporarily put out of the possession of the Court. The total demand of rent, including arrears, on account of the other estates was Rs. 8,43,465. The collections amounted to Rs. 5,71,090, leaving a balance of Rs. 2,72,375 outstanding at the end of the year. Having regard to the prosperity of the cultivating classes during the year, the Lieutenant-Governor thinks that better results might have been expected. In the majority of the estates not so much as half the demand was collected. In the Mamai and Phoolberia estates in Monghyr, and in the Sarwan and Narainpore estates in the Sonthal Pergunnahs, the balance was largely in excess of the collections. In Bhagulpore the Pachgachia property had no less than Rs. 73,471 outstanding against Rs. 39,333 collected. The Commissioner appears to take an unduly favourable view of the management of many of these estates. The collections were thoroughly satisfactory only on the Soorjapore estate in Purneah. This is the largest estate under the Court, and its management has been most successful. More than four lakhs of debts have been cleared off in the past five years and the remaining liabilities will be completely liquidated before long. The Chunchal estate, which stands next in importance, has unfortunately become involved in heavy and costly litigation.

26. *Conduct of Zemindars.*—In the last report mention was made of discontent among the tenantry of Maharajah Sir Jye Mangal Singh. Mr. Magrath has since visited the estate, but appears to have left nothing on record to show the state of affairs. It is said, however, that no further complaints have been made. The Collector notices the liberality of Rai Annoda Persad Rai Bahadoor, who made a large donation to the Monghyr dispensary for the purchase of iron beds for the inmates. In Bhagulpore, Rajah Hurbullub Narain Singh Bahadoor of Sonbursa and Rai Narendra Narain Singh Bahadoor of Burooari are spoken of as very good landlords. Some of the zemindars have given trouble in Maldah and Purneah by their illegal and unscrupulous conduct in disputes regarding the possession of lands. The conduct of Lekraj Rai is specially mentioned with disapprobation. The Lieutenant-Governor regrets to learn that the affairs of Rajah Leelanand Singh of Purneah have not improved under the management of his son. The Koer seems to be quite indifferent to advice, and it is hopeless to expect that the estate can be extricated from its embarrassments under the present management.

27. The Commissioner's remarks on the officers subordinate to him will be communicated to the Appointment Department.

RESOLUTION ON THE ANNUAL REPORT OF THE SHIPPING OFFICE FOR 1878-79.

GENERAL DEPARTMENT—MARINE

Calcutta, the 8th September 1879.

RESOLUTION.

READ—

The Report of the Calcutta Shipping Office for 1878-79.

The receipts of the Shipping Office during the year were Rs. 25,757, as against Rs. 29,351 in 1877-78. The decrease is attributable to the general depression of trade at the port, and to the falling off in the coasting traffic consequent on the cessation of the scarcity in Southern India. The receipts were nevertheless higher than those of any year from 1868-69 to 1876-77, both inclusive. The disbursements amounted to Rs. 16,728, thus leaving a net gain of Rs. 9,029. They show a slight increase of Rs. 142. The different items of the accounts of income and expenditure call for no comment.

2. The transactions in funds held in trust increased largely. The amounts received and paid out during the past two years are shown in the following statement :—

	1877-78.			1878-79.		
	Rs.	A.	P.	Rs.	A.	P.
Amount received	1,44,440	12	7	1,65,856	8	10
Amount repaid	1,32,437	4	2	1,56,537	14	11
Balance on 31st March 1879	12,003	8	5	9,318	9	11

The receipts include balances from previous years. The amount deposited within the past year was Rs. 1,53,853, as against Rs. 1,37,010 in 1877-78. It is satisfactory to notice that the balance in deposit at the end of the year has diminished.

3. These funds consist of "ticket money," deposits of seamen's wages, and deposits on account of estates of deceased seamen. The receipts of "ticket money," or portions of seamen's wages deposited by agents of ships for transmission to the seamen's families, amounted to Rs. 366. Of this sum Rs. 300 were paid away during the year, and Rs. 66 after the close of the year.

4. Wages deposited on behalf of British seamen left behind in hospital or jail, or received direct from British seamen themselves, amounted to Rs. 1,30,866. Inclusive of a balance of Rs. 9,638 at the close of 1877-78, the total amount in deposit was Rs. 1,40,504. Re-payments to the amount of Rs. 1,33,700 were made, and the balance at the end of the year was Rs. 6,804. This result shows some improvement on the previous year.

5. Of the deposits of native seamen's wages, amounting to Rs. 2,626, Rs. 1,689 were withdrawn, and a balance of Rs. 939 remained at the end of the year. The proportion borne by the disbursements to the receipts still contrasts unfavourably with that shown in the case of deposits of British seamen's wages. The instructions issued by the Board during the year for the registration of the correct names and particulars of the addresses of the seamen should ensure better results in future, and the Lieutenant-Governor expects to find much improvement in the returns for the current year.

6. The receipts on account of estates of deceased British seamen increased from Rs. 17,872 to Rs. 20,330. The whole amount was remitted to the Board of Trade during the year. On account of estates of deceased native seamen, Rs. 617 were received. The balance of the previous year was Rs. 1,410. Of the total sum of Rs. 2,028, only Rs. 516 were paid away to claimants. The instructions of the Board alluded to in the last paragraph apply to these deposits also.

7. The number of seamen shipped and discharged in the past two years was as follows:—

	1877-78	1878-79.
Shipped	16,975	14,909
Discharged	13,998	13,572

The excess of the number shipped over the number discharged is a matter for satisfaction. It was particularly large among British and Indian seamen.

In the case of most other nationalities the number discharged preponderated, though not to a very great extent.

8. Desertions fell off with the diminution in the shipment and discharge of seamen. The number reported as having deserted from British ships was 156 against 181 in the previous year.

9. The number of distressed seamen sent home increased from 121 to 144. The increase is attributed to the difficulty experienced by seamen in obtaining employment, owing to the large number of ships lying unchartered in the river.

10. Remittances made by seamen under the money-order system amounted to Rs. 28,795 as compared with Rs. 48,839 in the previous year. The falling off is mainly accounted for by the reduction in the shipping.

11. The health of European crews is reported to have been exceptionally good, and no unusual sickness appears to have prevailed among native crews. The Shipping Master's observations on the change which has occurred of late years in the general character of European seamen are borne out by the opinions commonly expressed on the subject by nautical men of experience. The Lieutenant-Governor is glad to hear that the condition of native seamen is improving. It is reported that it has become an established custom with them to proceed beyond the tropics to England and other countries, and that such voyages have no injurious effects on their constitution. The Bengali lascar alone suffers from the European winter, and requires a rest at home to recruit his strength, after each voyage.

12. The correspondence which took place during the year in connection with the case of ill-treatment of two lascars on board the ship *Gilbert Thompson* has advanced considerably the settlement of the question of securing better protection from ill-treatment for Indian crews engaged on foreign voyages, which has been under consideration since 1875. Provision will be made in the Merchant Shipping Act now under preparation in the Legislative Council of the Government of India for all cases in which the voyages for which the lascars engage terminate in India. With regard to voyages which terminate in the United Kingdom, the instructions lately issued by the Board of Trade to Superintendents of Mercantile Marine to enquire into the treatment of native crews and report complaints will doubtless tend to secure more considerate treatment for these crews in future.

13. As regards the case of the seaman John Salton, referred to in the Board's letter submitting the report, the enquiry instituted showed that the hospital authorities were not to blame. The suggestions of the Board as to the arrangements to be made when men are shipped from the hospitals have been communicated to the Surgeon-General for compliance.

14. Further discussion in the course of the year has not elicited any suggestion of a practical means of checking the practice of giving substitutes which prevails among lascar crews. The matter has been submitted to the Government of India for consideration. The remedy against the practice appears to rest mainly in the hands of the captains themselves. Substitutes could seldom be introduced into the crews, if the latter were engaged shortly before the departure of the ships and taken on board immediately. In connection with this subject, the feasibility of establishing a Native Sailors' Home has been considered, but it is questionable if such a measure would be successful. The Board have proposed, on the recommendation of the Deputy Commissioner of Police and the Shipping Master, that the practice, formerly in force, of licensing native boarding-houses under Act IV (B.C.) of 1866, should be revived, and that shipping brokers, when they bring men to be shipped, should be required to furnish the Shipping Office with the name of the locality in which each lascar resides. It has also been suggested that certificates should be given to the men on discharge, with a full description of the appearance of each. These proposals are now under the Lieutenant-Governor's consideration.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Offg. Secretary to the Govt. of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different District of Bengal, as reported to Government during the week ending the 6th September 1879.

No	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL		
	Western Districts.		
	Burdwan Div.		
1	Burdwan, Sept. 6 '79	3·76	Weather—cloudy and warm. In Sudder, Cutwa, and Culna sub-divisions prospects improved, but not in other sub-divisions. Some damage has been caused in Cutwa and Culna by overflow of Bhagiruthee. Some cholera cases in thanas Ketugram and Indas. Fever still bad in Kotalgoah in thana Mongulkote.
	Culna ...	2·04	
	Cutwa ...	1·01	
	Bood-Bood ...	1·99	
	Jehanabad ...	2 16	
2	Bankoora, „ 6 „	4·09	Weather—showery, with one or two heavy falls. A decided change for better all over district owing to more plentiful fall of rain. It comes too late for some places, but no doubt in most places it will be of greatest benefit still. However, in some places more rain still wanted, especially in Chatna and Jeypore. In worst villages arrangements for village roads being made to help labouring classes.
	Bishenpore ...	5·12	
3	Beerbhoom, „ 6 „	2·57	Weather—seasonable. Prospects in south have improved a little, and over most of district rice crop doing very well.
4	Midnapore, „ 6 „	1·45	Weather—sultry and cloudy. State and prospects of crops not favourable owing to scanty rainfall.
	Ghatal ...	4·54	
	Contai ...	4 52	
	Tumlook ...	4·10	
5	Hooghly, „ 6 „	3·31	Weather—seasonable. Rain general. Crops on low lands doing well. High lands still uncultivated with rice, owing to lowness of floods and previous short rainfall. Sugarcane and jute flourishing.
	Howrah, „ 8 „	3·00	Weather—seasonable. Transplantation going on. More rain wanted, especially in thanas Khanakul and Domjoor.
	Mohesrekha ...	4·46	
	Central Districts.		
	Presidency Div.		
6	24-Pergunnahs, Sept. 6 '79	1·46	Weather—cloudy, with occasional rains. State and prospects of crops fair, but more rain still wanted in some parts of district. High prices continue. Public health in general good
7	Nuddea, „ 6 „	1·41	Weather—cloudy, with occasional showers Harvesting of *aus* actively carried on. But prospects gloomy. Greater part of district being under water, all crops on low lands totally destroyed; much damage done except on very highest lands.
	Kooshtea ...	0·58	
	Chooadanga ...	0·86	
	Ranaghat ...	0·61	
	Bongong ...	0·32	
	Meherpore ...	0 40	
8	Jessore, „ 6 „	1 90	Weather—showery. More rain still wanted at Sudder. Inundation in Jhenidah, Magoorah, and Narail still high. Considerable damage done to crops Prospects not so good as they were in these sub-divisions; but still fair in rest of district. Health good.
	Jhenida ..	1·94	
	Magoorah ...	0·51	
	Narail ...	0·28	
	Khoolna ...	0·90	
	Bagirhat ...	0 70	
9	Moorshedabad, „ 6 „	3·44	Weather—hot. Occasionally cloudy and rainy. Prospects of *amun* in high lands good. *Aus* in low lands almost totally destroyed. Price of rice at head-quarters would have fallen considerably had it not been carried away by people of east of district. Rivers daily going down. Public health generally good.
	Rajshahye and Cooch Behar Div.		
10	Dinagepore, Sept. 5 '79	2·55	Weather—warm, with occasional heavy showers. Harvest of early rice has yielded an average crop. Transplantation almost finished. Prospects good.
11	Rajshahye, „ 6 „	3·88	Heavy rain at Sudder on nights of 4th and 5th. Rain also heavy at Manda. Elsewhere slight rain reported. *Aus* and jute being cut. About one-fourth of each of these crops destroyed by floods. In north of thana Charghat and in thana Pootoah a considerable area of rice cultivation both *aus* and *amun* destroyed by sudden floods consequent on breaches in Surdah road. Some mulberry also in that part damaged; remainder, however, promises well. Transplanted rice in west and north of district doing very well. Public health good.
12	Rungpore „ 5 „	6·24	Weather—till 4th extremely warm. State and prospects of crops good. Public health good.
	Gaibanda ...	1·40	
	Bagdogra ...	1·15	
	Kurigram ...	0·40	
13	Bogra, „ 6 „	3·36	Weather—fine, with occasional showers, especially towards end of week. Prospects of rice crop continue excellent Jute on high land very fine. Jute cultivation less extended than in previous years.
14	Pubna, „ 6 „	0·23	Weather—cloudy, showery, and cool. *Aus* being reaped. Surviving *amun* appears to be in good condition. District health generally good.
15	Darjeeling, „ 5 „	5·28	Occasional sunshine and rain. Transplantation nearly completed. *Bhadoi* rice being reaped. Prospects of jute and sugarcane not good. Minor crops in hills have suffered from heavy rain.
16	Julpigoree, „ 6 „	5·96	Weather—seasonable. *Bhadoi* harvest completed *Haimanti dhan* nearly all transplanted. Jute backward. General health good.
	Cooch Behar, „ 4 „	1·04	Weather—hot, with occasional showers. Prospects of winter paddy very favourable. Harvesting of early paddy nearly furnished. Jute still being cut. Small-pox seems to have ceased in Dinhatta sub-division. Cases of small-pox still reported in Mathabhanga sub-division, but the disease there is abating.

17	Dacca, Sept. 6 '79	2·90	Weather—more or less unsettled during week. Floods still continue at a high level. *Amun* crop still reported of favourably excepting in one-third of southern half of district where loss very nearly a complete one. A few cases of cholera in town.
	Manickgunge (for week ending 4th Sept.)	1·50	
	Moonshigunge (for week ending 3rd Sept.)	5·18	
18	Furreedpore Sept. 6 „	1·33	Weather—fair and seasonable. *Amun* promises well. Health good.
	Madaripore ...	0·30	
19	Backergunge, „ 4 '79	0·64	Weather—seasonable. *Amun* now nearly all transplanted *Aus* coming into market, but prices as yet show little tendency to fall
20	Mymensingh, „ 5 „	1·91	Weather—hot and sultry during first part of week; latter portion rainy and cool. Prospects of all crops very good.
21	Tipperah „ 5 „	3·34	Weather—generally fair, but one or two showers of rain daily Greater part of *aus* crop gathered; outturn very good. Prospects of *amun* continue good.
	Brahmunbaria ..	3·64	
	Chandpore ..	1·05	
	CHITTAGONG DIVN.		
22	Chittagong Sept. 4 „	1·02	Weather—fair. State and prospects of crops good.
23	Noakholly, „ 4 '79	3·98	Weather—showery. Harvesting of *aus* well advanced. Prospects of crops good throughout district. Cases of small-pox.
24	Chittagong Hill Tracts, „ 2 „	2·33	Rain on 28th, 29th, and 30th August Gathering of *joom* paddy still continues. Transplantation in low lands nearly over. Prospects of cotton not good. Fever still prevalent.
	Hill Tipperah, „ 3 „	6·81	Weather—rainy. Gathering in of *aus* continues. *Amun* thriving Prospects of *muy* and *teel* fair. Public health not good. Fever yet prevalent.
	BEHAR		
25	Patna, Sept. 6 '79	4·71	Weather—normal. State and prospects of crops favorable.
	Behar .	1·00	
	PATNA DIVN		
26	Gya, „ 6 „	2·18	Weather—cloudy. Maximum reading in shade 94·6°. Transplantation nearly completed. *Myrwa* and *makai* being cut. Cholera reported from four places. Health of plough-cattle good.
	Nowada .	2·00	
	Aurungabad ..	1·41	
	Jehanabad .	3·45	
27	Shahabad, „ 6 „	3·06	Weather—showery. State and prospects of crops favourable. Though much *bhadoi* lost, yet a good *rubbee* expected. Loss not so great as was expected. Sugarcane in low lands somewhat injured.
28	Durbhunga, „ 6 „	2·81	Weather—fair, but hot. Prospects of rice crop promising. Early *makai* nearly ripe; a poor outturn expected in Tajpore.
29	Mozufferpore, „ 6 „	0·60	Weather—hot, with occasional storms and rain. Propects of rice crop generally favorable Maize being harvested. Some damage done to rice by floods in north of district. Public health fairly good.
	Hajeepore ...	0·35	
	Seetamurhee ..	1·84	
30	Sarun, „ 6 „	2·78	Weather—cloudy and rainy. East wind prevailing. *Bhadoi* generally fair. Maize coming into market in places. Paddy promising well, except in inundated parts. Prices stationery.

	BHAGULPORE DIVISION		
32	Monghyr, Sept 6 „	6·35	Weather—cool and showery. Inundation has destroyed a large portion of *bhadoi*, but the increased *aghani* and *rubbee* return will more than compensate
	Begusarai ..	0·48	
	Jamui ..	1·39	
33	Bhagulpore, Sep. 6 „	0·65	Alternate rain and sunshine. Rice prospects good. Floods subsiding very slowly. Cholera still prevalent in south.
34	Purneah, Sept. 6 „	13·03	Voilent showers and thunderstorms of a local character. Temperature decidedly lower. Crops favourably reported of. Outturn of *bhadoi* good. Prospects of *aghani* very good. Too much water about for land to be prepared for *rubbee*.
	Kissengunge ..	3·96	
	Arrareah ...	5·67	
35	Maldah, „ 6 „	2·83	First four days tolerably fair, since then cloudy and rainy. A break of fair weather wanted. Prospects of winter rice in thana Khurba and in thanas east of the Mahanunda continue to be very good. No want of food-grain in district and prices of rice and paddy easier. Health fair
36	Sonthal Perghs. „ 6 „	1·24	Sun and rain most favourable for crops. Rice excellent. Autumn crops most indifferent.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 1° or 1½° lower; and finally, the thermometer, which has furnished the record of temperature at the Surveyor-General's Office during the last 20 years and upwards, is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

The increase in firewood is insignificant.

The decrease in hay is due to less demand in selling market.

The decrease in wooloo and straw is insignificant.

The increase in paddy is due to favourable market at selling stations and less purchase for rice mills.

The increase in rice is due to working of rice mills on an extensive scale.

The decrease in building materials is insignificant.

The decrease in sundries is due to less demand of sundry articles at rice mills.

Rules made by the Lieutenant-Governor of Bengal under Section 2, *Act VII* (*B. C.*) *of* 1879, *for the examination of, and the granting of certificates to, Commanders of Inland Steam Vessels.*

N B—The provisions of Rule 1 will not be applied in the case of candidates who are at the date of the publication of these rules actually in command of a river steamer

1. Candidates for certificates as commanders of inland steam vessels must be not less than 21 years of age, and have served at least 3 years at sea, and 3 years as mate of a river steamer, or master of a river flat.

2. Every such candidate shall apply for permission to appear for examination in a printed form,* to be filled up by him, and forwarded to the Port Officer, Calcutta, together with such documentary evidence as shall satisfy the Port Officer that the candidate has complied with the conditions of Rule 1 above, and that he is of sober habits and of good character. Each candidate shall forward with his application a fee of Rs. 16.

* Copies will be supplied to intending candidates by the Port Officer, Calcutta, on application.

3. The Port Officer shall notify to accepted candidates the date and hour of examination, in fixing which he shall have due regard to the convenience of their employers The fees of any candidate who is not accepted shall be returned to him.

4. The examination of candidates shall ordinarily be conducted by the Committee which sits quarterly for the examination of pilots, but the Port Officer may at any time convene a special committee for the examination of candidates under these rules.

5. Before proceeding to examine any candidate in the manner provided in the rule next following, the Committee shall carefully test his ability to distinguish the following colours which enter largely into the combinations of signals by day and night, viz. black, white, red, green, yellow, and blue. In the event of any candidate failing to satisfy completely the usual tests for colour blindness in respect of all of these colours, the Committee will decline to proceed with his examination, and will report the case through the Port Officer for the information of the local Government.

6. The Committee will examine each candidate apart, and *viva voce*, in each and all of the following subjects:—

(1).—The names and courses of the river reaches from Calcutta to Mud Point, and the extent of the sands in such reaches.

(2).—The sets of the tides within the said limits.

(3).—The names of all Points in the river within the said limits.

(4).—The candidate's general knowledge of soundings in the channels and over the sands within the said limits.

(5).—The tracks over the Moyapore and Royapore flats, the Fultah tracks, and the Eastern and Western Guts.

(6.)—The marks for fair channels or hauling into reaches where such exist.

(7).—The marks for the limits of sands where such exist.

(8).—The rules of the road.

(9).—The management of river steamers under all contingencies of meeting, overtaking, and passing vessels in all possible positions within the limits described in No. 1.

(10).—The anchorages to select in view of the requirements of sea-going vessels.

(11).—The Tide Table.

(12.)—The rules of the Port of Calcutta including the prescribed Storm Signals.

(13).—The provisions of Act VII of 1879.

7. If the candidate satisfy the Committee as to his knowledge of the subjects set forth in the foregoing rule, and generally as to his competency to command an inland river steamer, they shall certify the same to the Port Officer, who will then grant a certificate of such competency in the form appended to these rules.

8. No candidate who fails to satisfy the Committee shall be at liberty to submit a fresh application for examination until six months have passed from the date of such failure.

HIGH COURT NOTICES.

Circular Order issued by authority of the High Court of Judicature at Fort William in Bengal.

CIVIL.

No. 32, dated the 1st September 1879.

The attention of all civil judicial officers is called to the changes in the law on the subject of the admission in evidence of unstamped or insufficiently stamped documents effected by the Indian Stamp Act, 1879.

2. By section 20, Act XVIII, 1869, Civil Courts were required to satisfy themselves that the omission to execute a document tendered in evidence and found not to bear a proper stamp had not arisen from an intention to evade payment of the proper duty, and, on being so satisfied, they were empowered to receive the amount of stamp duty deficient, together with a penalty varying from five to twenty times the deficiency, and thereon to certify on the instrument that the proper stamp duty had been levied thereon. An instrument so certified became admissible in evidence as if originally executed on paper bearing the proper stamp.

3. By section 21, Civil Courts were required to register payments of stamp duty and penalties, and endorse the amount on the instruments admitted under section 20, and, at the close of each month, to make a return to the Collector of all such receipts, and pay the same to him.

4. By the Act of 1879, Courts are no longer required to enquire into the circumstances under which an unstamped or insufficiently stamped document came to be executed on paper not bearing a proper stamp. By section 33, all public officers, with certain exceptions, are required to examine every instrument chargeable with duty which comes before them in the performance of their official functions, and *to impound* any instrument which appears not to be duly stamped. Every Court impounding an instrument must forthwith note it as "impounded:" such note shall be dated and signed with the ordinary full signature of the impounding officer.

5. Under section 34 such instrument may be admitted in evidence in a Civil Court. If the party desiring to use it shall pay the amount necessary to make up the proper stamp duty, together with a penalty of Rs. 5, or when ten times the amount of deficient duty exceeds Rs. 5, then with a penalty of ten times such amount.

6. Section 39 requires that Civil Courts shall certify by endorsement on every instrument admitted in evidence under section 34 that the proper duty and penalty have been levied in respect thereof, and the name and residence of the person paying them.

7. Section 35 requires every Civil Court to send to the Collector an authenticated copy of every impounded instrument admitted in evidence. The endorsement required by section 39 should be transcribed on such copy. When an impounded instrument has not been admitted in evidence, whether from failure to pay the requisite duty and penalty, irrelevancy, want of registration, or other cause, it must be sent in original to the Collector. In such cases the provisions of section 43, paragraph 2, are applicable. The copy to be made under this section must be retained in the custody of the Court.

8. Section 39, paragraph 2, entitles persons tendering documents on which deficient stamp duty and penalty has been levied under section 34 to reclaim the same; but the 3rd paragraph of that section directs that the Court shall not, under any circumstances, deliver it before the expiration of one month from the date of impounding it; and if the Collector has certified that its further detention is necessary, it shall not deliver it so long as such certificate is not cancelled. It is obvious that the transmission of the copy to the Collector should be made with the least possible delay, to enable him to make such enquiry as may be necessary within the month for which the instrument is to be detained. The High Court therefore directs that every such copy shall be despatched not later than 48 hours from the time when the original is impounded.

9. Judges of all grades will bear in mind that the provisions of section 34 do not apply to bills of exchange, promissory notes, or any instrument chargeable with a duty of one anna only. The rule on this subject is unaltered; but the provisions of section 28, Act XVIII of 1869, have been so frequently overlooked, that the Judges take this opportunity of calling attention to it.

10. The authenticated copies required by section 35 and section 43 do not require to be stamped under the Court Fees Act.

11. The monthly return to the Collector of duty and penalties levied in Civil Courts, required by circular order No. 16, of 4th December 1876, will be continued till further orders.

GENERAL LETTER No. 10.

To

THE

Dated Calcutta, the 4th September 1879.

SIR,

IT has been ascertained that the observations contained in circular order No 26, of 8th July 1878, respecting the unauthorized issue of a certificate to Abdool Ali by Mr. Beaufort, late District Judge of the 24-Pergunnahs, were founded on a mistake of fact, and the said circular order is therefore cancelled.

CUSTODY OF SECURITIES HELD BY PUBLIC OFFICERS IN ANY OFFICIAL CAPACITY.

FINANCIAL DEPARTMENT—FINANCE.

Calcutta, the 9th September 1879.

RESOLUTION.

READ again—

Resolution recorded by the Lieutenant-Governor, under date the 26th December 1878, regarding the custody of securities held by public officers in any official capacity.

In the above Resolution it was ordered that all Government securities held by public officers in Bengal in any official capacity, and not being mere security deposits, should be endorsed to the Accountant-General and the Financial Secretary to the Government of Bengal jointly, and placed in the custody of the Accountant-General, whose duty it would be—

(1) to keep a proper account of the securities in the manner prescribed for account offices;

(2) to publish every year in the *Gazette* a complete list of the securities, showing the nature of the fund to which each belongs, and the officers charged with the administration of it;

(3) to draw the interest on due dates, and remit it to each administering officer by an order payable at any treasury named by him;

(4) to report all cases in which the orders for the payment of interest are not cashed;

(5) to sell out any portion of the investment when required by competent authority to do so.

The Accountant-General was to be informed in each case of the name of the Fund or Trust to which each security belongs, the object of the Fund or Trust, the official designation of the officer administering it, and the treasury at which he desires the interest to be drawn. If any legal obstacle should exist to the transfer of the securities in the way proposed, a special report of the circumstances of the case must be made to Government.

2. In pursuance of the above orders, the Accountant-General has submitted the accompanying report* and list,* which are published for general information. The attention of all Commissioners, District Officers, and other officers in charge of Trust Funds is drawn to paragraphs 4 and 5 of this report. As regards paragraph 5, all officers in charge of Trust Funds which do not appear in the list should lose no time in communicating with the Accountant-General, and in carrying out the orders of Government with reference to the funds in their custody.

* Accountant-General's letter No. 593LF, dated 28th August 1879, and its enclosure.

ORDER—Ordered that a copy of the above Resolution, together with a copy of the Accountant-General's report therein quoted, and of its enclosed list, be published in the *Calcutta Gazette*.

Ordered also that a copy of the Resolution, together with a copy of the Accountant-General's letter therein quoted, and of its enclosed list, be forwarded to all Commissioners of Divisions, all District Officers, and to the Director of Public Instruction and Surgeon-General, Bengal, for information and guidance.

Ordered further that a copy of the Resolution be forwarded to the Accountant-General for information.

By order of the Lieutenant-Governor of Bengal,

H. L. HARRISON,

Offg. Secy. to the Govt. of Bengal.

No. 593LF, dated Calcutta, the 20th August 1879.

From—J. WESTLAND, ESQ., Accountant-General, Bengal,

To—The Secretary to the Govt. of Bengal, Financial Dept.

I HAVE the honor to submit a list, complete up to date, of the various Trust investments which have been placed in my custody under the orders of Government, dated 26th December 1878.

2. All the four per cent. paper, as I received it, and part of the reduced four per cent. paper of 1872, I have converted into four per cent. paper of 1865, and I have, moreover, obtained stock certificates for the paper I hold; this being, as I explained in my former letter, the most convenient way of holding investments which are only rarely required for sale. The investments detailed in the supplementary list are not yet converted in this way, either because they have been received very lately, or because they have not yet been transferred to the names of the Financial Secretary and myself.

3. The following is therefore the form in which these investments are now in my possession :—

Loan.	Number of stock certificates	Amount	Date to which interest has been drawn
		Rs.	
4 per cent. of 1865 ...	201	13,40,800	1st May 1879.
	202	28,93,100	,, ,,
	205	4,87,100	,, ,,
		47,21,000	
4 per cent. reduced 1872 ...	10	15,000	16th July ,,
	9	1,16,800	,, ,,
		1,31,800	
4½ per cent. of 1870 ...	42	35,000	15th July ,,
	43	4,900	,, ,,
		39,900	
4½ per cent. of 1879 ...	15	1,51,200	15th March 1879.
	22	31,300	,, ,,
	20	3,000	15th September 1879.
	21	7,800	,, ,,
		1,93,300	

(The last two belong to the Burisal Government School (Rs. 7,800), the Sitamarhi Dispensary (Rs. 2,000), and the Burdwan Dispensary (Rs. 1,000), and are re-investments made by myself of the expired notes in which the investments, as sent to me, consisted.)

		Rs.	
3½ per cent. of 1853-54 ...	1	3,500	28th February 1879.
Municipal Debentures ...	1749 of 1866	29,000	31st December 1878.
	2132 of 1864	21,000	,, ,,
		53,500	

4. I have sent, or am now sending, to each officer concerned the amount of interest due upon his investment up to the date mentioned above. I have been surprised at the number of these interest orders which have remained uncashed, and I am afraid that many officers in receiving the form, which is of course quite a new one, have taken it as a letter of information, without observing that it was to be presented at the local treasury for encashment.

5. There are still a very large number of invested funds which have not been sent to me; for example, a comparison of the enclosed list with the list of the Director of Public Instruction, dated 1st May 1878, will show that many Educational Trust Funds are still remaining in the hands of local officers.

6. There is also a good deal of work to be done in organizing the cash accounts of the various funds to which these investments belong. I have printed in italics the names of those funds whose income is over Rs. 1,000, and which should therefore have their cash account in the form of a local fund account upon the Government books; but there are several of these cash accounts of which I know nothing, and they are either kept outside the treasury altogether, or, if they are on the treasury accounts, they are wrongly dealt with.

7. In the case of the smaller accounts, which under Government orders have to be maintained by the officers who have charge of the funds, I am in correspondence both with the Board of Revenue and the Director of Public Instruction regarding the details of administration.

ADMINISTRATION OF THE FOREST DEPARTMENT DURING THE YEAR 1878-79.

REVENUE DEPARTMENT.—FORESTS.

Calcutta, the 7th September 1879.

RESOLUTION.

READ—

The Progress Report of Forest Administration in Bengal for the year 1878-79.

The report on the Administration for the year 1878-79 is submitted by Mr. Gamble, who was appointed to act as Conservator under the Bengal Government on Dr. Schlich's departure on furlough in January last. Dr. Schlich was thus at the head of the Department during the greater part of the period embraced by the report. But Mr. Gamble was in charge during a sufficient portion of the working season to complete some important work of inspection.

2. It was observed in the Resolution on the report for 1877-78 that it was in contemplation to take up an extensive tract in the Chittagong Hills. In pursuance of this project, Mr. Gamble in February and March visited the forests of the Rinkheong Valley. The result of his examination was very satisfactory. A dense and almost virgin forest of fine timber was found, rich in bamboos and forest produce of all descriptions. Water communication is at hand, and there is every prospect of successful working of the tract to be administered. The Sungoo forest, which was visited later on by Mr. Chester, Assistant Conservator, is reported to be the richest in large timber of those yet taken up in Chittagong. The forest has hardly been encroached upon by man, either by cutting or jooming, and the soil is so favourable to forest growth that large timber is found on the upper as well as on the lower parts of the hills. There are great quantities of very fine jarúl, as well as toon, chaplis, badana, gurjun, and kandele. It is stated that it would be possible, by removing some rocks near the mouth of the Thendoo Kheong, to bring this forest into water communication with the Sungoo river. This may form the subject of special enquiry hereafter. These two fine forests, aggregating in area 370 square miles, were notified as proposed reserves on 22nd April last. Mr. Gamble also examined two important blocks in the Darjeeling Hills—the Babookhola and the Pugraingbong forests. The first lies at the head waters of the Mahanadi, and the other is situated on the Rayem, a tributary of the Balasan river. They both contain much large and valuable timber, including oak and chestnut.

3. On 23rd January last a comprehensive notification was issued specifying all the forest lands then actually reserved. The Koderma and Saranda Pir forests in Hazaribagh and Singbhoom, containing respectively 31 and 400 square miles, will be added during the current year on the completion of the necessary preliminaries. At the beginning of 1878-79 the area under the Forest Law was 3,430 square miles. From this were finally excluded the Damin-i-Koh in the Sonthal Pergunnahs and two trifling areas in Darjeeling and Julpigoree, and temporarily the Hazaribagh and Singbhoom forests,—altogether 504½ square miles; while 41½ were added in the Darjeeling, Teesta, and Kurseong Divisions. At the end of the year the total was thus 2,967. In last year's resolution it was anticipated that the area at the close of the year would be 4,406 square miles. Unavoidable delay in completing preliminaries in the Teesta and Chittagong Divisions and in Chota Nagpore has caused the difference. During the current year 1,816 square miles will probably be added; but it is not unlikely that a great part of the reserved area of 37 miles in the Shahabad district may be excluded. The area at the end of 1879-80 will therefore apparently be about 4,760 square miles, of which 846 will consist of Himalayan and Sub-Himalayan forest. The anticipated accessions include 1,150 square miles in Chittagong, consisting of the Kasalong, Rinkheong, and Sungoo forests, and the Sitapahar and Matamori additions; the Koderma and Saranda Pir forests in Chota Nagpore, aggregating 431 square miles; 190 square miles in the Teesta Division, of which the demarcation and settlement could not be completed during the year; three blocks of 19 square miles in Julpigoree; and 36 square miles in the Darjeeling, Kurseong, and Buxa Divisions, which include the Babookhola and

Pugraingbong forests, some land to be taken over from the Cinchona Department, and about 5,800 acres in Kurseong purchased from Mr. W. Lloyd. The operations completed and projected are thus—

	Square miles.	Square miles
Area on 1st April 1878	.....	3,430
Added in 1878-79	41½	.....
Excluded	504½	.....
Area on 1st April 1879	.....	2,967
Expected increase in 1879-80	1,816	.....
Probable area on 1st April 1880, after decrease in Shahabad	.....	about 4,760

4. By notifications issued on 24th February 1879, a gross area of 1,925 square miles of Sunderbun waste in the districts of 24-Pergunnahs and Jessore was declared "protected" forest under the Act. A small establishment has since the close of the year been sanctioned for the conservancy of the Khoordah forests in the district of Pooree, and it is intended that these forests shall be examined during the approaching dry season by an officer of the Department. Definite proposals for their management will then be submitted.

5. Demarcation was completed over 43 square miles, and of the 2,967 square miles actually reserved, only 57, including 12 in Darjeeling, 8 in Kurseong, and 37 in Palamow, remain to be demarcated. Fair progress has been made with the boundary records. The record of the whole forest area of the Buxa Division has been completed and the boundaries have been mapped, and it is hoped that during the current season the work will be nearly concluded in the Darjeeling, Teesta, Kurseong, and Julpigoree Divisions.

6. With the extension of the operations of the Department it has been found necessary to increase the provision for subordinate establishment. The monthly allowance has now been raised to a maximum of Rs. 5,000, and the settlement of details has been left to the discretion of the Conservator.

7. Prosecutions for breach of rules numbered 74 against 139 in 1877-78, and 233 in 1878-79. The decrease in 1878-79 occurred in the Sunderbuns Division, where there were only 46 cases against 131 in the previous year. There was a considerable improvement in the proportion of convictions obtained. In the Northern Divisions and in Palamow conviction followed in 19 cases out of 20. In the Sunderbuns 46 cases of this year were disposed of, and altogether 19 cases led to convictions, but of the latter some appear to have been sent up in the previous year. Generally it may be said that the results show increasing acquiescence in the rules by the people, and greater discrimination on the part of the forest officers. There were two prosecutions for injury to forests by fire in Julpigoree and three in Buxa against one in Julpigoree only in 1877-78. In the Buxa cases 45 persons were convicted. Of these, 39 were shikaris, who deliberately fired the grass in order to drive game into their nets. One large fire in this tract is believed to have been caused by malicious persons, but sufficient proof could not be obtained to warrant their arrest. This subject will be more particularly referred to further on in the separate remarks on the different divisions. It is sufficient to note here that the year was exceptionally dry, and that unusually high winds prevailed in March and April, with the result that 83,000 acres were burnt out of 190,000 acres which the forest officers attempted by special measures to protect. It is reported that some useful precautions were suggested by the Inspector-General on the occasion of his visit, and that the adoption of these has already been productive of good. The Conservator refers in general terms to the value of assistance from public officers generally, and to a projected extension of the protective works in 1880. The subject is an extremely important one, especially in the sâl producing tracts from which railway sleepers must be supplied, and the Lieutenant-Governor has no doubt that, with freedom from demarcation work and energetic supervision, the forest officers will apply themselves earnestly to the task of protecting the forests from fire. But Sir Steuart Bayley would wish to have a separate and comprehensive report showing precisely what measures should be adopted, and whether subsidiary rules might not be enacted to ensure better results than have yet been attained, and to secure the co-operation of all classes of public servants.

8. Besides repairing and improving existing roads, the Forest Department constructed 18½ miles of new road during the year in the Darjeeling, Kurseong, and Buxa Divisions.

9. The plantations now contain an area of 843 acres, including 207 acres added during the year. The Darjeeling plantations of oak, chestnut, magnolia, and walnut received an extension of 107 acres; 80 acres were added to the plantations of teak, toon, sâl, and sissu in Chittagong, and 15 acres to the sâl plantations in Buxa.

10. Dr. King's report on the experiments made with economic plants in the Calcutta Botanical Garden shows a very small measure of success. It appears to be established that, so far as Bengal is concerned, the attempt to cultivate the para rubber tree and the carob must be added to the list of failures. The same must be said of the Queensland, as well as the Tasmanian *Eucalypti*. Dr. King's anticipations regarding the ceara rubber seem to have been so far fulfilled. The seedlings, unlike the para, are growing rapidly; but whether they will develop into healthy trees is still doubtful. The *crosopis pallida* are still thriving, and the successful introduction of plants of this tree appears to be assured. The plants raised from the seed received without name from Dr. Forbes Watson in 1876 have now flowered, and Dr. King has had no difficulty in identifying them. They turn out to be the *Acacia Farnesiana*, a shrub which is common in Indian gardens. Large quantities of mahogany and rain-tree seedlings have been supplied during the year to private purchasers. As regards the experiments made by the Forest Department, the India-rubber and bamboo plantations at Bamunpokri are thriving, but the failure of the Spanish chestnuts seems to be confirmed. Experiments will be made at Chittagong during current year with mahogany and ceara rubber seed.

11. The number of trees felled during the year was 6,481, and the quantity of timber, exclusive of firewood, brought to depôt from the forests was 78,082 cubic feet. Altogether 30,989 sleepers were supplied to the Northern Bengal State Railway, nearly all from the Buxa and Kurseong Divisions. Considerable quantities of timber were also supplied for the Rungpore-Dhoobree road. The attention of the Lieutenant-Governor has just been drawn to the supply of excellent timber in the Nepal forests, of which the Durbar are anxious to encourage the export. It may be possible, in case of need, to supplement the outturn of our forests from this source, and it is not unlikely that an extension of the trade might arrest the destruction of fruit-trees and other small timber in the plains. The Darjeeling forests supplied 1,81,727 maunds of firewood and charcoal with an average clear profit of Rs. 6-2-3 per 100 maunds. The profit on each cubic foot of timber supplied from the Kurseong and Buxa Divisions was 12 annas 3 pie and 11 annas 4 pie respectively.

12. The following table shows the financial results of the working of the Department since 1871:—

Year.	Receipts.	Charges.	Surplus profit.	Area of reserved forests.
	Rs.	Rs.	Rs.	Square miles.
1871-72	87,260	67,506	19,754	106
1872-73	1,16,690	62,554	54,136	106
1873-74	1,23,732	81,068	42,664	120
1874-75	1,85,914	98,654	87,260	1,467
1875-76	1,98,274	1,39,086	59,188	2,585
1876-77	2,22,401	2,11,689	10,712	3,390
1877-78	4,32,363	2,61,112	1,71,251	3,434
1878-79	4,16,027	3,38,675	77,353	2,967

Comparison between the past two years is disturbed by the heavy charge of Rs. 63,492 which was incurred in 1878-79 for the purchase of land in Kurseong. This purchase, however, was made on very advantageous terms, and ought to result in a considerable increase of revenue hereafter. If this extraordinary disbursement is left out, the comparison stands thus—

	Rs.
1877-78	1,71,251
1878-79	1,40,845

Of the actual net surplus, the reserved forests contributed Rs. 52,562, and the unreserved Rs. 24,791. The Sunderbuns Division showed a surplus of Rs. 1,36,314, Buxa Rs. 44,325, and Darjeeling Rs. 13,605. In all the other reserved forests the charges exceeded the receipts. The unreserved forests of the Chittagong Hill Tracts and Chittagong produced a profit of Rs. 19,710 and Rs. 5,081 respectively. The financial results are decidedly satisfactory and creditable to the departmental management. There is every promise of considerable expansion of the revenue as the system of careful conservancy becomes more and more matured.

13. The following are the chief points which call for notice in the detailed reports on the several divisions :—

14. *Darjeeling.*—There was a net increase of 11 square miles in the area. The Darjeeling Municipality made over 3,000 acres in the Goompahar range. In the Tukdah range 75 acres belonging to the Botanical Garden at Rungaroon, 1,500 acres of khas land at Poomong, and 2,500 acres formerly attached to the Cinchona Plantation were added. On the other hand, 400 acres were surrendered on lease by special order. There were also some modifications of the area of the Rungbúl range. The net result was an increase of 11 square miles to the area within the Division. It is proposed to form a new range under the Kurseong Division in which will be included the Babookhola forest, as well as a portion of the Rungbúl range. The results of the transplanting operations under the system introduced by Dr. Schlich were very successful, though the season was not favourable. The growth of the walnut, ash, and cypress plants on the Rungbúl range was specially good. Extensive planting of toon, pipli, and walnut trees in the Rungaroon and Senchal Jhora blocks is in contemplation, and the prospects are good. The exceptional dryness of the season caused fires at an unusual elevation. It is reported that a large tract of forest on the Tonglo range between 7,000 and 10,000 feet in altitude was devastated by fire. Arrangements have been made to obviate the danger of ignition from camp-fires by providing specially protected camping grounds.

15. *Teesta.*—The work of demarcation will soon be completed and an area of 190 square miles will then be formally added to the reserved forests. The forests in this Division are particularly interesting, as they reach from the Terai to an elevation of over 10,000 feet, and so include all the different descriptions of timber from the sâl to the rhododendron. The Division still shows a deficit of Rs. 10,660, but this is unavoidable while expensive preliminary operations are in progress. There has been an increase from Rs. 1,945 to Rs. 3,086 in the receipts, and it is hoped that, with the completion of the work of demarcation, something like financial equilibrium may be attained.

16. *Kurseong.*—The boundaries in this Division were in some places improved by exchanges with tea-planters. The lands purchased from Mr. Lloyd have been demarcated, but not yet finally gazetted. Dr. Schlich in his report for 1877-78 anticipated that the demarcation of the whole Division would be completed before the close of 1878-79, but in consequence of numerous boundary disputes this has not been found practicable. The forest officers have made creditable progress in the important work of opening up and maintaining forest roads. Mr. Gamble reports that about 140 miles of forest roads have now been made, and that the export of produce and inspection have been much facilitated in consequence. The forests suffered severely from fire, and, with the exception of the Bamunpokri forest, almost all the land in the Terai and lower hills was burnt over during the year. With the completion of the demarcation work, it is proposed to adopt vigorous protective measures in this Division with the aid of the civil officers and tea-planters. The Lieutenant-Governor has already expressed a wish to know the details of the general scheme. A larger number of sleepers were prepared for the Northern Bengal State Railway than were actually required, and none will be supplied in 1879-80. The general financial result of the working of the Division is a deficit of Rs. 66,084. It is to be observed, however, that the receipts do not include Rs. 17,734 credited after the close of the year on account of railway sleepers, while the charges include a sum of Rs. 63,492 on account of the purchase of land. If these items are adjusted, the true result of the working of the forests during the year is found to be a surplus of Rs. 15,142.

17. *Julpigoree.*—There was no increase to the reserved area during the year, but three blocks, containing nearly 19 square miles, will soon be included by formal notification. The gross area of the division will then be 167 square miles. Demarcation has now been practically completed. Nothing has yet been done towards constructing roads and bridges, but a commencement will now be made in the Muraghat forest. It has been found necessary to abandon the attempt to plant teak in this Division. The plantation of Falakata was last year reported to be a failure, and now the plantation at Ramshai Hât has again been damaged by fire. The Inspector-General has further come to the conclusion that the climate is unsuitable for such experiments. Endeavours were made to protect the Muraghat, Apalchand, and Tundu forests both before and during the Inspector-General's visit. Parts of the Savannah were purposely burnt, and a quarter of the Apalchand and two-thirds of the Tundu area were thus saved. Late in the season, however, the greater part of the Muraghat sâl forest was burnt. The persons who caused this fire were prosecuted and have since been sentenced to three months' imprisonment. The receipts were only Rs. 8,286 against Rs. 12,580 in 1877-78. This falling off was to be expected. It has been decided to work the reserves as little as possible for a few years except for dry and fallen trees. In 1877-78 a large quantity of sleepers had to be supplied for the Northern Bengal State Railway, but during the past year the quantity of timber taken to depôt was only 1,808 cubic feet against 12,171 in 1877-78. The receipts from departmental timber operations were accordingly only Rs. 3,617 against Rs. 10,020. Miscellaneous receipts, however, from which the greater part of the revenue will probably for some time be derived, increased from Rs. 2,559 to Rs. 4,689.

18. *Buxa.*—No addition was made to the area of reserved forest under this Division during the year. A good deal of useful work was done in clearing the forest roads and boundary line, and in opening up new paths. There were several very serious fires. One which originated in the Bholka reserve extended over 11 square miles. This was believed to be the work of persons bearing a grudge to the forest guard, but judicial proof could not be obtained. In the Buxa range an area of 58 square miles was burnt in spite of the strenuous efforts of the divisional officer to arrest the progress of the fire. Two fires occurred in the Borojhar range, and in one of these cases the persons through whose carelessness the accident occurred were convicted. The Raidak forest in the Huldeebaree range was burnt by shikaris who deliberately fired the grass in the pursuit of game. In this case 39 persons have been convicted and sentenced to various terms of imprisonment. These convictions will doubtless have a good effect, and the Conservater hopes with the assistance of the sub-divisional officer to be able to protect the forests better this year. This important Division produced a surplus of Rs. 44,325, due in part to the operations of the previous season, but chiefly to increased sale of timber during the year. No less than 18,449 sleepers were supplied to the Northern Bengal State Railway, and large quantities of timber in log was rendered available for use on the Dhoobree road. Some broad-gauge sleepers of khair, sissu, and other descriptions of wood were prepared for the Eastern Bengal and East Indian Railways. There is a large stock of timber still lying in the forest, which will be gradually removed and disposed of. The Conservator reports that there is some prospect of a market being found for sissu logs. Considerable difficulties are experienced in retaining sawyers to work in the northern tracts owing to the want of water, but arrangements have been made to transport water from Rajabhatkowa. Altogether the Buxa Division promises to be of great public utility as well as of profit to the State.

19. *Palamow.*—No change has taken place in the area of this Division. It will be some time before the forests can be worked at a profit. The charges were Rs. 15,209 against receipts amounting to Rs. 757. The Lieutenant-Governor has now under consideration the question whether all or a part of the Rohtas range of 37 square miles in the Shahabad district should not be excluded from the reserved area.

20. *Sunderbuns.*—The reserved area underwent no modification during the year, but the adjoining tracts of forest, 1,851 square miles in extent, as well as blocks containing 74 square miles in the 24-Pergunnahs and Jessore, were formally brought under protection. The chief difference between the two classes

of forest is that goran is more plentiful in the protected, and soondri in the reserved, portions. The collections were Rs. 1,71,990 against Rs. 1,73,156 in 1877-78, while there was a considerable increase under the B heading of charges. The chief causes of the decrease in the amount realized by the sale of material appear to be competition by owners of private forest, and the difficulty of obtaining convictions against persons removing wood without payment.

21. *Chittagong.*—The reserved area was not increased during the year, but it is hoped that before the close of the current season five new tracts, containing 1,150 square miles, will be formally added. There are practically no means of communication in the Chittagong forests, except along the lines of small streams and rivers. A commencement, however, has been made, and a road will be gradually constructed traversing the Kaptai, Rinkheong, and Sitapahar blocks. The Kaptai plantation did not thrive very well, owing to the comparative lightness of the rains in August and September; but the Conservator is still sanguine of success. The financial results cannot be accurately shown for the whole year separately from those of the open forests, as the latter were only made over to the management of the civil officers on 1st June. Taking half the gross expenditure for the first two months, the Conservator shows that the deficit on the reserved area is Rs. 16,407. Practically, however, these reserves have not yet been worked. The receipts were only Rs. 1,700. A considerable expansion of revenue may be looked for in the early future. The result of the new system under which the Government dues on exported produce are levied by the Deputy Commissioner is not very satisfactory. The surplus, including permit fees, was Rs. 27,634 only. The Deputy Commissioner is not satisfied that he can supervise the collectors as efficiently as the forest officers. The system, however, must have a fair trial. No doubt the falling off in these collections of late years is rightly attributed in great measure to the influence of bad seasons and temporary emigration to Arracan.

22. The value of Dr. Schlich's services as Conservator of Forests has been repeatedly and cordially acknowledged by the Governments of India and Bengal, as well as by the Secretary of State. The Lieutenant-Governor has to thank Mr. Gamble for his thoroughly efficient management of the department since it passed into his hands.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,
Offg. Secretary to the Government of Bengal.

LIBERALITY OF THE MOHARANI OF TIKARI.

No. 538, dated Calcutta, the 10th September 1879.

From—C. W. Bolton, Esq., Under-Secretary to the Government of Bengal, General (Education) Department,

To—The Director of Public Instruction.

With reference to your endorsement No. 5118 of the 16th August 1879, and its annexures, I am directed to say that the Lieutenant-Governor accepts with pleasure the offer of the Maharani of Tikari to invest Rs. (6,000) six thousand in Government securities, yielding interest amounting to Rs. 240 per annum, for the payment of the scholarship which she has founded for the benefit of such Behari boys as pass the Entrance Examination from her school at Tikari, but do not obtain a Government scholarship. The securities should be endorsed to the Accountant-General and the Financial Secretary to this Government jointly, and placed in the custody of the Accountant-General.

2. I am to add that the Lieutenant-Governor has pleasure in acceding to the Maharani's request that the scholarship may be called the "Steuart Bayley Scholarship."

3. I am further to request you to convey the thanks of Government to the Maharani, and to say that the papers on the subject will be published in the next issue of the *Calcutta Gazette*.

No. 5118, dated Fort William, the 16th August 1879.

Memo by C. H. Tawney, Esq., Offg. Director of Public Instruction.

Copy forwarded to the Secretary to the Government of Bengal, General Department, with the request that the Lieutenant-Governor's orders on the subject may be communicated to this office.

No. 194T, dated Bankipore, the 4th August 1879.

From—F. M. Halliday, Esq., Commissioner of the Patna Division,

To—The Director of Public Instruction.

With reference to your memorandum No. 2888 of the 29th April last, for warding copy of Government order No. 349 of the 21st idem, accepting the offer of the Maharani of Tikari to found a scholarship for the benefit of such Behari boys as pass successfully the Entrance examination from her school at Tikari, but who do not obtain a Government scholarship, I have the honor to send the accompanying copy of a letter, dated 17th ultimo, from the Maharani, offering to deposit with the Collector of Gya a sum of Rs. 6,000, to be invested in Government securities yielding an interest of Rs. 240 per annum. This will place the scholarship already endowed by the Maharani on a permanent footing.

2. The Maharani also wishes that the scholarship should bear the name of Sir Steuart Bayley, who opened the institution while he was Commissioner of this Division.

3. I trust you will be good enough to obtain the sanction of His Honor the Lieutenant-Governor to the aforesaid proposals.

Dated the 17th July 1879.

From—Maharani Rajrup Kuar, of Tikari,

To—The Commissioner of the Patna Division.

With reference to the scholarship founded by me and sanctioned by the Government under its letter dated the 21st April 1879, I beg to submit that two important points had been left out to be disposed of conveniently after the sanction of Government of Bengal.

First, no provision has been yet made for its permanency; secondly, no name has been given to it.

As to the first point, I beg to state that it is my desire to deposit a sum of Rs. 6,000 with the Collector of Gya, with a request to invest that sum in Government securities under the terms specified in a former letter of mine, and to apply the interest thereof in payment of the said scholarship.

Regarding the second point, I submit that, as this school was opened by Sir Steuart Bayley while Commissioner of Patna, the best name which I can propose to give it, or rather wish it to bear, would be a name after this personage, the inaugurator of the said school.

I hope you will approve of my suggestion, and request that you will kindly represent the same to His Honor the Lieutenant-Governor of Bengal for his sanction. I will be highly obliged to you for this piece of favour.

I send herewith copies of two letters for your inspection—one is from the Government sanctioning the abovementioned scholarship, and the other from myself containing the terms under which I wish the money to be invested in Government securities.

Rainfall, Weather, and State and Prospects of the Crops.

10	Dinagepore, Sept. 12 '79	15·47	Rainfall 7 78 in night of 11th. Heavy rain all the week High floods. Great part of town under water. Weather favourable to ripening rice. Prospects generally good. Some damage will be caused to some crops on low ground from inundation.
RAJSHAHYE AND COOCH BEHAR DIVN. 11	Rajshahye, „ 13 „	8·75	Heavy rain in all parts of district. Floods receding slowly Injury done to crops by floods estimated as follows:—Pooteah three-quarters of whole crop; Charghât half; rest of district generally a quarter, but less in north. What is saved will give a good yield. Mulberry and sugarcane promise well. Ganja cultivation progressing, though some injury done to young plants by excessive rain. Outturn of jute below average Public health good.
12	Rungpore. „ 12 „	12 63	Weather—wet State and prospects of crops very favourable. Recent rain beneficial to crops, especially those in high lands. Public health good for the season of year.

	DACCA DIVN.		
17	Dacca, Sept. 13 '79	5·29	Commencement of week wet and heavy latter part variable. Over greater part of district *amun* crop promises well; completely lost over one-third of southern half of district.
	Manickgunge (for week ending 10th Sept)	0 76	
	Moonshigunge (for week ending 11th Sept)	5·41	
18	Furreedpore Sept. 13 „	1·45	Weather—seasonable. *Amun* everywhere good. Jute being cut. Health good.
	Goalundo ..	0·55	
	Madaripore .	0 20	
19	Backergunge, „ 11 '79	2·15	Weather—hot and muggy. Prospects continue good, though season so far somewhat backward, ploughing for *amun* being still in progress in places. Fever still prevalent, chiefly in Patuakhali sub-division.
20	Mymensingh, „ 12 „	4 53	Some heavy rain all over district; also frequent thunderstorms, unusual at this season of year. Prospects of crops good.
21	Tipperah, „ 12 „	2·14	Weather—very changeable during week. Reaping of *aus* nearly finished. *Amun* promises well.
	Brahmunbaria .	3·30	
	Chandpore ...	5·63	
	CHITTAGONG DIVN.		
22	Chittagong Sept. 16 „	1·27	Weather—close and oppressive. *Aus* harvest nearly complete; outturn good. Transplantation still continues. Crops doing well.
23	Noakholly, „ 11 '79	4 63	Heavy showers. Harvesting of *aus* and transplantation of *amun* well advanced. Reports from all parts of district satisfactory.
24	Chittagong Hill Tracts, „ 9 „	3 55	Weather—cool and pleasant. Occasionally cloudy. Hillmen busily engaged in harvesting *jum* paddy. Transplantation in low lands nearly finished. Fever still prevalent.
	Hill Tipperah,	.....	Return not received.
	BEHAR		
	PATNA DIVN.		
25	Patna, Sept. 13 '79	3·05	Heavy rain. Rice very promising. Flood in Ganges again, but will not increase damage done by former flood.
26	Gya, „ 13 „	2·82	Weather—cloudy. Maximum reading in shade 92·5°. Transplantation completed. Prospects of *khurreef* very favourable. *Bhadoi* being cut. Cholera almost disappearing. Health of plough-cattle good.
	Aurungabad	10 11	
	Nowada ..	3·44	
	Jehanabad ...	5·16	
27	Shahabad, „ 13 „	10·09	Heavy rain for three days; flood caused; result not yet heard. Rice promises well. *Rubbee* ploughing not begun. *Bhadoi* will probably be fair.
28	Durbhunga, „ 13 „	6 45	Heavy rain during week, and Kumla in flood for third time. *Gamheri*, *murwa*, *sama*, *kangni*, and *makai* being harvested. Rain proves injurious to above crops, while it does good to *dhan*. Public health good.
29	Muzufferpore, „ 13 „	11 86	Weather—stormy, wet and cool. Prospects of rice crop continue good, but considerable damage done by floods. Blight has attacked early and late crops in thana Pupri. *Makai* somewhat damaged by strong winds and heavy rain. Public health fairly good, but cholera still in Seetamurhee sub-division.
	Hajeepore ..	2·54	
	Seetamurhee	3 77	
30	Sarun, „ 13 „	9 37	Weather—cloudy and rainy. East and west wind. State and prospects of crops on the whole fair Heavy rain which fell from night of 9th to evening of 12th has done some damage to low land rice and sugarcane; but in high lands they are spoken of as looking well. Reaping of *bhadoi* commenced. *Murwa*, *sama*, *tungni*, and *makai* being marketed. Insects doing some damage to young rice plants. Prices stationary. Public health good.
	Sewan	4 45	
31	Chumparun Sept 13 „	4 24	Incessant, but not heavy rain during last three days; too much for maize, but not enough for rice. Maize only fair; smaller grains better. Rice prospects good. Cholera still very bad to the north.
	BHAGULPORE DIVISION		
32	Monghyr, „ 13 „	7·19	Weather—heavy and wet. Fine weather much wanted.
	Begusarai ..	2·61	
	Jamui .	3 70	
33	Bhagulpore, „ 13 „	4 44	Continuous rain. Sunshine and a break in rains sadly needed. Ganges again rising. District chiefly under water.
34	Purneah, „ 13 „	25 28	Constant and heavy rain Heaviest fall on 13th, when more than 16 inches registered at head-quarters. Apprehensions of loss of crops consequent on excessive rain were expressed last week. It is hoped heavy rain this week has been local.
	Kissengunge ..	8 60	
	Arrareah ..	10·23	
35	Maldah, „ 13 „	5 25	Weather—very wet and cloudy; rain daily. Fair weather wanted. Flood slowly receding. Winter rice not affected by inundation continue good in thanas east of Mohananda. Want of sunshine, if prolonged, will tell injuriously on this crop.
36	Sonthal Perghs, „ 13 „	9·13	Continuous heavy rain. Rice continues excellent. Maize harvest shews results still worse than were anticipated; outturn not a fourth of an average crop.
	Deoghur ..	4·80	
	Jamtara	4 78

ORISSA.			
Orissa Divn. 37	Cuttack Sept. 13 '79	0·82	Weather—fair and warm; occasionally cloudy. *Beali* being reaped; yield 8 to 10 annas expected. Prospects of *saradh* not favourable. A sort of insect has appeared in nine chuklas, and doing some injury to the crop. Cholera in Mahanga chukla.
38	Pooree, Khoordá „ 11 „	1·79 1 70	Weather—variable. Weeding of *saradh* plants almost completed in Khoorda subdivision; but insects doing some damage. In pergunnahs Oldhar, Chabbiskud, Kothdes, Rahang, Kodhar, and Banchas, ryots re-transplanting some of the lands on which plants were destroyed by late flood. Much *beali*, sugarcane, cotton, *arhar*, *kalai* and *mandia* quite destroyed. Rice sells at 14¼ to 18$\frac{15}{16}$ seers a rupee. Fever and sickness still prevalent.
39	Balasore, Bhudruck „ 12 „	1·26 0·29	Weather—less cloudy and showers fewer and scantier. On low lands condition of crop fair; on high lands very unpromising owing to insufficiency of rainfall. Public health fair.
CHOTA NAGPORE.			
	South-West Frontier Agency.		
40	Hazareebagh. Sept. 12 '79	1 70	Weather—seasonable. Sufficient rain during week. Transplantation finished. *Makai* and *goondli* being cut. Prospects of crops good.
41	Lohardugga, „ 13 „	5·28	Occasional heavy showers. Very heavy rain on 10th; nearly two inches. *Makai* rather short, but other *bhadoi* crops have given a fair outturn. Prospects continue good, but prices show no tendency to fall. Public health has improved.
42	Singbhoom, „ 12 „	1·31	Seasonable, with moderate rain and alternating fine weather. General prospects continue good. *Gora dhan* yielding fairly. Fever very prevalent.
43	Manbhoom, Gobindpore „ 13 „	0·98 4·50	Little rain about Purulia, but plenty in other parts of district. Prospects of rice crop generally good at present. *Bhadoi* turning out well. Ploughing for *rabbee* continues.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

1. Demi-official letter from the Officiating Commissioner of the Rajshahye and Cooch Behar Division, dated the 25th November 1878, recommending that instead of an annual auction of ferries they should be leased for four or five years, so as to offer greater inducements to farmers to provide first-class boats, and to maintain them in a state of efficiency.
2. Circular No. 1 (Ferries), dated 3rd January 1879, to all District Magistrates and Deputy Commissioners, calling for information regarding the arrangements existing at each ferry under their control, the period for which leased, and other details.
3. Replies of District Magistrates and Deputy Commissioners to the above circular.

The law applicable to ferries in Bengal is contained in Regulation VI of 1819 as amended by Act I (B.C.) of 1866. By section IV of that Regulation, the management of public ferries is vested in the Magistrates and Joint-Magistrates; all orders therefore that have been issued from time to time in contravention of this section as enumerated above have been withdrawn. It was proposed in 1876 to amend the law in this respect, and empower the Lieutenant-Governor to transfer the administration of ferries to other officers. The proposed amendment was, however, abandoned, and if, after the issue of the orders of the Public Works Department, dated 13th August last, any ferries continue in charge of officers other than the District Magistrates and their subordinates, they should be without delay restored to the control of the Magistrates.

2. As regards receipts from ferries, the law requires (section 7) that the maintenance of an efficient police, the safety and convenience of travellers, the facility of commercial intercourse, and the expeditious transport of troops shall be first provided for, and only the surplus, after providing adequately for these purposes, shall be taken on account of Government. This surplus has to be paid into the treasury as determined by the orders of Government (clause 4), and is to be applied solely to the furtherance of similar objects, such as the repair or construction of roads, bridges, and drains, the erection of serais, or other works of a like nature.

3. The Provincial Reserve Fund, to which the surplus proceeds of ferries were ordinarily credited, has now been amalgamated with the General Provincial Revenue, and, under the most recent classification ordered by the Government of India, the proceeds of ferries are credited to Public Works, and

are thus expended in accordance with the directions of the law. The objects contemplated in clause 1, section 7, may be provided for by the Magistrate out of the gross receipts before crediting the surplus to the Government in the Public Works Department, and this is done in some districts; but it is apparently more in accordance with the spirit of clause 3, section 7, if due attention to the primary objects specified in clause 1 is secured in the agreement with the farmer of the ferry, who contracts to pay the surplus, after providing for all such expenditure, in the form of monthly instalments of rent for the ferry. The most important of these objects is the provision of safe and commodious boats, and it is evident that a ferry farmer can better afford to provide thoroughly good boats, to take care of them, and to maintain them in a state of efficiency, if he is secured in his possession of the ferry for a considerable period.

4. There is much therefore to recommend the suggestion of Mr. Wells, the Officiating Commissioner of Rajshahye and Cooch Behar, that leases for a period of years, instead of annual leases, should be encouraged. The information obtained in reply to the circular of the 3rd January last shows that in very few districts indeed are such leases now given, and the Lieutenant-Governor accordingly directs the attention of all Commissioners and Magistrates to this question. Wherever the circumstances of a ferry are not subject to much variation, and where respectable and trustworthy farmers come forward to take the lease, it would be generally advisable to put it up for a period of five years.

5. The Ferry Fund and the Provincial Reserve Fund having been abolished, all expenditure that is incurred for office establishments, for contingencies, or for any other purpose not specified in section 7, clause 1, will be debited generally as provincial expenditure, and must be incurred under the same sanction as all other provincial expenditure.

6. Under section 3 of Regulation VI of 1819, the Government has to determine whether ferries are public ferries or not; and as there are some ferries under the control of Government officers in Khas Mehals, and, it is believed, in some cases in Municipalities, which are not public ferries, care should be taken to keep them distinct from public ferries, the rules for which will not apply to them. None of the orders in this Resolution apply to such ferries, which will continue to be managed as private ferries, unless converted into public ferries according to law.

7. Under section 4 of Regulation VI of 1819, the Magistrate has power to issue orders and frame rules for the regulation of ferries. As pointed out by Mr. Pellew, the Officiating Commissioner of Burdwan, the greatest diversity is found to prevail as regards the use which has been made of this section. In some districts no orders of any formal kind appear to have been issued; in others, orders widely differing in character. The Lieutenant-Governor does not think it advisable to issue an absolutely uniform set of rules for the adoption of Magistrates in all districts, without any reference to the character of the rivers and the habits of the people. At the same time it is very desirable that some approach to uniformity should be secured. A set of rules has therefore been drawn up, based upon the recommendations of the Commissioners and on the opinion of the Legal Remembrancer, and Sir Steuart Bayley desires that it should be taken as a general specimen of the orders which ought to be issued under section 4. Such Magistrates as see no local objection to the introduction of the rules as prescribed should introduce them without change. Such Magistrates as wish to modify any rule, will submit the proposed modification to the Commissioner, who, if he concurs in it, will sanction its introduction provisionally, and on receipt of the replies from all Magistrates will submit a divisional report showing the changes which he has approved of in each district.

8. Many officers have raised great objection to allowing lessees to resign on giving 10 days' notice, overlooking apparently the provision of the law, section 9, which secures to them this privilege. To meet the difficulty, it has been made a rule that the lease shall ordinarily be for a year, and for a gross rent. The rent due up to any given date will therefore be the rent for the year; and although the lessee can resign his lease by giving 10 days' notice, he will not thereby escape liability for the rent. At the same time it is not the wish of the Lieutenant-Governor that this rule should be worked harshly, and in the

event of the death of the lessee or any other reasonable and just cause for resignation, the Magistrate should accept the resignation on payment of the proportionate rent due.

9. Section 4 also authorises the Magistrates to fix the rate of tolls to be levied at each ferry. The Government in the Public Works Department, in 1864, issued orders classifying ferries and prescribing the rates that were to be adopted by the Magistrates. The Lieutenant-Governor sees no reason to modify the rates then laid down, and accordingly they have been introduced into the code of rules appended to this Resolution. It is presumed that all public ferries are already classed under one of the heads therein prescribed, and that tolls are levied accordingly; if this has not been done, the classification should now be made and approved of by the Commissioner. Whenever any change is considered expedient in the classification of a ferry, the sanction of the Commissioner should be obtained.

10. It was reported by the Officiating Commissioner of Chittagong that a practice prevailed in the Noakholly district of granting season tickets to persons constantly using the ferries. The proposal seemed to be worthy of adoption elsewhere, if it could be introduced without injury to the farmers, and accordingly further information was called for from the Officiating Commissioner. His reply shows that no system has yet been introduced, and the practical difficulties of working such a proposal seem to be considerable. The Lieutenant-Governor is not therefore in a position to prescribe any rule on the subject. If any Magistrate sees his way to framing practicable rules for granting season tickets, he may propose them to the Commissioner.

11. It is equally desirable to introduce some uniformity as regards the form of kabulyut to be taken from ferry farmers. A specimen form is therefore appended, and the remarks regarding the rules apply to it. Magistrates who see no local difficulty in adopting it should adopt it; but the Commissioner may authorise modifications according to local circumstances.

12. The following orders are passed, division by division, with reference to the information obtained in reply to the circular of the 3rd January last:—

BURDWAN DIVISION.

Burdwan.—In the district of Burdwan all the ferries are let to the highest bidder for one year. One ferry, named the Kastogola ferry in the Sudder subdivision of the district, has been made over to the Municipality, and is said to be managed by the Municipal Commissioners of Burdwan. If this is a public ferry the transfer is illegal; the ferry must be restored to the management of the Magistrate, and only the net proceeds be credited to the Municipality.

Bankoora.—In the district of Bankoora there is one ferry, the Berai khal, where the crossing is performed by means of a raft. The Commissioner should satisfy himself whether this is a satisfactory and safe means of crossing.

Midnapore.—In the district of Midnapore there are nineteen ferries. Fourteen of these are managed by the Magistrate and five till recently by the officers of the Public Works Department. It seems doubtful whether one of the ferries, the Nuzzergunge ferry, is a public ferry or not. The proceeds are said to belong to the Municipality. The Commissioner should ascertain whether this ferry has ever been declared a public ferry, or whether it is a private ferry belonging to the Nuzzergunge Trust Estate. If the latter, it should be expunged from the list of public ferries.

PRESIDENCY DIVISION.

13. *24-Pergunnahs.*—In the 24-Pergunnahs there are thirty-four ferries, of which three are shown as municipal. It is not clear from the report whether they are public ferries under Regulation VI of 1819 or not; the Magistrate should report on this through the Commissioner.

RAJSHAHYE AND COOCH BEHAR DIVISION.

14. *Rungpore.*—In the district of Rungpore there are 139 ferries, the aggregate income of which is only Rs. 23,379 a year. It is remarked of some of them that from the 1st April they will be made over to the management of the Executive Engineer. Apparently there is some mistake in this, and a further report on the subject should be submitted by the Magistrate.

Bogra.—In the district of Bogra the Tatiali ferry is held *khas*, and an expenditure of Rs. 414 is incurred annually in its management. As half the proceeds go to the Municipality, it is not clear whether the ferry is managed by the Magistrate or by the Municipal Commissioners; if the latter, it should be transferred to the Magistrate.

Darjeeling.—In the district of Darjeeling there are ten ferries: seven of these are in the Terai, and the remaining three in the hill portion of the district. In all the ferries, except two, the expenditure exceeds the income. The proceeds are credited to the Darjeeling Improvement Fund, which also bears the expenditure. No receipts at all are shown against the two ferries on the Thibet road, which cost the Improvement Fund Rs. 1,230.

Julpigoree.—In the district of Julpigoree there are 100 ferries: some of these do not pay at all, but they are maintained by the Deputy Commissioner at the public expense to keep open communication with the sub-divisions and police-stations and outposts. The rest of the ferries are let in farm annually to the highest bidder. The income of the ferries amounts to Rs. 7,897, and the expenditure to Rs. 2,156.

DACCA DIVISION.

15. *Dacca.*—The ferries are at present let to the highest bidder for 18 months. The Magistrate states in explanation of this practice that the ferries were previously let to the highest bidder for one year, but when they were made over to the Road Cess Committee, they were once let for six months to suit the road cess year. They are now let for 18 months, to bring them back to the financial year.

CHITTAGONG DIVISION.

16. *Noakholly.*—In the district of Noakholly the system has been introduced of leasing some of the ferries for three years.

PATNA DIVISION.

17. *Patna.*—The proceeds of a small ferry called the Mustool Ghât ferry, it is said, are credited to the Cantonment Funds. The Magistrate should ascertain and report under what orders this is done. Is the ferry a regular public ferry?

Mozufferpore.—In the district of Mozufferpore the ferries are very productive. The net income of thirty-four ferries amounts to Rs. 81,624 per annum. In one ferry, that of Sohansee, a sum of Rs. 500 has been paid annually for the last 30 years as compensation to the ex-proprietors. The Commissioner should ascertain if the proprietors will accept a commutation at 14 to 16 years' purchase. Another item of Rs. 75, which was formerly paid as a contribution from the Puthra Sawaitch ferry to the Sonepore Fair, has been discontinued since 1878-79 under the orders of Government. The ferries are let in farm for one year, with the exception of two ferries, viz. the Puthra Sawaitch and the Koonahara ferries, which were let for five years, and have recently been re-let for a further term of seven years. It is stated that this year it is proposed to let all the ferries in farm for five years.

Sarun.—In this district also the ferries have been let to the highest bidder for three years.

BHAGULPORE DIVISION.

18. *Bhagulpore.*—In the district of Bhagulpore twenty-four ferries are shown, many of which are managed by the District Road Cess Committee. It is not clear whether these are public ferries under Regulation VI of 1819 or not. At most of them no tolls are levied, and they do not appear to be public ferries. The Sultangunge ferry, however, which is leased for Rs. 1,500, is managed by the District Road Committee, and this would appear to be a public ferry. The Magistrate should submit a further report distinguishing between the ferries which are public and those which are kept up free of charge by the District Committee. All public ferries must be brought under the management of the Magistrate. The ferries in this district are all leased for periods exceeding a year.

ORISSA DIVISION.

19. *Cuttack.*—In the districts of Cuttack and Balasore the system of taking a gross rental from the farmers, and incurring all expenditure on account of Government, is carried out to the fullest extent. The expenditure is Rs. 9,206

in Cuttack against an income of Rs. 18,410, and Rs. 3,212 in Balasore against receipts of Rs. 8,110. As pointed out above, it will be simpler if it can be arranged as in other districts for the expenditure to be thrown upon the farmers, and only the net rental taken from them. This seems to be already done in Pooree where no expenditure is incurred, except on account of office establishment.

CHOTA NAGPORE DIVISION.

20. *Hazaribagh.*—In the district of Hazaribagh there is only one ferry on the river Damoodah on the road from Hazaribagh to Ranchee. It is said to be managed by the Public Works Department, but the Magistrate has probably now taken it under his direct charge.

21. A statement is appended showing the income of all ferries for the year 1878-79, and other details as extracted from the reports of the Magistrates and Deputy Commissioners. If the information thus tabulated is incorrect as regards any district, corrected figures should be furnished.

ORDER.—Ordered that copies of this Resolution, together with its annexures, be forwarded to all Commissioners of Divisions for circulation to all District Magistrates and Deputy Commissioners, and to the Public Works Department of this Government, for information and guidance.

Ordered also that a copy of this Resolution, and of the annexures, be forwarded to the Accountant-General, Bengal, for information, and that it be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

H. L. HARRISON,

Offg. Secretary to the Govt. of Bengal.

NOTIFICATION.

The 23rd September 1879.—It is hereby notified for general information that the Lieutenant-Governor has, under the power vested in him by Section 17, Act IV (B.C.) of 1876, prescribed the following revised rules for the election of Commissioners for the town of Calcutta :—

Rule 1.—The next election of members of the Municipal Corporation of the town of Calcutta under the Calcutta Municipal Consolidation Act, Act IV (B.C.) of 1876, shall be held on such dates as shall be notified by the Government of Bengal in the *Calcutta Gazette*.

Rule 2 —Under section 18 of the Act, any person qualified to vote at an election, or to be elected as a Commissioner, may at any time, not being less than six weeks or more than three months before the election takes place, apply personally or by letter to the Chairman of the Commissioners for the registration of his name as such voter or person qualified for election, and shall at the same time name the ward or wards of the town in which he is entitled to vote. After the receipt and examination of all such applications, and at a date not less than one month before the election, a printed list of all persons qualified to vote or to be elected will be prepared and affixed by the Chairman of the Commissioners in some conspicuous place in or near his office, and at the police-station of each of the wards of the town, for general information, and such lists will be open to public inspection for fifteen days after the date of publication. In virtue of the authority conferred on the Chairman by the second paragraph of section 19, Act IV of 1876, "the Chairman shall be at liberty at any time to revise the said list for the purpose of removing therefrom the name of any person not duly qualified and erroneously entered therein, or of recording the name of any person duly qualified and erroneously omitted therefrom.

Rule 3.—No person shall be qualified to vote at an election, or to be elected as a Commissioner, unless his name shall be registered as prescribed by section 18 of the Act.

Rule 4 —The election shall be held at the stations hereinafter appointed for the respective wards, which are numbered and defined in the first schedule of the Act, that is to say—

Wards 1, 2, 3, at the Burtollah Police Section.
Wards 4, 5, 6, at the Jorasanko ditto.
Wards 7, 8, 9, 10, 11, 12, at the Town Hall.
Wards 13, 14, 15, 16, 17, at the Municipal Office.
Ward 18, at Hastings' Police Section.

Rule 5.—The Municipal Commissioners shall appoint a polling officer to preside at each station, and may pay to each officer so appointed such reasonable remuneration for his services as they may think fit. Each polling officer so appointed shall keep order at his station, shall regulate the number of voters to be admitted at a time, and may exclude all other persons, except the clerks, the agents of the candidates, and the constables on duty.

Rule 6.—Each polling officer shall be supplied by the Chairman of the Municipal Commissioners with a copy of so much of the register of the persons entitled to vote as may relate to the ward or wards for which such polling officer is appointed to take votes, and also with a copy of the register of persons qualified to be elected as Municipal Commissioners.

Rule 7.—Voting papers in the form appended shall be prepared by the Chairman of the Municipal Commissioners, and furnished by him free of charge to the electors on application at his office; and all persons desiring to vote must make use of voting papers in the form appended, and must give all the information therein required.

Rule 8.—On the day fixed for the election, the polling shall commence at 9 A.M., and shall close at 6 P.M., precisely, and each voter shall present or forward in a sealed cover to the polling officer his voting paper, with the name of the person, or names of the persons, for whom he desires to vote, written legibly thereon in the English language, and with all particulars duly filled in.

Rule 9.—On the presentation of each voting paper, the polling officer shall forthwith note on the back of each voting paper whether it was presented by the elector in person, and, if not, name in full and residence of person presenting it.

Rule 10.—The polling officer shall satisfy himself that the voter is qualified to vote under Rule 3, and that the person for whom he votes is qualified, under Rule 3, to be elected a Municipal Commissioner. Should the polling officer be of opinion that the voter is not qualified to vote, or that the person for whom he votes is not qualified, under Rule 3, to be elected a Municipal Commissioner, he shall record his objection on the back of the voting paper in the manner prescribed by Rule 13, and the objection shall be dealt with in the manner prescribed by the said rule. Should the polling officer be of opinion that neither of these two objections applies, he shall, in the register of qualified electors furnished to him under Rule 6, note off against the elector's name the fact of the vote or votes, and the person or persons for whom the vote or votes have been given. In case the polling officer on coming afterwards to note off a later vote or votes from the same elector, find that the two sets of votes are naturally inconsistent, or that they more than exhaust the elector's voting power, then the polling officer shall record on the back of all the voting papers from the elector that they are invalidated under Clause 2 of Rule 12, subject, however, to the proviso in the clause. Any votes thus objected to, and not subsequently validated under the proviso of Clause 2, Rule 12, shall be dealt with according to Rule 13.

Rule 11.—After noting the above information, the polling officer shall attach a consecutive number to each voting paper, and shall, under the said number, affix his signature. The

polling officer shall then read out in a loud voice three times the name and residence of the elector, and the names and residences of the person or persons for whom he votes.

Rule. 12—Up to the close of the poll, as provided for in Rule 14, any person present at the polling station shall be at liberty to object to any voter or intending voter on one or other or both of the following grounds, but no other grounds:—

1*st.*—That his name is not on the register of voters prescribed by section 18 of the Calcutta Municipal Consolidation Act, Act IV (B.C.) of 1876.

2*nd.*—That he has already voted or had previously voted at this election to the full extent of his voting power: provided, however, that a voter or intending voter may appear in person before the polling officer and declare which of any inconsistent votes shall be valid and which shall be cancelled.

Rule 13.—If any objection authorized by the next preceding rule shall be made to any voter, the polling officer shall, on the back of the voting paper, record the name and residence of objector and the nature of objection, and shall direct, verbally or by letter, the objector and the voter to appear within three days from the day of the election before the Chairman of the Commissioners, and the decision of the Chairman of the Commissioners, made after due enquiry into the objection, shall be final.

Rule 14.—At the close of the poll, the polling officer shall forward all the voting papers, arranged according to their consecutive numbers, in a packet duly sealed and secured, to the Chairman of the Municipal Commissioners.

Rule 15.—The polling officer shall, at the close of the day, transmit to the Chairman of the Municipal Commissioners a list of the objections taken by him under Rule 10, or admitted by him under Rules 12 and 13, and the said Chairman shall, after hearing and deciding upon all such objections, make lists of the votes given in each ward, and shall record the same in his office.

Rule 16.—The Chairman of the Municipal Commissioners shall, within ten days after the election, publish in the *Calcutta Gazette* and at the Municipal Office the names of the persons in whose behalf votes have been recorded, and the number of votes given for them respectively; and the candidates for whom the greatest number of votes shall have been given in each ward shall, in the proportion assigned by Act IV (B C.) of 1876 to the respective wards, be deemed to have been elected members of the Corporation for the said wards accordingly.

Rules made by the Lieutenant-Governor of Bengal under Section 2, *Act VII* (*B. C.*) *of* 1879, *for the examination of, and the granting of certificates to, Commanders of Inland Steam Vessels.*

N B.—The provisions of Rule 1 will not be applied in the case of candidates who are at the date of the publication of these rules actually in command of a river steamer.

1. Candidates for certificates as commanders of inland steam vessels must be not less than 21 years of age, and have served at least 3 years at sea, and 3 years as mate of a river steamer, or master of a river flat.

2. Every such candidate shall apply for permission to appear for examination in a printed form,* to be filled up by him, and forwarded to the Port Officer, Calcutta, together with such documentary evidence as shall satisfy the Port Officer that the candidate has complied with the conditions of Rule 1 above, and that he is of sober habits and of good character. Each candidate shall forward with his application a fee of Rs. 16.

* Copies will be supplied to intending candidates by the Port Officer, Calcutta, on application.

3. The Port Officer shall notify to accepted candidates the date and hour of examination, in fixing which he shall have due regard to the convenience of their employers. The fees of any candidate who is not accepted shall be returned to him.

4. The examination of candidates shall ordinarily be conducted by the Committee which sits quarterly for the examination of pilots, but the Port Officer may at any time convene a special committee for the examination of candidates under these rules.

5. Before proceeding to examine any candidate in the manner provided in the rule next following, the Committee shall carefully test his ability to distinguish the following colours which enter largely into the combinations of signals by day and night, viz. black, white, red, green, yellow, and blue. In the event of any candidate failing to satisfy completely the usual tests for colour blindness in respect of all of these colours, the Committee will decline to proceed with his examination, and will report the case through the Port Officer for the information of the local Government.

6. The Committee will examine each candidate apart, and *viva voce*, in each and all of the following subjects:—

(1).—The names and courses of the river reaches from Calcutta to Mud Point, and the extent of the sands in such reaches.

(2).—The sets of the tides within the said limits.

(3).—The names of all Points in the river within the said limits.

(4).—The candidate's general knowledge of soundings in the channels and over the sands within the said limits.

(5).—The tracks over the Moyapore and Royapore flats, the Fultah tracks, and the Eastern and Western Guts.

(6.)—The marks for fair channels or hauling into reaches where such exist.

(7).—The marks for the limits of sands where such exist.

(8).—The rules of the road.

(9).—The management of river steamers under all contingencies of meeting, overtaking, and passing vessels in all possible positions within the limits described in No. 1.

(10).—The anchorages to select in view of the requirements of sea-going vessels.

(11).—The Tide Table.

(12.)—The rules of the Port of Calcutta including the prescribed Storm Signals.

(13).—The provisions of Act VII of 1879.

7. If the candidate satisfy the Committee as to his knowledge of the subjects set forth in the foregoing rule, and generally as to his competency to command an inland river steamer, they shall certify the same to the Port Officer, who will then grant a certificate of such competency in the form appended to these rules.

8. No candidate who fails to satisfy the Committee shall be at liberty to submit a fresh application for examination until six months have passed from the date of such failure.

The following are the conditions of sale:—

1.—The Opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 13 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 4 o'clock in the afternoon of the fifth day after the sale: or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts, or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said promissory notes shall be absolutely payable in any event and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the last-mentioned condition, if remaining unredeemed at 4 o'clock of the fifth day following the day of sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of Opium upon which the prescribed deposit may not have been made before 4 o'clock of the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to the delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such note or from the additional liability for the loss and expenses of such resale as provided for in clauses No. 5 and No. 6.

9.—The Opium advertised for sale shall be paid for not later than by 4 o'clock of the fifteenth day from the day of sale; and in case any lots of such Opium shall not be so paid for and adjusted, then the cash deposit made under the 5th Condition, or any public securities that may have been deposited on account of such lots or chests shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of Opium after making full payment as above prescribed shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present Conditions will be received in this Office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the

first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these Conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency Opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the Opium advertised for sale; No. 2, report of the examination of such Opium.

17.—The public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1877-78, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the drug when packed at Behar and Benares, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the Opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the Opium for shipment.

19.—It is hereby further notified that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of Behar and Benares Opium declared as above for sale at the twelve sales of the year 1879, there shall be delivered to them, at the average of the particular sale or sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of Opium required by them at any particular sale within thirty days from the advertisement of such intended sale: provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agents of the French Government shall not make the requisition for Opium within the time above mentioned, the entire quantity of about 60,000 chests of Behar and Benares, as above estimated, will be brought to sale in the usual manner; and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing after the date fixed for payment, or by selling such Opium, or any portion of it at any subsequent monthly sale in addition to the quantity which in this advertisement is approximately mentioned as the quantity to be sold at such sale; or by selling such Opium at a sale to be held expressly for the purpose.

Article of the Convention above referred to.

Article VI.—"With regard to the trade in Opium, it is agreed between the high contracting parties that at each of the periodical sales of that article there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christian Majesty, or by the persons duly appointed by them, the number of chests so applied for, provided that such supply shall not exceed three hundred chests in each year, and the price for the same shall be determined by the average rate at which Opium shall have been sold at every such periodical sale, it being understood that if the quantity of Opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much in reduction of the three hundred chests hereinbefore mentioned. The requisitions for Opium, as aforesaid, are to be addressed to the Governor-General at Calcutta within thirty days after notice of the intended sales shall have been published in the *Government Gazette*."

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Midnapore, will be put up to sale at the Midnapore Collectorate on Monday, the 29th September 1879, corresponding with 15th Assin 1287 Amli.—

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1*st*.—The estates to be sold to the highest bidder above the upset price. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in case of original sale.

Notes on Forestry.

BY C. F. AMERY.

Deputy Conservator, Forests, N. W. Provinces.

THIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and is recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

May be obtained of Messrs. King, King & Co., Bombay, and of Messrs. Wyman & Co., Calcutta. Price, Rs. 3-8, or including postage, Rs. 4. Or of the publishers, Messrs. Trübner & Co., Ludgate Hill, London. Price five shillings.

The Indian Law Reports.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

	Without postage.	With postage.
For the Calcutta Series...	Rs. 35	Rs. 40
„ Madras Series ...	„ 8	„ 9
„ Bombay Series...	„ 8	„ 9
„ Allahabad Series	„ 8	„ 9

RESOLUTION ON THE GENERAL ADMINISTRATION REPORT OF THE BURDWAN DIVISION FOR THE YEAR 1878-79.

GENERAL DEPARTMENT.—MISCELLANEOUS.

Calcutta, the 17th September 1879.

RESOLUTION.

READ—

Annual Administration Report of the Burdwan Division for the year 1878-79.

MR. RAVENSHAW, who submits the report, only assumed charge of the office of Commissioner on 21st December, and he apologizes on this ground for his inability to make the report valuable and interesting from personal knowledge of the division. The report, however, is generally full and complete. Mr. W. S. Wells, Mr. F. H. Pellew, and Mr. Ravenshaw all acted as Commissioner during the year: Mr. Pellew from 30th May to 20th December. Messrs. Wilson and Grant held charge of the Midnapore and Beerbhoom districts throughout the year, and Mr. Waller only left Bankoora 13 days before the close of the period. Mr. Larminie, Magistrate and Collector of Burdwan, was absent on privilege leave for three months. Mr. Hime held charge of the Hooghly district for ten months out of the twelve, and Mr. Wace, Magistrate of Howrah, was only

disturbed on 22nd November by the appointment of a senior officer. The Commissioner remarks that there have been frequent changes, but the Lieutenant-Governor would be glad if the exigencies of the public service admitted of so much continuity in the administration of the districts of every division as was secured last year in those of Burdwan.

2. *Tours.*—Mr. Pellew visited Midnapore, Hooghly, Beerbhoom, and Burdwan districts, and Mr. Ravenshaw, Beerbhoom, Hooghly and Burdwan. Mr. Ravenshaw explains that he has postponed thorough inspection of the district offices partly in consequence of the removal of his head-quarters office to Chinsurah, and partly in order to make himself first thoroughly acquainted with the details of his own office. The Lieutenant-Governor trusts that nothing will be allowed to interfere with a prolonged and thorough tour by the Commissioner during the approaching cold season.

Mr. Larminie in Burdwan, and Mr. Wilson in Midnapore, appear to have made the longest and most useful tours, and the most thorough inspections. Mr. Larminie is reported to have visited every part of his district during an almost uninterrupted tour of four months, and to have inspected "everything that could be inspected." Mr. Wilson spent 106 days in the interior of the Midnapore district and gave personal attention to every point of interest and importance. The Lieutenant-Governor sees no reason why nearly all district officers should not discharge this, perhaps, the most important part of their duty, as efficiently as the Collector-Magistrates of such heavy districts as Burdwan and Midnapore. The Collector of Bankoora might well have spent more than two months and seventeen days in camp. Mr. Hime, Collector of Hooghly, was only seventy-three days in camp. This, though an improvement on the general practice in Hooghly, was hardly sufficient. The circumstances of Howrah are peculiar, and the Lieutenant-Governor accepts as sufficient the tours aggregating fifty-three days made by Messrs. Price and Wace. Of such movements as were made by Mr. Grant, Collector of Beerbhoom, nothing is known. He gave no programme of his tour, and he kept no diary. He reports that he was out at various periods, and that his tour extended over portions of five months. He has kept no record of the names of the places visited, or of the dates of his visits; nor can he specify any work performed except testing of license tax assessments. The question of Mr. Grant's general administration has been separately dealt with. The tours of sub-divisional officers were generally long and useful. Mr. Andrew in Contai, and Messrs. R. C. Dutt and A. Borooah in Cutwa and Jehanabad, appear to have performed this duty with much efficiency. In Serampore there was no regular tour. Mr. Harding's movements were arrested by illness, and Mr. E. A. Bradbury, who succeeded him on 12th January, appears to have contented himself with occasional visits to the different municipalities. The Commissioner rightly observes that Mr. Bradbury should have done more than this.

3. *Weather, harvest, and public health.*—The rainfall in the different districts was very unevenly distributed. The total quantity registered ranged from 45 inches in Bankoora to 70 inches in Beerbhoom. In the previous year the range was only from 51 inches in Midnapore to 58 in Burdwan. In Bankoora the fall was both scanty and unseasonable, and the result was a poor harvest. In Burdwan there was an average outturn, in Beerbhoom and Midnapore the harvest was better than usual, and in Hooghly it was abundant.

The general health of the people was not so good as in the previous year, and much mortality was caused by malarious fever. The season was marked by a striking advance of the epidemic on to the laterite tracts of country which have hitherto suffered little. In Midnapore and Beerbhoom this was notably the case. The Lieutenant-Governor observes that the cinchona febrifuge was found very efficacious in the treatment of cases at the dispensary, which was generously supported by Mr. Farquharson of Elambazar in Beerbhoom at his own expense, and in a temporary dispensary opened by the Magistrate in the affected tract. No doubt this cheap drug will prove of great utility to the public health as it becomes known to the people. In Hooghly the epidemic was very severe between August and January. In connection with this serious prevalence of a virulent type of fever, the question of village drainage is of great importance. The attention of all district officers was specially drawn to this by Government Resolution of 29th April 1878, and it was pointed out how much might be

done to improve the sanitary condition of the people if Government officers would only interest themselves personally in the matter, and assist the inhabitants in accomplishing the small and inexpensive works which in many cases would suffice to remove the cause of much suffering and death. The Lieutenant-Governor regrets very much to learn that nothing whatever has been done to carry out the wishes of Government in Hooghly and Beerbhoom. No report has been received from Beerbhoom, but it is doubtless correctly inferred that the matter has received no attention from Mr. Grant. The special report to be shortly submitted will be considered in the Sanitation Department. Meanwhile Sir Steuart Bayley would strongly impress on district officers the great importance of doing what may be possible to indicate to the people the improvements required, and to assist them in carrying them out by such contributions as may be available from special funds, and by lending the services of skilled agency.

There was a good deal of cholera in Bankoora, and of small-pox in Bankoora and Midnapore. The gross number of vaccinations reported in Burdwan, Beerbhoom, Midnapore, and Howrah was 220,583. The number of persons vaccinated in the Hooghly and Bankoora districts cannot be accurately stated. Most of the municipalities, however, are said to have entertained vaccinators of their own, and 1,052 persons were vaccinated in the Bankoora town, and 1,387 at the Hooghly Emambarah Hospital. Mr. Wilson urges that a Deputy Superintendent should be attached exclusively to the Midnapore district. His remarks will be communicated to the Medical Department for consideration.

4. *Material condition of the people, wages and prices.*—There is unanimous testimony to the prosperity of the people, the result of good harvests, high prices, and a liberal demand for labour. Mr. Ravenshaw says that, returning to Western Bengal after a long absence, and coming from a province still so backward as Orissa, he was struck with the marvellous advance in wealth and comfort which has occurred in the interval. The Lieutenant-Governor would have been glad to see the extracts to which he refers as given by the Collector of Burdwan from the sub-divisional reports of Cutwa and Jehanabad. It would seem that Messrs. Dutt and Borooah have found evidence of a marked change for the better in the condition of the peasantry during the past three or four years. The purely labouring population of Raneegunge is also said to be prosperous. The Collector of Beerbhoom points to the 2,000 perpetual leases registered in that district during the last three years as evidence of permanent improvement. In this district also wages have risen 50 per cent. The statistics of emigration to the tea districts contribute further indications of the increasing demand for labour within the division, and the removal of causes which formerly drove large numbers to leave their homes:—

	1875-76.	1876-77.	1877-78.	1878-79.
Midnapore	1,885	1,292	1,275	626
Bankoora	2,457	1,140	730	325
Beerbhoom	1,109	834	....*	253

* Figures not given.

Hooghly and Howrah import labour largely from Behar, Orissa, and Midnapore for permanent or temporary employment in mills and ware-houses and on brick-making and tank-digging. The parsimonious habits of the labourers from the Behar districts are the cause of much mortality and throw a serious charge on the local hospitals and dispensaries. This is notably the case at the Howrah General Hospital.

The prices of common rice ranged between about 10¾ seers for the rupee in Hooghly and 15 seers in Bankoora. During the previous year the range was from 13 seers in Hooghly to 20 in Bankoora. As has already been observed, there has been a rise in labour corresponding with the increase in the price of food. In Bankoora ordinary labourers, who a few years ago would have been content with Rs. 3 a month, demand Rs. 5. In Midnapore there has been an equally marked rise.

5. *Manufactures and Mines.*—No new jute or cotton mills were opened during the year. Four jute mills were at work in the Hooghly district, and five in Howrah, containing altogether 2,230 looms. In Howrah the Ghoosery and

Bowreah Cotton Mills continued at work. The Commissioner estimates the total number of persons who find employment in Howrah in the paper, cotton, and jute mills, the iron manufactories, the nine dockyards, the workshops and goods sheds of the East Indian Railway, and the various industries of the town at little less than 20,000. The manufacture of silk in this division, as elsewhere, was in a very languishing condition during the year. Messrs. Watson & Co. closed their four factories at Ghattal for six months, and of three under native management, only one did full work. In Bankoora the native manufacture of ordinary silk is falling off, and in Beerbhoom the prospects are gloomy. There is, however, a brisker demand generally for tusser silk. Cotton-weaving by hand is gradually declining, but the finest qualities, such as are made at Khanakool, continue to find a ready market. The manufacture of brass and copper utensils is a common industry. The Sub-Divisional Officer of Ghattal estimates the profit from working up a maund of copper and tin into *kansa* vessels at Rs. 3-13-6, and of copper and zinc into *pital* at Rs. 3-15-6.

The pottery works in the Raneegunge sub-division continue to flourish, and there is a prospect of ultimate success in iron-smelting. The year was a prosperous one for the Coal Companies of Raneegunge. There was a large demand, and production was greatly stimulated. The output is estimated to have been 523,097 tons, against 467,924 tons, the average of the previous three years. The number of persons employed was 388,931 men, 194,647 women, and 27,277 children. No accident of a serious nature occurred in the mines during the year. The question of legislative provision for inspection of works of this nature is under consideration. The stone-quarries at Susunia in Bankoora are said to be doing well.

6. *Trade and Commerce.*—The export trade in rice was not so active as in the previous year; but it was still very considerable. It is not possible to furnish accurate figures of the exports from any district, but the traffic registered by the Midnapore Canals gives a good idea of the current of trade with the alluvial and litoral tracts of Midnapore and the north of Balasore. The following statement shows the exports of rice and paddy by these routes during the past two years:—

	1877-78.	1878-79.
	Mds.	Mds.
High Level Canal	23,54,006	9,59,394
Low „	13,42,829	12,94,604

The falling off on the upper canal is of course mainly due to the cessation of the Madras famine. The traffic, however, was also considerably affected by the closing of some reaches of the canal for repairs. That the volume of the export trade by the Tidal Canal should continue to be so great speaks well for the prosperity of the litoral tracts. Balighai, a mart connected by water with the head of the canal at Kalinugger, is rapidly rising in importance and receives large quantities of produce by road from North Balasore. A great deal of the produce of this part of the country also finds its way to Calcutta by the outer route, through the Russulpore and Huldi rivers, during the fair season. The weight and value of the imports by the two canals were—

	Weight.	Value.
	Mds.	Rs.
1877-78	11,54,306	90,32,251
1878-79	13,52,055	97,29,198

7. *Public feeling.*—Mr. Ravenshaw reports that, generally speaking, the people of the division were prosperous and contented. The license tax was of course the subject of unfavourable comment, but it would appear that objections were urged rather against inequality of incidence than against the principle of the measure. There was a feeling that the assessable minimum was rather low, and that there should have been an intermediate grade between the fourth and fifth classes, that is, between incomes of Rs. 250 and Rs. 1,000. The Commissioner adds—"In a few instances haphazard and indiscriminate assessments by circle officers went a great way to intensify this feeling of dissatisfaction. Every possible endeavour has been made to give full and careful hearing to all

objections preferred, and the tact and judgment of revising officers have rectified errors of original assessment. License tax is doubtless unpopular with those who have to pay it; but I have found few who demurred to its being in principle good when justly assessed." With reference to foreign politics, he says—"The Afghan war engaged a share of public attention in places contiguous to Calcutta, but the interest shown in the war assumed in most instances the form of apprehension of an impending 'war tax' to cover its cost."

8. *The Public Press.*—Two weekly vernacular papers were started during the year—the *Sanjivani* in Burdwan and the *Dibakar* in Beerbhoom. The latter has apparently since ceased to exist. The Collector of Hooghly notices that the tone of the Native Press in his district has been more moderate since the passing of Act IX of 1879. The Commissioner says—"Calcutta English and Vernacular papers have considerable circulation; there appears at any rate among the educated classes to be an increasing desire for news, and a good deal of information of what is going on in the world may be found in every village."

9. *Administrative changes*—There is nothing to report under this head beyond the removal of the Commissioner's office from Howrah to Chinsurah, and some changes in the police stations and outposts of Bankoora and Hooghly. The district jurisdiction changes, to which the Commissioner refers, will take effect during the current year, and will properly be treated of in the next report.

10. *Statistical and agricultural.*—As the Commissioner anticipated in the last report, Mr. Grant has failed to re-write the statistical account of three thanas in Beerbhoom—a work entrusted to him more than two years ago. Meanwhile, however, the Statistical Department of this office, having failed to elicit any reply to repeated reminders, have already published the original report. The matter may therefore be dropped. Mr. Larminie deserves credit for his success in organizing an agricultural exhibition at Burdwan. The sugar mills invented by Messrs. Mylne and Thomson of Beheea are said to have attracted considerable attention, and to have found many purchasers.

11. *Police, Crime, and Civil Justice.*—The conduct of the police has been generally fair. In Bankoora the force is rather inefficient, owing to recent weak administration. In Burdwan there was one conspicious case of misconduct, in which an Inspector was dismissed the service. In Beerbhoom there has been a considerable improvement. Complaints are still made on all sides of the inefficiency of the Municipal Police. This must be attributed to the general rise in wages, which renders it impossible for the municipalities to retain the best class of men for this duty. The Lieutenant-Governor has already stated his views regarding the working of the Village Chowkidari Act in the Resolution on the Police Report. The decision of the High Court in the case of Poran Sing, sirdar ghatwal of Bankoora, must greatly strengthen the hands of the local officers in dealing with this refractory body of men, and it is hoped that the performance of efficient service will now be insisted upon.

The number of cognizable cases reported again shows a decline. The figures are—

1876	1877	1878
17,077	15,816	15,153

There was a decrease in the number of cases reported as false, and in the number in which the police abstained from enquiry. There was a falling off in the proportion of convictions obtained. There was a serious increase in dacoity in Beerbhoom, which the Magistrate strangely attributes to the prosperity of the people. There were no convictions, and this is explained on the theory that, as dacoities have of late been of the rarest occurrence, the Beerbhoom police have got out of practice in dealing with them. This is a view which the Lieutenant-Governor is unable to adopt. The police returns show that there were 18 cases in 1875, 58 cases in 1874, and 18 cases in 1873. In non-cognizable crime there was an increase, but only under the pettiest heads.

Regarding Civil Justice the report is very meagre. Some useful information as to the nature of the prevalent litigation, its variations, the views taken by the people of the system of justice administered, the sufficiency or otherwise of the courts, might always be furnished by observant district officers. There was an increase in the number of cases instituted in Midnapore during the

second half of the year, owing to rent disputes in the Contai sub-division. There was a falling off in Bankoora, owing, it is believed, to the prosperity of the agricultural classes, and their consequent ability to discharge their obligations. The Collector of Burdwan complains of the difficulties and delays experienced in executing decrees.

12. *Land Revenue.*—The proportion of the demand collected during the year was only 96 per cent. against 97·7 in 1877-78 and 98·3 in 1876-77. There was a falling off under every class of estate, as the following table shows:—

	1876-77.	1877-78.	1878-79.
Class I.—Permanently settled estates	99·2	99·3	98·4
„ II.—Temporarily „ „	88·7	80·9	71·5
„ III.—Government „	65·6	61	57 1

The greater portion of the balance outstanding in Classes II and III is due from Midnapore, from Majnamoota, and other estates held khas or let in farm and from the Bullorampore Government Estate. The explanation is not altogether satisfactory. The settlements effected during the year show a net increase of Rs. 4,311, of which Rs. 223 were contributed by original settlements.

Operations under the Land Registration Act have been completed in Burdwan, and nearly completed in Bankoora and Beerbhoom. There are still large arrears in Midnapore and Hooghly. The following statement shows the progress made:

	No. of applications received.	No. disposed of.	No. pending.
Burdwan	19,299	19,299	...
Bankoora	1,730	1,690	40
Beerbhoom	4,073	4,072	1
Midnapore	29,603	20,070	9,533
Hooghly	16,402	11,480	4,922

The results in Burdwan are creditable to the Collector.

The results of sales of estates for arrears of revenue are interesting, as showing how eagerly land is sought as an investment for capital. The average purchase money was nearly fourteen times the Government revenue. In Burdwan it was nearly twenty-five times the revenue.

13. *Miscellaneous Revenue.*—There was an increase of 1·2 per cent in the Excise revenue realized during the year compared with that collected in 1877-78. Opium and tari show an increase, and country spirit and ganja a decrease. There was a decrease of 1·8 per cent in the receipts from sale of stamps. There was a large falling off in court fee stamps, owing to the decrease in operations under the Land Registration Act. The Commissioner does not deal with the license tax collections in this report.

14. *Railways and Irrigation works.*—The Commissioner reports that the Railway Police have worked in excellent accord with the local police and the Magistrates, and that, so far as his personal observation goes, the line is well and carefully worked. There was only one case of theft of spikes during the year.

The increase in the number of five-year irrigation leases in Midnapore is satisfactory. On 31st March last the number of acres under leases for this term was 56,167 against 19,550 on 31st March 1878. With reference to the irrigation and drainage projects in the districts of Hooghly and Burdwan the Commissioner says—"The Joojooty scheme engaged for a considerable portion of the year the attention of this office, and of the Collectors of Hooghly and Burdwan. Frequent meetings were held, and no pains spared to excite public interest in the scheme. The subscriptions promised bid fair to aggregate one lakh of rupees, and this amount will be available if ultimately Government may be able to provide the balance of four lakhs. At present the project is in abeyance. The Dancoonee drainage works have proved very beneficial to the people of the tracts through which they pass ..... The Selimabad sluice is reported to have been of no advantage this year, there being more than enough water without it during the rainy season. An exceptionally heavy fall of rain occurring just about the time the sluice was opened, caused some damage from flood. The sluice will, however, prove of inestimable benefit in years of scanty rainfall."

15. *Roads.*—Fair progress has generally been made in improving and extending communications. In Midnapore, however, matters are still less forward

than they should be, owing, it is said, to delay on the part of the late District Engineer in submitting projects for approval. This, however, is a difficulty which admits of easy remedy, and the Lieutenant-Governor trusts that it will not again be necessary to notice a want of activity in Midnapore in this very important matter. The advantage of planting mango, jack, and other indigenous fruit-bearing trees along the lines of road was specially impressed on the district officers in Government letter No. 10 of 28th October 1878. It appears that provision has been made for expenditure on this work in the Bankoora and Hooghly budgets. It is not known that any action has been taken in the other districts. This is an improvement which can be gradually effected at a very small cost, and the Lieutenant-Governor would again express a hope that due attention may be given to it.

16. *Education.*—The following statement shows the fluctuations in the number of schools and pupils in each district during the past two years:—

	Number of Schools		Number of Pupils.		Number of Pupils to each 1,000 of population	
	1877-78	1878-79	1877-78	1878-79.	1877-78.	1878-79
Burdwan	1,304	1,627	43,193	49,586	17 7	24 36
Bankoora	480	453	14,410	12,095	27 3	23 91
Beerbhoom .	435	421	12,362	12,473	17 7	17 8
Midnapore	3,745	3,436	73,032	66,021	28 6	25·9
Hooghly ...	498	523	16,217	16,500	21 4	22 1
Howrah	127	369	6,449	13,875	8 8	18 9
Total .	6,589	6,831	165,663	171,150	22·7	24 5

There was thus a general increase in the division. This was chiefly contributed by Howrah and Burdwan. As a rule, it may be said that there is hardly any department of the administration in which the personal interest taken by the head of the district is so readily reflected as in that of education. Where the Magistrate pays special attention to the schools of his district, and particularly to primary schools, the result is at once seen in an increase in their number and in the number of pupils attending them. The falling off in Bankoora and Midnapore is attributed to the frequent outbreaks of fever and small-pox.

The following statement gives the statistics of primary education:—

Districts.	Population	Number of Primary Schools		Number of Primary School Pupils.		Number of Primary Pupils for every 1,000 of the Population	
		1877-78	1878-79	1877-78	1878-79	1877-78.	1878-79.
Midnapore	2,545,179	3,599	3,396	68,000	60,878	26 7	23 9
Bankoora	526 772	423	402	11,597	10,033	22	19·04
Burdwan ..	2,(34,745	1,068	1,404	32 219	39,141	15 8	19·23
Beerbhoom	693,921	363	378	9 262	9,897	13 3	14 28
Hooghly	757,490	365	375	7,953	8,331	10 5	10·99
Howrah	731,057	48	305	1,809	9,683	2 4	13 2
Total .	7,201,173	5,871	6,157*	130,818	137,333	17 9	19 15

* Including three Girls' Schools supported from the Primary Fund

In Burdwan the fixed monthly payments to *pathsalas* were reduced, and the surplus was formed into a fund for rewarding the best teachers at the close of the year. Mr. Larminie reports that this experiment has been found successful. In Beerbhoom fixed stipends have been altogether set aside, and the grant has been divided into 400 prizes thrown open to competition by every primary school in the district. Mr. Grant writes thus of the working of this system—

"It has given a great stimulus by admitting to a share of the grant all who can earn a claim to it, but had previously no hope. In this stimulus every *pathsala* shares, and there is now so great an emulation that the character of the education given has certainly risen. Most undoubtedly the number of boys in each school who are now efficiently taught in elementary subjects has materially increased; and I have no hesitation in saying that, owing to the exertions that will everywhere be made under the new system to earn a share of the rewards from the primary grant, the improvement in this direction will go on increasing."

17. *Committees.*—As usual the various Committees in this division have shown an intelligent interest in the work entrusted to them, and a willingness to assist the officers of Government with their local knowledge and experience. In Bishenpore the Municipal Commissioners have done much to improve the sanitation of the town, though their meetings can only occasionally be attended by the Magistrate. In the Midnapore Municipality, and indeed in all the larger municipalities, the non-official members of the Committee have rendered cheerful and valuable assistance. In Burdwan, where there is no zillah school, the Magistrate held the direction of educational matters in his own hands. In the other districts the Education Committees displayed great interest in the subjects laid before them.

18. *Conduct of Zemindars.*—Complaints are made that Okhoy Narain Bhoojan of Balsaye, in the south of Midnapore, has caused much bad feeling by his oppressive management of his estate. The members of the Banerjee family of Ajudhya in Bankoora have distinguished themselves discreditably, and have appeared in the criminal courts at the instance of Government and of one another. No other landholders in this division have contributed to public disturbance or bad feeling. As a body, they are men of enlightenment and public spirit, and the absence of agrarian differences testifies to the good understanding which exists between them and their tenantry.

19. The Commissioner's remarks on the different officers subordinate to him will be communicated to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Offg. Secy. to the Government of Bengal.

RESOLUTION ON THE GENERAL ADMINISTRATION REPORT OF THE RAJSHAHYE AND COOCH BEHAR DIVISION FOR THE YEAR 1878-79.

GENERAL DEPARTMENT.—MISCELLANEOUS.

Calcutta, the 21st September 1879.

RESOLUTION.

READ—

The General Administration Report of the Rajshahye and Cooch Behar Division for 1878-79.

LORD ULICK BROWNE, who submits the report, was in charge of the division from the 1st April to the 31st May, and again from the 9th December to the end of the year. Mr. W. S. Wells officiated as Commissioner from the 1st June to the 8th December. The arrangement sanctioned in 1877, under which Darjeeling and Julpigoree were made the alternate head-quarters of the division for equal portions of the year, came to an end during the past year. Sir Ashley Eden was satisfied that it could not be maintained without serious hardship and inconvenience to the people of the greater part of the division, and decided that the head-quarters should be fixed at Rampore Boalcah. The Commissioner's office was accordingly transferred to that station in January last.

2. *Tours.*—Both Commissioners travelled a good deal over the division. Mr. Wells was specially directed to proceed to Rungpore in August to report on the effects of a heavy inundation which had swept over the tracts in the neighbourhood of the Teesta and the Brahmapootra. He subsequently went on inspection to Rajshahye and Dinagepore. Lord Ulick Browne visited Pubna, and afterwards started on a tour of six weeks, in the course of which he inspected the offices at Bogra, Rungpore, Cooch Behar, Julpigoree, and Darjeeling. The Commissioner gives the actual period spent by each officer on tour, but he does not state separately the time devoted to camping during the cold season, nor does he furnish any particulars of the objects to which special attention was devoted by each. The Collectors of Dinagepore and Rungpore

were more than three months each in the interior, but the tours made by the district officers of Rajshahye, Pubna, Bogra, and Julpigoree were altogether insufficient. None of the sub-divisional officers appear to have given adequate attention to this part of their duty. The officers in charge of Nattore, Gyabanda, and Alipore were less than two months in the interior. Some explanation should have been submitted by the Commissioner. The Lieutenant-Governor would be glad to have in future reports some account of the tours of the district and sub-divisional officers, of the places visited by them, and of any special enquiries that may have engaged their attention. It is impossible from the bare figures submitted to form any opinion of the real utility of the tours made during the past year.

3. *Weather and Crops.*—The year was characterized by an unusual fall of rain and heavy floods in almost all the districts of the division. In Rajshahye and Pubna the rainfall was less than in the previous year, and in Bogra there was only a trifling increase; but in the remaining districts the excess was most marked. In Dinagepore 77·60 inches fell against 70·37 inches in 1877-78; in Rungpore 121·50 inches against 92·61 inches; in Julpigoree 148·33 inches against 94 inches; and in Darjeeling 117·93 inches against 100·65 inches. Floods caused the greatest damage in Dinagepore, Pubna, Rungpore, and Julpigoree. In the Serajgunge sub-division of the Pubna district they rose and subsided three times, and finally left large tracts of country covered with sand. In Rungpore the rice crop was seriously damaged in the portion of the district between the Dakhotea and Bengalee rivers. The whole country round the town of Julpigoree is said to have been more or less under water for months, and immense damage was done to roads, bridges, and houses by an overflow of the Kurla river which runs through the town.

4. The outturn of the rice crops, although considerably reduced in the tracts affected by the floods, was on the whole fairly good. In Pubna, in the east and north-east of Bogra, and along the banks of the Brahmapootra in Rungpore, a large portion of the early rice crops was destroyed; but, on the other hand, the yield of the late rice crops appears to have been quite up to the average in all districts except Pubna. In this district the cultivators were somewhat compensated by an excellent jute crop. In Dinagepore, Rajshahye, and Rungpore the outturn of the jute crop was also good. In Bogra it was much reduced in consequence of the inundations. The tobacco crop of Rungpore turned out well, but the prices obtained were not so good as usual. In Julpigoree the crop appears to have been very short in some parts. Indigo is said to have given a fair return in Rajshahye and a moderate one in Rungpore. The sugarcane crop was good in Pubna, where it is extensively cultivated, and fairly successful in Dinagepore, Bogra and Rungpore. The cold-weather crops were excellent in Pubna, and fair in all the other districts except Rajshahye. The ganja crop in Rajshahye was a partial failure owing to unfavourable weather at the transplanting season, and to damage caused by insects. There was a considerable increase in the outturn of tea in both Darjeeling and Julpigoree.

5. *Public health and material condition of the people.*—Although cholera, fever, and small-pox prevailed with more or less severity in all districts of the division, public health was, on the whole, better than in the previous year. In Rungpore there were two virulent outbreaks of cholera, which lasted for several months of the year. The disease was severely felt in the Darjeeling Terai during June and July, and spread as far as Kurseong. The districts which suffered most from fever were Dinagepore, Rajshahye, and Rungpore; but the mortality, though very heavy, was less than in the preceding year. In Dinagepore the number of deaths diminished by 4,000, and a marked improvement was observed in most parts of the district. In Rungpore four-fifths of the total number of deaths reported were ascribed to malarious fever. The same type of fever also prevailed in Julpigoree and in the Terai, Dooars, and low valleys of the Darjeeling district. The most serious outbreak of small-pox occurred in Rungpore, the parts attacked being thana Juldhaka and the adjoining thanas. The vaccine establishment is reported to have worked with great energy to meet the emergency, and it was a fortunate circumstance that the sub-divisions of Gyabanda and Kurigram, and the greater portion of the Sudder sub-division, had been protected by vaccination before the epidemic broke out.

The Act to prevent inoculation has been further extended in this district. Two drainage schemes for the improvement of the sanitary condition of the civil stations of Rungpore and Dinagepore are being carried out. Very substantial aid has been given by Government to the Rungpore scheme. The Commissioner reports that its completion will take another entire season. The Dinagepore scheme had made good progress by the end of the year, and it was expected that it would be shortly completed. A scheme for improving and increasing the water-supply of Darjeeling has also received sanction.

6. The high prices of food-grains which ruled during the year have in this division, as elsewhere in Bengal, brought a large measure of prosperity to the labouring classes. In Dinagepore the ryots are said to have quite freed themselves from debt and to be working on their own capital. In Bogra some pressure was felt in the inundated tracts, but in other parts of the district the general condition of the people was very good. Labourers and people engaged in service, on whom high prices naturally tell with most severity, are not numerous in the division.

7. *Emigration and Immigration.*—There is no emigration from the division itself, but a large number of emigrants for the Assam districts pass through it annually on their way to Dhubri. For these emigrants barracks, rest-houses, and hospitals have been erected at various places in the districts of Dinagepore and Rungpore. From October to March 2,000 coolies used the barracks in Dinagepore. Only eleven cases of sickness, resulting in two deaths, were admitted to hospital. In Rungpore only twenty-eight deaths occurred among 12,964 emigrants who were counted when passing through the district. These figures speak well for the arrangements made along the route for the convenience of the emigrants. Most districts of the division are annually visited by a large number of work-people from the Sonthal Pergunnahs, Chota Nagpore, Sarun, and Gorruckpore. There has been a larger influx since the railway works were started, and some Sonthals, who came originally to work for the season only, have settled near Parbuttipore. In Julpigoree and Darjeeling the tea gardens were resorted to as usual by a large number of coolies from Nepaul during the past year.

8. *The Nekmurd Fair.*—The police and conservancy arrangements at this fair appear to have been well managed. The fair was held in April, and was attended by about 200,000 people; but notwithstanding the extreme heat of the weather, there were only eight cases of cholera, six of which ended fatally. The animals sold consisted of 45 elephants, 110 camels, 60,500 oxen and cows, 1,000 buffaloes, 26 horses, 4,650 ponies, and 115 sheep. The average price of an elephant was Rs. 1,555, while up-country oxen and country-bred oxen sold at an average of Rs. 25 and Rs. 12 respectively. Some 900 shops containing goods of the value of Rs. 2,90,000 were opened and sales amounting to Rs. 1,27,000 were effected. It is roughly estimated that the total value of the cattle and goods offered for sale was Rs. 20,00,000, and that the sales realized Rs. 16,00,000.

9. *Prices of food and labour.*—Compared with the average of the five preceding years, the average price of common rice showed a rise of more than 30 per cent. in most of the districts during the past year. In Bogra it was more than double the average of the three preceding years, in the months of July, October, and November, and in Rungpore, at the time of the inundations, it stood at Rs. 4-8 to Rs. 5 per maund. In both districts the exceptionally high rates attained were in a great measure due to the inundations. The average price in Darjeeling was 8¾ seers for the rupee. The district has for some time past received a very inadequate supply from the neighbouring districts. Wages have also risen considerably in some parts of the division. In Dinagepore especially labour is extremely well-paid. A cooly there earns from 4 to 8 annas a day. In the other districts his wages vary from 2 to 5 annas.

10. *Manufactures and Mines.*—Silk is still largely manufactured in Rajshahye, but in Bogra the industry is nearly extinct. Full accounts of the manufacture have been given in previous reports. The quantity of indigo made in Rajshahye during the year is said to have been small. There are nine factories in the district, six belonging to Europeans and three to natives. The dye is also manufactured to a small extent in Pubna. The total area of land under tea cultivation during 1878 was 34,356 acres, showing an increase

of 221 acres over the previous year, and the quantity of tea manufactured was about 7,535,980lbs or 2,200,000lbs in excess of the outturn of 1877. At the end of the year under report 29 gardens had been opened in Julpigoree and 144 in Darjeeling. The Government Cinchona Plantations, which cover more than 2,000 acres, yielded 250,000lbs of bark during the year, and a profit of about half a lakh was obtained on the operations of the season. Of the outturn of febrifuge manufactured from the bark, 5,500lbs were supplied to Government medical depôts in the three presidencies, and the rest was sold to the public. Gunny-bags are manufactured in most districts of the division. During the year the mills of the Serajgunge Jute Company turned out 1,10,000 maunds of gunnies, or 20,000 maunds more than in the previous year. The bags are sold for the country trade and for exportation to Egypt and Australia. In Julpigoree and Darjeeling two Nepaulese worked some copper and iron mines with moderate success.

11. *Trade and Commerce.*—Rice, jute, gunny-bags, tobacco, silk, tea, indigo, goor (molasses), oilseed, hemp, hides, and ganja are the chief articles of export in the division. Of the imports, salt, sugar, and piece-goods are the most important. The trade in rice and jute is stated to have been less brisk than in the previous year, but it would appear from the report that full and precise information was not procured on the subject. The rice exports go chiefly to Assam, Calcutta, and the North-Western Provinces. The bulk of the exports is still carried by water, although many exporters now avail themselves of the railway. Notwithstanding an apparent decline in the exportations of jute, a fair trade was done in the staple, owing to the high prices which ruled during the year. The tobacco trade appears to have been dull. Much of the produce went to Burmah, as usual, to be made into cheroots and sent back to Calcutta. The quantity of tea exported from Darjeeling exceeded by no less than 2,275,000lbs. the quantity exported in the previous year. Of the chief imports, salt and piece-goods are received from Calcutta, and sugar from the North-Western Provinces. The trade between Bhootan and the plains showed a considerable expansion. According to the figures supplied from the registering stations in the Julpigoree district the value of the imports from Bhootan, exclusive of live-stock, was Rs. 19,903 against Rs. 11,307 in the previous year, and of the exports Rs. 14,665 against Rs. 11,011. The traffic between Darjeeling and the States beyond the frontier continues to increase.

12. *State of public feeling.*—Public opinion on general subjects can be scarcely said to exist in the division. The mass of the people are uneducated agriculturists, who manifest interest in public affairs only when some measure of taxation makes fresh demands on their earnings. The Commissioner says "they are quite content under our rule, and are thoroughly loyal to Government in return for the prosperity and immunity from oppression they now enjoy, and which they themselves say was never known before. Much indifference has been shown in regard to the war in Afghanistan, and even among the well-to-do and higher classes little is known of what has occurred, and the cause of it." In Rajshahye there is a public association which occasionally discusses public questions The Commissioner's remarks on the feeling with which the license tax is regarded might well have been fuller. As elsewhere, the tax is said to be very unpopular, but apparently the objections are here based not so much on the details of the law, as on the general principle on which it was enacted. The assessees seem to murmur, not because they are unjustly or excessively taxed, but because their rich neighbours, who do not happen to pursue any trade or dealing, escape. This feeling is of course strongest when the contrast is greatest Lord Ulick Browne remarks that "in small agricultural villages it frequently happens that the only persons taxed are those who can least afford to pay, though the assessment may be only one or two rupees." This statement is not quite accurate. There can be no doubt, however, that much of the dissatisfaction to which the license tax has given rise was attributable to the low minimum of assessable income, and Sir Steuart Bayley has hopes that the recent alteration of the minimum to Rs. 250 will remove a substantial ground of complaint.

The stationing of a Judge and Subordinate Judge at Pubna has given much satisfaction to the people of that district. In Bogra, however, some inconvenience is caused to the people of several thanas by the location of both

the Moonsifs at the Sudder station. The Commissioner's suggestion that one of the Moonsifs should be stationed at Panchbibi or Khetlal will be considered in communication with the Judicial Department.

13. *The Public Press.*—The Vernacular Press is represented in the division by two weekly newspapers published at Rampore Bauleah and Rungpore. Neither paper has a large circulation or any appreciable influence with the people. The tone of the Rampore Bauleah paper, which was commented on unfavourably in the last report, has improved since the passing of the Vernacular Press Act.

14. *Police and Crime.*—There was an increase in cognizable crime in all districts save Bogra and Julpigoree, the total number of cases being 12,897 against 12,426 in 1877. The number of persons arrested was 10,009, of whom 6,144, or 61·3 per cent., were convicted. Thirty-three cases of dacoity were reported against twenty in 1877; but only fifteen cases were returned as true against sixteen in 1877. The Lieutenant-Governor is, however, disposed to think with the Commissioner that in some of these cases the police may have shown too great readiness to pronounce the charges false. The convictions were far from satisfactory. Two serious cases of mischief, neither of which could be established against the offenders, occurred in the station of Julpigoree. In one case a group of houses, and in the other some of the public offices, were destroyed. It is believed that in the latter case the incendiaries were litigants, who were anxious to do away with the records of pending cases. Prosecutions for bad livelihood fell off from 461 to 85. The number of cases of non-cognizable crime was 6,278, as compared with 7,230 in 1877. Much use is made of the bench system in Dinagepore and Rungpore. In Dinagepore, the bench presided over by the retired Government Pleader, Moulvi Mahomed Ali Khan, held 59 sittings and disposed of 575 cases, and in Rungpore 325 cases were tried by the four benches of the district.

15. *Civil Justice.*—There was a large reduction in the number of suits instituted in several districts of the division. The decrease is attributed to the fact that, owing to the prosperity of the ryots, the landlords had less occasion to invoke the aid of the civil courts in realizing their rents. The Commissioner's remarks, however, under this head are not sufficient. It has not been shown that the decrease is only observable under suits for rent, and the Lieutenant-Governor could wish to have seen a subject of such importance as this treated in greater detail. The Moonsifs are said to enjoy the confidence of the people.

16. *Land Revenue Administration.*—The land revenue demand of the division, both current and arrears, amounted to Rs. 49,61,527, of which sum Rs. 48,19,179, or 97·3 per cent., were collected. After allowance for remissions, aggregating Rs. 3,388, the unrealized balance at the end of the year was Rs. 1,38,960. The collections were good in Dinagepore, Rajshahye, Bogra, and Rungpore, and fairly good in Julpigoree. In Pubna they were short on temporarily-settled estates and Government estates, and altogether amounted to a percentage of only 90·5 on the demand. In Darjeeling difficulty is experienced in enforcing payment, and the percentage of collections is generally unsatisfactory. The question of extending the sale laws to the district is under the consideration of Government. Fifteen estates only were sold for arrears of revenue in the whole division, and ninety estates and two shares of estates were exempted from sale. The Commissioner states that in most of the cases in which sale occurred the owners were well able to pay the revenue, but defaulted deliberately with a view to obtain a good price for their property by a Government auction. This statement is one which deserves careful examination. It is expected that the settlement of the Western Dooars in Julpigoree will be brought to a close during the current year. The report, however, omits to mention the progress made with the settlement of the Darjeeling Terai.

The Commissioner reports that the relations between landlords and tenants were on the whole fairly satisfactory, and that no serious quarrels broke out during the year. In Pubna, although these classes still show much distrust of each other, there is less tendency than formerly to resort to open violence. It is satisfactory to notice that in this district several old-standing feuds between co-sharers have terminated on the institution of proceedings

under the Land Registration Act. There has, however, been no improvement in the condition of affairs on the large Salop estate, and an application has been made to the Civil Court for the appointment of a common manager.

17. *Excise.*—The excise revenue shows an increase of Rs. 55,657, almost the whole of which was received on account of country-spirits, ganja, and opium. The increase is mainly due to the check given to illicit distillation by the introduction of the outstill system and to the enhanced rates of duty levied on ganja and opium. The consumption of ganja fell off during the year, notwithstanding the increase in the receipts. In Dinagepore only is the increase in the revenue derived from opium attributed to increased consumption. A special Excise Inspector was attached to the division during the year.

18. *The License Tax.*—The total number of assessees under the Act was 94,940, and the demand in each district was as follows:—

	Rs		Rs
Dinagepore ..	55,882	Julpigoree	25,764
Rajshahye	41,147	Darjeeling ..	10,299
Pubna ...	37,233		
Bogra . .	11,975	Total	2,86,579
Rungpore ...	1,04,279		

The percentage of the demand realized within the year in the whole division was 75·8. The Lieutenant-Governor will reserve detailed comment on these figures until he is in possession of the Board's report. He is, however, constrained to remark on the extremely low demand for the district of Bogra. It would appear that if the assessment in other districts was not oppressively high, Bogra must have been much under-taxed, and it is hardly a matter for surprise that in this district no less than 99 per cent. of the demand should have been collected three months before the expiry of the period allowed by the law for realization. The Commissioner states that no complaints as regards the working of the Act were made in Pubna, Bogra, and Darjeeling. In the remaining districts, however, several cases of misconduct on the part of officials and private individuals came to light and were enquired into. In Dinagepore two circle officers were convicted of cheating, and a Sub-Deputy Collector absconded to avoid trial.

19. *Stamps.*—A net decrease of Rs. 18,927 occurred in the stamp revenue in consequence of reduced sales of judicial stamps caused by the falling off in civil litigation. The receipts from postage stamps again show a large increase. The total increase under this head during the past two years has amounted to Rs. 29,817, a result which demonstrates the increasing popularity of the postal system in the division.

20. *Monetary arrangements.*—There was a marked decrease in the use of currency notes, which was due in a great measure to the receipt of a smaller supply of notes from the Bank of Bengal at most of the treasuries. Money-order transactions fell off in all districts but Rajshahye. Savings Banks appear to make no advance in popular favour. The majority of the depositors still consists of Government officers and professional men, such as pleaders and mookhtears.

21. *Railway.*—The Northern Bengal State Railway was opened for traffic between Julpigoree and Siligoree during the year, and a branch line was also carried to Rungpore. The extension from this station to the Teesta was nearly completed by the end of the year. The railway has already caused a great development of trade in the districts through which it passes, and it will no doubt receive a large accession of traffic as soon as the feeder roads are completed. It stated that in Dinagepore boat traffic has not decreased since the opening of the line. The Commissioner complains of the very serious delay which generally occurs in the conveyance of small consignments of goods on the line, and of the inconvenience thus caused to the public. This matter has been already brought to the notice of the railway authorities, and the Lieutenant-Governor hopes that an improvement will be shortly effected. The construction of a steam tramway from Siligoree to Darjeeling was settled during the year, and the work is now in progress.

22. *Roads.*—The recent appointment of a Superintendent of Works to the division should put an end to the delays in sanctioning important projects for the construction of roads, to which allusion is made in the report. A good deal of useful road work is reported to have been done in Dinagepore and Rungpore.

The works which demand the special attention of the authorities in Dinagepore, Rajshahye, Pubna, and Bogra, are the roads connecting the civil stations with the railway. These works have apparently made but slight advance during the year, and the Lieutenant-Governor expects that, with the advent of the Superintendent of Works, they will be taken up vigorously and completed by an early date. The Dhubri emigration-road has been thoroughly repaired.

23. *Education.*—Primary education is making steady progress in Dinagepore and Rungpore, and the number of primary schools increased largely in both districts during the year. The returns for the remaining districts show less satisfactory results. In Bogra there has actually been a reduction in the number of vernacular schools. The system of payment by results has been extended to the whole of Dinagepore, and is also at work in Rajshahye and Rungpore. The High School at Rungpore is in a very flourishing condition. The College Department attached to it has, however, proved an utter failure, and its abolition has been decided upon. Only nine students attended the classes during the year, and of the four candidates who went up for the First Arts examination, none passed. St. Paul's School, the Diocesan Girls' School, and the Loretto Convent Girls' School in Darjeeling are all favourably reported on.

24. *Wards' Estates.*—Twenty-three estates (the same number as in the previous year) were under the management of the Court of Wards during the past year. The collections are stated to have been fairly satisfactory in Dinagepore, but deficient in some of the estates in Rajshahye. The Lieutenant-Governor is glad to find that the Commissioner has taken steps to effect an improvement in the latter district. The management of the Chucklajat estates by Baboo Taruck Nath Mullick has been very successful. The current demand was Rs. 2,74,405, while the collections, including arrears, amounted to Rs. 2,94,405. An important enhancement of rent is now being effected in these estates under the manager's direction and under the supervision of the Deputy Commissioner and Commissioner, and it is satisfactory to learn that up to the present it has not been found necessary to institute a suit in any case.

25. *Conduct of Zemindars.*—The conduct of the zemindars during the year was generally satisfactory, but no conspicuous display of public spirit or liberality is mentioned in the report. In Pubna the family quarrels of some of the minor landlords caused trouble, but the most influential families are said to have behaved peacefully. The Magistrate of Rungpore does not speak favourably of the management of the estate of Roy Luchmeeput Singh Bahadoor. The Sharoopore estate in the same district is also reported to be badly managed by the amla in charge.

26. The Commissioner's remarks on the qualifications of the different officers subordinate to him will be communicated to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE CHITTAGONG PORT FOR 1878-79.

GENERAL DEPARTMENT.—MARINE

Calcutta, the 19th September 1879.

RESOLUTION.

READ—

The Administration Report of the Chittagong Port for 1878-79.

A MARKED expansion of the trade of Chittagong has taken place within the past two years. In 1876-77, 1,791 vessels, with a tonnage of 80,652 tons, visited the port; in 1877-78 the number of vessels had increased to 2,000 and the tonnage to 106,766 tons; and in 1878-79 there was a further increase to 2,140 vessels, with a tonnage of 135,672 tons. There has thus been

an addition of 349 vessels and 55,020 tons to the trade of the port since 1876-77. The chief features of the trade during the past year were a general increase in the Naraingunge trade, including jute shipments, larger importation of salt from the United Kingdom, and larger exportation of grain to Mauritius and Ceylon. The following statement gives details of the vessels that visited the port during the last two years:—

Particulars.	1877-78.		1878-79.		Increase.		Decrease.

Total ...	2,000	106,756·8	2,140	135,672	148	33,957·96	8	5,052·78

The number of European vessels trading direct with Europe was doubled in the past year, owing to the increase in the importation of salt and in the exportation of jute. More European vessels were engaged in the foreign trade and fewer in the coasting trade than in the preceding year. This is accounted for by a falling off in the demand for rice at the coast ports of the Madras Presidency since the termination of the famine, and an increase of shipments to Mauritius and Ceylon. The large increase in the number of vessels trading with Naraingunge is due to the expansion of the jute trade.

2. The total value of the trade of the port during the past year was Rs. 88,20,752 as compared with Rs. 68,13,478 in 1877-78, thus showing an increase of Rs. 20,07,274. The quantity and value of the grain exports in the last two years were as follow:—

	1877-78.		1878-79.	
	Quantity.	Value.	Quantity.	Value.
	Tons.	Rs.	Tons.	Rs.
Foreign ports	11,375	9,50,975	19,343	16,80,623
Home ports	13,708	10,38,986	10,489	7,32,947
Total ...	25,083	19,89,961	29,825	24,13,570

The net increase in the past year amounted to 4,742 tons, valued at Rs. 4,23,609. It is observed that while the exports to foreign ports increased by 7,968 tons, valued at Rs. 7,29,648, those to home ports fell off by 3,226 tons, valued at Rs. 3,06,039. The quantity of jute exported during the year was 15,925 tons against 7,071 tons in 1877-78; and the value of the exports increased from Rs. 7,70,000 to Rs. 19,63,170. The tea trade is reported to be steadily developing, but no particulars are given in the report.

3. The chief imports of Chittagong are salt, received from the United Kingdom, and earth-oil, received from Rangoon. The importation of salt increased from 4,391 to 6,160 tons, and of earth-oil from 460 to 1,289 tons. The increase was due, in the case of salt, to the fact that three vessels, seeking jute cargoes for the home voyage, came to the port laden with salt, and also to an extra demand created by the shortness of stocks at the beginning of the year. The increased importation of earth-oil indicates a revival of the trade attributable to some extent to the more prosperous condition of the people.

4. The receipts and expenditure of the last two years were—

	1877-78.	1878-79
	Rs.	Rs.
Receipts	24,840	34,756
Expenditure	29,641	37,962

The increase in the number of vessels that visited the port in the past year naturally caused a rise in the receipts from port dues and pilotage. The net

increase under these heads alone amounted to Rs. 6,321. The receipts are credited with a sum of Rs. 1,285, representing the sale proceeds of the wreck of a native brig raised at the expense of the Port Fund; but as the cost of raising the vessel was Rs. 2,400, the undertaking was a decided failure from a financial point of view. This item of expenditure and an excess of Rs 6,192 in the public works charges account for the greater part of the total increase of expenditure in the past year. The public works charges were incurred for the construction of the port jetty and for repairs and improvements at Kutubdia Light-house and the tripod light at Norman's Point. The balance to the credit of the Port Fund at the end of the year was Rs. 27,473. The accounts are, however, still subject to adjustment.

5. The report gives a very unsatisfactory account of the screw-pile jetty. Much progress has been made with the work; but the Commissioner states that unless considerable changes, involving a large increase of expenditure, are made in the original design, the jetty is not likely to be much resorted to by ships. The Lieutenant-Governor, however, is not disposed to sanction any extension of the original scheme of the work. He is by no means satisfied that the jetty is wanted at all at Chittagong, and would, as far as practicable, curtail expenditure upon it for the present. Salt and rice are much more easily shipped and discharged into boats lying on both sides of the ship, and the Lieutenant-Governor understands that jute is always transhipped direct from the brigs in which it is conveyed from Naraingunge. Since the close of the year, sanction has been accorded to the purchase of several boats for the port. A heave-up boat, which was also applied for, cannot be provided until the funds are in a more prosperous condition.

6. The river has undergone some changes in recent years, but nothing has occurred to obstruct navigation. Frequent complaints of the general incompetence of the pilot service of the port were made during the past year. The Lieutenant-Governor has had the matter under consideration, and orders will shortly issue with the view of placing the pilots under better control and training, and improving generally the administration of the port. The Conservator and his Assistant appear to have given proper attention to the inspection of the light-houses under their charge. The attention of the Marine Survey Department will be drawn to the fact noticed by the Commissioner, that the change in the position of the light at Norman's Point has not been entered on English charts. The river-bank is carefully protected from dock-cutting, and ship-building is now confined to the different *khals* branching off the river. In the past year eight vessels, with an aggregate tonnage of 974 tons, were built in the port, as compared with three vessels with an aggregate tonnage of 445 tons in the previous year. The provisions of the Ports Act continue to be strictly enforced.

7. With regard to the future prospects of the port, it is still impossible to advance a decided opinion. It is pointed out by the Commissioner that the trade of the port is in so few hands that it might at any time be almost extinguished by the withdrawal of a single firm. At the same time the great development of the export trade in the past two years indicates that Chittagong affords substantial advantages to exporters, and there is reason to hope that these advantages will continue to secure a fair amount of trade to the port for many years to come.

2	Bankoora, „ 20 „	2·58	Some heavy showers; weather getting sunnier and hotter. From Bishenpore, owing to recent rains, no further damage reported than that already done for want of rain. In some places there will be full crops, and in others three-fourths. In Joypore and Saltora outposts only want of rain still complained of, but in Saltora lands very high and not cultivable every year. Labouring low-caste people now reported not to be in want, but only those who cannot leave their homes, and think it below their dignity to work for others as goalas, &c. Village roads being constructed in distressed villages in all the four thanas.
	Bishenpore ...	2·67	
3	Beerbhoom, „ 20 „	1·66	Weather—seasonable. Every prospect of a good average crop, except on a tract about 12 miles long and 5 miles wide north of the Adjai, where an 8-anna crop scarcely expected.
4	Midnapore, „ 20 „	2·57	Weather—cloudy and sultry. Prospects not so bad since last week. Good rain in a great many places, though not everywhere. If last rains of the season do not fail, things will not be so badly off as anticipated.

39	Balasore. „ 20 „	2 20	Sky much overcast during early part of week; less so at present. In most parts of district tolerably heavy, though very partial and irregularly distributed showers. In south-east torrential rain fallen, due perhaps to a cyclone in the Bay. At Chandbali on 16th 20 inches fell in ten hours. Considerable damage caused there to public works and grain in warehouses. Rainfall much improved condition of crops, and no loss of crop from flood anticipated. Public health fair.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The direction and movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground.

T. H. WICKES,
Offg. Asst. Secy. to the Govt. of Bengal, P. W. Department.

Report on the Fluctuations in Traffic on the Northern Bengal State Railway during the month of August 1879.

GENERAL REMARKS.

It will be noticed by the figures shown in the comparative statement given below, that the total weight in all staples hauled for the current month is within a fraction of double what was carried during the same month last year.

It is worthy of note also that this increase is nearly in the same ratio in both up and down traffic, as in August 1878 51,619 maunds were caried down and 29,458 up, whereas in the period under review 1,05,262 maunds were carried down and 56,137 up. It may therefore be fairly assumed that the increase is due to the gradual development of traffic, and not to a spurt in one particular staple one way, a characteristic of the 1878 traffic in "food-grain."

Increases.

Ale ... ... Mds. 53

The remarks made in last month's report apply here.

Food-grain ... ... Mds. 21,575

A considerable business has been done during the month in common descriptions of rice for shipment to the Mauritius and West Indies.

Gunny ... ... Mds. 1,140

The total traffic in this staple during the month of August 1878 was 326 maunds,—47 maunds up and 279 down. That lifted for the current month stands at 1,466 maunds, or over four times the weight carried for the same period last year.

Jute ... ... Mds. 14,981

The new jute is now finding its way to the port in considerable quantities. Most of what is being despatched is, however, only the crops that have grown in close proximity to the line, as the roads into the hauts in the district are for the most part quite impassable.

Unless some very adverse change takes place in the market, the season's traffic in this staple gives promise of being a very heavy one.

Piece-goods ... ... Mds. 3,647

A total weight of 4,314 maunds has been lifted under this head during the month against 667 maunds for August 1878. This large increase (3,647 maunds) is mainly due to the Rungpore piece-goods traffic, which last year at this time was finding its way up the river, being now diverted to the line.

Railway material ... ... Mds. 2,900

This increase is due to the removal of stores from the Saidpore depôt to Sara. The weight carried up stands at about the same as that carried during the corresponding month last year, the only difference being that at that time (August 1878) it was construction material for this line, whereas a great portion of the weight carried during the current month was tramway material.

The downwards traffic is of course railway material belonging to the line, and it is in this that the increase is shown, as in August 1878 4,200 maunds only were lifted, and for the period under review the figures stand at 7,552 maunds.

Salt ... ... Mds. 8,233

Although this is an increase of 8,233 maunds over the weight carried in August 1878, it will on reference to previous reports be seen that the traffic in this staple has been gradually on the work since water communication to out stations has been opened. From this it may be inferred that even the low rate at which salt is now being carried does not enable us to compete with the boats.

Tea ... ... Mds. 1,516

It is now admitted on all sides that the season's outturn will fall much short of estimates, and it is doubtful whether the whole season's crop will come up to last year's. The increase shown, although considerably over the weight carried last year, is much less than what might reasonably have been expected.

Tobacco ... ... Mds 13,147

There can be no doubt that the reduced rate for this staple has resulted in diverting the traffic from the river to the line.

All other goods ... ... Mds. 14,877

Under this head is carried all the miscellaneous through upward consignments, a traffic which is naturally affected considerably by the state of the roads, and as the whole country through which the line passes is now under water, the increase shown is promising for next cold season's traffic.

Decreases.

Ginger ... ... Mds. 1,659

There is nothing more than what has been shown in previous reports to record under this head.

Sugar ... ... Mds. 87

This is merely a trade fluctuation; the demand for local consumption having been slightly under that for the same month last yesr, most probably caused by the extra quantity despatched during June and July 1879.

The decrease in brass and bell-metal ware is due to less import to unfavourable market.

The decrease in coal is due to larger import in March 1879.

The increase in cotton is trifling.

The increase in edible grains is due to greater import to favourable market in the neighbourhood of Azimgunge, owing to failure of early crops on account of early floods of the Padma river.

The increase in jaggree and sugar is trifling.

The decrease in piece-goods is due to less import on account of inundation in the districts of Rajshahye and Moorshedabad.

The increase in silk and silk-cloth is due to greater export.

The increase in seeds is due to greater import.

The increase in sundries is due to greater import.
